

02/24/22 COVID Newsletter

COVID-19 Health and Safety Task Force

Dear Campus Community,

The next “Campus Masking Update” will be sent as a separate email Monday 02/28/2022. We are optimistic that the risk will continue to lessen as we move toward spring, but for now, we are keeping our current masking procedures in place.

Local Vaccination opportunities are coming up. See the bottom of the newsletter for details:

Vaccination Rates

Cadets, faculty, and staff	96% are Vaccinated	4% sought exemptions	0% on campus not participating
----------------------------	--------------------	----------------------	--------------------------------

As of February 24, 2022, we currently have one cadet and zero staff in isolation. Isolation may be on campus or at people’s residences.

Month	# of COVID Tests Neg / pos	# Isolated Current/cleared
December*	209/9	0/9
January	382/39	0/39
February	172/10	1/14
March	0/0	0/0
April	0/0	0/0
May	0/0	0/0

- **December includes the holiday break.**

Isolation separates sick people with a contagious disease from people who are not sick. Normally, isolated people are released (cleared) ten days from onset.

Quarantine has been removed as that only applies to unvaccinated people, which only make up 4% of the population. Vaccinated people are not required to quarantine after being a close contact.

We continue to add information to the [COVID website](#) and encourage cadets to share this information with family and provide feedback on any additional information that would be useful to the community.

- All Touro C.A.R.E.S. M.V.P Clinics are now **Walk-ins**.
- All our Pediatric Clinics count with volunteers who have undergone special training under pediatric specialists to make vaccination interactions a successful one!
- There is always a Pharmacist on Duty during all our Pop-up clinics who can answer vaccine related questions!

HAPPENING IN SUISUN CITY!
