

Exporting TurningPoint Sesion Data Directly to Moodle

Running Your Poll

First open **TurningPoint 2008**. Next , select **File** → **Open** and select your PowerPoint that contains your question slides.

When you are ready to administer your quiz/questions, put the presentation in Slideshow mode.

Click to the slide that contains your question. While the poll is open you will see the **Polling: Open** window turn green.

You will also see the number of responses increase. When all student responses are in, select **Enter**. This will close that Poll. The Polling window will turn red and the system will display your results in a graph.

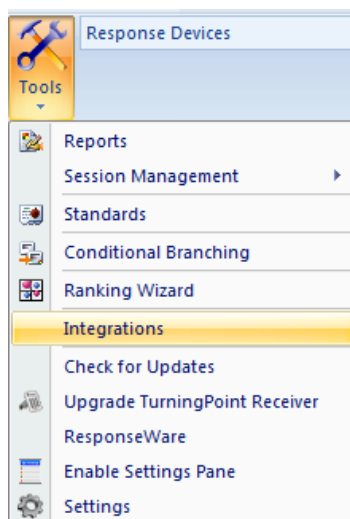

Select **Enter** to move to the next slide and repeat this process. Click **Esc** to exit slideshow mode.

Export Your Grades to Moodle

When you are done presenting all your question slides, you may export your session results directly to Moodle and the Moodle gradebook.

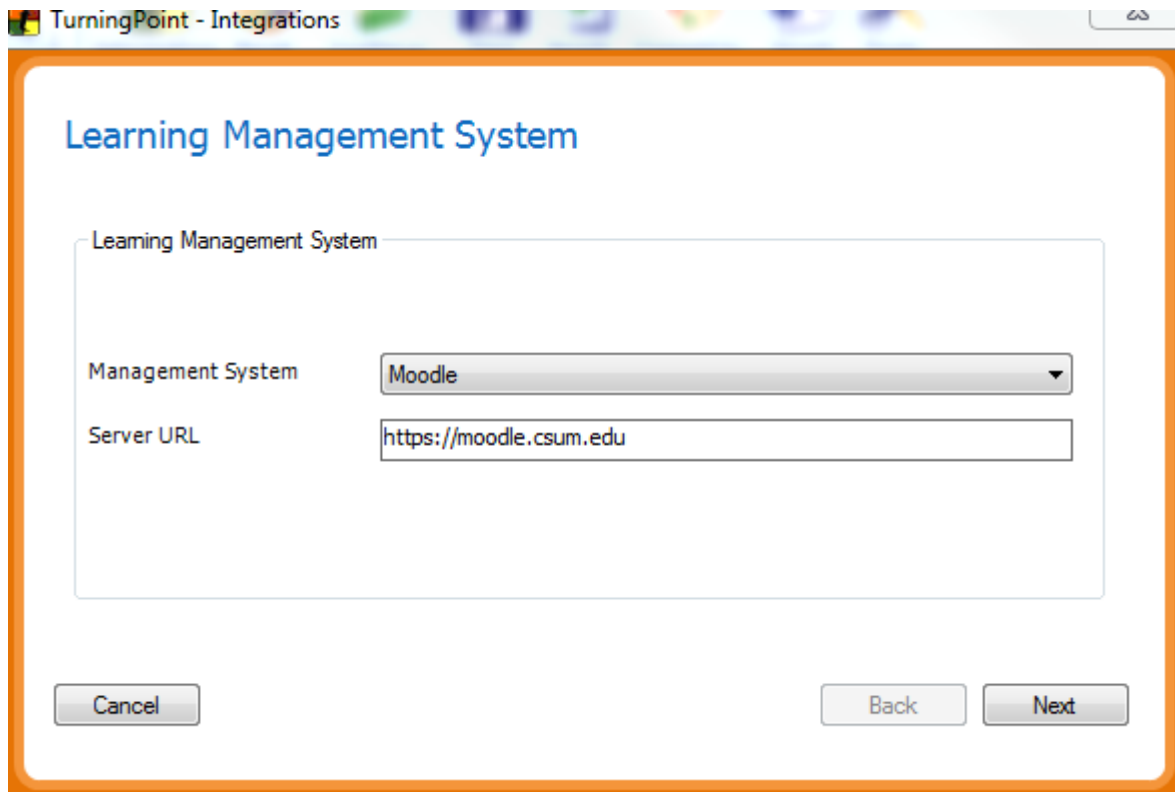

From the **TurningPoint** menu, select **Tools** → **Integrations**

From the **Learning Management System** window ,enter the following and select **Next**

Management System = Moodle

Server URL = <https://moodle.csum.edu>

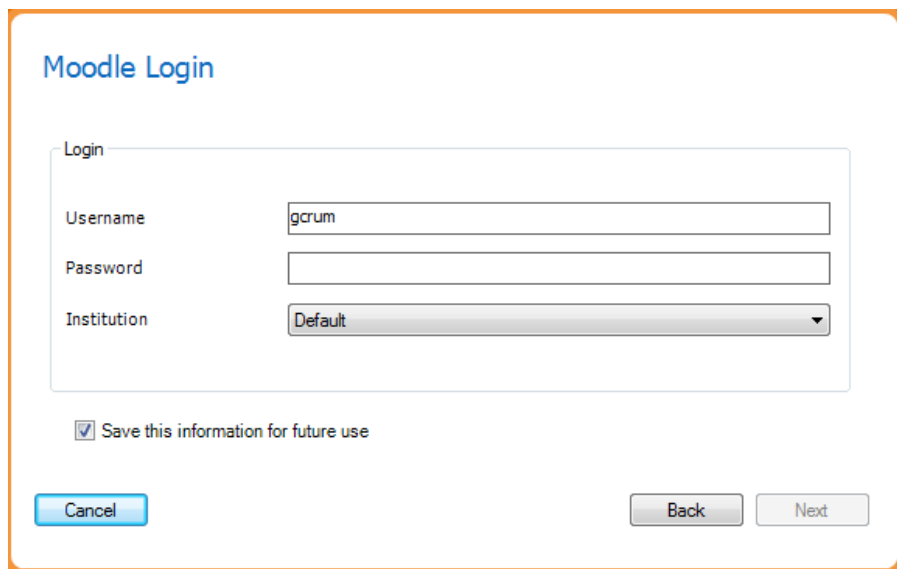

The screenshot shows a window titled "TurningPoint - Integrations" with a sub-window titled "Learning Management System". Inside this sub-window, there is a form with the following fields:

- Management System:** A dropdown menu with "Moodle" selected.
- Server URL:** A text input field containing "https://moodle.csum.edu".

At the bottom of the sub-window, there are three buttons: "Cancel", "Back", and "Next".

On the **Moodle Login** window, enter your Moodle username and Password and select **Next**

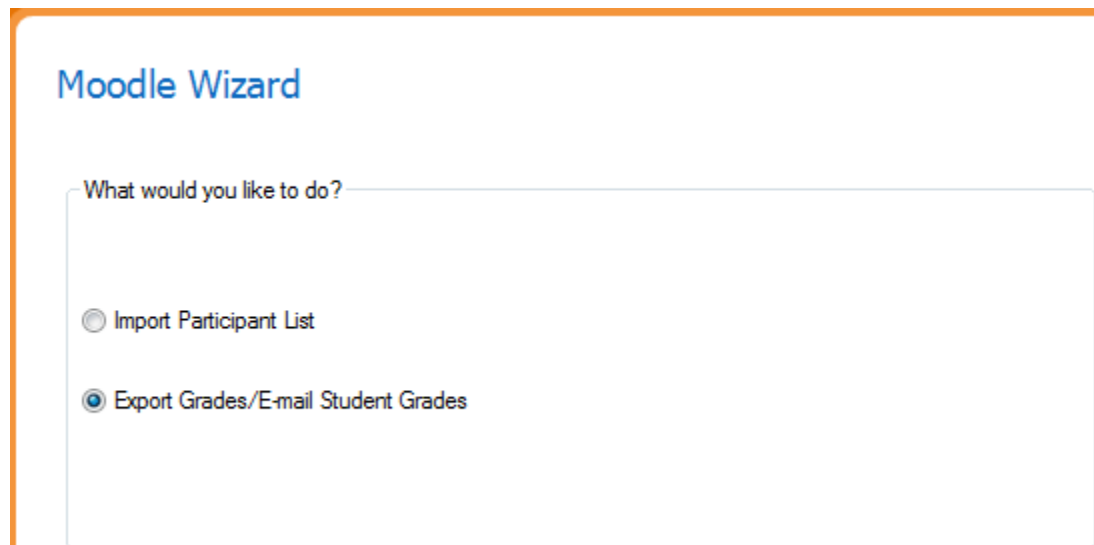

The screenshot shows a window titled "Moodle Login". Inside this window, there is a form with the following fields:

- Username:** A text input field containing "gcrum".
- Password:** A text input field.
- Institution:** A dropdown menu with "Default" selected.

Below the form, there is a checkbox labeled "Save this information for future use" which is checked.

At the bottom of the window, there are three buttons: "Cancel", "Back", and "Next".

On the **Moodle Wizard** screen select the **Export Grades/Email Students** radio button and select **Next**

Moodle Wizard

What would you like to do?

Import Participant List

Export Grades/E-mail Student Grades

On the **Moodle-Select Course** screen, select the course that contains your clicker participants and select **Next**

Moodle - Select Course

Please select the course you wish to export to

Welcome to Moodle 2012
Course Fullname 101

You will see a list of **clickers IDs** and **Export** options

Make sure **Current Section** button is highlighted, or if you have a previously saved session you want to export select it now by clicking on the **Other Session** button

Under Export options check the **Add grades shown above to Moodle gradebook** button

If you want to create a new grade item for your scores, click the **New Item** radio button and give your item a name. The Maximum value should be filled in automatically, if not you can enter it here.

If you have an existing grade item already in the grade book, click the **Existing Item** radio button and you will see a list of existing items. Select one.

Moodle - Export/Preview Options

Select a session

Device ID	Last Name	First Name	Score
30008E			0
30006A			0

Export Options

Ignore Non Responders
 Add grades shown above to Moodle gradebook

New Item Maximum Value
 Existing Item

When you are done, select **Finish**. You will see the **Data Exported successfully** dialog box.

It is a good idea at this time to **Save** your session data. Select **Save Session** from the TurningPoint Menu.

Login to Moodle and check your Moodle gradebook. You should see a grade item entry with your student scores linked to their particular clicker ID.

Welcome to Moodle 2012				
Assignment Two	Assign... Three	Quiz 1	Test One	Test 3
-	-	-	-	1.00
-	-	-	-	0.00
