**Subject:** 01/06/22 COVID Newsletter

COVID Cases in California remain high largely due to travel for social gatherings with family and friends over the holidays. Safeguard your health by wearing your mask and washing your hands regularly.

**Weekly testing resumes** on Tuesday, January 11, 2022, from noon to 2 pm in the front room of the Technology Center along Maritime Academy Drive. This testing will occur every week at the same date, time, and location throughout the semester. Testing is voluntary unless you receive a specific request to participate. Please ensure you have created an account at <https://avellinocov2.com/>; no appointment is necessary.

See emails sent out on 01/05/2022 to all cadets, faculty, and staff for more detailed information.

An essential new item for **CADETS** is that you can now upload your vaccination information in your student Peoplesoft Account, as follows:

**Once a Cadet logs in and selects Self Service, they will see CSU COVID19 Self Certification.**

This must be completed no later than January 24, 2022 and include having received a vaccination or booster within six months to be considered fully vaccinated. This site also requires reporting of approved accommodations for those unvaccinated.

**Vaccination Rates**

|                            |                    |                      |                                |
|----------------------------|--------------------|----------------------|--------------------------------|
| Cadets, faculty, and staff | 96% are Vaccinated | 4% sought exemptions | 0% on campus not participating |
|----------------------------|--------------------|----------------------|--------------------------------|

As of January 6, 2022, we currently have six cadets and two staff in isolation. Isolation may be on campus or at people's residences.

| Month     | # of COVID Tests<br>Neg / pos | # Isolated<br>Current/cleared |
|-----------|-------------------------------|-------------------------------|
| December* | 209/9                         | 0/5                           |
| January   | 119/6                         | 8/4                           |
| February  | 0/0                           | 0/0                           |
| March     | 0/0                           | 0/0                           |
| April     | 0/0                           | 0/0                           |
| May       | 0/0                           | 0/0                           |

- December includes the holiday break.

**Isolation** separates sick people with a contagious disease from people who are not sick. Normally, isolated people are released (cleared) in ten days from onset.

**Quarantine** has been removed as only unvaccinated people, or people who develop symptoms prior to being COVID tested and receiving results require quarantine, which is a small number.

The second column shows the # of COVID tests administered through campus testing, with negative results indicated in green and positive in red.

We continue to add information to the [COVID website](#) and encourage cadets to share this information with family and provide feedback on any additional information that would be useful to the community.
