

CAL MARITIME

POLICY NO. 214

ISSUE DATE: June 17, 1999 REVISION DATE: July 14, 2004	POLICY: No Smoking Policy
REFERENCE:	
APPROVED: 	

Policy Background

The State of California Law and the Governor’s Executive Order D-62-87 prohibits smoking in any State building or work place. In order to comply with this mandate, smoking is absolutely prohibited in all campus buildings and residence halls. Further, the Board of Trustees of the California State University authorizes the following:

“The President of each campus and the Chancellor for the headquarters office may adopt rules regulating smoking on the campuses and property of the California State University.”

Recent research has indicated that the dangers from primary and secondary smoking are far more pervasive than originally thought resulting in significant costs to individuals and taxpayers. Such costs are in the form of health care expenses, lost employee productivity, and increases to area cleaning and maintenance to name a few. This policy seeks to mitigate exposure to secondhand smoke in an attempt to reduce such associated costs at the Academy.

Policy

Smoking is prohibited throughout the campus, including in vehicles used for official business and in spaces used for off-campus activities, except in areas specifically designated for smoking.

1. The Director of Facilities will identify, and have the flexibility to adjust, designated smoking areas on campus
2. Violations will be addressed through appropriate disciplinary channels, i.e., the corps regulations and the Faculty/Staff Personnel system.

Notice shall be posted at or near the principal entrances of each campus or property calling attention to the existence of the rules.
