

03/03/22 COVID Newsletter

COVID-19 Health and Safety Task Force

Thu 3/3/2022 6:34 PM

Dear Campus Community,

The next update on campus masking policy will be sent as a separate email Friday 03/04/2022. We are optimistic that the Covid-19 risk will continue to lessen as we move toward spring. A critical component in reducing the spread of the virus continues to be having received a COVID booster within the last six months.

There are still local vaccination opportunities. See <https://www.csum.edu/alert/covid-19/> for further information about clinic dates and times at the end of this newsletter.

Vaccination Rates

Cadets, faculty, and staff	96% are Vaccinated	4% sought exemptions	0% on campus not participating
----------------------------	--------------------	----------------------	--------------------------------

As of March 03, 2022, we currently have three cadets and zero staff in isolation. Isolation may be on campus or at people's residences.

Month	# of COVID Tests Neg / pos	# Isolated Current/cleared
December*	209/9	0/9
January	382/39	0/39
February	172/10	0/14
March	67/3	3/0
April	0/0	0/0
May	0/0	0/0

- December includes the holiday break.

Isolation separates sick people with a contagious disease from people who are not sick. Normally, isolated people are released (cleared) ten days from onset.

Quarantine has been removed as that only applies to unvaccinated people, which only make up 4% of the population. Vaccinated people are not required to quarantine after being a close contact.

We continue to add information to the [COVID website](#) and encourage cadets to share this information with family and provide feedback on any additional information that would be useful to the community.

- All Touro C.A.R.E.S. M.V.P Clinics are now **Walk-ins**.
- All our Pediatric Clinics count with volunteers who have undergone special training under pediatric specialists to make vaccination interactions a successful one!
- There is always a Pharmacist on Duty during all our Pop-up clinics who can answer vaccine related questions!
