**Subject:** 10/11/21 COVID Newsletter

Members of the Cal Maritime community physically on campus (cadets, faculty, and staff combined) are at a 96% vaccination rate. The remaining 4% have or are in the process of receiving exemptions. Those people are also required to be tested each week, and this week's testing showed no positive cases.

Anyone still needing a vaccine is welcome to attend Touro University's (Mare Island) free clinics. Click here to participate <https://calendly.com/tucstudentrunfreeclinic>

Any member of the Cal Maritime community can participate in our weekly testing voluntarily by signing up ahead of time at [covid19hs@csum.edu](mailto:covid19hs@csum.edu). As always, if you have not been vaccinated, you are **required** to test each week.

**Please ensure you are fully registered at <https://avellinocov2.com/> PRIOR to testing on campus. This includes health insurance provider and medical ID.**

Starting out this month of October, we currently have no cadets or staff in isolation or quarantine.

Month	# of COVID Tests Neg / pos	# Isolated Current/cleared	# Quarantined Current/cleared
August	15/1	0/4	0/0
September	239/3	0/3	0/3
October	67/0	0/0	0/0
November	/		
December	/		

**Isolation** separates sick people with a contagious disease from people who are not sick. Normally, isolated people are released (cleared) in ten days from onset.

**Quarantine** separates and restricts the movement of people exposed to a contagious disease to see if they become sick. Fully vaccinated individuals are not required to quarantine unless they develop symptoms, then they will be tested and cleared or isolated

if positive.

The second column shows the # of COVID tests administered, with negative results indicated in green and positive in red.

**Everyone must complete the daily health check if coming to campus.**

**Everyone must wear a mask over the nose and mouth in all indoor campus facilities, whether vaccinated or not.**

We continue to add information to the [COVID website](#) and encourage cadets to share this information with family and provide feedback on any additional information that would be useful to the community.
