

News for the faculty and staff of Cal Maritime

In this issue: Emeritus Professorships Awarded • Meet Stephen Frazier – New CIO • Jennifer Whitty Takes On Alumni-Development Tasks • Lindy Keever Joins Foundation Board • National TV Network Visits Campus • Charlie Arms and Sailing News • Accounting Says “Thank You” • New Faces/New Hires • Radio Documentary on WWII Merchant Marine • Cal Maritime to Host Academy and MARAD Leaders • Cal Maritime to Participate in Area Higher Ed Forum • Faculty Development Programs • Events Calendar

## Two Cal Maritime Faculty Awarded Emeritus Status

*Professor Robert Hammaker, also of the Engineering Technology Department – honored as an Emeritus Professor of the California Maritime Academy.*

← *Professor Al McLemore during an exchange visit at Mexico’s Escuela Nautica Mercante in Vera Cruz. Efforts to expand exchange opportunities for Cal Maritime cadets are among Professor McLemore’s many contributions to the institution.*

### Engineering Technology Professors Robert Hammaker and Albert McLemore

have been conferred the status of Emeritus/Emerita Professor by President William Eisenhardt. The honor is given to selected retiring or retired members of the tenured faculty as acknowledgement of meritorious service to the institution. It is reserved for those who have made extensive and significant contributions to Cal Maritime’s academic programs. Emeritus recommendations are made following a faculty and administration review of an individual’s qualifications for the designation.

In personal letters to the two honorees, the President noted their service to the institution and students. Professor McLemore was cited for 29 years of service and Professor Hammaker for 24 years. In both cases the nominations were sent to the President with the full support of the Academy’s **Academic Dean, Stephen Kreta** and **Vice President for Academic Affairs, Don Zingale**.

President Eisenhardt noted that Emeritus/Emerita faculty are granted privileges similar to those granted full-time faculty including parking and library access, office and secretarial support, non-voting membership in the Academic Senate and, upon invitation – membership on CMA and Academic Senate Committees.

After a four-day cross-country drive from Connecticut to California, **Stephen Frazier** has arrived in Vallejo to take up his new position as **Cal Maritime's new Chief Information Officer**. (His wife, **Elaine**, will join him this fall.) He brings to the campus nearly a dozen years of prior experience as head of the Center for Instructional Technology at Eastern Connecticut State University in Willimantic (enrollment 5,100 +).

During his tenure at Eastern, Frazier and his staff helped create an award-winning technology platform to support academic programs, management systems, the school's website, and training and help programs for faculty, staff and students.

An important tool in Eastern's technology evolution was the introduction of WebCT, a flexible software program (also in use at Cal Maritime) which enables faculty to construct and manage online courses. "With WebCT," Frazier explains, "teachers can create anything from individual modules -- to supplement traditional classroom instruction -- to pure distributed learning programs, in which most or all of the instruction and even testing is delivered electronically, with little or no face-to-face interaction between students and instructor(s)."

“Like many powerful software packages, WebCT has a lot of bells and whistles – over thirty different tools,” Frazier admits. “However, in looking at how professors and instructors work at Eastern, we soon realized that we needed to take a pedagogical approach to training instead using a more traditional tools-based method. We asked faculty to bring the materials they use for instruction to the workshops. We then helped them develop their course’s structure and convert their materials to electronic format appropriate for delivery over the Web before we started discussing the various tools in WebCT. We also make this same training available online.”

Frazier said the effort was so successful that it was featured in WebCT’s own customer newsletter. “In less than two years, faculty utilization of the program climbed to over 60%,” he said proudly. Eastern is now involved in transitioning to WebCT Vista (WebCT’s enterprise edition).

Frazier said the title and role of “Chief Information Officer” can vary from institution to institution. He views his tasks as helping Academy management, faculty and staff to use technology to support the school’s mission. “In the instructional area, WebCT will be an important element of the process. Where possible, we’ll work to automate many of WebCT’s processes. We don’t want to burden the professor with instructional software – we want the software to help them become more effective and efficient in conveying information to students.

“Ten years ago, instruction was almost entirely one-on-one with very little on-line delivery,” Frazier continued. “Over the next decade I think that will be reversed, with greater use of automation and knowledge bases where faculty, staff and students can process, deliver and retrieve information as part of the educational process.”

Frazier said he has two immediate tasks on his plate as he gets started in his new position. “First, we need to fill some vacancies in our Information Technology Department. These are critical to our ability to deliver services to faculty, staff and students. Over the past few years, CMA has made great strides using PeopleSoft. We are now seeking to strengthen our academic support while continuing to enhance current levels of administrative support. I plan to chat informally with faculty and staff, and get their feedback on technology bottlenecks or shortcomings as well as successes. As a campus community, we need to work together to develop a long-range IT strategic plan that supports the goals and mission of the institution.”

“We will continually evaluate new technologies. In doing so, we’ll be asking ‘How will this help in the classroom, in management of the institution, and in communication with our key constituencies?’ And like everyone in modern technology today, we need to make sure our systems are efficient, reliable and secure.”

## Jennifer Whitty Takes On Alumni-Development Challenges

A familiar face is now back on campus. **Jennifer Whitty**, who served as Director of Public Relations at CMA until last November, has returned to CMA in a new capacity — as **Director of Development and Alumni Affairs**. In her new position, Jennifer is responsible for fund raising as well as managing a variety of fundraising events, including the annual Gala and Homecoming. In addition, she will serve as a manager to help the California Maritime Academy Alumni Association realize its volunteer goals.

With her current position being vacant for several months, there was plenty of work waiting for her when she reported to campus her first day back, July 10<sup>th</sup>.

“I’m absolutely thrilled to be back at Cal Maritime,” she said. “Right now my immediate attention is focused on organizing and managing alumni class reunion committees and tending to details of this year’s homecoming and Day on the Bay (Oct. 7-8). “I’m also busily preparing for the upcoming BC Kingsbury Invitational Golf Classic (Sept. 15) and we have our annual fund drive right around the corner. It’s certainly busy, but I absolutely love the variety of my job and the fact that my efforts will help provide scholarship support for our students, as well as funds to help further the programs and mission of the Academy.” Jennifer added that she’s looking forward to spending time with alumni of the Academy and working with the Alumni Association.

“Our alums share such a unique bond that can’t be replicated on most other college campuses; it’s evident any time you’re around them at an event like homecoming, or if you’re simply talking to them one-on-one,” Whitty added. “I’m a graduate of Sacramento State and, while it’s a fine institution, I can assure you that I don’t have as strong a bond with my classmates — with the exception of my husband, of course — as CMA alums do with theirs. I’ve always admired that about CMA and I’m looking forward to getting to know more and more of our alumni in my current position and helping the Alumni Association achieve its volunteer goals.”

## Lindy Kever Named to Cal Maritime Foundation Board

Many people know **Lindy Kever** as the wife of Cal Maritime's Vice President for Student Development and Skipper of the Academy training ship *Golden Bear*, **John Kever**. What they may not know is that Lindy is herself a graduate of Cal Maritime (**D-'79**), worked as a mate for ARCO Marine, and on numerous smaller boats on San Francisco Bay, is the mother of current Cal Maritime cadet **Scott Kever (MT -'07)**, and a very successful businesswoman – working for the past 15 years as an independent commercial and residential real estate lending broker in the Vallejo area and in the Sierra foothills around Auburn, the Kever's hometown.

Now she's taking on yet another important role as a member of the Board of Directors of the Academy Foundation, which encourages, receives and manages private donations to the institution by individuals, corporations and non-profit charitable organizations.

"I'm hoping I can work with other members of the Board to encourage all of our alumni to get more involved with Cal Maritime. I'm privileged to know this school as a graduate, the parent of a current student and through my husband and his extensive career here. I know it is a wonderful place, staffed by excellent and dedicated people committed to excellence in education and leadership development."

Kever said she is particularly impressed by the strides Cal Maritime has made in recent years, citing its membership in the California State University system and the growing strength and diversity of its academic programs. "We need to do all we can to make sure our alumni know and appreciate the quality and vitality of their alma mater and the ways in which it has grown and strengthened its programs and its reputation. In addition, we need to encourage all of them to tell the Academy's very positive story to friends, colleagues and associates."

Keever said she and her husband were very careful not to try and influence son Scott's decision-making as he considered going to Cal Maritime. "It was entirely his decision and John and I both appreciate the fact that going to school when your father is a prominent member of the senior management team and your mother is a graduate has its own special challenges. But he has handled it very well," she says proudly. Keever said her son has interned with Foss Maritime, gaining experience in long tows and vessel assistance projects. This summer, before going on second cruise, he interned with the Los Angeles Harbor Pilots as well.

"He's planning interviews for next spring," she said, "and I suspect he'll be heading to sea after he graduates next May."

---

## Lights, Camera, Makeup – Good Morning America

**Bay Area Field Producer Peter Shaplen** briefs **Associate Professor Peter Hayes, Marine Technology**, in advance of an interview for ABC's *Good Morning America*. Shaplen, along with a cameraman and a lighting/sound technician, came to the Vallejo campus late Wednesday, July 19<sup>th</sup>, to get Hayes' perspectives on possible causes for the sudden list of a Princess Line cruise ship off the coast of Florida the day before. An unexpected sharp turn by the ship caused a sudden 15-degree list and sent passengers tumbling, resulting in over 200 injuries.

The ABC crew arrived at about 5:30 p.m. and set up in the Simulator Center. Hayes was interviewed by an ABC reporter in Miami via remote link. The camera crew then re-set and shot additional footage in the bridge simulator where Hayes and **Bridge Simulator Operator Mike Noonan** provided a graphic visual example of what a steep list would look like if it happened on a ship in San Francisco Bay.

The ABC crew finished after 8 p.m. and headed for KGO-TV, San Francisco, where they fed their footage to network editors and producers in New York. The next morning the finished piece was aired on *GMA*'s 7 a.m. segment and included a brief portion of the Hayes interview and footage from the bridge simulator.

Cal Maritime **Public Relations Director Doug Webster** said the story illustrates the value of having an *Experts List* of Academy faculty and staff when media call on tight time deadlines. "Earlier this year, many Academy personnel responded to our initial call to fill out an *Experts Form*, listing areas in which they have knowledge and expertise and providing detailed contact information on how they can be reached day or night.

"As this story illustrates, news can break at any time and we often have to scramble to locate the right person on short notice. In this case, with the *Golden Bear* out on cruise, many of our experts in this area were not available. We sent out calls and e-mails to several potential spokespersons from our staff. Peter was quickly identified as a good candidate, given his experience as a licensed Master, and the fact that he teaches courses on vessel stability. We were able to contact him and Mike Noonan, both of whom generously stayed well after normal working hours to make the interview possible and give Cal Maritime some national visibility.

"To register as an expert, contact **Maria Cundick** [mcundick@csum.edu](mailto:mcundick@csum.edu), get a copy of our form, fill it out and return it to the PR office in the Administration building," Webster said. "Who knows – one day you could be on national television or part of a newspaper or radio interview. It's all part of telling the Cal Maritime story and demonstrating our skills and expertise, and what we contribute to the state and the nation."

---

## If It's Summer, Charlie's In a Sailboat

Cal Maritime's **Director of Sailing Charlie Arms** has had a busy summer season.

### Bye Bye Burgee

*Charlie Arms presents a Cal Maritime burgee to Commodore Bill Seals of the Balboa Yacht Club, host of the Governor's Cup Regatta. Arms was an umpire for the four-day mid-July event with twelve teams competing from the US, Australia, New Zealand and England. Arms notes that two CMA graduates, Gordon Clute '86 and Bart Hackworth '01 have won the Cup in the past – Clute in 1981 and Hackworth in 1986.*

*Arms (orange red jacket – foreground boat) was also a competitor in the second annual Mayor's Cup race, held July 14-15 in Long Beach, CA.*

The Mayor's Cup included eight of the world's top women sailors and their crews from the U.S., France, Australia and Brazil in a series of 14 match races. Arms and her crew finished with seven wins and seven losses and earned a 5<sup>th</sup> place finish. **French skipper Claire Leroy** had a 12-2 record for the top prize.

---

## **Cal Maritime Places Two Cadets in *Morning Light* Trials**

**Movie Executive Producer Roy Disney** has a great idea for a new film. He's put together a company to assemble the youngest sailing crew ever to compete in the famed Transpacific Yacht Race in 2007 from Los Angeles to Hawaii.

538 applicants were vying for 30 trial spaces and Cal Maritime grads captured two of those slots. **Trevor Bozina '06** of San Francisco, and **Barend "Piet" Van os '07** of La Jolla, CA will take part in two weeks of tryouts in competition for 11 or 12 final slots. Those ultimately chosen will undergo four months of training in Hawaii starting in January.

The Transpac 52' yacht *Morning Light* will set sail from Los Angeles July 15, 2007, with no professional assistance on board. Disney and his team plan to create a documentary of the event in high definition video – capturing the recruitment, training and performance in the 2007 Transpac, with release planned for 2008.

## Accounting Department Says.....

### ...for a Very Smooth FY 05-06 Closing

*(L-R Gail Gomez, Cashier; Vineeta Dhillon, Purchasing and Risk Manager; 2<sup>nd</sup> Row – Gay Kvilhaug, Accountant II; Jennifer Andrews, Accounts Payable; Susan Foft, Accounting Manager; Adriana Hoffman; 3<sup>rd</sup> Row – Steve Mastro, Budget Officer; Ken Toet, Controller; Pat Cofran, Accounts Payable; La Tanya Eddington, Accountant.*

Don't you just love it -- that feeling you get when your checkbook balances with the bank? Well, you can imagine the joy in the Cal Maritime Accounting office on July 14<sup>th</sup>, when they balanced the books for FY2005-2006 -- a budget approaching \$30 million, thousands of accounts, and tens of thousands of individual transactions.

**Accounting Manager Susan Foft** explains that Accounting serves three task-masters: Cal Maritime itself; the California State University administration which oversees all 23 state university campuses; and the State of California, which also sets forth stringent requirements for the handling and management of public-sector funds.

The rules and report formats are often different for the State and for CSU. In addition, CSU is involved in a lengthy transition to a single accounting and reporting software platform.

For that reason, and because reporting requirements can change for a variety of reasons, new procedures and formats are often required during the fiscal year. Those changes can ripple back through other reports, creating additional work.

As monthly data is collected, it is consolidated into report formats required by both CSU and the State. Then it must be tested to make sure it generates accurate reports for budget analysts in both Sacramento and Long Beach. Foft said it may sometimes take several passes through in-house testing before everything is ready for electronic transmission.

The biggest crunch comes at the end of the State's fiscal year, June 30<sup>th</sup>. Starting in early May, department staff begins assembling monthly data. At the same time, the office issues a call to all faculty, staff and departments to meet specific deadlines and guidelines for submitting final May and June expenditures.

"We want to thank everyone at Cal Maritime for their cooperation this year," said Foft. "They really did a great job of responding to our requests for timely submissions and that made our job a lot easier." Purchasing Manager Vineeta Dhillon agreed, saying that this was one of the smoothest year-end closings the department has had in many years.

FY 2006-07 will see significant changes which should help reduce the Accounting workload, Foft explained. "CSU campuses will now manage all of their own student fees. In the past, such fees were collected by the institution and sent to Sacramento. When we needed those funds to pay related bills, we had to send a request to the State to get them back. Managing the funds here eliminates the extra back and forth."

Foft said she and other members of the Fiscal Services team, including **Controller Ken Toet** and **Budget Officer Steve Mastro**, work closely with both CSU and State accounting managers to respond to ongoing changes. In addition, State University accounting departments meet regularly, both in person and via teleconference, to share information.

Foft, who comes to Cal Maritime from extensive service as an accountant in the pharmaceutical business, said those sessions have been very helpful to her as a newcomer to public sector accounting. "A transaction in the business world might require a certain level of documentation and paperwork. In the public sector, it can be three or four times that much, primarily because of the need for detailed accountability."

## New Faces – New Hires

**Sandy Handel**, Assistant  
Director of Admissions

**David Ward**, Residence Life  
Coordinator

**Veronica Boe**, Coordinator of Sponsored  
Projects & Extended Learning

**Terilynn Bench**  
Human Resources Analyst – Faculty

---

## Radio Series Chronicles Merchant Marine in WW II

**Simulator Director Phil Arms** sends along word that a vintage WWII era radio program about the U.S. Merchant Marine is going to be re-aired later this year – an item of obvious interest to Cal Maritime, given its long and deep ties to the Merchant Marine. The *Men at Sea* radio series will begin airing on Washington D.C.'s American University station WAMU-FM in August. It's part of *The Big Broadcast* which runs Sunday evenings, and features vintage radio programs. (More on how you can access these programs in a moment.)

*Men at Sea* was originally produced by the NBC Radio Network and two of MARAD's predecessor agencies, the War Shipping Administration and the U.S. Maritime Commission. MARAD has given *The Big Broadcast* 19 programs reproduced from the holdings of the Library of Congress. They originally ran in the summers of 1943, 1944, and 1945, and were intended to aid recruitment for the merchant marine.

With the magic of the Internet, getting a live broadcast from an FM station on the East Coast is no longer a problem. Just go to [www.wamu.org/](http://www.wamu.org/) and look on the left side of the page to find the streaming audio format that works with your computer. Exact air dates aren't yet available, but WAMU features their daily schedule on the home page.

## Cal Maritime to Host Nation's Academy Leaders and MARAD

The annual meeting of the Presidents and Superintendents of the nation's maritime academies and senior executives of the U.S. Maritime Administration (MARAD) will be held this year on the Cal Maritime campus, November 30<sup>th</sup> and December 1st. Academy senior management will meet with MARAD Deputy Maritime Administrator Julie Nelson. The annual event affords an opportunity for the academies and MARAD to exchange information on current programs of maritime education and training and to explore challenges and opportunities facing the institutions in meeting current and future mission goals.

---

## Academy Part of Area Higher Ed Forum

President William Eisenhardt will take part in the Solano Higher Education Breakfast Forum, scheduled for August 22<sup>nd</sup> at Touro University on Mare Island. Featured speaker at the breakfast will be area Congressman George Miller who will talk about his "Innovation Agenda" proposal to educate 100,000 new workers in science, math, engineering and high technology by the end of the decade. President Eisenhardt will make brief remarks reviewing Cal Maritime and CSU programs which can play a role in such an effort. The breakfast is hosted by The California Maritime Academy, Solano Economic Development Commission, Touro University, Solano Community College, The Vallejo Chamber of Commerce and the Vallejo *Times Herald*.

## Upcoming Faculty Development Programs

Bunny Paine-Clemes, Director of Faculty Development

### CONFERENCES AND PROPOSALS:

#### **AAC&U Conference: General Education and Assessment**

*Engaging Critical Questions, Fostering Critical Learning*

**Date:** March 1-3, 2007

**Place:** Miami, Florida

**Description:** General Education and Assessment will address issues central to creating and assessing a coherent general education curriculum that fosters increasingly sophisticated learning outcomes and integrates learning across the disciplines and majors. It will provide participants with recent research on student learning outcomes and their value in opening doors beyond college. It will also explore the most promising practices in general education, including those related to the educational change process.

#### **AAC&U Conference:**

*The Student as Scholar: Undergraduate Research and Creative Practice*

**Date:** April 19-21, 2007

**Place:** Long Beach, California

**Deadline for Proposals:** Thursday, August 3, 2006

at [http://www.aacu.org/meetings/undergraduate\\_research/ur07cfp.cfm](http://www.aacu.org/meetings/undergraduate_research/ur07cfp.cfm)

**Description:** This working conference will examine strategies for developing effective undergraduate research programs that foster in students sophisticated skills in analysis, discovery, and problem-solving. The meeting will present a variety of approaches to undergraduate education that embrace and educate our students as scholars – preparing them not only to be active members in the campus community of scholars, but also preparing students to be informed, engaged citizens and successful professionals in an increasingly complex and diverse world.

**Conference:** *Teaching Professor Conference*

**Date:** May 18-20, 2007

**Place:** Atlanta, Georgia

**Deadline for proposals:** October 20, 2006

at <http://www.teachingprofessor.com/cfpform.html>

**Confirmation of accepted proposals:** December 1, 2006

**Description:** This conference is devoted to best practices in effective teaching. See the website, which announces this conference and describes the 2006 version last spring in Nashville: <http://www.teachingprofessor.com/?s=jrj&?p=MFCFEZ>

**Contact information:** [tpconference@magnapubs.com](mailto:tpconference@magnapubs.com)

**Conference:** *14th Georgia Conference on College & University Teaching*

**Date:** February 23-24, 2007

**Place:** KSU Center, Kennesaw, Georgia

**Deadline for Proposals:** Monday, November 9, 2006

**Description:** This is an interdisciplinary conference designed to provide college and university faculty with the opportunity to discuss and share experiences and innovative teaching techniques.

**For more details:** Complete details on proposal submissions are available at the conference web- site, <http://www.kennesaw.edu/cetl/conference/gaconf14/gaconf14.htm> .

**Contact Information:** Bill Hill, Ph.D., Director, Center for Excellence in Teaching & Learning [bhill@kennesaw.edu](mailto:bhill@kennesaw.edu) Phone: 770-423-6410

## **PUBLICATION OPPORTUNITIES:**

**Journal:** *International Journal for the Scholarship of Teaching & Learning* (IJ-SoTL)

at <http://www.georgiasouthern.edu/ijstol/>

**Description:** A new international, peer-reviewed, open access eJournal

**Publication date:** January 2007.

**Deadline for submissions for the first issue:** November 1, 2006.

IJ-SoTL emphasizes that effective teaching is measured by the quality and depth of student learning, that it is serious intellectual work that requires sustained and complex work, that it can be opened for conversations and collaborations among colleagues, and that it can be evidence-based through pedagogical research. You can join our IJ-SoTL discussion list for any and all things connected with SoTL and the improvement of student learning at <http://www.georgiasouthern.edu/ijstol/dl.htm>.

**Contact Information:** Alan Altany, Ph.D.  
Director, Center for Excellence in Teaching  
Editor, International Journal for SoTL  
Georgia Southern University  
Statesboro, Georgia, USA 30460-8143  
**Email:** [aaltany@georgiasouthern.edu](mailto:aaltany@georgiasouthern.edu)  
**CET:** <http://academics.georgiasouthern.edu/cet/>  
**IJ-SoTL:** <http://www.georgiasouthern.edu/ijsoTL/>

**Journal:** *IAMU Journal*

**Description:** Official Journal of the IAMU—Dr. Eisenhardt the chairman and Dr. Nincic a board member!

**Issue:** Fall 2006 (Vol.5 No.1).

**Deadline:** August 15 to Dr. William B. Eisenhardt, Head of Editorial Board at [beisenhardt@sum.edu](mailto:beisenhardt@sum.edu), and Dr. Gary Lombardo, Deputy Head of Editorial Board at [lombardog@usmma.edu](mailto:lombardog@usmma.edu).

The manuscripts will undergo an editorial review. The editorial policy is provided at <http://www.iamu-edu.org/editorial/editorialpolicy.php>. The manuscript submission guidelines are provided at <http://www.iamu-edu.org/editorial/submissions.php>.

---

## Upcoming Events at Cal Maritime

<b>July 29</b>	Summertime at the Maritime Series – Norton Buffalo & the Knockouts
<b>August 19</b>	Summertime at the Maritime Series – Little Charlie and the Night Cats
<b>August 22</b>	Solano Higher Ed Breakfast Forum (See related story)
<b>August 28</b>	<i>Golden Bear</i> Returns From 2 <sup>nd</sup> Cruise
<b>August 29-</b>	Freshman Pre-Orientation (28-29)
<b>Sept. 4</b>	Freshman Move-in (30) and Orientation (31-4)
<b>Sept. 5</b>	Fall Semester Begins
<b>Sept. 15</b>	B.C. Kingsbury/Cal Maritime Invitational Golf Tournament
<b>Sept. 9</b>	Summertime Series – Tommy Castro Band
<b>Sept. 11</b>	Robert Webb History Lecture (See July <i>CURRENTS</i> )
<b>Oct. 7</b>	Summertime Series – Hotel California (Eagles Tribute)
<b>Oct. 7-8</b>	Homecoming
<b>Oct. 8</b>	Day on the Bay San Francisco Fleet Week Cruise
<b>Nov. 30-</b>	Maritime Academy Presidents/Superintendents/MARAD Annual Mtng.
<b>Dec. 1</b>	Hosted by Cal Maritime (See related story)

---

*CURRENTS* is published monthly by Cal Maritime's Office of Public Relations. Please direct questions, suggestions or items for the next issue to Doug Webster, Director of Public Relations, X1720 or [dwebster@sum.edu](mailto:dwebster@sum.edu). Deadline for material is generally the last day of the month preceding the issue date. Whenever we can, we're happy to photograph events for inclusion in *CURRENTS*. Please give us as much advance notice as you can, including information about the event, date and location.

Back issues of *CURRENTS* and *Cal Maritime* magazine are posted on the Cal Maritime website ([www.sum.edu](http://www.sum.edu)) in the News and Events section which can be hot-linked from the home page.
