  o possess a valid F-1 student visa
    AND

Non-US citizens should contact the Licensing office no later than the fall term of their sophomore year for information on applying for a TWIC and discuss options for foreign nationals.

Important Information:

• **Adhere to all published deadlines; late applications will lower your interview status and could defer your Sea Training II enrollment!**
• It is the Cadet’s responsibility to read college email daily. If an email is not bounced back, it is assumed that the email has been received, read, understood, and will be acted upon as necessary.
• You will be contacted when your credential is available for pick-up. A signature will be required for release of the Medical Certificate and the MMC to the cadet. Credentials are typically distributed in April, just prior to picks.
• Please Note: Your credential is processed with the assumption that you will complete NAU 104 or an approved VPDSP certificated course. You will **not** be issued your MMC without verification that you have completed VPDSD requirements.
• Please Note: When applying for officer endorsements as a senior, 3rd Mate and 3rd Assistant Engineer MMC’s are tied to program completion, which includes all seetime, watchstanding, academic and USCG exam requirements. You cannot be issued a 3rds credential without completion of all degree requirements of your program. Conversely, you cannot be issued a diploma or any program-related certifications without passing your licensing exams and fulfilling all program requirements.
  
  **No Diploma = No License. No License = No Diploma.**
• If you have any questions or concerns regarding the application process, please contact the Licensing Coordinator at 707-654-1297 or rchristopher@csum.edu
