Maintenance and renewals

Reviews are not needed for maintenance or renewals when the following requirements are all met:

1. The product was determined to be fully accessible when most recently reviewed
2. The scope of deployment and the technology and/or technology services have not changed.
3. There are no changes to functionality or capabilities, regardless of whether they are turned on or not.
4. Replacement parts are the same, or similar to, the part being replaced (if applicable)
