Subject: F2F Instruction & H&S Plan
Attachments: 2020-05-16 Return F2F Recommendation-Final.pdf

Dear Campus Colleagues –

A few weeks ago, the Long Range Planning Group (LRPG) developed plans to resume F2F instruction and complete Spring 2020 instruction. (See attached memo from Dean Maier and Dean Neto.) The plan was approved through shared governance processes contingent upon having a health and safety plan that provides the necessary rules, regulations, and protocols to be followed during this resumption period. Earlier this morning, the Cabinet reviewed and approved a [Health & Safety Plan](#), developed by the Health & Safety Task Force (HSTF) and also reviewed through shared governance processes. This plan will apply to Phase 1 (June 17-July 3) and Dockside Steaming (tentatively July 8-22). A second iteration of the H&S Plan will be issued prior to the last cohort of return of instruction (July 24-August 15).

Please remember that campus will be restricted from June 14 to July 3. If you are not directly involved in the first phase of face-to-face instruction, you are asked to stay off campus so we can continue to practice social distancing by reducing the number of people on campus.

Momentarily, those faculty and staff who are expected to be on campus during Phase 1 will receive information from the HSTF with details on testing, social distancing, and other policies and procedures that will be in place on campus. Cadets will receive information under separate cover.

A huge thanks goes out to the LRPG and HSTF for their work developing these plans and bringing them to fruition. They will serve as the foundation for campus operations throughout the coming academic year.

In service, TC

Thomas A. Cropper
