## HOW TO USE THIS CATALOG: A READER’S GUIDE

**HERE ARE FOUR WAYS TO FIND THE INFORMATION YOU NEED:**

1. Look for the topic you want in the Table of Contents. In the online catalog, each topic is hyperlinked to the page within the catalog that contains information about that topic.

2. Check the Index at the back of the catalog. It gives you an alphabetical list of virtually everything you might want to know about Cal Maritime and the places where you can find the appropriate information in the catalog. In the online catalog, each page number is hyperlinked to the corresponding page within the catalog that contains information about that topic.

3. Pick up the phone. Entries throughout the catalog give you a phone number if you need more information. For instance, the Cal Maritime main number is 707-654-1000, and Enrollment Information is 707-654-1330.

CHANGES IN RULES AND POLICIES

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication.

To prepare its students to pass licensing examinations, Cal Maritime modifies its curriculum to include current changes in U.S. Coast Guard requirements. Changes may also come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of The California State University, by the Chancellor or designee of The California State University, or by the President or designee of Cal Maritime. Furthermore, it is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and The California State University. More current or complete information may be obtained from the on-line catalog, the Cal Maritime web site and the appropriate department, school, or administrative office.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgement or a limitation of any rights, powers, or privileges of the Board of Trustees of The California State University, the Chancellor of The California State University, or the President of Cal Maritime. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or The California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized designees.

Generations of Californians have used their coastline to help fulfill their dreams and destinies. The Pacific and its tributaries have been used for business, as transportation to a new life, and as a focus of a preferred lifestyle. For over 80 years this proud heritage continues at The California Maritime Academy, a California State University institution of technology, engineering, international business, global studies, and transportation located on the northern fringe of San Francisco Bay. Using our waterfront location, maritime tradition, and Corps of Cadets, we offer students a unique opportunity for intellectual, professional, and personal development. Our students participate in an educational system that emphasizes active learning both in and out of the classroom. By offering this blend of intellectual exploration, applied technology, and leadership/management training, the college provides graduates with a breadth of professional skills unparalleled in most other institutions of higher education. In addition, the intimacy of a small, primarily residential institution creates a richness of shared experiences that defines and binds alumni for life.

Under the guidance and tutelage of a proud and dedicated faculty, staff and administration, we offer a curriculum that, while unique, is flexible enough that graduates can seek careers in many technical, transportation, business, international trade policy and engineering fields as well as the traditional maritime fields of shipping, port and terminal management, off-shore drilling, and the fishing industries. Proof of that flexibility lies in the fact that we traditionally have one of the highest employment rates of any undergraduate institution.

Our strategic vision is international with our students participating in the annual cruise aboard our 500-foot Training Ship GOLDEN BEAR, sailing on a commercial ship, or working in a summer internship with global companies. These experiences often bring our students in contact with differing cultures, introduce them to a global economy, and give them an opportunity to apply their skills in a real-world setting. In addition, our location as part of the “Pacific Rim” offers students a vantage point from which to realize a horizon of enormous opportunity.

We are proud of our place in The California State University System and of our tradition of serving the state and nation as the West Coast’s only maritime-oriented institution of higher education. I encourage you to explore preparing for your future through The California Maritime Academy.

Dr. William B. Eisenhardt, RADM USMS
President
OVERVIEW – CAL MARITIME AT A GLANCE

The maritime industry is of vital importance today's global economy. The men and women who work at the ports, in the companies, and on the ships are vital in the transportation of goods and commodities throughout the world. These merchant mariners manage the cargo and route it to its destination, navigate the ships, manage the ports and terminals, and oversee the engine rooms. They are also versed in environmental issues, such as oil spill recovery. Some work to improve engines and energy systems.

Others work in maritime law, safety, ship brokering and insurance, towing, piloting, and many other facets of maritime trade and transportation.

Located in Vallejo, California, The California Maritime Academy (Cal Maritime) is one of only seven degree-granting maritime academies in the United States and the only one located on the West Coast. It is a unique and specialized campus of The California State University that offers licensed and non-licensed degree programs to meet the above described diverse needs of the maritime industry.

Licensed programs prepare students for the Third Mate or Third Assistant Engineer license by the United States Coast Guard issued at graduation upon successfully completing the appropriate baccalaureate degree and passing the United States Coast Guard licensing examination. The license, recognized and respected by other countries, enables graduates to sail as officers on U.S. ships on any ocean, regardless of tonnage, horsepower and size.

Students interested in becoming a licensed Third Mate need to major in the Marine Transportation degree program. Students interested in becoming a licensed Third Assistant Engineer need to major in the Marine Engineering Technology degree program or the licensed Mechanical Engineering degree program.

Additionally, The California Maritime Academy offers several non-licensed degree programs. Graduates in these programs typically work in shore-side jobs related to the maritime industry. For example, graduates are prepared to work in U.S. federal, state, and local governments; agencies specializing in maritime security; international organizations such as the International Maritime Organization (IMO) and the International Maritime Bureau (IMB); and insurance and underwriting firms specializing in shipping and maritime issues.

They are also prepared to pursue graduate study in engineering, maritime law, international relations, public policy, maritime affairs, and international business and trade.

The non-licensed degree programs include: Mechanical Engineering, Facilities Engineering Technology, International Business and Logistics, and Global Studies and Maritime Affairs.

Normally all students, regardless of major, sail on at least one two-month cruise aboard Cal Maritime’s ship, The Training Ship GOLDEN BEAR (TSGB). Students in licensed programs must complete three cruises – two aboard the training ship and one on a commercial vessel. Engineers in non-licensed programs cruise once on the training ship and participate in two Cooperative Education (Co-Op) programs on land. Students in the International Business and Logistics program, as well as the Global Studies and Maritime Affairs programs, complete one Co-Op program on land and may complete an international study program in lieu of the training cruise depending on space availability in either experience.

As an Academy, all students are in the Corps of Cadets. They are required to wear uniforms, attend formations and “stand watch.” However, there is no armed service obligation requirement. Military options are available including programs offered by the Coast Guard and Navy. (See section on Military Opportunities.)

ACCREDITATION

The California Maritime Academy is accredited by the Western Association of Schools and Colleges (WASC), 985 Atlantic Avenue, Suite 100, Alameda, CA 94501, 510-748-9001, www.wascsenior.org/. Additionally, the Marine Engineering Technology and Facilities Engineering Technology programs are accredited by the Technology Accreditation Commission of ABET, www.abet.org/; the Mechanical Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org/ and the Business Administration program is accredited by the International Assembly for Collegiate Business Education (IACBE), P.O. Box 25217, Overland Park, KS, 66225, 913-631-3009, www.iacbe.org/.

STANDARDS OF TRAINING, CERTIFICATION AND WATCHKEEPING FOR SEAFARERS (STCW)

The California Maritime Academy is in full compliance with the requirements of the International Convention of the Standards for Training, Certification, and Watchkeeping for Seafarers 1995 (STCW) as administered by the U.S. Coast Guard.

VISION, MISSION, BELIEFS AND VALUES

Vision

Cal Maritime’s vision provides a compelling conceptual image of the future we will create for this institution. This statement describes how we will build Cal Maritime in the years to come.

The California Maritime Academy will be a leading educational institution, recognized for excellence in the business, engineering, operations, and policy of the transportation and related industries of the Pacific Rim and beyond.

We will maintain our commitment to quality instruction, research, and service in maritime education. From this foundation we will develop further to become a leader in engineering, science, and technology for the transportation industry. We believe our strength as an institution lies in maintaining focused areas of excellence, as distinguished from engaging in programmatic proliferation which our resource base cannot support.

Mission

The mission for Cal Maritime defines our purposes as an organization. Our educational community subscribes to the following statement of what we will do. Our mission is to:

♦ Provide each student with a college education combining intellectual learning, applied technology, leadership development, and global awareness.

♦ Provide the highest quality licensed officers and other personnel for the merchant marine and national maritime industries.

♦ Provide continuing education opportunities for those in the transportation and related industries.

♦ Be an information and technology resource center for the transportation and related industries.

Beliefs and Values

The California Maritime Academy is defined, in part, by the system of beliefs that make us unique as an institution of higher education. They are:

♦ Experiential Learning

♦ Ethics Development, both Personal and Professional

♦ Small Residential Campus Environment

♦ Student Centered Learning

♦ Professional Orientation

♦ Having a Niche to Focus on in Higher Education

♦ Campus Civility and Collegiality

♦ Diverse Living/Learning Community

Values influence how we make and carry out decisions, and how we interact with our internal and external constituencies. At Cal Maritime they are:

♦ Dedication

♦ Honor

♦ Integrity

♦ Respect

♦ Responsibility

♦ Trust

THE CAL MARITIME COMPASS POINTS

Cal Maritime uses the four points on the compass to symbolize the four key elements stated in the first bullet of our Mission Statement, i.e., intellectual learning, applied technology, leadership development, and global awareness.

Intellectual learning begins with the acquisition of data and culminates in analysis, synthesis, and evaluation. The initial stage is the acquisition of key facts, terms, precepts, and methodologies in a discipline. When these are synthesized, internalized, and integrated, the learner is able to construct a conceptual framework of the field, then reason about new situations. One who has mastered such a process will be able to solve problems, apply and evaluate theories, and construct new and meaningful syntheses from facts within the field. The levels of mastery involved in this process will differ according to the student’s level of development. The beginning student learns key facts and theories. The intermediate student applies this knowledge to ever more challenging problems.
Finally, the advanced student demonstrates the ability to think critically and learn independently, enabling him or her to acquire insights and accomplishments throughout life.

Applied Technology might be described as the use of direct experiential methods, both in classes and through immersion in professional environments, with the objective of learning the skills, techniques and attitudes appropriate to a student’s chosen profession, particularly those aspects of a profession that are difficult to learn through traditional academic coursework. As expressed in Cal Maritime’s mission statement, our intention is that Applied Technology augment, enrich and supplement traditional classroom lecture and discussion, which we categorize as “intellectual learning”. The outcome of these activities consist of graduates who have enhanced professional abilities that allow them to step into their roles in the maritime industry, but also in other industries, government or other areas.

Leadership Development has been informed by the action-oriented, real-world demands of the maritime industry, into which the majority of our graduates have been launched. The campus recognizes that the traditional formulation of leadership – developed as it was out of the merchant marine environment – still holds a great deal of foundational significance and value even as it evolves to encompass all our students, regardless of major. Today, Cal Maritime’s leadership development program also has become much more intellectually robust and complex by acknowledging the equally vital, but often paradoxical relationship between “fellowship” and individual agency within an organization or system. The California State University’s emphasis on cultivating critical thinking skills and ethics in its student graduates has provided a vital impetus to more deeply defining effective leadership practices at Cal Maritime. Only active, goal-directed, yet flexible, fluid thinking will allow the Cal Maritime graduate to maintain a competitive edge while navigating his or her course toward the future.

Global Awareness is based on substantive and applicable knowledge of a wide range of international areas and cultural perspectives. In the international arena, this type of understanding includes a vast array of issues that can be broken down into broad categories that include international politics and economics, environmental and cultural awareness, and global dynamics. Numerous contemporary issues face the global community, many of which are having – or will have – significant implications for the greater maritime and transportation industries.

These issues range from environmental crises affecting all people to critical political, economic, and social problems that affect much of the world’s population. Global dynamics refers to the understanding of how the world’s complex political, economic, social, and technological systems interact and operate in conjunction with one another. The interdependence of the international community, and its impact on our students and their future, requires an awareness of global dynamics. Consistent with how we approach the other three points of the mission, Global Awareness at Cal Maritime is significantly more than academic and classroom-based awareness of the issues facing the world today and the diversity of cultures of the greater society in which we live. Rather, we are committed to an understanding and awareness of global issues that is experienced firsthand by all of our students – to this end, all students at Cal Maritime are required to spend time abroad as part of their education. This active, participatory and experiential approach to global awareness makes Cal Maritime unique among many institutions of higher education in the United States.

**HISTORY OF THE CALIFORNIA MARITIME ACADEMY**

The California Maritime Academy is one of 23 campuses in The California State University. However, it is the most unique of the campuses because of its size, roots and rich maritime history.

**School—1929 to 1939**

The California Maritime Academy can trace its roots back to 1929 when the California State Legislature founded the California Nautical School. The original purpose of the school was to give practical and theoretical instruction in navigation, seamanship, steam engines, gas engines, and electricity in order to prepare young men for service as officers in the American merchant marine. The school received its first ship in 1931 along with a 50-acre site in Tiburon in Marin County. In 1936 the United States Congress passed the Merchant Marine Act, drastically changing the future of the institution.

The Act of 1936 directed the creation of an adequate merchant marine to support U.S. international and domestic commerce and to meet the needs for national defense. Both state and federal governments began to contribute matching funds to support the school. In the early days only three-year-deck and engineering programs were offered.

**Academy—1939 to 1943**

On October 10, 1939, the California Nautical School changed its name to The California Maritime Academy. In 1940, with war looming, the academy was relocated to the Ferry Building in San Francisco. During World War II, the course of study was accelerated to only 17 months, with many graduating cadets serving in the war.

**Campus—1943 to 1973**

A new permanent site for Cal Maritime was found on a 67-acre site at Morrow Cove in Vallejo, 30 miles northeast of San Francisco. In 1943 campus construction was completed and the training ship relocated, making Vallejo the academy’s permanent home. In subsequent years, many larger, more permanent buildings were added to the site. In 1973 the first women were enrolled.

**College—1974 to 1994**

In the early 1970s, Cal Maritime became a four-year college with majors in Nautical Industrial Technology and Marine Engineering Technology.

The first four-year students graduated in 1978. The academy gained accreditation by the Western Association of Schools and Colleges (WASC). In the late 80s, two new majors in Mechanical Engineering and Business Administration were added, and the Nautical Industrial Technology program was replaced by Marine Transportation.

**University System—1995 and Beyond**

In July 1995, Cal Maritime became the 22nd campus of The California State University. In 1996 Cal Maritime expanded its curriculum, introducing a major in Facilities Engineering Technology. A new science and engineering lab building was completed in 1999.

The curriculum further expanded in 2003, when Cal Maritime introduced a major in Global Studies and Maritime Affairs – the first major to be accepted after Cal Maritime completed its full transition to the CSU system. Also in the fall of 2003, Cal Maritime dedicated its new Technology Laboratory and Classroom Building.

In the fall of 2008, Cal Maritime opened a new state-of-the-art Marine Simulation Center – one of the world’s most advanced facilities for maritime teaching, training, and research. A new 122-bed residence hall, named McAllister Hall, opened in fall 2009. A new totally on-line Master of Science degree in Transportation and Engineering Management was approved and launched in fall 2011.

Enrollment at Cal Maritime has grown steadily from 500 students in 1995 to its current size of 850 students in response to industry demand for skilled, motivated and well trained mariners.

**Diverse History of Firsts**

In 1973 Cal Maritime became the first maritime academy in the U.S. to admit women. In addition, the campus had the first women to graduate from a U.S. academy (1976); the first woman to earn a chief engineer’s license in the U.S.; the first woman to sail as captain of an U.S. flag merchant vessel (1988); and the first woman president of a U.S. academy (1990-1996). In the fall of 1994, the first African American corps commander led the cadets. In 1996, Cal Maritime founded the first chapter of Mexican American Engineering Society (MAES) at a U.S. maritime academy. Today, students from many national and cultural backgrounds, as well as first-generation college students and women, continue to excel at Cal Maritime.

**History of the Training Ships**

In 1931 the steamship HENRY COUNTY, a Great Lakes freighter, served as the first training vessel at Cal Maritime. Renamed BEAR II, it covered 21,000 miles in its first training cruise to New York through the Straits of Magellan. In the early 1940s, the ship was again renamed the GOLDEN STATE and berthed in Vallejo. Training Ship GOLDEN BEAR I sailed 1947-1971. Training Ship GOLDEN BEAR II, a.k.a. USS CRESCENT CITY, arrived in 1971. Built in 1940 in Maryland, she was a steamship and originally served as a cargo and passenger ship to Central and South America. In 1996 the third and current Training Ship GOLDEN BEAR III embarked on her maiden voyage. Formerly the USS MAURY, she was a Navy oceanographic vessel built in 1989.

**Future**

Construction will soon begin on a new 25,000 square foot, $17 million Dining Hall along the waterfront at the west end of campus next to the Student Center. This three-story facility will include meeting rooms and sweeping views of San Francisco Bay.

Planning is also underway for construction of a new $35 million Physical Education and Water Survival Training Center, to be located on the recently acquired land north of the current campus gate on Maritime Academy Drive. When completed, the Center will include advanced resources to train cadets in maritime survival skills under realistic conditions of wind, wave and weather.
UNDERGRADUATE ADMISSION TO CAL MARITIME

OFFICE OF ADMISSIONS
The Office of Admissions exists to assist prospective students interested in attending Cal Maritime. The Office holds walking tours of the campus Monday through Friday, except holidays. Prospective students and their families are encouraged to make arrangements at least one day in advance. Appointments can be made online at http://www.csum.edu/web/admissions/visit-campus.

Mail: Office of Admissions
The California Maritime Academy
200 Maritime Academy Drive
Vallejo, CA 94590-8181

Phone: 707-654-1330
Fax: 707-654-1336
Email: admission@csum.edu
Web: www.csum.edu

ADMISSION PRACTICES
Please be advised that the most current admissions practices can be found online at http://www.csum.edu/web/admissions.

Cal Maritime is fully committed to enrolling a diverse student body. Requirements for admission are in accordance with Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations. If you are unsure of these requirements, consult a high school or community college counselor or the Office of Admissions. Complete information is also available at www.csumentor.edu/planning/.

Cal Maritime accepts new students only for the fall semester. It is best to apply for admission during the priority CSU filing dates of October 1 through November 30 prior to the year in which you choose to enroll. (See The California State University section for additional CSU Admission information.) Traditionally, Cal Maritime will continue to accept applications in specific degree programs after November 30 until programs are full. New students must declare a major upon application for admission.

As an institution with a specialized mission, Cal Maritime abides by special provisions of the United States Maritime Administration, endorsed by The California State University. The selective criteria may include high school GPA and coursework, extracurricular activities, leadership, character, and college entrance examination scores.

Admission criteria will also include factors required by the U.S. Coast Guard for maritime academic health, a record free of criminal offense and, for students seeking licenses, U.S. citizenship. All students must be able to obtain a passport, either from the United States or from their home country with a U.S. student visa.

If you need assistance in determining your eligibility, ask your high school or community college transfer counselor, visit www.csumentor.edu, or consult the Cal Maritime Office of Admissions.

ADMISSION PROCEDURES AND POLICIES
All applicants must apply online at www.csumentor.edu. The CSU Mentor system enables students to browse through general information about the twenty-three CSU campuses, view multimedia campus presentations, send and receive electronic responses to specific questions, and apply for admission and financial aid.

UNDERGRADUATE APPLICATION PROCEDURES
To apply for enrollment at Cal Maritime, you must file a complete undergraduate application on-line, submit a $55 nonrefundable application fee (fee is subject to change after printing). This fee can be paid electronically.

ACKNOWLEDGEMENT OF APPLICATION
Cal Maritime will acknowledge all applications and notify the applicant of any missing documents within three weeks of receiving the application. Admission decision notices are mailed beginning in February and continue on a rolling basis.

UNDERGRADUATE ADMISSION REQUIREMENTS
Freshman Requirements
A student will be considered for admission as a first-time freshman if he/she (1) is a high school graduate, has earned a Certificate of General Education Development (GED) or has passed the California High School Proficiency Examination, (2) meets test requirements, (3) has completed, with grades of “C” or better, each of the courses in the college preparatory subject requirements (see required and enhanced courses), and (4) has a qualifying eligibility index (see Eligibility Index Table).

Test Requirements
Freshman and transfer applicants who have fewer than 60 semester or 90 quarter units of transferable college credit are strongly encouraged to submit scores, unless exempt (see Eligibility Index Table), from either the ACT or the SAT Reasoning Test of the College Board. Registration forms and dates are available from high school or college counselors or from a CSU campus testing office. Students may also write to or call the following:
The College Board (SAT) ACT Registration Unit
Registration Unit, Box 6200 P.O. Box 414
Princeton, NJ 08541-6200 Iowa City, IA 52240
609-771-7588 319-337-1270
www.collegeboard.com www.act.org
School Code: 4035 School Code: 0184
Eligibility Index
The eligibility index is the combination of a high school grade point average and a score on either the ACT or the SAT. A grade point average (GPA) is based on grades earned in a pattern of required college preparatory “a–g” courses taken during the final three years of high school, with bonus points for approved honors courses (excluding courses such as physical education and military science).

Up to eight semesters of honors courses taken in the last three years of high school, including up to two approved courses taken in the tenth grade can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points. No additional points will be awarded for a grade of D.

A CSU Eligibility Index (EI) can be calculated in either of two ways: multiplying a grade point average by 800 and adding it to the mathematics and critical reading scores on the SAT or multiplying the grade point average by 200 and adding ten times the ACT composite score. California high school graduates (residents of California) and residents of WICHE (Western Interstate Commission for Higher Education) states need a minimum index of 2900 using the SAT or 694 using the ACT. A higher index may be required of residents of WICHE states for certain majors. The Eligibility Index Table illustrates several combinations of required test scores and averages.

If SAT taken: SAT (scores in mathematics and critical reading) + (800 x high school grade point average) = Index
If ACT taken: (10 x ACT composite score without the writing score) + (200 x high school grade point average) = Index

Persons who neither graduated from a California high school nor are California residents for tuition purposes need a minimum index of 3502 (SAT) or 842 (ACT). Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.

When the grade point average is 3.00 or above (3.61 for nonresidents), applicants are not required to submit test scores. However, all applicants for admission are encouraged to take the SAT or ACT and provide the scores of such tests to each CSU to which they seek admission. Cal Maritime and other campuses use these test results for advising and placement purposes. Additionally, given the academic rigor of our curriculum, ACT or SAT scores may be required for some majors.

Provisional Admission
Cal Maritime may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned program for the senior year. The campus will monitor the final two years of study to ensure that those so admitted do satisfactorily complete their secondary school studies, including the required college preparatory subjects and graduation from high school. Students are required to submit an official transcript after graduation to certify that all coursework has been satisfactorily completed. Official high school transcripts must be received prior to the deadline set by Cal Maritime.
In no case may documentation of high school graduation be received any later than the census date for a student’s first term of CSU enrollment.

Cal Maritime may rescind admission decisions, cancel financial aid awards, withdraw housing contracts and cancel any university registration for students who are found not to be eligible after the final transcript has been evaluated.

Applicants will qualify for regular (non-provisional) admission when Cal Maritime verifies that they have graduated and received a diploma from high school, have a qualifying minimum eligibility index, have completed the comprehensive pattern of college preparatory “a-g” subjects, and, if applying to an impacted program or campus, have met all supplementary criteria.

Reservation
Cal Maritime reserves the right and sole discretion to select its students and deny admission to any applicant based on his or her suitability and the best interests of the college.

The CSU uses only the SAT mathematics and critical reading scores, or the ACT composite score, in its admission eligibility equation. The SAT or ACT writing scores are not currently used by CSU campuses.

Special Admission Criteria For WICHE States

Cal Maritime, under its special mission as a West Coast maritime academy, will consider out-of-state applicants from the western U.S. (defined by WICHE) by using the California resident eligibility index. A higher index may be required of residents of WICHE states for certain majors. Updated information is available online at http://www.csum.edu/web/admissions/first-time-freshmen.

Subject Requirements
The California State University requires that first-time freshman applicants complete, with grades of C or higher, a comprehensive pattern of college preparatory study totaling 15 units (with "a unit" consisting of one year of study in high school):

- 2 years of social science, including 1 year of U.S. history or U.S. history and government;
- 4 years of English;
- 3 years of math (algebra, geometry, and intermediate algebra);
- 2 years of laboratory science (1 year biological and 1 year physical, both with labs);
- 2 years of the same foreign language (subject to waiver for applicants demonstrating equivalent competence);
- 1 year of visual and performing arts: art, dance, drama/theater, or music;
- 1 year of electives selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts or other courses approved and included on the UC/CSU “a-g” list.

Enhanced Requirements For Marine Transportation Applicants

The marine transportation major at Cal Maritime has been designated as impacted. An undergraduate major or campus is designated as impacted when the number of applications received from fully qualified applicants during the initial filing period exceeds the number of available spaces. As a result, applications to marine transportation will be reviewed on a competitive basis, with a higher qualifying eligibility index and additional courses from high school.

Applicants are encouraged to complete one year of pre-calculus and one year of physics in high school. In addition, applicants may submit a resume indicating leadership and/or experience.

Enhanced Requirements for Non-Residents of California & WICHE States

Students completing high school through home schooling are expected to meet the same admission requirements as those attending traditional schools. Home schooling may be affiliated with high schools or public school districts. In those cases, courses presented for satisfaction of the college preparatory subject requirements must appear on the University of California’s “a-g” course list. Other home schooling may not be affiliated with high schools or districts. If there are insufficient courses out the UC “a-g” list, Cal Maritime will review the application on an individual basis to determine that all requirements have been met. Applicants may be asked to submit supplemental information, e.g., SAT subject examinations, ACT subcores, AP examinations, etc., to document completion of CSU eligibility requirements.
INTERNATIONAL STUDENTS ADMISSION REQUIREMENTS

The CSU must assess the academic preparation of foreign students. For this purpose, “international students” include those who hold U.S. temporary visas as students, exchange visitors, or in other non-immigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of “international students.” Verification of English proficiency, financial resources, and academic performance are each important considerations for admission.

International students should use the same application period of October 1 through November 30 nearly a year prior to the fall semester in which they plan to enroll. (Cal Maritime does not accept applications for any other term.) In some years, the application period for certain majors may be extended to accommodate additional applications if needed. Priority admission is given to residents of domestic California.

International students seeking degrees that require a U.S. Coast Guard licenses are not eligible for those licenses without U.S. citizenship. International students in those degree programs will, however, receive their diplomas and letters of completion for presentation to their countries’ licensing organizations.

TOEFL Requirement

The TOEFL (Test of English as a Foreign Language) is required of all applicants with fewer than three years of full-time study (70 semester units or 105 quarter units) where English was the primary language of instruction. The SAT or ACT math and verbal English test scores may be substituted for the TOEFL using the CSU eligibility index for non-residents.

CSU minimum TOEFL standards are:

Internet 61
Paper 173
Content 500

Academic records from foreign institutions must be on file by June 1; and, if not in English, must be accompanied by certified English translations.

International applicants are also required to compose an essay and provide an affidavit of financial support.

International students must demonstrate the ability to pay all educational expenses including books, room and board: approximately $164,000 USD, the approximate amount required to attend Cal Maritime for a four-year period.

This must be done with a certified document either from a governmental agency or organization or from a financial institution handling the individual account of person(s) assuming responsibility for payment. FINANCIAL AID IS NOT AVAILABLE FOR INTERNATIONAL STUDENTS. International students are assessed fees at the non-California resident rate.

International students pursuing licensed degrees are required to obtain a Mariners Document from their country of origin or other appropriate maritime nation.

As a condition of enrollment, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment at The California Maritime Academy. Such insurance must be in amounts as specified by the United States Information Agency (USIA) and NAFSA: Association of International Educators. The campus president or designee shall determine which insurance policies meet these criteria. Further information may be obtained by writing the Admissions Office.

RESIDENT ALIENS

Resident aliens (Permanent Residents) may submit a certified alien registration Immigrant I-551 (“green card”) in lieu of a birth certificate for admissions. The Immigration and Customs Enforcement Agency requires a passport or other legal travel documents to sail on the training cruise, so students are advised to apply for those documents as soon as possible.

ADULT STUDENTS AND VETERANS

As an alternative to regular admission criteria, an applicant who is 25+ years of age or an eligible veteran of the U.S. armed forces is considered for special admission. An adult student or veteran must meet the following conditions (in addition to supplementary criteria of Cal Maritime for admission or Coast Guard license):

1) Possess a high school diploma or its equivalent (G.E.D. or California High School Proficiency Examination).

2) No prior enrollment in college as a full-time college student (12+ units per semester) for more than one term during the past five years;

3) An average GPA of 2.0 (“C” or higher) on all college coursework in the past five years;

4) Satisfaction of the English and mathematics requirements for either first-time freshmen or transfer students with grades of “C” or higher;

5) Good standing at the last educational institution attended;

Recommended:

6) Successful completion, with a grade of “C” or higher, a college-level algebra/trigonometry course in the past five years or work in a related technical field within the last two years;

7) Successful completion, with a grade of “C” or higher, a college-level composition course.

PLACEMENT AND REMEDIATION

Systemwide Placement Test Requirements

The California State University requires each entering undergraduate, except those who qualify for an exemption, to take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition of admission to the CSU, but they are a condition of enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college entry-level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics must take remedial coursework. Students taking remedial courses in either English or mathematics must complete all remediation in their first year of enrollment. Failure to do so may result in denial of enrollment for future terms.

Students may register for the EPT and/or ELM at their local CSU campus. Questions about test dates and registration materials at Cal Maritime may be addressed to Office of Admissions, 707-654-1330.

English Placement Test (EPT)

The CSU English Placement Test (EPT) is designed to assess the level of reading and writing skills of entering undergraduate students so that they can be placed in appropriate baccalaureate-level courses. The CSU EPT must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

♦ A score of “Exempt” or “Ready for college-level courses” on the CSU Early Assessment Program (EAP), taken along with the English Language Arts California Standard Test in grade 11

♦ A score of 500 or above on the critical reading section of the College Board SAT Reasoning Test

♦ A score of 22 or above on the American College Testing (ACT) English Test

◆ A score of 680 or above on the re-centered and adjusted College Board SAT II: Writing Test taken May 1998 or later

◆ A score of 3 or above on either the Language and Composition or the Composition and Literature examination of the College Board Advanced Placement (AP) program

Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of C or better

Entry Level Mathematics (ELM) Placement Examination

The Entry Level Mathematics (ELM) Placement Examination is designed to assess the skill levels of entering CSU students in the areas of mathematics typically covered in three years of rigorous college preparatory mathematics courses in high school (Algebra I, Algebra II, and Geometry). The CSU ELM must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

◆ A score of 550 or above on the mathematics section of the College Board SAT Reasoning Test or on the College Board SAT Subject Tests-Mathematics Tests Level 1 or Level 2

◆ A score of 23 or above on the American College Testing (ACT) Mathematics Test
Military educational experiences in the armed forces have been designated as impacted. An undergraduate major or campus is designated as impacted when the number of applications received from fully qualified applicants during the initial filing period exceeds the number of available spaces.

As a result, applications to marine transportation will be reviewed based on the quantity and academic quality of the transfer applicant. Applicants are encouraged to complete pre-calculus before transferring. In addition, applicants may submit a resume indicating leadership and/or experience.

Transfer Admissions

Transfer students may require four years of academic residence at Cal Maritime in order to complete the bachelor’s degree and license requirements.

The reasons are as follows:

1) By federal law a student has to attend Cal Maritime no fewer than three years to receive a United States Coast Guard license.
2) Degrees at Cal Maritime require up to 183 semester units. Most of the courses are specialized because of license requirements and are not available at other colleges.
3) Students are allowed few open electives, and not every type of general education class is transferable to the degree program at Cal Maritime.
4) As a small college, Cal Maritime cannot offer all courses every semester. The courses are scheduled sequentially according to a set curriculum.

For admission, a Lower Division Transfer student must have a minimum GPA of 2.0 (2.4 for non-residents), and an Upper Division Transfer student (more than 60 semester or 90 quarter units of college credit) must have a minimum GPA of 2.0 (2.4 for non-residents).

Lower Division Transfer

To transfer with fewer than 60 transferable units (90 quarter units), you must do the following:
1) Submit your high school transcript;
2) Submit SAT or ACT scores, unless your high school GPA was above 3.00;
3) Make up any high school deficiencies on a course-by-course basis, usually by completing General Education courses;
4) Earn at least a 2.00 grade point average in all college work (2.40 for non-residents);
5) Have met the GPA/test score eligibility index in your high school courses;
6) Earn a “C” or higher in each General Education course;
7) Be in good standing at the last educational institution attended.

All Lower Division Transfer students must complete two subject areas prior to admission at Cal Maritime:
1) A college English Composition course (CSU General Education requirement A2) and a college Math course (CSU General Education requirement B4).

Students are highly recommended, but not required, to take a college pre-calculus course.

Students may also take elective courses applicable to their Cal Maritime major. Visit https://www.csum.edu/web/admissions/majors-and-degrees to view the course curriculum for every major.

Upper Division Transfer

To transfer with more than 60 transferable semester units (90 quarter units), you must do the following:
1) Earn at least a 2.0 grade point average in all college work (2.4 for non-residents) and an Upper Division Transfer student (more than 60 semester or 90 quarter units of college credit) must have a minimum GPA of 2.0 (2.4 for non-residents).
2) Be in good standing at the last educational institution attended.

All Upper Division Transfer students must complete four subject areas prior to admission at Cal Maritime:
1) A college English Composition course (CSU General Education requirement A2);
2) A college math course (CSU General Education requirement B4) Students are highly recommended, but not required, to take a college pre-calculus course;
3) A Critical Thinking/English Literature course (CSU General Education requirement A3); and
4) An Oral Communication course (CSU General Education area A1).

Transfer credit Types of college credit given prior to enrollment for courses that meet degree requirements are as follows:

1) College work from regionally accredited institutions as listed in the AACRAO (American Association of Collegiate Registrars and Admissions Officers) “Transfer Credit Practices of Designated Educational Institutions” information exchange report
2) Applicable Advanced Placement (AP) coursework with a score of 3, 4, or 5 on the AP test for that course, see College Board Advanced Placement Tests (AP) for Cal Maritime Equivalency
3) Applicable International Baccalaureate (IB) coursework completed with a minimum score on the IB test for that course, see International Baccalaureate (IB) for Cal Maritime Equivalency
4) College Level Examination Program (CLEP) exams in the areas of natural science, humanities (not to include English), and social science/ history, see College-Level Examination Program (CLEP) for Cal Maritime Equivalency
5) Military educational experiences in the armed services as listed in the American Council on Education “Guide to Evaluation of Educational Experiences in the Armed Services”

College credit will not be given prior to enrollment for the following:
1) Transfer courses graded as “credit” if not verified as equivalent to a grade of “C” or higher;
2) Some transfer courses older than 10 years. The time period may be shorter for some courses that are technical or have requirements by licensing agencies.

PROFICIENCY

Cal Maritime may offer courses in remedial English (Introduction to English Composition) and mathematics (Intermediate Algebra). Entering students who are required to take either of these courses should complete them prior to enrollment as this will help them stay on track academically. Students must be proficient in both math and English by the end of the first academic year (by the end of the second semester). Students failing to do so may be disqualified for further enrollment at Cal Maritime. For more information, contact the Center for Engagement, Teaching and Learning at https://www.csum.edu/web/campus-life/student-resources/center-for-engagement-teaching-and-learning

TRANSFER STUDENTS

Enhanced Requirements for Applicants to the Marine Transportation Program

The marine transportation major at Cal Maritime has been designated as impacted. An undergraduate major or campus is designated as impacted when the number of applications received from fully qualified applicants during the initial filing period exceeds the number of available spaces.

Students are also expected to take academic elective courses applicable to their Cal Maritime major. To view the course curriculum for every Cal Maritime major, visit https://www.csum.edu/web/admissions/majors-and-degrees.
Provisional Admission
Cal Maritime may provisionally or conditionally admit transfer applicants based on their academic preparation and courses planned for completion. The campus will monitor the final terms to ensure that those admitted complete all required courses satisfactorily. All accepted applicants are required to submit an official transcript of all college level work completed. Cal Maritime will rescind admission for all students who are found not to be eligible after the final transcript has been evaluated.

AFTER ADMISSION

Deposit
To guarantee a space in the freshman class, you should submit a non-refundable deposit of $500. The deadline for submitting the deposit is May 1. Failure to submit the deposit by the deadline might cancel your admission and any financial aid that you have received. The $500 deposit will be applied to your account as $150 for housing and $350 for uniforms.

Health Screening
Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment. Health reports are mailed after admission and are due May 1.

Measles and Rubella: All new and readmitted students born after January 1, 1957, must provide proof two immunizations against measles and rubella prior to enrollment.

Hepatitis B: All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum period of 4 to 6 months. If you need further details or have special circumstances, please consult the Cal Maritime Student Health and Wellness Center.

All incoming freshmen are recommended to receive a meningococcal vaccine prior to entering campus. Students will be required to return a form indicating that they have received information about meningococcal disease, including the availability of a vaccine to prevent them from contracting it and a statement indicating whether or not they have chosen to receive the vaccination. These are not admission requirements, but are required of students as conditions of enrollment in CSU.

There are additional health requirements for all Cal Maritime programs as every student is required to participate in at least one training cruise. Certain degree programs in which a maritime license is a graduation requirement have physical, perceptual, and psychological qualifications determined by the U.S. Coast Guard.

A health report form must be completed and signed by a physician, then returned as soon as possible (before May 1). Upon review of this form, the Student Health and Wellness Center will determine whether the student is eligible for the specialized program and training cruises at Cal Maritime.

The actual physical examination must have been conducted within one year prior to enrollment. Immunization timelines vary, with a Tuberculin Skin Test required within 6 months. All spaces on the health report form must be completed; otherwise the form will be returned, and the student will not be allowed to enroll.

Health Criteria
The following health criteria* are required by U.S. Department of Homeland Security, U.S. Coast Guard for licenses/credentials in the programs stipulated:

1. Eyesight and color vision:
   a. Deck license or qualified deck rating should demonstrate that they have correctable vision of at least 20/40 in each eye and uncorrected vision of at least 20/200 in each eye. The U.S. Coast Guard (USCG) may grant a waiver for uncorrected vision up to 20/800 if other specific criteria is met. Applicants for STCW endorsements should meet the same standards. In all cases, the horizontal field of vision should not be less than 100 degrees in each eye. Deck license students must pass a color vision test approved by the USCG. The use of color sensing lenses to assist applicants with passing the color vision test is prohibited.
   b. Engineering license or qualified engineering rating should demonstrate that they have correctable vision of at least 20/50 in each eye and uncorrected vision of at least 20/200 in each eye: minimum 20/800 in each eye, correctable to at least 20/50 in each eye. The U.S. Coast Guard may grant a waiver for uncorrected vision up to 20/800 if other specific criteria is met. In all cases, the horizontal field of vision should not be less than 100 degrees in each eye. Maritime engineering candidates must be able to identify the colors of red, green, blue, and yellow.

2. Hearing—The USCG has established new policy determinations regarding physical standards for Merchant Mariners. Hearing thresholds are checked at 500 Hertz, 1000 Hz, 2000 Hz, and 3000 Hz. The frequency responses for each ear are averaged to give a measure of hearing ability.
   a. Deck license or qualified deck should be an average, unaided hearing threshold of 70 db or less for each ear and functional speech discrimination of at least 90% is acceptable. Hearing aids may be used by applicants to meet the auditory requirements for all renewal or raise of grade transactions. The aided threshold should be 40 db or less in each ear and functional speech discrimination should be at least 90% at 55 dB in both ears. The unaided threshold should be 70 db or less in each ear and functional speech discrimination of at least 80% at 55 db binaural.
   b. Engineering license or qualified engineering should be an average, unaided hearing threshold of 70 db or less for each ear and functional speech discrimination of at least 90% is acceptable. Hearing aids may not be used to meet the auditory requirements for all renewal or raise of grade transactions. Engineering officers may not be granted a waiver because the use of a hearing aid in an engineering space may further damage the individual’s hearing.

3. General health—All candidates should be able meet USCG/CMA physical agility standards, have a body mass index (BMI) of less than 40%, be of sound health medically and mentally*. Any significant functional impairment, medical condition, or physical impairment, including some learning disabilities that might prevent a candidate from performing ordinary duties or sudden incapacitation of a cadet or officer at sea, could preclude enrollment to Cal Maritime and/or maritime licensing programs.

*Specific medical/physical/psychological conditions may be subject to an additional in depth review. The recommended data necessary for the evaluation of each condition can be referenced: U.S. Department of Homeland Security, USCG Navigation and Vessel Inspection NVIC No. 04-08. Medical and Physical Examination Guidelines for Merchant Mariners credentials at:
   http://www.uscg.mil/hq/cg5/twic/2006s.asp?2008, encl1,2,3,4a,3b,4,5 and 6

Orientation
Before the beginning of each fall semester, the Office of Student Life conducts a mandatory orientation, a program that introduces new students to the Academy.

Registration for Courses
First-time students may register for fall semester classes at Cal Maritime after they are accepted and have cleared their health form, have paid their required deposit, and submitted any additional documents requested.

Passport
All incoming students must obtain a valid passport prior to enrollment. For more information, visit www.travel.state.gov.

Transportation Worker Identification Credential (TWIC)
All cadets in USCG License track majors; Marine Transportation, Marine Engineering Technology and Mechanical Engineering – License Option are required to hold a TWIC as of their sophomore year. The TWIC is a prerequisite to application for a USCG Merchant Mariner Credential – and is required for cadets enrolling in CRU 200 or CRU 250. Cadets in non-license track programs are encouraged to obtain a TWIC as many of the Cooperative Education opportunities are with employers who require the TWIC.

The campus will provide students with information regarding the TWIC application process during their first year. For more information, visit www.tsa.gov/twic

Uniforms
At Cal Maritime, all students are required to wear uniforms and learn to meet grooming and dress standards which prepares them to “dress for success” in the real world. The requirement of wearing uniforms is one component of our Leadership Development program.

Students should take their sizing sheet to a professional tailor of their choosing and return this form to the bookstore by March 31, or as soon as the uniform deposit is paid. A summer fitting appointment (try on the uniform) must be scheduled with the bookstore and completed prior to August 1.

To schedule an appointment, call 707-654-1186. The balance for the uniforms is due at the fitting appointment, and all non-tailored items may be taken home at that time.

www.cma.edu/leadership
Importance of Filing Complete, Accurate, and Authentic Application Documents

Cal Maritime advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must, when requested, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Title 5, California Code of Regulations).

Use of Social Security Number

Applicants are required to include their correct social security numbers on designated places on applications for admission, pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109).

Cal Maritime uses the social security number to identify students and their records, including identification, for financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires Cal Maritime to file information returns that include students’ social security numbers and other information, such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Denial of Acceptance

Cal Maritime will notify a denied applicant of the reason(s) for not meeting admission requirements. Applicants who are not admissible should satisfy missing requirements prior to making application again. An applicant with extenuating circumstances can petition the Director of Enrollment Services, 707-654-1330.

Making up Missing Requirements

Undergraduate applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways:

1. Complete appropriate courses with a grade of “C” or higher prior to high school graduation
2. Complete appropriate college courses with a grade of “C” or higher, with one college course, which earns at least 3 semester (4 quarter) units, considered equivalent to one year of high school study
3. Earn acceptable scores on specified examinations

Non-Transfer of Acceptance

Admission is not transferable to another term at Cal Maritime or to another CSU campus. Applicants who do not enroll must reapply for admission and must resubmit the application fee and documents.

Document Rights

Cal Maritime reserves the right to determine whether a transcript from another educational institution can be accepted as official. All transcripts and records submitted for admission to Cal Maritime become property of the Academy and cannot be returned. Applicants do not have the right to access or review files during the admission process.

The documents of applicants who enroll are forwarded to the Records Office and are then accessible for review by the enrolled student, in compliance with the Family Educational Rights and Privacy Act. Otherwise, when a student withdraws from enrolling, the documents supporting an application for admission, such as transcripts and entrance examination scores, will be held at least one year prior to their destruction.

Cancellation of Registration or Withdrawal from the Institute

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow Cal Maritime’s official withdrawal procedures. For more information, see Withdrawal from The California Maritime Academy. Failure to do so may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term.

Prior to withdrawing, students who receive financial aid funds must consult with the Financial Aid Office, 707-654-1275; regarding any required repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

Residency for Tuition Purposes

For information concerning residency, see Determination of Residence for Nonresident Tuition Purpose

Supplemental Enrollment Options

Intersystem and InterSystem Enrollment Programs

Enrolled students who have completed at least one term and 12 units on a campus of the California State University as matriculated students and who are in good standing at their home campus (with a 2.00 GPA) may elect to take courses at another CSU campus, on a space available basis, without formal admittance. Although courses taken on any CSU campus will transfer to the student’s home campus as elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. A special application and detailing policies and procedures may be obtained from the Student Records Office.

CSU Concurrent Enrollment allows matriculated CSU students in good standing to enroll concurrently at another CSU campus for a specific term, subject to space availability and registration priority policies at the host campus.

Credit earned at the host campus is reported to the student’s request to the home campus to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment allows matriculated CSU students in good standing to enroll at another CSU campus for one term and is subject to space availability and enrollment priority policies at the host campus. Enrollment as a visitor may be repeated after re-enrollment at the home campus. Credit earned at the host campus is reported at the student's request to the home campus to be included on the student’s transcript at the home campus.

Intersystem Cross Enrollment at University of California or California Community College Undergraduate students enrolled in the California State University may enroll without formal admission and without payment of additional state university fees in one course each academic term at a campus of the University of California or participating campuses of California community colleges on a “space available” basis. Students may request that a transcript of record be sent to the home campus. Cross enrollment is available to California residents only. Students must have completed one regular term at their home campus as matriculated students with a 2.00 GPA. Further details on enrollment conditions and procedures are available from the Student Records Office.

Open University

The Open University program allows non-matriculated students the opportunity to enroll in one or more courses each academic term without formal admittance to Cal Maritime. Students pay for courses through the Extended Learning department on a per-unit basis and are subject to space availability and enrollment priority policies. STUDENTS TAKING OPEN UNIVERSITY COURSES ARE NOT ELIGIBLE FOR FINANCIAL AID. Open University participants can receive credit in lower and upper division coursework, for a maximum of 24 semester units. Applications are available from the Student Records Office or online at http://www.csun.edu/web/faculty-and-staff/registrar/forms.

Readmission Requirements

Application for readmission must be completed in full no later than November 1 for readmission for the spring semester, and May 1 for readmission for the fall semester. Any student out of attendance for more than two (2) consecutive semesters must apply for readmission through the Admissions Office.
Readmission acceptance is based not only upon completion of the requirements for readmission and the reason the applicant left the Academy, but also upon space availability.

For assistance, call the Student Records Office at 707-654-1200.

FEE POLICY
ACADEMIC YEAR
2011-12

In the following section, the University means The California Maritime Academy.

FEE LIABILITY

Students and prospective students who register for courses offered by the university are obligated for the payment of fees associated with registration for those courses. In addition, there may be other fees charged by third party licensors for licenses and exams required to fulfill requirements for degree programs. It is the policy of the University that students enrolled in its baccalaureate degree programs maintain residence on campus and participate in a meal plan. Enrollment obligates students to pay charges for campus housing and food service unless the student has submitted and received written approval of their Petition for Off-Campus Housing.

In addition to registration and other mandatory fees, certain departments may make assessments of varying amounts for loss, damage, breakage, waste of materials, equipment and facilities and for late payments or late registration.

Failure to cancel registration in any course or to officially withdraw from the University for an academic term prior to the first day of the academic term gives rise to an obligation to pay student fees, including any tuition or fees for the reservation of space in the course or facility.

SCHEDULE OF FEES

The CSU makes every effort to keep student costs to a minimum. Fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU must reserve the right, even after initial fee payments are made, to increase or modify any listed fees, without notice, until the date when instruction for a particular semester or quarter has begun. All CSU listed fees should be regarded as estimates that are subject to change upon approval by The Board of Trustees.

The following reflects applicable system-wide tuition and fees. Fees and tuition are subject to change without notice due to Trustee, Legislative, or University action.

Updated fee information, payment deadlines, and procedures are provided each semester at the Schedule of Fees document posted at http://www.csum.edu/web/faculty-and-staff/af/business/student-services/fees

Fees charged to all students are:

Application Fee (nonrefundable) payable by credit card, check or money order at time application is made: $55

Tuition Fee: Authorized tuition for 2011-12 (effective January 2011):

<table>

</tbody>
</table>

Nonresident Tuition (in addition to basic tuition fees and other fees charged all students) is charged at $372 per unit for 2011-12. The total nonresident tuition paid per term will be determined by the number of units taken.

Mandatory system-wide fees are waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see fee waivers).

Campus-based fees charged to all students enrolled in a degree program at The California Maritime Academy are: Health Services, Health Facility, Associated Student Body, Instructionally Related Activity, Campus Document and specific course and laboratory fees determined by registration. Other campus-based fees are housing, food service and parking permits. Current charges for all fees can be viewed each year in the Schedule of Fees document posted at http://www.csum.edu/web/faculty-and-staff/af/business/student-services/fees.

Medical Insurance is a requirement for all students enrolled in a degree program at The California Maritime Academy. All students meeting the enrollment eligibility requirements are charged for medical insurance. Please see the Medical Insurance Handbook for more information.
Students who have private medical insurance with sufficient coverage to meet the minimum requirements established by the University may request a fee waiver by completing a Medical Insurance Fee Waiver Form available online and at the Student Health Center. The form must be submitted to the Director of the Student Health Center by the term due date. Credit to the student’s account will be made for approved waivers and for students who withdraw from The University by the policy’s deadline and who have not used the policy prior to withdrawal. Students who request a refund or withdraw after the policy deadline will be referred to Student Health Services at 707-654-1170.

Students are required to purchase approved uniforms. Please contact the University Bookstore at 707-654-1186 or visit www.cma.bkstr.com for information regarding cost and availability.

*Fees are used for the following: Tuition ($4884), Health Services ($680), Student Body ($210), Health Facility ($14), Port Pass ($30), and Instructionally Related Activities ($150). All CSU fees, including Tuition, should be regarded as estimates that are subject to change upon approval by The Board of Trustees.

In addition to the above, the following fees may apply:

♦ Students going on cruise or on study-abroad as required by the major must pay $4,000 in addition to the current year totals.
♦ Students without appropriate personal health insurance will automatically be charged $1,068 for health insurance through Cal Maritime.
♦ Non-California residents pay an additional $372.00 per unit.
♦ Those obtaining a second baccalaureate must pay an additional $1,134 per year.
♦ Students living off campus will have a slight variation of fees.
♦ Third year students in licensed programs must pay an additional $1,100 for a firefighter course.
♦ Seniors who are not going on cruise are budgeted for eight months of expenses.

FEE WAIVERS

The California Education Code includes provisions for the waiver of mandatory systemwide fees as follows:

Section 66025.3 – Qualifying children, spouses/registered domestic partners, or unmarried surviving spouses/registered domestic partners of a war veteran of the U.S. military who has a service-connected disability, who was killed in action, or died of a service-connected disability and meets specified income provisions; any dependents or surviving spouse/registered domestic partner who has not remarried of a member of the California National Guard who was in the line of duty and in active service of the state was killed or became permanently disabled or died of a disability as a result of an event while in active service of the state; and undergraduate students who are the recipient of or the child of a recipient of a Congressional Medal of Honor and meet certain age and income restrictions;

Section 68075 (a) – An undergraduate student who is a member of the Armed Forces of the United States stationed in this state on active duty, except a member of the Armed Forces assigned for educational purposes to a state-supported institution of higher education, is entitled to resident classification only for the purpose of determining the amount of tuition and fees. (b) A student seeking a graduate degree who is a member of the Armed Forces of the United States stationed in this state on active duty, except a member of the Armed Forces assigned for educational purposes to a state-supported institution of higher education, shall be entitled to resident classification only for the purpose of determining the amount of tuition and fees for no more than two academic years, and shall thereafter be subject to Article 5 (commencing with Section 68060).

Section 68120 – Qualifying children and surviving spouses/registered domestic partners of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of active law enforcement or fire suppression duties (referred to as Alan Pattee Scholarships); and

Section 68121 – Qualifying students enrolled in an undergraduate program who are the surviving dependent of any individual killed in the September 11, 2001 terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Students who may qualify for these benefits should contact the Record’s Office for further information and/or an eligibility determination.

PAYMENT FOR FEES AND OTHER UNIVERSITY CHARGES

Students may view their account balance and details of all charges at http://www.csun.edu/web/faculty-and-staff/student-services or by logging into the online payment at http://www.csun.edu/web/faculty-and-staff/online-payments. Students will receive an email notification at their official campus email address when a fee statement is posted to their account. The email provides a link to the login screen where a student can view his/her electronic statements. No fee bills, statements or reminders will be mailed.

It is the student’s responsibility to monitor his/her campus email and to view his/her account status at Online Services or through the online payment site.

One of the Payment Options below must be submitted to Accounting by the due date. Semester fee due dates are posted at http://www.csun.edu/web/faculty-and-staff/online-payments.

After the semester due date, new fees and other charges posted to the student account are due within 24 hours after assessment.

Students adding courses with fees (Cruise, Co-Op, Firefighting, etc.) after the semester’s posted “Last Day to Add” must submit a completed Late Add form and may be required to remit payment before registering for the course.

Payment Options

1. E-check (electronic check) payments are made online by following the link on our web site or through Online Services. There is no fee to make a payment online by e-check.

2. Credit/Debit Card payments are accepted online by following the link on our web site or through Online Services. All credit and debit card payments must be processed online. A convenience fee is assessed by the third party vendor who processes credit/debit card payments. Accepted cards include MasterCard, American Express and Discover.

VISA cards are not accepted.

3. Check or money order payments mailed should be addressed to:
   The California Maritime Academy
   Attn: Cashier
   200 Maritime Academy Drive
   Vallejo, CA 94590-8181

In order to ensure payments are received and posted to your account by the due date, please mail payments at least 10 business days prior to the due date.

4. Check, money order or cash payments are accepted at the campus Cashier’s office.

5. You may submit an approved Installment Payment Plan with required deposit and administrative fee by the due date. An application form and eligibility requirements are available from our web site at www.csun.edu.
6. You may defer payment for the amount of fees equal to your Financial Aid award for the semester. To be eligible, a student must apply for financial aid and complete all paperwork (applications, promissory notes, tax records, pre-loan counseling, fee waiver forms, third party sponsor authorizations, etc.), clear all holds and be enrolled in the units necessary to qualify for the aid award prior to the fee due date. If the award is not sufficient to cover all fees, the student must remit payment for the balance by the fee due date. A student requesting deferment for financial aid and not certified by Financial Aid by the fee due date will be subject to cancellation of enrollment. Upon completion of Financial Aid certification, the student may re-enroll, subject to class availability, during the first week of class. A late registration fee may be assessed. If a financial aid award or other third party sponsorship is changed or disallowed, the student is immediately responsible for payment in full.

7. Payments returned by the bank for any reason are subject to an administrative fee. A returned payment will be considered the same as no payment. Students who have a payment returned by the bank are required to pay by cash, certified check, money order or online by credit card.

CONSEQUENCES OF NON-COMPLIANCE

One of the Payment Options must be submitted to Accounting by the fee due date. After the due date, students with outstanding balances are subject to cancellation of enrollment. The student may re-enroll during the first week of classes, subject to availability. A late registration fee may be assessed. Meal plans may be deactivated until the account is no longer delinquent. In the event of deactivation due to non-payment of fees, the plan charge will not be prorated for the time meal service was suspended.

If a student misses a scheduled payment on an installment payment plan, the student is subject to a late payment fee and may be subject to cancellation of enrollment. Also, the student will not be eligible for future installment payment plans.

Should a student fail to pay a fee or a debt owed, the University may “withhold permission to register; to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt” until the debt is paid (Title 5, California Code of Regulations, Section 42380 and 42381).

In accordance with this regulation, it is the policy of The California Maritime Academy that any student with a balance due will not be allowed to register for classes, take final exams, receive grades, receive official transcripts of grades, participate in any cruise, undergo the selection process for commercial cruise or benefit from the other services offered by the institution. In addition, the University may offset refunds to financial aid recipients in order to return the funds to the aid programs if required due to dropping units or withdrawing from the University.

If a student leaves the institution with unpaid fees or fines due the University, those amounts will automatically convert to a student loan on the last day of the semester the student last attended. The loan is due and payable to the University no later than June 30th of the academic year the student last attended.

In addition, the University may also report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact the Accounting Office, 707-654-1000. The Accounting Office will review all pertinent information provided by the person and available to the campus and advise the person of its conclusions. In all cases, it is important to act timely when requesting a review of debts and possible refunds.

Refund of fees does not constitute formal withdrawal from the University. To withdraw formally, a student must contact the Student Records Office in writing with their intent to withdraw.

Refund of fees does not constitute formal withdrawal from the University. To withdraw formally, a student must contact the Student Records Office in writing with their intent to withdraw.

Refunds governing the refund of mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 in Title 5 of the California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide fees and campus fees that are required to be paid in order to enroll in state-supported academic programs at the California State University. Refund of fees and tuition charges for self-support programs at the California State University (courses offered through Extended Learning/Continuing Education) are governed by a separate policy established by the University.

In order to receive a full refund of mandatory fees, including non-resident tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on the procedures and deadlines for canceling registration and dropping classes is available from the Student Records Office. If a student is withdrawing from the University after classes have begun, it is his/her responsibility to submit written notification to the Student Records Office.

For state-supported semesters, quarters, and non-standard terms or courses of four (4) weeks or more, a student who withdraws during the term in accordance with the University’s established procedures will receive a refund of mandatory fees, including non-resident tuition, based on the portion of the term during which the student was enrolled up to the date of formal withdrawal from the University.

A student who fails to drop registration prior to the 60% point in the semester, or fails to officially withdraw from the University, shall not be entitled to any refund of registration, non-resident tuition, mandatory or user fees.

For state-supported semesters, quarters, and non-standard terms or courses of less than four (4) weeks, no refunds of mandatory fees and nonresident tuition will be made unless a student cancels registration or drops all classes prior to the first day in accordance with the University’s established procedures and deadlines.

CANCELLATION OF REGISTRATION OR WITHDRAWAL FROM THE INSTITUTION

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the University’s official withdrawal procedures. Failure to follow these formal procedures may result in an obligation to pay fees, as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term.

Information about canceling registration and withdrawal procedures is available from the Student Records Office, 707-654-1200.

Students who receive financial aid funds must consult with the Financial Aid Office prior to withdrawing regarding any required return or repayment of grants, loan assistance or third party payments received for that academic term or payment period. If a recipient of student financial aid funds or third party sponsor payments drops his/her registration from courses or withdraws from the University during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions. This includes amounts in excess of fees which were passed through to the student by way of student refunds.

For additional information about returns of financial aid, please contact the Financial Aid Office at 707-654-1275.

REFUND POLICY

Registration, Mandatory Fees and Nonresident Tuition
When a student requests a refund or withdraws from the University, an audit is made on the account to verify the actual amount that should be returned.

Any refund due a student is applied first toward any required return of student financial aid funds from federal, state, institutional, or external sources, then towards any outstanding fees or debts to the University.

Any remaining balance may be returned to the student or to the parents if the balance is the result of a Parent Plus Loan. Credit balances of less than $10.00 will not be refunded. Information concerning any aspect of the refund of fees may be obtained from the Accounting Office.
3. The University makes a delayed decision that the student was not eligible to enroll in the term for which mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or

4. The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition for a refund demonstrating exceptional circumstances, and the Chief Financial Officer of the University or a designee may authorize a refund if it is determined that the fees and tuition were not earned by the University. Information concerning any aspect of the fees may be obtained by visiting our web site or from the Cashier’s Office at 707-654-1030.

COURSE FEE REFUNDS

All course refunds require the student to officially drop the course either through Online Services or Student Records. Any fees owed to the University or returns to financial aid will be deducted first from the credit balance. Any remaining credit balance on the student’s account will be refunded unless the student requests that the credit remain on account for future registration.

 FIREFIGHTING

Refunds for Firefighting will be made as follows:

A. Up to 7 calendar days before the start of the class—full refund
B. Less than 7 days before the start of the class—less an administrative charge of $25
C. After the start of the class—no refund

CRUISE

Refunding cruise fees are made in accordance with the following principles:

A. Refunds are made only for students who did not attend cruise and who officially dropped the course.
B. Refunds are not made when a student leaves the ship after the cruise has started.

a) Non-refundable fees include drug testing and document fee
b) All other fees are refunded as in Section 1 above

COMMERCIAL CRUISE AND CO-OP COURSE FEE REFUNDS

A. Up to 30 calendar days before the start of the class session—full refund
B. From 30 to 15 calendar days before the start of the class session—less an administrative charge of $25
C. Less than 15 days before the start of class session—less an administrative charge of $50
D. After the start of the class session during the following 60-day period—less an administrative charge of $75
E. More than 60 days after the start of the class session—no refund

Welding and Manufacturing Processes Lab Fee Refunds

Full refund is issued for those students who officially drop the class no later than the 3rd class meeting. After the 3rd class meeting, no refunds will be made.

MT Lab Fee Refund

Refunds are made only for students who did not attend cruise and who officially dropped the course. Refunds are not made when a student leaves the ship after the cruise has started.

REFUNDS OF OTHER UNIVERSITY FEES

Parking Permit Refunds

Parking on campus is by permit only. Requests for refunds must be submitted in the same semester as the permit was issued. Refunds are prorated from the start of the semester to the date the permit is returned based on the schedule provided by The CSU Chancellor’s Office Parking Fee and Refund Schedule. Additional information may be obtained from the Public Safety Office at 707-654-1176.

Housing and Food Service Refunds

Housing and food service refunds are processed according to the terms of the Housing License Agreement. After the 60% point of the semester, no refunds are made. Students desiring to live off-campus must submit a Petition for Off-Campus Housing to the Director of Housing and Residence Life for approval by the published due date. Additional information may be obtained from Housing at 707-654-1400.
FINANCIAL AID

Regardless of family income, financial aid is available to all students to assist with the cost of education. Cal Maritime encourages all students to apply for financial aid. However, it is the student's responsibility to apply for and complete all requirements for financial aid. Additional information is available online at www.csum.edu/web/admissions/financial-aid or can be obtained from the Financial Aid Office (707-654-1275 or finaid@csum.edu).

Cal Maritime offers a variety of financial aid programs to students needing assistance in financing their education. Funds are made available by the U.S. Department of Education, the State of California, private lending institutions, and The California Maritime Academy, with support from our philanthropic donors. Kinds of financial assistance include scholarships, grants, loans, and employment opportunities. Assistance can be in the form of need-based or non-need-based sources of financial aid. Need at Cal Maritime is defined through the Federal Methodology (FM) by the Free Application for Federal Student Aid (FAFSA).

APPLYING FOR FINANCIAL AID

The Free Application for Federal Student Aid (FAFSA) is the basic application required for most state and federal financial assistance. Applications are available online and can be submitted beginning January 1 before the start of the academic year (i.e., January 1, 2011, for the 2011-12 school year). The web site is www.fafsa.ed.gov. A PIN is necessary to sign the FAFSA. PINs can be applied for at www.pin.ed.gov. If the FAFSA is filed before the parent or student files taxes, that person may fill out the FAFSA and submit corrections upon completion of the taxes. Priority for grants is given to those FAFSAs submitted by March 2.

Scholarships for Continuing Students

Continuing students may apply for the California Maritime Academy Foundation Scholarships as soon as they receive an e-mail in January. The applications are due in approximately one month. Applicants are chosen based on merit (cumulative GPA), need (Expected Family Contribution from FAFSA application), leadership and community service, and essays. Other determining factors may be home state or the student’s major, depending upon the donor's wishes. The Scholarship Committee spends a month or more evaluating and awarding the students. Students are notified before the end of spring semester of their scholarship for the next academic year.

Cal Maritime receives annual scholarship funds from individuals, corporations, foundations, and professional associations. The California Maritime Academy Foundation manages a number of scholarship endowedments, many of them named in memory of distinguished individuals associated with The California Maritime Academy.

Scholarships for New Students

Future Scholars

These scholarships are awarded to California high school graduates who meet regular CSU admissions requirements and are economically, environmentally, or educationally disadvantaged. A low Expected Family Contribution (EFC) from the FAFSA is needed for consideration for this award. These scholarships are awarded thanks to the California lottery proceeds which are given to Cal Maritime.

Athletic Scholarships

Athletic Scholarships are awarded to incoming students who show athletic prowess in certain areas of Cal Maritime's Athletic Program. Due to budgetary constraints, there are very few of these scholarships. These awards are initiated by the Department of Athletics.

Western Undergraduate Exchange (WUE) Scholarships

Cal Maritime participates in the Western Undergraduate Exchange (WUE) program administered by the Western Interstate Commission of Higher Education (WICHE). Through this program, a limited number of out-of-state students are awarded the WUE scholarship and pay 150% of the resident state university fee, $7,326 in 2011-12, instead of the out-of-state rate, $16,044. Students from the states of Alaska, Arizona, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming are eligible. The tuition reduction for those awarded in 2011-2012 is $8,718 or more depending on the number of units enrolled.

To be eligible for consideration, a student must meet the following requirements: (a) be accepted as a full-time resident student at The California Maritime Academy, and (b) be a resident of a WICHE member state. Inquiries for WUE should be directed to the Office of Admissions. To apply, please complete the application for undergraduate admission through CSU Mentor at www.csummentor.edu between October 1 and November 30 prior to fall enrollment. Applications after the priority date will be considered on a case-by-case basis.

To remain in Cal Maritime’s WUE program in succeeding years, students must complete a minimum of 12 graded credit hours per semester and maintain a 2.25 cumulative grade point average as a freshman and a minimum 2.5 cumulative grade point average thereafter. Students may participate in the program for a maximum of eight (8) semesters. There are no appeals if a student’s grades drop below the respective 2.25 and 2.5 GPA requirements; however, WUE status may be reinstated when appropriate GPA levels are regained upon approval of the WUE oversight committee for the following academic year. Please contact the Financial Aid Office for further details on WUE reinstatement application procedures.

FEE WAIVERS

The California Education Code includes provisions for the waiver of mandatory systemwide fees as follows:

Section 66205.3 – Qualifying children, spouses/registered domestic partners, or unmarried surviving spouses/registered domestic partners of a war period veteran of the U.S. military who is totally service-connected disabled or who died as a result of service-related causes; children of any veteran of the U.S. military who has a service-connected disability; veteran who was killed in action, or died of a service-connected disability and meets specified income provisions; any dependents or surviving spouse/registered domestic partner who has not remarried of a member of the California National Guard who in the line of duty and in active service of the state was killed or became permanently disabled or died of a disability as a result of an event while in active service of the state; and undergraduate students who are the recipient of or the child of a recipient of a Congressional Medal of Honor and meet certain age and income restrictions.

Section 68120 – Qualifying children and surviving spouses/registered domestic partners of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of active law enforcement or fire suppression duties (referred to as Alan Pattee Scholarships).

Section 68121 – Qualifying students enrolled in an undergraduate program who are the surviving dependent of any individual killed in the September 11, 2001 terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Students who may qualify for these benefits should apply through CSU Mentor.

The most prominent fee waiver at CMA is the CSU Veterans’ Fee Waiver. To receive this waiver, please make sure the Financial Aid Office receives a letter stating the student’s eligibility from the student’s local VA office by the end of July for the academic year.

GRANTS

Federal Pell Grant Program

Pell Grants are federally-funded need-based grants. A FAFSA is required to qualify for Pell Grants. This grant program is targeted to students who have the least ability to finance their education. This grant is not available to students who have already received a baccalaureate degree.

Pell Grants are awarded based on full-time, three-quarter time, half-time or quarter-time status. Students are awarded based on their financial need as calculated. The award may be adjusted based on units at census date.

Full time ............................................. 12 or more units
3/4 time ............................................. 9 to 11.9 units
1/2 time ............................................. 6 to 8.9 units
1/4 time ............................................. 3 to 5.9 units

Federal Supplemental Educational Opportunity Grant Program (FSEOG)

This federal grant program is targeted to undergraduate students with high financial need. Priority is given to Federal Pell Grant recipients. These funds are awarded directly by Cal Maritime and are limited to the total amount allocated to the college by the U.S. Department of Education. Priority is given to those who have completed their FAFSA by March 2.
Cal Grant A & B
The California Student Aid Commission awards these grants to California residents who have displayed academic achievement and financial need. Cal Grant A helps low- and middle-income students with college tuition and fees. Cal Grant B provides a living allowance (and sometimes tuition/fee assistance) for very low-income, entering first-year students. Students must apply for the Cal Grant by completing their FAFSA by the March 2 deadline and, if necessary, the GPA Verification Form. This grant is not available to students who have already received a baccalaureate degree.

State University Grants
This grant, awarded by the State, is offered to eligible California residents who pay the State University Fee. Preference is given to high-need students who have filed their FAFSA by March 2. Students who have their State University Fee paid with a Cal Grant or by another outside agency are not eligible to receive this award.

Federal Stafford Loan
is adjusted annually depending upon the Perkins Loan be enrolled at least half-time. The amount of the loan accrues while you are in school and during a 9-month grace period after you either leave school, or cease to be enrolled at least half-time. The amount of the loan is adjusted annually depending upon the Perkins Loan funds available for disbursement.

Federal Stafford Loan
The Subsidized Federal Stafford Loan is a need-based, deferred payment loan (principal and interest). Repayment begins six months after the student ceases to be enrolled at Cal Maritime at least a half-time student (six units).

This grant is not available to students who have already received a baccalaureate degree.

State University Grants
This grant, awarded by the State, is offered to eligible California residents who pay the State University Fee. Preference is given to high-need students who have filed their FAFSA by March 2. Students who have their State University Fee paid with a Cal Grant or by another outside agency are not eligible to receive this award.

Federal Stafford Loan
The Subsidized Federal Stafford Loan is a need-based, deferred payment loan (principal and interest). Repayment begins six months after the student ceases to be enrolled at Cal Maritime at least a half-time student (six units).

Students must complete a FAFSA to determine eligibility for loans. Students should apply online at www.fafsa.ed.gov. A pin is required for signature for both student and parent, if the student is dependent according to the U.S. Department of Education regulations. Paper copies of the FAFSA and FAFSA on the Web are available from the Financial Aid Office. Stafford Subsidized Loans have an interest rate of 5.6% in 2009-10, 4.5% in 2010-11, 3.4% in 2011-12, and 6.8% in 2012-13.

An Unsubsidized Federal Stafford Loan is similar to the Subsidized Federal Stafford Loan, except interest payments are not being paid by the federal government and while the student is enrolled and the interest rate is 6.8%. The student can either pay the interest as it comes due or may have the interest capitalized. Students must complete a FAFSA to determine eligibility for loans. Students should apply online at www.fafsa.ed.gov.

Stafford Subsidized Loans*
0 to 30 units................................. $3,500
30.1 to 60 units............................... $4,500
59.9 to 90 units.............................. $5,500
90.1 units +................................. $5,500

* Subsidized Loans are need-based. If the student has no need, this amount is offered in Unsubsidized Loans.

Stafford Unsubsidized Loans*
Dependent Students Independent Students
0 to 30 units................................. $2,000 $6,000
30.1 to 60 units............................... $2,000 $6,000
59.9 to 90 units.............................. $2,000 $7,000
90.1 units +................................. $2,000 $7,000

Federal PLUS Loan
The Federal PLUS (Parent Loan for Undergraduate Students) helps parent borrowers pay college expenses for dependent students. Parents of dependent undergraduate students may borrow up to the cost of education minus any financial aid received by the student.

The interest rate for this loan is 7.9% for Direct Loans, 8.5% for FFEL Loans. Payments on this loan begin immediately, although payment can be deferred by the lender for up to six months after the student is at least half-time enrolled.

To qualify for a PLUS loan, parents must be a U.S. citizen or an eligible non-citizen, have a valid social security number and pass a credit check.

For the credit check, parents generally must not have any outstanding tax liens, unpaid judgments, delinquent or defaulted loans, extensive credit card debt, bankruptcy, foreclosure or wage garnishment within the past five years. Parents who cannot pass the credit check may still be able to receive a PLUS loan if they know someone who can pass the credit check and is willing to co-sign their loan.

Dependent students whose parents have been denied a PLUS loan may want to apply for an Unsubsidized Stafford Loan and should e-mail a request to the Financial Aid Office if the student would like an additional Unsubsidized Stafford Loan.

Alternative Loans
In addition to the federal loan program, many lenders offer alternative educational loans. At Cal Maritime, alternative or private loans are discouraged. These loans have variable rates and are not federally regulated. We recommend that students use alternative loans only as a last resort, since interest rates are higher for these loans and are based on credit ratings. If students would like an alternative loan, they will be asked to complete a FAFSA and will be asked to use the federal options first.

STUDENT EMPLOYMENT
For many students, employment is a supplement to borrowing. Students should attempt to establish a reasonable balance between their academic efforts and work schedules. Consequently, student employees may not work more than 20 hours per week except during periods when classes are not in session.

Cal Maritime is an Equal Opportunity Employer. The Financial Aid Office reaffirms the State’s and Cal Maritime’s commitment to equal opportunity to all regardless of race, color, creed, national origin, ancestry, gender, marital status, disability, religious or political affiliation, age, or sexual orientation.

Federal Work Study Program
Federal Work-Study (FWS) students receive priority placement in student employment on campus. FWS is a need-based financial aid program which provides part-time employment for students. Work-Study jobs assist students financially and may provide career related work experience. Pay rates vary depending on job requirements and student skills. To receive priority consideration, complete the FAFSA by March 2 for the upcoming year.

ELIGIBILITY REQUIREMENTS FOR FEDERAL FINANCIAL AID
Each Federal program has its own set of requirements governing the administration and receipt of funds from the program. These requirements are subject to change at any time.

Listed below are common student eligibility requirements for all of the programs. A student must be a U.S. citizen or an eligible non-citizen as well as meeting the following criteria:

♦ must not be in default on an educational loan,
♦ must not owe a refund on a federal grant,
♦ may be ineligible if convicted of drug distribution or possession,
♦ must be registered with Selective Service (if required),
♦ must agree to use the funds only for expenses related to attending Cal Maritime,
♦ must be enrolled in a degree granting program,
♦ must have a high school diploma or have completed high school equivalency, and
♦ must be maintaining financial aid satisfactory academic progress toward a degree.

FINANCIAL AID SATISFACTORY ACADEMIC PROGRESS
It is the policy of The California Maritime Academy that all students receiving Title IV assistance meet Satisfactory Academic Progress (SAP) standards as defined by the Academy in accordance with Subpart C part 668, Student Assistance General Provisions, of the Student Financial Aid Regulations.
This policy has been established to ensure that Title IV recipients meet the criteria indicated below regardless of whether or not they previously received aid. The programs governed by these regulations are as follows:

1) Federal Pell Grant
2) Federal Supplemental Educational Opportunity Grant (SEOG)
3) Cal Grants (A & B)
4) Federal Work Study
5) Federal Perkins Loan
6) Federal Stafford Loan
7) Federal PLUS Loan
8) State University Grant

Satisfactory Academic Progress Standards
The federal government mandates that every student be subject to Satisfactory Academic Progress (SAP) guidelines in order to receive financial aid. When initiating the financial aid process, all transfer credit history and past performance are subject to SAP guidelines. Students must demonstrate proper SAP in order to receive financial aid.

Satisfactory Academic Progress (SAP) standards are measured both qualitatively and quantitatively. In order to maintain qualitative standards, students must maintain at least at 2.0 cumulative grade point average.

To be maintaining quantitative standards, students must satisfactorily complete at least 2/3 of all units attempted (cumulatively) and must complete their program within 150% of the published length of the program, measured in academic terms and credit hours attempted. The determination of a student’s academic progress will be made following the spring semester.

Examples: Cal Maritime’s degrees are meant to be completed in 8 terms of full-time enrollment. 150% of 8 terms is 12 terms. Therefore, students attending Cal Maritime on a full-time basis must complete their degree in no more than 12 terms or 6 full years.

If a major contains 120 units to be completed, students in that program may take no more than 180 units (150% of 120 units) to complete the degree.

If a student has attempted 90 units, 60 (2/3 of 90) must be completed satisfactorily.

Minimum Cumulative Grade Point Average
Students must maintain a cumulative grade point average of at least 2.00.

Incomplete courses do not earn credit or influence the grade point in the semester that the course is incomplete. The courses will earn credit and influence the grade point average once they are completed. Incomplete courses, however, are considered as units attempted.

Minimum Completion Ratio
(Credit Hours Completed/Attempted)
To be considered making satisfactory academic progress, a student must successfully complete 67% (or 2/3) of the units attempted cumulatively.

Letter grades of A, B, C, D, W, WU, CR, NC, I, IC and RD are all considered towards units attempted. Only the letter grades of A, B, C, D, F and CR are considered towards units completed.

Courses validated by special examination (V) and courses accepted from another college (T) are not included in the determination of minimum credit hours earned per academic year, but are included in the determination of the maximum time frame.

Maximum Terms of Enrollment to Earn a Baccalaureate Degree
Maximum Terms of Enrollment is defined as the maximum number of full-time terms that a student may take to complete a degree program or certificate before losing financial aid eligibility. For students to remain eligible for Title IV aid, they must complete their Baccalaureate Degree within 12 terms (150% of the 8 total full-time terms normally required to complete their degree).

Maximum Credits Attempted to Earn a Baccalaureate Degree
Maximum Credits Attempted is defined as the maximum number of units that a student may attempt to complete a degree program or certificate before losing financial aid eligibility. For students to remain eligible for Title IV aid, they must complete their Baccalaureate Degree prior to attempting 150% of the total units required to complete their degree.

Minimum Cumulative Grade Point Average
Students must maintain a cumulative grade point average of at least 2.00.

Incomplete courses do not earn credit or influence the grade point in the semester that the course is incomplete. The courses will earn credit and influence the grade point average once they are completed. Incomplete courses, however, are considered as units attempted.

Minimum Completion Ratio
(Credit Hours Completed/Attempted)
To be considered making satisfactory academic progress, a student must successfully complete 67% (or 2/3) of the units attempted cumulatively.

Letter grades of A, B, C, D, W, WU, CR, NC, I, IC and RD are all considered towards units attempted. Only the letter grades of A, B, C, D, F and CR are considered towards units completed.

Courses validated by special examination (V) and courses accepted from another college (T) are not included in the determination of minimum credit hours earned per academic year, but are included in the determination of the maximum time frame.

Maximum Terms of Enrollment to Earn a Baccalaureate Degree
Maximum Terms of Enrollment is defined as the maximum number of full-time terms that a student may take to complete a degree program or certificate before losing financial aid eligibility. For students to remain eligible for Title IV aid, they must complete their Baccalaureate Degree within 12 terms (150% of the 8 total full-time terms normally required to complete their degree).

Maximum Credits Attempted to Earn a Baccalaureate Degree
Maximum Credits Attempted is defined as the maximum number of units that a student may attempt to complete a degree program or certificate before losing financial aid eligibility. For students to remain eligible for Title IV aid, they must complete their Baccalaureate Degree prior to attempting 150% of the total units required to complete their degree.

Since the total units vary slightly between classes, an average total is used for calculating maximum time frame.

For example, a Business Administration/International Business Logistics major who has attempted 180 units and still not completed his/her baccalaureate degree would be ineligible for financial aid.

Transfer units accepted by The California Maritime Academy will be included as part of the maximum credits attempted toward the completion of a degree.

For a course that has been repeated, only the final hours count towards the completion of a degree. However, each time a student enrolls in a course, the course is counted as part of the units attempted.

NOTICE OF FINANCIAL AID WARNING/SUSPENSION
All students being placed on financial aid SAP Warning or who are disqualified for aid due to SAP will be notified in writing of their status by the Financial Aid Office. Students who are on financial aid SAP Warning are eligible to receive financial aid. Students who are disqualified for aid due to SAP must bring their cumulative GPA and/or units completed/attempted percentage up to SAP levels at their own expense prior to any new aid being made available.

The first time a student does not maintain a cumulative 2.0 Grade Point Average (GPA), he or she will be placed in SAP Warning for one term.

At the end of the Warning term, if the student’s cumulative GPA is still below 2.00, the student will become ineligible for financial aid until his/her cumulative GPA is 2.0 or above. If, however, at the end of the Warning term, the student’s cumulative GPA is 2.0 or higher, he/she will be off financial aid SAP Warning and will continue to be eligible for financial aid. The second year a student’s cumulative GPA drops below 2.0, he/she will become ineligible for financial aid immediately.

A student who does not satisfactorily complete the required percentage of units will be placed on financial aid SAP Warning for one term. At the end of the Warning term, if the student’s completion ratio drops below 2/3, the student will become ineligible for financial aid until his/her cumulative completion ratio is 2/3 or better. If, however, at the end of the Warning term, the student’s completion ratio is 2/3 or better, he/she will be off financial aid SAP Warning, and will continue to be eligible for financial aid. The second year a student’s completion ratio drops below 2/3, he/she will become ineligible for financial aid immediately.

Right to Appeal Procedures
All Title IV recipients have the right to appeal a financial aid suspension decision by submitting an appeal to the Financial Aid Office. The appeal should consist of a written explanation of the mitigating circumstances that affected their academic performance, and how the student will ensure academic success in the future.

Students are notified of the appeal decision.

Eligibility for Reinstatement
A student who has been deemed ineligible for financial aid due to SAP may be reinstated for federal financial assistance after one or more of the following:

- approval of an appeal to the Financial Aid SAP Committee and/or
- successful completion of the academic deficiencies at his or her own expense.

In cases of suspensions and/or denial appeals, the student will be required to notify the Financial Aid Office with the proper documentation when he/she is eligible for reinstatement. After eligibility has been established, any award will depend upon the student meeting all other eligibility requirements and the availability of financial aid funds.

WITHDRAWAL FROM THE CALIFORNIA MARITIME ACADEMY

Courses from which a student withdraws prior to “last day to drop with no grade reported” do not count against attempted or completed. Courses dropped after “last day to drop with no grade reported” are counted as uncompleted units attempted.

Financial aid recipients are obligated to remain enrolled and pass a certain number of units. Upon a financial recipient’s withdrawal from school prior to the end of the term, Cal Maritime is required by the Federal government to calculate whether a return of the federal financial aid funds is required. Students should refer to RETURN OF TITLE IV FUNDS section below.

All financial aid recipients should speak to a financial aid counselor to discuss the impact of any proposed changes in enrollment such as dropping a course, repeating a course, or withdrawing from the University.

Any of these changes may affect his/her satisfactory academic progress and future eligibility for financial aid.

RETURN OF TITLE IV FUNDS (FEDERAL REQUIREMENT)

Policy: Financial aid recipients are obligated to remain enrolled and pass a certain number of units. Upon a financial aid recipient’s withdrawal from school, Cal Maritime is required by the federal government to calculate if any return of funds is mandated and, if the funds should be returned, return them to the Department of Education, the lender or Cal Maritime. The reason for this policy is to ensure that students are not overcharged by the school.

At Cal Maritime, in accordance with California State University procedures, a proration is also performed on the charges the student has incurred to ensure even greater equity for the student.

Calculations: The portion of financial aid to be returned is determined by the percentage of financial aid not earned by the student. The percentage of unearned aid is calculated using the following formula:

Total Number of Calendar Days in the Semester Not Completed by the Student
Divided by the Total Number of Calendar Days in the Semester

During the first 60% of the enrollment period, a student “earns” Title IV funds in direct proportion to the length of time he or she remains enrolled. A student who remains enrolled beyond the 60% point earns all aid for the period.

A student who withdraws from the university before the 60% period (approximately before the 10th week of classes) may be required to return all or a portion of the federal financial aid funds. The amount to be returned will be based on the formula stated above by calculating the financial aid funds that were used to pay the student’s registration fees and campus housing obligations as well as the portion directly disbursed to the student.

Note: When a student withdraws without notifying the Records Office, the withdrawal date is the midpoint of the semester.

PRIORITY ORDER OF UNEARNED FUNDS RETURNED

Unearned funds returned are credited to outstanding federal loan balances and grant programs received by the student in the following priority order:

- Unsubsidized FFELP Federal Stafford Loans
- Subsidized FFELP Federal Stafford Loans
- Federal Perkins Loans
- PLUS Loans
- Federal Pell Grant
- Federal SEOG
- Other Title IV assistance for which a return of funds is required.

The student’s portion of the calculated amount attributable to a Title IV loan program may be repaid by the student according to the loan’s terms. The student’s portion of unearned aid attributed to a grant is reduced to 50%. The student has 45 days to enter into a repayment arrangement with Cal Maritime or with the U.S. Department of Education.

CONSEQUENCES OF OUTSTANDING REPAYMENT OBLIGATION

Cal Maritime does not have the authority to waive or write off the repayment requirement regardless of the reason for the withdrawal, including extenuating circumstances such as illness, accident, or grievous personal loss.

A student who fails to return the unearned Federal Financial Aid funds will be referred to the U.S. Department of Education for collection, and the university may withhold permission to register to use facilities, or to render services. Until the repayment issue is resolved, the student’s record will be “flagged” every time a student files a Free Application for Federal Student Aid (FAFSA). A student in repayment is ineligible for federal financial aid at any institution in the nation.

RETURN OF TITLE IV FUNDS–CALCULATION EXAMPLE

Joe Smith withdrew on September 22nd. The semester began on August 30th, ends on December 15th, and is 108 calendar days long. For that semester, Joe received $1500 in Pell, $250 in SEOG, $1500 in Subsidized Stafford Loan and $300 in Federal Perkins loan. Registration and fees were $786, and the amount was deducted from his financial aid.

Total Financial Aid Received $3550
Total Fees Paid Using Financial Aid Funds $786

Amount of Financial Aid the Student Must Return $2769

The student must repay $2769 of the total amount received.

Student Returns:

- $2769 Unearned Aid Amount
- $613 Cal Maritime Returns to FFELP Stafford Loan
- $2156 Amount Student Must Return

Cal Maritime Returns:

- $613 to Stafford Loan program.
- The student loan obligation for the semester is reduced by this amount.

**Student repays only 50% of the unearned aid attributable to a grant and has 45 days to enter into a satisfactory repayment arrangement with Cal Maritime or the Department of Education.**
the preceding June 15. Applications for fall enrollment must be received by contact the Office of Indian Education 916-978-4680. Interested students will need to contact the Office of Indian Education 916-978-4680. Applications for fall enrollment must be received by the preceding June 15.

Law Enforcement Personnel Dependents Grant (LEPD) The California Student Aid Commission provides subsistence payments to dependents of law enforcement and firefighter personnel who have become permanently disabled or are killed in the line of duty. The grant is based upon need. Additional information and application materials are available from the California Student Aid Commission.

Academic Awards and Honors Cal Maritime maintains several programs to honor matriculating students who have earned distinction in the area of academic excellence. Recognition of those students is made through the following programs:

A. President's List The President’s List is published at the end of every semester to honor those students who have excelled academically and have earned the highest academic achievement. For the spring semester, grades will be calculated based on the traditional academic semester — cruise and co-op grades (due to the grading process) will not be included in this calculation. The student to be honored must have met the following qualifications:
- a minimum semester grade point average of 3.75,
- no grade lower than a “C,”
- a minimum of 12 graded units (excludes “CR” grades), and
- no incomplete grades.

B. Dean's List The Dean’s List is published at the end of every semester to honor those students who have excelled academically. For the spring semester, grades will be calculated based on the traditional academic semester — cruise and co-op grades (due to the grading process) will not be included in this calculation. The student to be honored must have met the following qualifications:
- a minimum semester grade point average of 3.25,
- no grade lower than a “C,”
- a minimum of 12 graded units (excludes “CR” grades), and
- no incomplete grades.

C. Honors At commencement, Cal Maritime recognizes outstanding academic students receiving baccalaureate degrees with the distinction of academic honors. The honor is based on all academic degree work completed at Cal Maritime and indicates a high level of scholastic achievement:
- cum laude, 3.25–3.49 GPA
- magna cum laude, 3.50–3.74 GPA
- summa cum laude, 3.75–4.00 GPA

Additional Sources of Assistance

Bureau of Indian Affairs Grants
The Bureau of Indian Affairs has scholarship money available to students who are enrolled members of a federally recognized tribe. Students must be enrolled full-time (12 units) and have at least a 2.0 cumulative grade point average. Interested students will need to contact the Office of Indian Education 916-978-4680. Applications for fall enrollment must be received by the preceding June 15.

Other Sources of Assistance

California State Student Aid Commission provides grants to students who are members of a federally recognized tribe. Students must be enrolled full-time (12 units) and have at least a 2.0 cumulative grade point average. Interested students will need to contact the Office of Indian Education 916-978-4680. Applications for fall enrollment must be received by the preceding June 15.

Other Sources of Assistance

California State Student Aid Commission provides grants to students who are members of a federally recognized tribe. Students must be enrolled full-time (12 units) and have at least a 2.0 cumulative grade point average. Interested students will need to contact the Office of Indian Education 916-978-4680. Applications for fall enrollment must be received by the preceding June 15.

Academic Regulation and Policies

Academic Awards and Honors
Cal Maritime maintains several programs to honor matriculating students who have earned distinction in the area of academic excellence. Recognition of those students is made through the following programs:

A. President's List
The President’s List is published at the end of every semester to honor those students who have excelled academically and have earned the highest academic achievement. For the spring semester, grades will be calculated based on the traditional academic semester — cruise and co-op grades (due to the grading process) will not be included in this calculation. The student to be honored must have met the following qualifications:
- a minimum semester grade point average of 3.75,
- no grade lower than a “C,”
- a minimum of 12 graded units (excludes “CR” grades), and
- no incomplete grades.

B. Dean’s List
The Dean’s List is published at the end of every semester to honor those students who have excelled academically. For the spring semester, grades will be calculated based on the traditional academic semester — cruise and co-op grades (due to the grading process) will not be included in this calculation. The student to be honored must have met the following qualifications:
- a minimum semester grade point average of 3.25,
- no grade lower than a “C,”
- a minimum of 12 graded units (excludes “CR” grades), and
- no incomplete grades.

C. Honors
At commencement, Cal Maritime recognizes outstanding academic students receiving baccalaureate degrees with the distinction of academic honors. The honor is based on all academic degree work completed at Cal Maritime and indicates a high level of scholastic achievement:
- cum laude, 3.25–3.49 GPA
- magna cum laude, 3.50–3.74 GPA
- summa cum laude, 3.75–4.00 GPA

Academic Board
The Academic Board is chaired by the Academic Dean and is comprised of the Academic Dean, the Academic Department Chairs and the Student Records Officer. The purpose of the Board is to consider academic issues such as academic disqualification and readmission appeals and policy issues as appropriate. The Academic Board shall call a meeting of the Academic Board on an as needed basis.

Academic Dishonesty

Policy Statement
Cal Maritime functions best when its community members treat one another with honesty, respect, and trust. Because the quality of our graduates depends on the ethics they display, faculty members are expected to act promptly on suspected cases of academic dishonesty. The following policy is controlled by the California Code of Regulations: specifically, Title 5 § 41301.

Academic Dishonesty
Cheating and academic dishonesty comprise all student behavior intended to gain unearned academic advantage or interfere with another’s academics by fraudulent and/or deceptive means.

Examples of inappropriate student conduct that can lead to the imposition of sanctions include, but are not limited to, the following: (See Academic Senate Policy #547 Inappropriate Academic Conduct)

A. Taking Information
Copying graded homework assignments from another person;
Unauthorized collaborative efforts on take home exams or graded homework;
Looking at another student’s paper during an examination;
Unauthorized use of text materials or notes during an examination.

B. Providing Information
Giving one’s work to another to be copied, paraphrased, or plagiarized;
Giving answers to another student during an examination;
After having taken an examination, passing information concerning the examination on to students who still must take it; Providing a required writing assignment for another student; Taking an exam, writing a paper, or doing a project for another student.

C. Plagiarizing
Unauthorized copying of all or parts of an article, paper, book, published work or other proprietary source, including documents from the World Wide Web, and submitting all or parts of the article or paper as one’s own work, without proper citations or attribution; Submitting a paper acquired from a “research” or term paper service; Failing to give credit for ideas, statements of fact, or conclusions derived by another author; Failure to use quotation marks when quoting directly from another source, whether it is a paragraph, a sentence, or part thereof (except in some informal writing assignments, such as reading responses or reader’s logs/journals, when the instructor has specified different guidelines) Retyping a paper written by another and handing it in for credit; Submitting a paper from house files for credit; Claiming credit for artistic work done by someone else, such as a musical composition, painting, drawing, photo, sculpture, or design.

D. Other Examples of Inappropriate Academic Conduct
Copying with one or more fellow students to engage in any form of academically dishonest conduct; Lying to an instructor to improve one’s grade; Having another student take one’s exam or do one’s computer program or lab experiment; Submitting a paper that is substantially the same for credit in two different courses without the approval of both instructors; Altering a graded exercise after it has been returned, then submitting the exercise for re-grading; Removing tests from any location without the instructor’s approval; Stealing exams or other course materials from an instructor or his or her agent; Stealing or altering an instructor’s grade book or other academic records; Using spell-check or grammar-check software on a writing assignment when expressly prohibited from doing so; Accessing, changing, or using any information or data from a computer system to gain academic advantage for yourself or any other student.

E. General Statement of Student Responsibility
The student has full responsibility for both the content of academic assignments submitted for evaluation and the integrity with which all academic work submitted for evaluation has been done. Ignorance of an express rule regarding inappropriate student conduct does not excuse one from adhering to appropriate ethical standards in the completion of academic assignments. When in doubt as to the appropriateness of any action, students are to ask their instructors for clarification and guidance.

ACADEMY PROCESS IN RESPONSE TO INAPPROPRIATE STUDENT ACADEMIC CONDUCT
Charges of inappropriate student academic conduct can be brought to the Chair of the Committee on Academic Integrity by an instructor, a student, or any employee of The California Maritime Academy. This person, if other than the instructor of record, must first discuss the matter with that instructor. The resultant protocols follow the policy of the Academic Senate, with the burden of proof on the person(s) bringing the charge of academic dishonesty, and with the student entitled to a hearing. (See Academic Senate Policy #547 Inappropriate Academic Conduct.) A summary of this policy follows. Copies of all documents pertinent to the charge should be appended to the statement of the instructor or person bringing the charge.

Committee hearings are closed to all except committee members, the charged student, the instructor, the person bringing the charge, and the charged student’s advisor, witnesses, and other appropriate campus administrators.

Committee Findings
Concurrent with the delivery of the Committee’s findings and recommended sanctions to the involved student(s) and instructor(s) and the Provost/Vice President, Academic Affairs, the Chair of the Committee shall also forward a copy of his/her findings directly to the Chair of the Discipline Review and Investigating Committee (DRIC). The DRIC is NOT to conduct separate or additional hearings on academic issues already adjudicated by the Committee on Academic Integrity. But the DRIC may initiate an inquiry and conduct hearings into whether the actions of individuals brought before the Committee on Academic Integrity also involve moral, ethical, leadership and character issues such as cheating, lying, stealing, breaking and entering, or other conduct unbecoming a cadet in training, and therefore also fall within the purview of the policies governing the DRIC.

Imposition of Sanctions
The Provost/Vice President, Academic Affairs will issue the letter to the involved student(s) setting forth the final disposition of the case and the terms of any imposed sanctions, with copies sent to the Student Conduct Coordinator and Chair of the Committee on Academic Integrity.

A copy of the Provost/VPA’s letter of final disposition is to be sent to the Student Conduct Coordinator for inclusion in the student’s file.

Student Rebuttal and Appeals
Within three days of receipt of the Committee’s findings, the charged student may submit a written rebuttal. Final disposition of the case will belong to the President.

SANCTIONS
One or more of the following sanctions may be imposed upon any student whose conduct falls short of the Academy’s standards of academic integrity:

Probation
A period of time during which limitations on status may include, but are not limited to, loss of specified privileges with acknowledgement by the student that any additional breaches of academic integrity will result in additional, more severe sanctions being imposed.

EXPULSION
A mandated discontinuation of student status and temporary removal from the Academy for a definite period of time.

Denial of Admission or Readmission
Admission or readmission to the Academy may be denied to any student found to have violated the provisions of the Academy’s Policy on Inappropriate Student Academic Conduct (Section 41303 of Title 5, California Code of Regulations).

GOOD STANDING
Imposition of a sanction or denial of (or qualification placed on) admission or reenrollment means that a student is not considered to be in good standing for purposes of admission to any institution of the California State University system, for the period during which sanctions apply (Section 40601(g) of Title 5, California Code of Regulations).

RECORD OF DISCIPLINE
Probation, suspension, and/or expulsion shall be made part of the student’s permanent academic record.

ACADEMIC STANDING
Students must maintain a cumulative grade point average of 2.00 to be considered in good academic standing (See BACCALAUREATE DEGREE REQUIREMENTS for details.) If students do not meet this standard, the following actions will ensue:

ACADEMIC PROBATION
If an enrolled student’s cumulative grade point average (GPA), as described above, falls below 2.00, or if a student transfers into Cal Maritime with less than a 2.00 GPA from previous college coursework, the student will be placed on “academic probation.” Students on academic probation must meet with their academic advisor to choose appropriate courses in which to enroll. Students will be dropped from classes if they fail to do so. Except in extraordinary cases, students shall enroll in a maximum of 15 semester credits.

SUSPENSION
Probation, suspension, and/or expulsion shall be made part of the student’s permanent academic record.
To facilitate an improvement in their grade point averages, students on academic probation are expected to repeat, within the probationary term(s), specific courses in which grades of “F” or “D” were previously earned. Additionally, they are expected to complete a minimum of 12 units with no grades of “F” and earn a 2.00 semester grade point average or raise their cumulative grade point averages above 2.00.

Students with cumulative grade point averages below 2.00 will be allowed to continue on probation if their semester grade point averages are at least 2.00 and they have completed 12 credits or more with no grades of “F” in any course taken. Students who fail to meet the above terms of probation will be academically disqualified. Except in extraordinary circumstances, students on academic probation for the spring semester must meet the terms of probation during the normal 15-week academic semester. Cruise or co-op grades at the end of the spring semester will not be available for use in the determination of a student’s academic standing.

ACADEMIC DISQUALIFICATION
If, after a semester of academic probation, a student’s cumulative grade point average is still below 2.00 and the terms of probation are not met, he or she will be academically disqualified. In addition, a student who has failed a course three times will be subject to academic disqualification. Students who have been academically disqualified will be notified by email and in a letter sent to their official mailing address on record as soon as this determination has been made. If a student feels there are extenuating circumstances that contributed to poor academic performance, an appeal must be made in writing to the Academic Dean (via the Registrar’s Office) within 10 days of the notification explaining these circumstances. Written appeals will be reviewed by the Academic Dean and the Department Chair within 10 working days of receipt.

READMISSION
An academically disqualified student may seek readmission to The California Maritime Academy after at least one full Cal Maritime semester. Complete information on the readmission process may be found on the Registrar’s Office web page. Application for readmission must be completed in full no later than November 1 for readmission for the spring semester, and May 1 for readmission for the fall semester. Any student out of attendance for more than 2 consecutive semesters must apply for readmission through the Admission Office.

In no case will an academically disqualified student be allowed to participate in the Annual Training Cruise, Commercial Cruise, or Co-ops.

In addition, students disqualified for a third failure of a course must successfully complete the course prior to readmission. Academically disqualified students may elect to enroll at Cal Maritime through Open University to register for courses in which grades of “D” or “F” were earned.

Students readmitted after academic disqualification will be admitted under current requirements for graduation, unless they have remained in “continuous attendance” at another accredited college for at least one semester or two quarters per academic year.

Students readmitted after academic disqualification will continue on probation unless through Open University or another accredited college, they have been able to raise their overall cumulative grade point averages above 2.00. Students readmitted on academic probation must adhere to the terms of academic probation as described earlier.

ADMINISTRATIVE ACADEMIC PROBATION/DISQUALIFICATION
A student may be placed on probation or may be disqualified by appropriate campus authorities for unsatisfactory scholastic progress regardless of cumulative grade point average or progress points. Such actions shall be limited to those arising from repeated withdrawal, failure to progress toward an educational objective, and noncompliance with an academic requirement, and shall be consistent with guidelines issued by the Chancellor.

The following three reasons constitute grounds for being placed on Administrative Probation:

1. Withdrawal from all or a substantial portion of their courses in two successive terms or in any three terms;
2. Repeated failure to progress toward a degree or other program objective, when such failure is due to circumstances within the control of the student;
3. Failure to comply, after due notice, with an academic requirement or regulation that is routine for all students or a defined group of students.

Students who do not meet the conditions for removal of administrative probation may be subject to further administrative actions, including Administrative Dismissal.

ACADEMIC TRANSCRIPT POLICY
Requests for official transcripts must be in writing and must be signed and dated by the student. A request should include the following information:

♦ full name (including any other names used while attending Cal Maritime);
♦ last four digits of social security number and birth date;
♦ years attended Cal Maritime or the year graduated;
♦ the address where the transcript should be sent and the department and/or person to whom it should be directed;
♦ number of copies requested;
♦ a phone number and/or email address that we may contact in case any questions should arise.

Transcripts cannot be issued to anyone with a HOLD, which is an indication of an outstanding obligation to Cal Maritime. The fee for a single transcript is $4.00. Requests will be processed within 3-10 working days. Should expedited service be required, meaning the transcript is mailed (not received) within 1-2 working days of receiving the request, the fee is $15.00. Whether for regular or expedited service, additional copies ordered at the same time are $2.00 each, and after the first ten, $1.00 each.

Please mail the request, along with a check or money order to:

The California Maritime Academy
Attn: Student Records Office
200 Maritime Academy Drive
Vallejo, CA 94590-8181

or fax the request to 707-654-1204. If faxing the request, please pay online.

For questions regarding transcripts, call Student Records at 707-654-1205. The official transcript request form is available online at http://www.csum.edu/web/faculty-and-staff/registrar/forms.

ADDITIONAL AND DROPPING OF COURSES
Students may add or drop courses up to a specific deadline in each semester. The official Add Form must be approved by the course instructor and the student’s academic advisor and submitted to the Student Records Office by the established deadline.

A. ADDING A COURSE
Students may add a course to their schedule only during the first five days of the semester. An approved Add Form must be submitted to the Records Office by the established deadline. Approval to add a course must be obtained from the course instructor and the student’s academic advisor.

B. DROPPING A COURSE
Students are allowed to drop courses online with no grade recorded on their academic transcripts during the first four weeks of instruction. Students are responsible for attending all courses in which they have registered. Non-attendance does not constitute withdrawal.

Withdrawals after the first four weeks of instruction and prior to the last three weeks of instruction may be assigned only for serious and compelling reasons (e.g., illness, accident or death in the immediate family). Students may be required to provide documentation or verification of their particular circumstances. Approval to withdraw from a course during this period must be granted by the course instructor, Department Chair, and Academic Dean.

Students may withdraw from no more than 18 semester units. If withdrawal is approved, a grade of “W” will be posted on the student’s Academic transcript, but it will not be used in calculating grade point average or progress points. Students withdrawing without a serious and compelling reason may receive a grade of “WU” in the course. Appeals may be directed to the Provost/Vice President, Academic Affairs.

Withdrawals shall not be permitted during the final three weeks of instruction except in cases, such as accident or serious illness, where the cause of withdrawal is due to circumstances clearly beyond the student’s control and assignment of an Incomplete is not practicable.
change of major

students wishing to effect a change of major may do so with the approval of the department chair of the new major. students must be in good academic standing for this approval to be granted.

change of major forms may be obtained from the student records office or at http://www.csum.edu/web/faculty-and-staff/registrar/forms.

courses

a. course challenge

students may receive credit for courses (grade: cr) by passing challenge examinations developed at cal maritime. the following rules apply:

1. students must demonstrate substantial knowledge and background in the areas they are challenging.

2. approval must be obtained for each challenge from the instructor and department chair. applications are available in the student records office.

3. the instructor must be presented with a receipt for the required fee, which must be paid prior to the challenge examination.

4. a course may be challenged only once.

5. challenges will not be approved for courses in which any grade has been assigned, including “f”, “ic”, “wu”, or “w.”

6. challenges will not be approved for courses in which a student is currently registered, or in a semester in which a student has dropped the course to be challenged.

7. challenges are not allowed in certain cases, such as the gwe exam and certain stcw classes.

b. repetition of courses

students may repeat courses only if they earned grades lower than a c. up to 16 semester units may be repeated with “grade forgiveness.” (grade forgiveness is the circumstance in which the new grade replaces the former grade in terms of the calculation of the student’s grade point average; although no longer used in the grade point average, the previous grade remains on the transcript.)

students may repeat an individual course for grade forgiveness no more than two times. grade forgiveness shall not be applicable to courses for which the original grade was the result of a finding of academic dishonesty.

cal maritime will permit students to repeat an additional 12 semester units with “grade averaging.” in such instances the repeat grade shall not replace the original grade for grade point average calculation; instead both grades shall be calculated into the student’s grade point average.

a student who receives a grade of f, wu, or ic in a course for the third time at cal maritime will be academically disqualified (see academic standing policy regarding readmission).

students repeating a course at another accredited college are expected to adhere to cal maritime’s course transfer requirements. when a course is repeated elsewhere, the student will be given credit toward meeting the graduation requirement and the overall grade point average will be affected; however the cal maritime grade point average will not be affected.

c. credit for work experience

cal maritime does not grant credit for work experience. if a student has such knowledge, he/she may apply to challenge the appropriate course that parallels the work experience.

d. credit by examination

cal maritime grants credit to those students who pass certain examinations that have been approved. these include the advanced placement (ap) examination of the college board, college-level examination program (clep), international baccalaureate (ib), and the csu english equivalency examination (eee).

e. course completion by extension or correspondence

students may complete a total of 24 semester units by extension or correspondence to meet the baccalaureate degree requirements at cal maritime. only extension or correspondence courses from accredited institutions are acceptable. the rules for course transfer apply.

f. independent study

an independent study course is substantial study above and beyond the regular offerings in the academy catalog. one to three units of credit, determined prior to registration, will be granted for independent study. the student must arrange with an academy faculty member to be the independent study advisor. grading is typically by letter grade, although the student may request the cr/nc grading basis. an approved application for independent study must be on file in the student records office by the end of the normal add period.

g. individual study

individual study applies to any course listed in the academy catalog but not offered in a particular semester. in very rare circumstances, a student may petition an instructor to offer a course that falls into this category. the department chair and instructor must approve the individual study. an application, obtained from the student records office, must be on file by the end of the normal add period.

course transfer and academic class level

a. course transfer

the student records office will be responsible for approval of course transfer. appeals can be made to the department chair.

a student may take a course concurrently at another regionally accredited college if the course is established as equivalent and approval is made prior to enrollment. the student may be expected to provide a syllabus and other information about the equivalent course prior to the approval process. the equivalent course must carry credit equal to or greater than the course offered at cal maritime. the student must have an official transcript sent to the student records office upon completion of the course, regardless of the grade earned.

units and grades earned in transferable courses completed at other colleges are not used in calculating the campus grade point average but are included in the student’s overall grade point average.

b. academic level

students are classified according to the number of overall units of baccalaureate course work completed (all college-level work, including cal maritime) for purposes of financial aid determination. level distinctions are not applicable to watch standing, priority registration, housing, graduation, or corps standing.

academic level is calculated as follows:

freshman .......................................................... 0–29.5 units
sophomore ......................................................... 30–59.5 units
junior .............................................................. 60–89.5 units
senior .............................................................. 90 or more units

faculty advisors

faculty advising is necessary for academic success. students must consult with their advisors in any of the following cases:

• registering for courses,
• adding courses,
• taking an overload, or
• having been placed on academic probation.

grading system

the quality of a student’s work is measured by a system of grades utilizing the traditional a-f grading system. the following symbols will be used in evaluating student performance, including appropriate participation in the learning experiences as well as formal testing.

a. letter grades

<table>
<thead>
<tr>
<th>letter scale</th>
<th>definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>a+, a, a-</td>
<td>performance has been of the highest level, showing sustained excellence.</td>
</tr>
<tr>
<td>b+, b, b-</td>
<td>performance has been good.</td>
</tr>
<tr>
<td>c+, c, c-</td>
<td>performance has been adequate, satisfactorily meeting the course requirements.</td>
</tr>
<tr>
<td>d+, d, d-</td>
<td>performance has been less than satisfactory.</td>
</tr>
<tr>
<td>f</td>
<td>performance has been poor, such that course requirements have not been met.</td>
</tr>
<tr>
<td>wu</td>
<td>withdrawal unauthorized. equivalent to an “f” (see section b: grade explanations).</td>
</tr>
</tbody>
</table>

change of major

students wishing to effect a change of major may do so with the approval of the department chair of the new major. students must be in good academic standing for this approval to be granted.

change of major forms may be obtained from the student records office or at http://www.csum.edu/web/faculty-and-staff/registrar/forms.

courses

a. course challenge

students may receive credit for courses (grade: cr) by passing challenge examinations developed at cal maritime. the following rules apply:

1. students must demonstrate substantial knowledge and background in the areas they are challenging.

2. approval must be obtained for each challenge from the instructor and department chair. applications are available in the student records office.

3. the instructor must be presented with a receipt for the required fee, which must be paid prior to the challenge examination.

4. a course may be challenged only once.

5. challenges will not be approved for courses in which any grade has been assigned, including “f”, “ic”, “wu”, or “w.”

6. challenges will not be approved for courses in which a student is currently registered, or in a semester in which a student has dropped the course to be challenged.

7. challenges are not allowed in certain cases, such as the gwe exam and certain stcw classes.

b. repetition of courses

students may repeat courses only if they earned grades lower than a c. up to 16 semester units may be repeated with “grade forgiveness.” (grade forgiveness is the circumstance in which the new grade replaces the former grade in terms of the calculation of the student’s grade point average; although no longer used in the grade point average, the previous grade remains on the transcript.)

students may repeat an individual course for grade forgiveness no more than two times. grade forgiveness shall not be applicable to courses for which the original grade was the result of a finding of academic dishonesty.

cal maritime will permit students to repeat an additional 12 semester units with “grade averaging.” in such instances the repeat grade shall not replace the original grade for grade point average calculation; instead both grades shall be calculated into the student’s grade point average.

a student who receives a grade of f, wu, or ic in a course for the third time at cal maritime will be academically disqualified (see academic standing policy regarding readmission).

students repeating a course at another accredited college are expected to adhere to cal maritime’s course transfer requirements. when a course is repeated elsewhere, the student will be given credit toward meeting the graduation requirement and the overall grade point average will be affected; however the cal maritime grade point average will not be affected.

c. credit for work experience

cal maritime does not grant credit for work experience. if a student has such knowledge, he/she may apply to challenge the appropriate course that parallels the work experience.

d. credit by examination

cal maritime grants credit to those students who pass certain examinations that have been approved. these include the advanced placement (ap) examination of the college board, college-level examination program (clep), international baccalaureate (ib), and the csu english equivalency examination (eee).

e. course completion by extension or correspondence

students may complete a total of 24 semester units by extension or correspondence to meet the baccalaureate degree requirements at cal maritime. only extension or correspondence courses from accredited institutions are acceptable. the rules for course transfer apply.

f. independent study

an independent study course is substantial study above and beyond the regular offerings in the academy catalog. one to three units of credit, determined prior to registration, will be granted for independent study. the student must arrange with an academy faculty member to be the independent study advisor. grading is typically by letter grade, although the student may request the cr/nc grading basis. an approved application for independent study must be on file in the student records office by the end of the normal add period.

g. individual study

individual study applies to any course listed in the academy catalog but not offered in a particular semester. in very rare circumstances, a student may petition an instructor to offer a course that falls into this category. the department chair and instructor must approve the individual study. an application, obtained from the student records office, must be on file by the end of the normal add period.

course transfer and academic class level

a. course transfer

the student records office will be responsible for approval of course transfer. appeals can be made to the department chair.

a student may take a course concurrently at another regionally accredited college if the course is established as equivalent and approval is made prior to enrollment. the student may be expected to provide a syllabus and other information about the equivalent course prior to the approval process. the equivalent course must carry credit equal to or greater than the course offered at cal maritime. the student must have an official transcript sent to the student records office upon completion of the course, regardless of the grade earned.

units and grades earned in transferable courses completed at other colleges are not used in calculating the campus grade point average but are included in the student’s overall grade point average.

b. academic level

students are classified according to the number of overall units of baccalaureate course work completed (all college-level work, including cal maritime) for purposes of financial aid determination. level distinctions are not applicable to watch standing, priority registration, housing, graduation, or corps standing.

academic level is calculated as follows:

freshman .......................................................... 0–29.5 units
sophomore ......................................................... 30–59.5 units
junior .............................................................. 60–89.5 units
senior .............................................................. 90 or more units

faculty advisors

faculty advising is necessary for academic success. students must consult with their advisors in any of the following cases:

• registering for courses,
• adding courses,
• taking an overload, or
• having been placed on academic probation.

grading system

the quality of a student’s work is measured by a system of grades utilizing the traditional a-f grading system. the following symbols will be used in evaluating student performance, including appropriate participation in the learning experiences as well as formal testing.

a. letter grades

<table>
<thead>
<tr>
<th>letter scale</th>
<th>definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>a+, a, a-</td>
<td>performance has been of the highest level, showing sustained excellence.</td>
</tr>
<tr>
<td>b+, b, b-</td>
<td>performance has been good.</td>
</tr>
<tr>
<td>c+, c, c-</td>
<td>performance has been adequate, satisfactorily meeting the course requirements.</td>
</tr>
<tr>
<td>d+, d, d-</td>
<td>performance has been less than satisfactory.</td>
</tr>
<tr>
<td>f</td>
<td>performance has been poor, such that course requirements have not been met.</td>
</tr>
<tr>
<td>wu</td>
<td>withdrawal unauthorized. equivalent to an “f” (see section b: grade explanations).</td>
</tr>
</tbody>
</table>
In the case of remedial courses (EGL 001 Introduction to Composition; EGL 105 English as a Second Language; and MTH 091 Intermediate Algebra), the grade awarded must be an A, B, C, NC basis. If a student receives a grade lower than a C, a grade of NC will automatically be awarded. Remedial courses carry units of credit that apply to the student’s unit loads for a given semester but do not apply toward graduation.

4. Audit option:
An auditor is a student who enrolls in a course for informational purposes only. A student must petition the Student Records Office to audit a class. Enrollment as an auditor is subject to permission of the instructor provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected; however, examinations and assignments are not mandatory.

Once enrolled as an auditor, a student may not change to credit status unless such a change is requested no later than the last day to add classes in that term. Likewise, a student who is enrolled for credit may not change to audit after the last day to add classes. An AU grade for the audited course will appear on the student’s transcript. An AU earns neither academic nor degree credit.

5. Incomplete authorized:
The symbol “I” (Incomplete Authorized) indicates that a portion of required course work has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements which must be satisfied to remove the Incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated.

An “I” must normally be made up by the end of the sixth week of the next academic semester unless the student requests an extension from the instructor.

This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an “I” being converted to an “IC” symbol (equivalent to an “F”).

6. Withdrawal:
The symbol “W” indicates that the student was permitted to withdraw from the course after the fourth week of instruction with the approval of the instructor and appropriate campus officials. It carries no connotation of quality of student performance and is not used in calculating grade point average or progress points. Students may withdraw from no more than 18 semester units.

C. GRADE POINT AVERAGE COMPUTATION
Grade point averages are determined by dividing the total number of weighted grade points earned in the semester by the total number of graded units attempted in the semester. A weighted grade point is determined by multiplying the grade points earned in the course by the number of units in the course. The following grade points are assigned for each equivalent letter grade:

<table>
<thead>
<tr>
<th>Letter</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.3</td>
</tr>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
<tr>
<td>W</td>
<td>0.0</td>
</tr>
<tr>
<td>IC</td>
<td>0.0</td>
</tr>
</tbody>
</table>

UNITS
A semester unit at Cal Maritime assumes a one-hour class per week for a period of 15 weeks. It is the standard quantity used for measurement of college and university work.

1. Lecture.
One unit equals one hour of classroom work per week in most classes, predominately those of the lecture or lecture-discussion format. It is generally assumed that a student spends two hours of outside preparation for each hour spent in such classes.

2. Laboratory.
In laboratories, there are two or three hours a week for each unit, depending on outside lab preparation. In specialized training and performance courses, such as sea training, ship operations, and intercollegiate athletics, there are more than three hours per week required per unit.
A. NORMAL COURSE LOAD
Twelve (12) to twenty (20) units constitute a normal course load at Cal Maritime. A student wishing to enroll in more than 20 units (15 units when on Academic Probation) must have the approval of his or her academic advisor and Department Chair. A student receiving financial aid must take at least 12 units during the fall or spring semester to be considered full time.

B. REGISTRATION PROCEDURES
The Office of the Registrar handles all forms, procedures, and deadlines for registration. Registration for the fall normally occurs in the middle of the previous spring semester, and registration for the spring/cruise semester occurs in the middle of the previous fall. All students must see their academic advisor prior to registration. Students are not permitted to attend any classes for which they are not officially registered.

Priority registration is offered to currently enrolled students by class, based on date of entry. Registration is typically a two-week period. Currently enrolled students not registering by the end of the registration period are subject to a $100 late fee and will be prevented from registering until the first day of the semester.

Incoming freshmen and students accepted for readmission register in a separate timeframe after currently enrolled students have registered.

C. CLASSROOM ATTENDANCE
Students are expected to attend all classes unless an absence is properly authorized. It is up to the course instructor to establish an appropriate attendance policy, except for those courses that have outside agency requirements: i.e., STCW-approved courses. Students failing to adhere to the attendance requirements established by the course instructor or the Academy may be dropped from the class. (See Dropping a Course and Withdrawal Unauthorized)

D. GRADE CHANGE PROCEDURES
Institutional academic processes leading to the awarding of grades cannot be completely error free. Events can transpire which suggest to a student that the grade he or she was assigned for a particular course was inappropriate. Academic Senate Policy #546 Student Originated Request for Change of Grade (included with Form SP 546-1) outlines the procedures and instructions to be followed should a student wish to challenge the appropriateness of a grade assigned for a specific course. A student must present the completed Form SP 546-1 Student Originated Request for Change of Grade to the Chair of the Committee on Academic Integrity within the first six weeks of the term following the term within which the grade in question was assigned.

STUDENTS CALLED TO PUBLIC SERVICE
Students called to or engaged in public service for reasons beyond their control will not lose registration priority, academic credit, fees, or degree status. Such activities may include military service, fire fighting, public security, or the like. To accommodate such students, Cal Maritime will accept withdrawals at any point throughout the semester.

Students may be granted an extended leave of absence for up to two years for engagement in public service beyond their control. If currently enrolled, they must complete a leave of absence form obtained from the Student Records Office or online. An approved leave will ensure that they retain their catalog rights and that they can register for subsequent terms without reapplying for admission.

The federal government determines possible student loan grace and deferment provisions based on the circumstances of involvement in a particular public service. Should the federal government modify its regulations governing various loan programs, Cal Maritime will adopt those modifications for its students.

WITHDRAWAL FROM SCHOOL
Students wishing to withdraw from Cal Maritime within the first four weeks of instruction may do so by completing the required paperwork in the Student Records Office. No grade for the semester of withdrawal will be recorded on the student’s transcript.

Students having a serious and compelling reason to withdraw after the first four weeks of instruction may do so without penalty. Approval to withdraw during this period must be granted by the student’s course instructors, Department Chair, and Academic Dean. If a petition is approved, a grade of “W” will be posted on the student’s academic transcript.

Students withdrawing during this period without a serious and compelling reason may receive a grade of “WU” in all classes. Students withdrawing from school after the first four weeks who have been granted approval to withdraw must still follow all established procedures for official withdrawal from the Academy.

Withdrawal from school with a grade of “W” during the final three weeks of instruction is permitted only when the cause of the withdrawal is clearly beyond the student’s control and assignment of an “F” (Incomplete) is not practicable.

Students may either request a leave of absence for up to one year or resign if their return within one year is not anticipated. They are responsible for notifying the Student Records Office during the semester or any break if they do not plan to return to school for the upcoming semester. (See REAdMISSION REQUIREMENTS)

ACADEMIC RENEWAL
A maximum of one academic year of coursework with unsatisfactory grades may be excluded from credit and grade point consideration if course repetition is inappropriate (e.g., the major has changed, or the courses are not offered at Cal Maritime).

Removal of previous work from degree consideration under the above circumstances is subject to the following provisions:
1. The student has requested the action formally and has presented evidence that the work completed in the term(s) under consideration is substantive and not representative of present scholastic ability and level of performance; and
2. At least five calendar years must have elapsed since the course work was attempted; and
3. Since the most recent work to be disregarded was completed, the student has subsequently completed at the campus 15 semester units with at least a 3.0 GPA; 30 semester units with at least a 2.5 GPA; or 45 semester units with at least a 2.0 GPA; and
4. The student must provide evidence that past performance was due to extenuating circumstances and that additional enrollment would be necessary to qualify for a degree if the request were not approved; and
5. When such action is taken, the student’s permanent academic record shall be annotated so that it is evident that work taken during the disregarded term(s), even if satisfactory, may apply toward baccalaureate requirements. However, all work must remain legible on the record to ensure a true and complete academic history.

Information concerning academic regulations and policies at Cal Maritime may be obtained from the Student Records Office, 200 Maritime Academy Drive, Vallejo, CA 94590-8181, at 707-654-1201.
BACCALAUREATE DEGREES, PROGRAMS AND REQUIREMENTS

BACCALAUREATE DEGREES
The California Maritime Academy awards the Bachelor of Science and the Bachelor of Arts degrees in the following areas:

Bachelor of Science Degree Majors:
♦ Business Administration
♦ Facilities Engineering Technology
♦ Marine Engineering Technology
♦ Marine Transportation
♦ Mechanical Engineering

Bachelor of Arts Degree Major:
♦ Global Studies and Maritime Affairs

MINORS
Students wishing to declare a minor will complete a coherent program of courses in some field other than their major. For descriptions of minors, see the introductory pages to the various departments. The following minors are available:

ABS School of Maritime Policy and Management
♦ Business Administration
♦ Global Studies and Maritime Affairs
♦ Law

Department of Mechanical Engineering
♦ Power Generation

Department of Naval Science
♦ Naval Science

Department of Science and Mathematics
♦ Marine Science

MINOR REQUIREMENTS
The following requirements apply for all minors:
♦ Minors consist of at least 15 units
♦ No coursework used to fulfill minor requirements may simultaneously fulfill requirements toward another minor or toward courses that are tagged on the student’s curriculum sheet as a “Course in Major”

♦ All courses used to complete the minor must be completed with at least a “C” grade
♦ At least nine of the units must be completed at Cal Maritime

A minor will be noted on the student’s transcript.

Licenses and Certifications
The Academy offers licensed programs for the Third Mate or Third Assistant Engineer license by the United States Coast Guard issued at graduation upon successfully completing the appropriate baccalaureate degree and passing the United States Coast Guard licensing examination.

Engineering students who pass the Fundamentals of Engineering Examination receive an Engineer-In-Training Certificate.

Students completing ET 342 Refrigeration and Air Conditioning coursework are eligible to take a written exam for professional certification as EPA Universal Technicians.

Military Training Options
As an Academy, all students are in the Corps of Cadets. They are required to wear uniforms, attend formations and “stand watch.” However, there is no armed service obligation requirement. Military options are available such as ROTC and the Merchant Marine Reserve Program (see section on Military Opportunities).

BACCALAUREATE DEGREE REQUIREMENTS

Cumulative Grade Point Average for Graduation
A candidate for a Bachelor of Science or Bachelor of Arts degree at Cal Maritime must have completed the academic program with a cumulative grade point average of not less than 2.00 in all of three areas:
♦ Overall: all baccalaureate-level units completed (all college-level work, no matter what the institution, including Cal Maritime);
♦ Campus: all units completed at Cal Maritime; and
♦ Major: all units completed in the major.

REQUIREMENTS IN UNITED STATES HISTORY, CONSTITUTION AND AMERICAN IDEALS
The California Code of Regulations requires that students demonstrate competencies in U.S. History, the U.S. Constitution, and California State and local government for graduation. These requirements may be satisfied through the completion of one course in U.S. government and one course in U.S. history.

RESIDENCY REQUIREMENTS
A student must spend no fewer than three years at a state or federal academy to be eligible for a U.S. Coast Guard license (46CFR Ch II, Part 310). To be eligible for a degree from Cal Maritime, a student must complete a minimum of 30 units of upper division coursework at this institution.

GRADUATION REQUIREMENT IN WRITING PROFICIENCY

The Graduate Writing Examination (GWE)
The Graduation Writing Assessment Requirement (GWAR) requires that all CSU students demonstrate competence in written communication before they are granted a baccalaureate degree. At Cal Maritime, all students who have achieved junior standing and have completed EGL 100 English Composition and at least 60 units of academic coursework must either take EGL 300 Advanced Writing or challenge said course by successfully completing the Graduate Writing Examination (GWE). Students who pass the GWE will receive credit for EGL 300.

The GWE may be attempted twice, but students who fail a second time must take EGL 300. The class and the exam are offered every semester. Students who sit for the GWE will be charged a fee.

Please note that according to the Chancellor’s Office (Executive Order 665), “Students shall be matriculated at the CSU campus where they satisfy the Graduation Writing Assessment Requirement (GWAR).” (1997, p. 4) Unless a student has previously met this requirement at another CSU campus before transferring to Cal Maritime, he or she must satisfy the GWAR at Cal Maritime.

Students taking the GWE read a passage—roughly 600 to 800 words—and use the reading as a basis for their written commentary. Students are expected to answer a question (or questions) in a 700-word essay which speaks to clarity, quality of thought, mechanics and completeness, as well as unity and development of concepts. Students have three (3) hours in which to complete the handwritten exam and are allowed to use dictionaries and thesauri. Non-native English speakers and students with documented disabilities will receive special accommodation, upon request.

For more information about the Graduate Writing Assessment Requirement or the Graduate Writing Exam at Cal Maritime, contact Dr. Julie Chisholm at jchisholm@csum.edu.

U.S. COAST GUARD LICENSE EXAMINATION
The U.S. Coast Guard will issue a license as Third Mate or Third Assistant Engineer to license-track graduates of Cal Maritime who:
♦ are U.S. citizens,
♦ complete the licensed program,
♦ meet the standards established by the U.S. Coast Guard, and
♦ pass the license examination.

To be eligible to take the license examination, a student must:
♦ apply to the U.S. Coast Guard to sit for the license exam in the last semester of attendance,
♦ pay appropriate U.S. Coast Guard fees, and
♦ complete all Cal Maritime STCW/USCG license requirements within five (5) years of the date of the U.S. Coast Guard application.

For further information, contact the STCW Coordinator through the Office of the Registrar.

SEA TRAINING REQUIREMENTS
Three-60 day training courses, established by the U.S. Coast Guard, are required of all students seeking a license as Third Mate or Third Assistant Engineer. During the training periods students put the skills and knowledge they have been taught in the classroom to the ultimate test—actual practice. The entire operation of the Training Ship GOLDEN BEAR is performed by students, with licensed faculty officers acting in an advisory capacity. First-year students do the elementary tasks, while third-year students perform all the duties of ship officers.

The sea training is designed to comply with the International Maritime Organization’s Standards of Training, Certification and Watchkeeping of Seafarers, (IMO/STCW) 1995.
Additionally, the sea training is designed to provide all students with an understanding of the maritime industry and the requirements of living in a ship environment.

The cruises will be accomplished in the following order on the following vessels: training ship, commercial ship, and training ship. This program is part of the academic curriculum and carries credit for graduation.

Transfers from other state maritime academies may receive credit for each cruise completed within the same program, as long as the sea training was of 60 days or more and the STCW requirements covered on the cruises were completed.

Transfers from the U.S. Merchant Marine Academy must complete two cruises on board Cal Maritime’s training ship and will receive credit for only 60 days of sea time as the USMMA’s training is on a commercial ship.

Navy or unlicensed merchant marine sea time may not meet the sea training requirements of Cal Maritime as required by the U.S. Coast Guard.

A student’s major will normally determine the type of sea training. See below for the required amount of sea training for each major.

- Business Administration / International Business and Logistics - one sea training or international experience.
- Facilities Engineering Technology - one sea training experience as engineering student.
- Global Studies and Maritime Affairs - one sea training or international experience.
- Marine Engineering Technology - all three sea training experiences as engineering students.
- Marine Transportation - three sea training experiences as marine transportation students.
- Mechanical Engineering (license) - three sea training experiences as engineering students.
- Mechanical Engineering (non-license) - one sea training experience.

**COMMENCEMENT AND THE AWARDING OF DEGREES AND LICENSES**

In order for a degree candidate to participate in commencement he/she must be able to complete all academic requirements before the beginning of the following fall semester. Students are expected to apply for graduation in January of the commencement year. The Student Records Office will then determine eligibility to participate in commencement. Degree and any appropriate license will be awarded upon completion of all degree requirements.

**ACADEMIC DEPARTMENTS AND PROGRAMS**
ATHLETICS

FACULTY

Director of Athletics and Recreation: Marv Christopher
Director of Sailing, Varsity Sailing Coach: Susan “Charlie” Arms
Assistant Athletic Director: Patrick Hollister
Head Athletic Trainer: Jeffrey S. Ward

INTERCOLLEGIATE ATHLETICS

Intercollegiate athletics, an important part of the co-curricular education program offered at Cal Maritime, provides an active link with other college campuses. A variety of intercollegiate sports programs are offered for both men and women. Currently, athletic teams for men consist of basketball, crew, golf, rugby, sailing, soccer and water polo. Women’s teams are sponsored in crew, sailing, water polo, and basketball.

The athletic team is known as the Keelhaulers, after a form of punishment in the bygone days of sailing. This unique name has generated considerable publicity for Cal Maritime over the years, including a listing as one of the Top 25 Collegiate Nicknames in the country.

Approximately 20-25% of the student body participates in one or more intercollegiate sports each year. In order to be eligible, student athletes must maintain a minimum cumulative grade point average of 2.0 or higher.

A new state-of-the-art physical education complex is slated for construction in 2014-15, and the Bodnar Athletic Field has been renovated, with the addition of a turf field, two-lane running track, and updated lighting.

Cal Maritime has a staff of dedicated coaches as well as a National Athletic Trainers’ Association (NATA) certified Athletic Trainer who operates a recently expanded training room with state-of-the-art modalities.

Cal Maritime is a member of the National Association of Intercollegiate Athletics (NAIA) and competes in the Far West Region of the California Pacific Conference, of which it is a charter member. The Keelhaulers are also part of the Collegiate Water Polo Association, Western Intercollegiate Rowing Association (WIRA), Pacific Coast Intercollegiate Yacht Racing Association (PCIYRA), and USA Rugby.

PHYSICAL EDUCATION PROGRAM

As time and their academic schedules allow, many students participate in a variety of physical education classes, such as Beginning/Intermediate Swimming, Sailing, Weight Lifting, and Martial Arts.

A variety of classes are offered to improve the quality of life focus on nutrition, fitness, and weight management. In these classes goals are set and students receive specialized, tailor-made counseling from their instructors.

INTRAMURALS AND RECREATION

Intramural and recreational programs have traditionally been an important aspect of life at Cal Maritime. Activities include competition between divisions in such teams sports as flag football, basketball, indoor soccer, volleyball and softball. Individual tournaments are held in a variety of sports, including tennis, badminton, table tennis, swimming, weight lifting, and fun runs.

On-campus facilities include playing fields; sports courts; an indoor 25-meter swimming pool; a gymnasium for basketball, badminton, and volleyball; an Olympic free-weight room; weight machine rooms; and a cardio-aerobic exercise room for circuit training. During the annual summer training cruises aboard the Training Ship GOLDEN BEAR, students and staff have access to a well-equipped state-of-the-art exercise and weight room with a variety of bicycle and rowing ergometers and weight machines. The ship’s weight room comes fully equipped with mirrors and a TV monitor for viewing exercise videos.

The indoor heated pool is available to students several hours a week with a certified lifeguard present, as is the Olympic free-weight room, also with supervision.

CLUB SPORTS

The Director of Intramurals and Recreation also has responsibility for clubs sponsored by the Associated Student Body. These include baseball, cycling, fencing, and lacrosse.

PHYSICAL EDUCATION AND ATHLETICS COURSES

The following courses are offered by the Department of Athletics:

PE 100. Beginning/Intermediate Swimming
PE 111. Sports Conditioning
PE 114. Weight Management Through Exercise
PE 120. Weight Training
PE 125. Martial Arts
PE 135. Drill Team and Color Guard
PE 160. Beginning Sailing—Basic Keelboat
PE 165. Sail Training for the Merchant Marine Reserve
PE 185. Study Abroad Elective
PE 210. Intercollegiate Soccer
PE 225. Intercollegiate Water Polo (Men’s and Women’s)
PE 230. Intercollegiate Sailing
PE 235. Intercollegiate Crew
PE 240. Intercollegiate Basketball (Men’s and Women’s)
PE 250. Intercollegiate Golf
PE 255. Rugby

INTERCOLLEGIATE SPORTS

Students are required to register in the appropriate sport and fill out the necessary medical forms prior to participation. All student athletes are required to maintain a minimum overall cumulative GPA of 2.0. Participation is subject to the approval of the coach.

The following courses are offered by the Department of Athletics:

PE 210. Intercollegiate Soccer
PE 225. Intercollegiate Water Polo (Men’s and Women’s)
PE 230. Intercollegiate Sailing
PE 235. Intercollegiate Crew
PE 240. Intercollegiate Basketball (Men’s and Women’s)
PE 250. Intercollegiate Golf
PE 255. Rugby
The Facility Engineering Technology (FET) major provides an undergraduate education for industrial engineers employed in large-scale facilities; commercial buildings, power plants and manufacturing facilities. The curriculum provides a foundation in the fundamentals of mechanical and electrical system engineering, as well as practical training in the operation and maintenance of real-world commercial and industrial facilities. The FET program has the following educational objectives:

- Graduates will have the knowledge and ability to perform analysis, applied design, and development of systems and processes that support the effective operations of facilities.
- Graduates will have the knowledge and ability to manage and lead technical activities in the facilities and power industries.
- Graduates will have the knowledge and ability to function effectively as leaders on professional teams.
- Graduates will have the knowledge and ability to communicate effectively with speaking, writing, and presentation skills including the ability to put together a compelling argument.
- Graduates will demonstrate a respect for professional, ethical, and social issues as well as a commitment to safety, quality and productivity.

The FET curriculum includes three 60-day practical training experiences; one sea training period aboard the Training Ship GOLDEN BEAR and one sea training period aboard a military or commercial vessel. The FET program also requires satisfactory completion of a qualifying examination, administered by the Association for Facilities Engineering (AFE), to become a Certified Plant Engineer-in-Training (CPE-IT).

The Marine Engineering Technology (MET) major provides an undergraduate education for marine engineers employed aboard commercial and military vessels. The curriculum provides a foundation in the engineering fundamentals of shipboard mechanical and electrical systems, as well as practical training in the operation and maintenance of steam, motor and gas turbine propulsion plants. The MET program has the following educational objectives:

- Graduates will have the knowledge and ability to function effectively as leaders on professional teams.
- Graduates will have the knowledge and ability to communicate effectively with speaking, writing, and presentation skills including the ability to put together a compelling argument.
- Graduates will demonstrate a respect for professional, ethical, and social issues as well as a commitment to safety, quality and productivity.
- Graduates will have the knowledge and ability to be respected professionals as licensed engineers and in other positions in the maritime industry.
- Graduates will have the knowledge and ability to manage and lead technical activities.

The MET curriculum includes three 60-day practical training experiences; two sea training periods aboard the Training Ship GOLDEN BEAR and one sea training period aboard a military or commercial vessel. The MET program also requires satisfactory completion of a qualifying examination, administered by the U.S. Coast Guard, to obtain a Third Assistant Engineer, Steam, Motor and Gas Turbine Vessels, Unlimited Horsepower license.
## MINOR IN POWER GENERATION

The Power Generation minor is available to students completing the Mechanical Engineering major. This minor is designed to provide practical knowledge and operational training in power generation—including generation from fossil fuels and renewable sources. See Department of Mechanical Engineering for details.

Required for Power Generation minor:

### COURSES

#### ENGINEERING TECHNOLOGY COURSES

The following courses are offered by the Department of Engineering Technology:

**COOPERATIVE EDUCATION**

- CEP 185: Study Abroad Elective
- CEP 270: F-E Co-Op I
- CEP 370: F-E Co-Op II
- CEP 385: Study Abroad Elective
- CEP 390: Independent Study
- CEP 395: Special Topics

**CRUDE**

- CRU 150: Sea Training I (Engine)
- CRU 185: Study Abroad Elective
- CRU 250: Sea Training II (Engine)

**COMMERCIAL CRUISE**

- CRU 275: Sea Training II (Engine)
- CRU 350: Sea Training III (Engine)
- CRU 385: Study Abroad Elective
- CRU 390: Independent Study
- CRU 395: Special Topics

### ENGINEERING

- ENG 100: Engineering Graphics
- ENG 185: Study Abroad Elective
- ENG 385: Study Abroad Elective
- ENG 390: Independent Study
- ENG 395: Special Topics
- ENG 430: Naval Architecture
- ENG 470: Engineering Management
- ENG 472: Facilities Management

### ENGINEERING PLANT OPERATIONS

- EPO 125: Introduction to Marine Engineering
- EPO 185: Study Abroad Elective
- EPO 213: Welding Lab
- EPO 214: Boilers
- EPO 215: Manufacturing Processes
- EPO 310: Plant Operations I
- EPO 315: Manufacturing Processes I
- EPO 321: Diesel Engineering II/Simulator Lab
- EPO 330: Dynamics
- EPO 342: Strength of Materials
- EPO 343: Thermodynamics
- FF 200: Basic/Adv Marine Firefighting

### HUMANITIES

- HUM 310: Engineering Ethics

### ENGINEERING TECHNOLOGY

- EPO 390: Independent Study
- EPO 395: Special Topics
- EPO 413: Advanced Welding And Fabrication

### ENGINEERING TECHNOLOGY

- ET 110: Introduction to Engineering Technology
- ET 185: Study Abroad Elective
- ET 230: Properties of Materials
- ET 230L: Properties of Materials Lab
- ET 232: Statics
- ET 250: Electrical Circuits
- ET 250L: Electrical Circuits Lab
- ET 330: Dynamics
- ET 332: Strength of Materials
- ET 340: Fluid Mechanics
- ET 340L: Fluid Mechanics Lab
- ET 342: Refrigeration and Air Conditioning
- ET 342L: Refrigeration and Air Conditioning Lab
- ET 344: Thermodynamics
- ET 350: Electrical Machinery
- ET 350L: Electrical Machinery Lab
- ET 370: Electronics
- ET 370L: Electronics Lab
- ET 385: Study Abroad Elective
- ET 390: Independent Study
- ET 395: Special Topics
- ET 400: Instrumentation and Measurement Lab
- ET 442: Heating, Ventilation, and Air Conditioning
- ET 442L: Heating, Ventilation, and Air Conditioning Lab
- ET 460: Automation
- ET 460L: Automation Lab
- ET 490: Power Engineering Technology
- ET 490L: Power Engineering Technology Lab

### HUMANITIES

- HUM 310: Engineering Ethics
LIBRARY

FACULTY AND STAFF

Dean of the Library: Richard Robison
Sr. Assistant Librarians: Benjamin Bolin; Michele Van Hoeck
Information Technology Consultant: Mark Stackpole
Library/Archives Assistant II: Larry Stevens
Library Assistant II: Jennifer Haupt

LIBRARY SERVICES

The Cal Maritime Library focuses on student success. To achieve this, the Library emphasizes service and strives to develop savvy information users and lifelong learners. The Library improves student research skills and learning abilities through its Information Fluency Program, rich collections of materials, study facilities, the ship’s library, and online services and resources.

The Library’s building, with its views of the Carquinez Strait and San Pablo Bay, inspires reflection, study, and learning. Due to this unique role, the Library maintains longer service hours than any other facility on campus. In addition, the Library promotes the love of reading through its continually updated collection of popular books.

Through its Campus History Collection, the Library preserves the heritage of the California Maritime through documents, photographs, and artifacts, which can be made available for research and display. To better share and bring these memories to life, librarians are working on online multimedia displays and presentations.

The Library’s website, http://library.csum.edu, is the portal for locating its information resources. As a member of the California State University system, the Library offers students and faculty access to a much larger world of resources than it could on its own, but also subscribes to discipline specific information resources that support the Academy’s distinctive programs.

In addition to these resources, librarians collect, organize, and make available recommended web resources through online Subject Guides. Likewise, the Library increasing makes course materials directly available for students through the campus’ online course management software. Finally, if the Library’s collection and extensive online resources aren’t enough, materials may be requested via the Interlibrary Loan Department.

To enhance the Library’s services and collection, librarians and staff actively monitor and learn about new services, opportunities, and trends in the ever changing world of information. To specifically develop the collection, the Library considers requests from the campus community for purchases or acquisitions of needed materials.

INFORMATION FLUENCY PROGRAM

The Cal Maritime Library exists as a teaching and learning center on campus. As such, librarians assure that instructional opportunities abound on campus. The semester-long, two-credit course “LIB 100 Information Fluency in the Digital World”, introduces students to computing, critical thinking, information access, ethical research practices, and evaluation skills. Through collaboration with the faculty, other instructional opportunities are integrated into the syllabi of several core freshmen level courses and in higher level courses of a major. In addition, librarians author instructional materials and make them available within courses, online, and in the Library. The Library’s professional faculty and staff are always keen to consult with and assist students, faculty, staff, and industry.

LIBRARY COURSES

The following courses are offered by the Library:

LIB 100. Information Fluency in the Digital World
LIB 185. Study Abroad Elective
LIB 385. Study Abroad Elective
LIB 390. Independent Study
LIB 395. Special Topics
MARINE TRANSPORTATION

FACULTY

Professors: Peter J. Hayes; Paul R. Leyda; Tuuli Messer-Bookman; Robert Stewart

Associate Professors: Steven Browne; Samuel R. Pecota (Chair)

Assistant Professors: Scott M. Powell

Maritime Vocational Instructor III: William E. Schmid

Maritime Vocational Instructor II: Scott Saarheim

Maritime Vocational Lecturer II: Mark P. Hensley

Emeritus Faculty: James Buckley; Brian Law; David Sears

The Marine Transportation degree program includes extensive academic breadth and technical expertise. Through experiences in the classroom, laboratories, in various simulators, and aboard the training ship and commercial vessels, students achieve a level of professional confidence, competence, and leadership that allows them to function in decision-making positions with the international transportation industry.

MISSION STATEMENT

The mission of the Department of Marine Transportation is to develop in our graduates the practical skills, judgment, character, and leadership traits necessary to become leaders in the maritime industry, both at sea and ashore. To this end, by way of practical and theoretical training at sea, in simulators, and in the classroom, the Marine Transportation Program seeks to do the following:

♦ prepare our students to meet, along with a wide array of seamanship and advanced mariners skills, all U.S. Coast Guard and international requirements for Second Mate/Officer in Charge of the Navigational Watch at the Operational Level;

♦ provide them with a well-rounded liberal education culminating in a Bachelor of Science Degree in accordance with California State University requirements;

♦ imbue them with a strong sense of ethics, personal integrity, accountability, and officership;

♦ provide opportunities to develop the leadership and communication skills (both written and verbal) to be an effective leader;

♦ provide opportunities for obtaining various additional maritime professional certifications.

MARINE TRANSPORTATION (MT) MAJOR

The student choosing a career as a licensed deck officer (mate) or a shoreside maritime manager majors in Marine Transportation. This major provides the broadest maritime industry training possible consistent with officer licensing requirements.

Marine Transportation graduates have a broad employment field open to them. A wide variety of shoreside management positions await the graduate in numerous maritime sectors, including vessel operations, ship’s agency, marine insurance, stevedoring, charter brokering, and federal employment, as well as shipboard employment opportunities. This major, among the wide array of professional skills taught, is designed to prepare the student to take the U.S. Coast Guard STCW licensing exam for Second Mate and Officer in Charge of the Navigational Watch. Passing this examination, which results in the issuance of a Third Mate, Unlimited, Any Ocean license is essential for a student seeking employment as a licensed deck officer on a commercial vessel.

Deck Licenses

Deck licenses issued by the U.S. Coast Guard in increasing rank are as follows: Third Mate, Second Mate, Chief Mate, and Master. A raise in grade is dependent upon the graduate’s ability to accumulate sea time, usually one year’s sea time in each license category, and to pass USCG examinations of increasing complexity and difficulty.

SEA TRAINING: DECK

CRU 100 SEA TRAINING I

This evolution addresses skills required of Ratings Forming Part of the Navigational Watch. Students develop internationally mandated skills by practicing on shipboard equipment. They steer the ship, keep a proper lookout, monitor and control conditions for safety, operate emergency equipment, and demonstrate emergency procedures. These skills are evaluated by shipboard officers trained to assess International Standards of Watch Keeping. Students must also demonstrate competencies in emergency and occupational safety, basic personal survival, and procedures to prevent pollution of the marine environment. In addition, they acquire a basic knowledge of deck maintenance and tools used on deck. Small boat operation skills are also developed, particularly in anchor ports.

CRU 200 SEA TRAINING II (COMMERCIAL)

While aboard a commercial vessel for a period of at least 60 days, cadets are given a series of projects to perform and an extensive written report to prepare on their experiences. The report covers many components of navigation, seamanship, labor relations, human relations, and safe cargo handling and stowage.

This report is assessed for completeness and accuracy by an assigned faculty member after the end of the commercial cruise. The student must meet departmental commercial cruise policy, which includes maintaining a 2.0 GPA in selected professional courses and adhering to disciplinary and academic probation requirements. For more information, the student should see the special prerequisites listed under the CRU 200 course description.

CRU 300 SEA TRAINING III

This evolution addresses skills required of Officer in Charge of the Navigational Watch. During this final cruise, students must demonstrate competence in skills established by international standards. These include planning and conducting a passage; determining the ship’s position by celestial, terrestrial and electronic means; and maintaining a safe navigational watch. Students are assessed in their ability to respond promptly and properly to shipboard emergencies and to distress situations on other vessels. Cadets must also demonstrate adequate skills in maneuvering the ship. At the end of this cruise, they should be qualified to perform the duties of licensed deck officers at sea, with the exception of watchstanding skills to be assessed by full mission simulator afterward.
MARINE TRANSPORTATION MAJOR CURRICULUM

**Total Units: 159**

### Writing Proficiency Requirement:

All junior students must demonstrate upper division writing competency as a graduation requirement. This may be fulfilled by passing either the Graduation Writing Exam or EGR 100 Advanced Writing.

### MARINE TRANSPORTATION COURSES

The following courses are offered by the Department of Marine Transportation:

#### CRUISE

- **CRU 100.** Sea Training I (Deck)
- **CRU 185.** Study Abroad Elective
- **CRU 200.** Sea Training II (Deck)
- **CRU 200L.** Sea Training II Lab (Deck)
- **CRU 225.** USCG Sea Training II (Deck)
- **CRU 225L.** USCG Sea Training II Lab
- **CRU 300.** Sea Training III (Deck)
- **CRU 385.** Study Abroad Elective
- **CRU 390.** Independent Study
- **CRU 395.** Special Topics

#### DECK LABS

- **DL 125.** Graphics
- **DL 185.** Study Abroad Elective
- **DL 240.** Global Maritime Distress Safety System (GMDSS) Lab
- **DL 320.** Introduction to Bridge Simulation
- **DL 325.** RADAR/ARPA
- **DL 325L.** RADAR/ARPA Lab
- **DL 385.** Study Abroad Elective
- **DL 390.** Independent Study
- **DL 395.** Special Topics
- **DL 405.** Shipboard Medical
- **DL 405L.** Shipboard Medical Lab
- **DL 420.** Watchstanding Simulation

### NAUTICAL SCIENCE

- **NAU 102.** Navigation I
- **NAU 102L.** Navigation Lab
- **NAU 103.** Introduction to Marine Transportation
- **NAU 105.** Ship Structure
- **NAU 110.** Seamanship
- **NAU 120.** Marine Engineering
- **NAU 185.** Study Abroad Elective
- **NAU 202.** Celestial Navigation
- **NAU 202L.** Celestial Navigation Lab
- **NAU 205.** Ship Stability
- **NAU 302.** Advanced Navigation
- **NAU 302L.** Advanced Navigation Lab
- **NAU 385.** Rules of the Road
- **NAU 310.** Electricity and Electronics
- **NAU 310L.** Electricity and Electronics Lab
- **NAU 320.** Tank Vessel Operations
- **NAU 325.** Cargo Vessel Operations
- **NAU 330.** Meteorology
- **NAU 335.** Electronic Chart Display and Information Systems (ECDIS) Lab
- **NAU 385.** Study Abroad Elective
- **NAU 390.** Independent Study
- **NAU 395.** Special Topics
- **NAU 400.** Advanced Maritime Topics
- **NAU 410.** License Seminar
- **NAU 410L.** License Seminar Lab
- **NAU 430.** Liquid Cargo Systems
- **NAU 430L.** Liquid Cargo Systems Lab

### STUDENT ORGANIZATIONS

- **Blue Company Cadets take course**
- **Gold Company Cadets take course**
- **STCW Courses (Must receive a “C” or “C”)**
- **Courses in Major** (CGPA ≥ 2.0 is required)
- **FF 200 Basic/Adv. Marine Firefighting** is also offered in Spring (Junior Year).

**NOTE:** Course content/curriculum may be modified to meet STCW or other regulatory requirements.
MARITIME OPERATIONS

FACULTY

Professors: Daniel Weinstock

Maritime Vocational Instructor IV: Michael Andrews; Lyle Cook; Britt T. Elliott

Maritime Vocational Instructor III: Tom Allen; Peter McGroary (Chair);

Maritime Vocational Instructor II: Robert Brown

Maritime Vocational Lecturer III: David Coleman

Maritime Vocational Lecturer II: Jesse Cartee; Richard Muller

Maritime Vocational Lecturer I: Michael Bowlin; Stan Hitchcock

The Department of Maritime Operations is centered on the Cal Maritime waterfront and encompasses the Training Ship GOLDEN BEAR, Boathouse, and Pier. The faculty and staff are comprised of both deck and engineering marine professionals of various backgrounds and experiences. Many of the faculty are alumni of the Academy.

MISSION STATEMENT

The mission of the department is to teach Applied Technology through experiential or hands-on learning. The goal is to provide cadets with the basic hands-on skills, technical expertise, and leadership experiences so that they can continue to develop as licensed officers throughout their career either at sea or ashore.

MARITIME OPERATIONS COURSES

The following courses are offered by the Department of Maritime Operations:

CRUISE

CRU 185. Study Abroad Elective
CRU 190. Basic Safety Training (Non-License Program Course)
CRU 195. Introduction to Maritime Operations (Non-License Program Course)

DECK LABS

DL 100. Small Craft Operations
DL 105. Marine Survival
DL 105L. Marine Survival Lab
DL 105X. USCG Lifesaving Exam
DL 109. Industrial Equipment and Safety
DL 110. Ship Operations I
DL 111. Ship Operations II
DL 115. Marlinspike
DL 120. Cargo Operations
DL 185. Study Abroad Elective
DL 200. Ship Handling
DL 305. Tug and Barge
DL 310. Marine Supervisory Lab
DL 311. Marine Management Lab
DL 385. Study Abroad Elective
DL 390. Independent Study
DL 395. Special Topics

ENGINEERING PLANT OPERATIONS

EPO 110. Plant Operations I
EPO 185. Study Abroad Elective
EPO 210. Plant Operations II
EPO 310. Plant Operations III
EPO 385. Study Abroad Elective
EPO 390. Independent Study
EPO 395. Special Topics

MARITIME POLICY AND MANAGEMENT

FACULTY

Professors: Kathryn Marcocchio; Donna Nincic (Director); Bunny Paine-Clemes

Associate Professors: Graham W. Benton; Nipoli Kandhar; Timothy G. Lynch (Chair)

Assistant Professors: Khalid Bachkar; Julie K. Chisholm; Ryan Dudley; Lui Hebron

Lecturers: Matthew Dudman; Chris Frick; Linda Guo; Robert Manheimer; Louis McDermott; Jennifer Metz; Robert Neumann; Harry Portolos

Emeritus Faculty: A. René Viargues

The ABS School of Maritime Policy and Management contains three programs: 1) The Bachelor of Science in Business Administration/International Business and Logistics, 2) the Bachelor of Arts in Global Studies and Maritime Affairs, and 3) the campus-wide program in Culture and Communications. In addition, the school provides students with CSU-mandated breadth and depth in Written and Oral Communications, Critical Thinking, Humanities, and the Social Sciences. The school also offers three minors to Cal Maritime students: 1) Business Administration, 2) Law, and 3) Global Studies and Maritime Affairs.

Students in the degree programs develop an interdisciplinary understanding of the maritime domain, a unique perspective on the interdependencies between maritime policy and the management of the global transportation supply chain, and the ethical, communication and critical thinking skills needed to make positive contributions in today’s challenging and dynamic global environment.

BUSINESS ADMINISTRATION/INTERNATIONAL BUSINESS AND LOGISTICS (BA/IBL) MAJOR

The mission of the program in Business Administration/International Business and Logistics is to graduate students who are readily employable and highly qualified for further education. Students will have a practical balance of theoretical knowledge, experiential learning, strong ethical values, and global leadership skills. We enhance learning by close involvement in international maritime affairs, unique educational platforms, vibrant industrial partnerships, and diversity of faculty, staff and cadets.

The Business Administration/International Business and Logistics program leads to a Bachelor of Science degree. The program is accredited by the International Assembly for Collegiate Business Education (IACBE), P.O. Box 25217, Overland Park, KS, 66225, 913-631-3009, www.iacbe.org.

For more information, please contact the School of Maritime Policy and Management at 913-631-3009, ext. 152, or visit our website at www.calmar.edu/program.php?program=BAIBL.
OBJECTIVES

Students in the program will

♦ Be readily employable or highly qualified for further education;
♦ Have an educational experience working directly in an industry position as a credit course;
♦ Have an international educational experience as a credit course;
♦ Take courses that meet requirements for entry into MBA programs. Students will have an option to go directly into such a degree program after graduation;
♦ Address critical issues of the day in core courses, while having the opportunity for electives that allow you to concentrate;
♦ Emphasize the maritime business, transportation, and logistics in their coursework;
♦ Have an education grounded in leadership, communication, critical thinking, ethics, global emphasis, technology and research.

GLOBAL STUDIES AND MARITIME AFFAIRS (GSMA) MAJOR

The Global Studies and Maritime Affairs program leads to a Bachelor of Arts degree. Students in the Global Studies and Maritime Affairs major develop:

A solid theoretical background in the social sciences, applied to the needs of the greater maritime and transportation industries;

Applied knowledge relevant to government agencies, non-profit organizations, international organizations, and businesses dealing with maritime issues: specifically, a solid foundation in economic and political globalization theories and the theories of the policy process; an understanding of global maritime history and the importance of maritime power to the power of the state; and an awareness of, and facility with, current global maritime issues as they relate to security, trade, and the environment;

The intellectual tools necessary to understand maritime policy issues in an increasingly globalized world: specifically, critical thinking, quantitative and non-quantitative research capability, leadership skills, and cultural and diversity awareness.

The major emphasizes four maritime policy areas:

♦ International Maritime Security
This policy area focuses on maritime issues from a security perspective: specifically, the different threats in the coastal and near coastal zones, in international waters, and on the high seas. Topics covered include (but are not limited to) the following: sea-lane security, maritime piracy and terrorism, illegal immigration, innocent passage, force majeure, and changing naval policies (both in the United States and in key countries around the world). A specific focus is on the identification of emerging maritime threats and the policies needed to counter these threats effectively.

♦ International Maritime Environmental Policy
This policy area will focus on maritime environmental issues pertaining to global shipping. Here the course offerings extend to marine policy in general, rather than just policies with a focus on shipping and trade. Whaling, fisheries management, and the environmental standards of shipbuilding are examples of issues covered. Policy ramifications of each are examined in depth.

♦ Maritime Law and Organizations
This focus is on international maritime law and international maritime organizations, such as the U.N. Convention on the Law of the Sea (UNCLOS III), the International Maritime Organization (IMO), the International Maritime Bureau (IMB), and the U.S. Maritime Administration (MARAD). Policy impacts of these and other organizations are examined in detail.

♦ International Maritime Trade and Policy
This policy area focuses on maritime issues from the perspective of international political economy. Economic globalization is one of the most profound and far-reaching events of the late twentieth and early twenty-first century; its implications reach well into the trade and economic relations of all nations, the United States included. Here, the specific focus is on changing patterns of international trade and transportation, the “globalization” of the shipping industry, and the global political and economic forces behind these phenomena.

The objective in each of these core areas is to give students a theoretical foundation drawn from the social science fields of international relations, political science, public policy, history, and economics.

The theoretical tools employed will allow students to understand and analyze shipping and maritime policies in a global economic, political, and environmental context.

Career Opportunities for Majors

GSMA students will be prepared for policy careers in maritime trade and economics, maritime security (port security, piracy, and maritime terrorism), and maritime law. They may enter the following fields:

• U.S. federal, state, and local governments; MARAD, the State Department, the Department of Homeland Security, the Department of Commerce, and allied areas;
• Agencies specializing in maritime security, including the Department of Defense, the Central Intelligence Agency, the Federal Bureau of Investigation, the Immigration and Naturalization Service, the Department of Transportation, and the United States Coast Guard;
• International organizations such as the International Maritime Organization (IMO) and the International Maritime Bureau (IMB);
• Graduate study in maritime law at institutions such as Tulane, Roger Williams, and the University of Virginia – each of which has program specializations in maritime law;
• Insurance and underwriting firms specializing in shipping and maritime issues.

Additionally, the curriculum focus will provide rigorous preparation for further study at the graduate level in International Relations, Public Policy, Maritime Affairs, and Business Administration (especially International Business and Trade).
### BUSINESS ADMINISTRATION MAJOR

**INTERNATIONAL BUSINESS AND LOGISTICS CURRICULUM**

**Total Units: 120**

**Writing Proficiency Requirement:** All junior students must demonstrate upper division writing competency as a graduation requirement. This may be fulfilled by passing either the Graduation Writing Exam or EGL 300 Advanced Writing.

**Required Courses in Major (CGPA = 2.0 is required)**

**Elective Courses in Major (CGPA = 2.0 is required)**

---

* Be sure to read the 2011-13 Cal Maritime catalog and talk to your advisor to determine GSMAG elective courses.

* Required Courses in Major (CGPA = 2.0 is required)

* Elective Courses in Major (CGPA = 2.0 is required)

* Special Topics courses on cruise will be determined by the itinerary and instructor expertise, after consultation with the ABS School of Maritime Policy and Management.
MARITIME POLICY AND MANAGEMENT MINORS

MINOR IN BUSINESS ADMINISTRATION
Please refer to the Minor Requirements.

Required for minor: Units
BUS 100 Accounting I .............................................. 3
BUS 101 Accounting II ............................................. 3
BUS 310 Financial Management ................................. 3
ECO 101 Microeconomics ......................................... 3
LAW 100 Business Law .............................................. 3
MTH 107 Elementary Statistics .................................... 3
Plus any two of the following: Units
BUS 200 Marketing ................................................. 3
BUS 300 International Business ................................. 3
ECO 305 Managerial Economics .............................. 3
MGT 340 Global Logistics ........................................... 3

MINOR IN LAW
Please refer to the Minor Requirements.

Individuals who satisfactorily complete law-related courses should contact the law advisor for details about a minor.

Preconditional law courses are some or all of the following:

LAW 100 Business Law .............................................. 3
LAW 200 Environmental Law ....................................... 3
LAW 300 International Law ......................................... 3
LAW 315 Admiralty Law ............................................ 2

Following consultation with the law advisor, students would then enroll in BUS 390 Independent Study (3-5 units) and MGT 315 Internship (3 units), which are both mandatory to complete the minor.

MINOR IN GLOBAL STUDIES AND MARITIME AFFAIRS
Please refer to the Minor Requirements.

Required for minor: Units
GMA 105 Ocean Politics ............................................. 3
HIS 300 Maritime History of the U.S. ......................... 3
GMA 200 Globalization ............................................. 3
GMA 100 Introduction to International Relations .3
Plus at least six units of the following:
Any GMA-designated course ....................................... 3
ECO 200 Economic Geography ................................... 3
LAW 200 Environmental Law ..................................... 3
LAW 300 International Law ......................................... 3

PROGRAM IN CULTURE AND COMMUNICATIONS

The program in Culture and Communications houses Cal Maritime’s Writing Program, foreign language offerings, and courses that have been traditionally housed within humanities and arts departments. Not only is the program an integral component of the School of Maritime Policy and Management, it also serves the entire campus community by providing CSU depth and breadth requirements in General Education areas A, C, and E—and supports the mission of Cal Maritime through its deep commitment to intellectual learning.

To be capable, enlightened citizens in today’s world, students must learn to understand other cultures, whether through speaking a foreign language or studying another culture’s literature, beliefs, arts, and institutions. The objectives of the study of culture are as follows:

♦ Develop global awareness through learning about the cultures, ethnic groups, and languages of other peoples and civilizations – ideally, participating in these cultures directly;

♦ Develop a “humanized” awareness, appreciating the arts and being able to discuss them intelligently; thinking critically about human institutions and their importance; learning about psychological, social, aesthetic, and cultural processes and how they are constructed; and

♦ Cultivate an interdisciplinary commitment to cultural awareness and an ability to communicate effectively across boundaries which must necessarily be fused with ethics to create a sense of oneself in the world, produce leadership traits, and foreground in all our students the need for critical, yet flexible and adaptive thinking.

Students also must learn to communicate clearly, whether in English or another language, with those whose assumptions may be very different from their own. To think, write and speak well are the hallmarks of an educated person. The objectives of the Study of Communication are as follows:

♦ Write effective, undergraduate-level prose in English, with emphasis on mechanics, organization, and the rhetorical situation;

♦ Recognize that communication literacy is an ongoing, lifelong process of critical reading and thinking, and drafting and revising work;

♦ Give attention to oral expression, whether by discussion of important topics or in presentations using audience appeal, thoughtful and useful content, precise language, and logical organization; and

♦ Use the technological and research tools necessary as appropriate support in written and oral communication and understand the conventions and significance of appropriate documentation guidelines.

In addition to an interdisciplinary commitment to cultural awareness and communication literacies, this program also strives to instill the following habits, traits, and affective dimensions:

♦ Taking responsibility for one’s own learning, exhibiting intellectual curiosity and independence, developing a commitment to lifelong learning and growth, and making judicious use of mentors, teamwork, and other resources where needed;

♦ Developing a code of ethics that incorporates self-awareness, truthfulness, integrity, and service to the community, as suggested by the mission statement of this institution; and

♦ Cultivating successful attitudes, such as self-confidence, self-discipline, respect for self and others, and cooperation with a group or team.

MARITIME POLICY AND MANAGEMENT COURSES

The following courses are offered by the ABS School of Maritime Policy and Management:

BUSINESS

BUS 100. Accounting Principles I: Financial
BUS 101. Accounting Principles II: Managerial
BUS 120. The Environment of Modern Business
BUS 165. Business Decision Analysis
BUS 185. Study Abroad Elective
BUS 190. Cruise Port Analysis
BUS 195. Cruise Special Topics
BUS 200. Introduction to Marketing
BUS 300. International Business
BUS 301. International Business II - Country Research Analysis and Global Marketing
BUS 302. Principles of Research Design, Implementation and Analysis
BUS 302L. Principles of Research Design, Implementation and Analysis Lab
BUS 310. Financial Management
BUS 385. Study Abroad Elective
BUS 390. Independent Study
BUS 395. Special Topics
BUS 400. Business and Society
BUS 405. Business Leadership and Group Dynamics

COMMUNITY SERVICE LEARNING

CSL 120. Community Service Learning
CSL 185. Study Abroad Elective
CSL 210. Dying: The Final Stage of Living
CSL 385. Study Abroad Elective
CSL 390. Independent Study
CSL 395. Special Topics

COOPERATIVE EDUCATION

CEP 185. Study Abroad Elective
CEP 300. Business Industry Co-Op I
CEP 330. GSMA Co-Op
CEP 385. Study Abroad Elective
CEP 390. Independent Study
CEP 395. Special Topics

ECONOMICS

ECO 100. Macroeconomics
ECO 101. Microeconomics
ECO 185. Study Abroad Elective
ECO 200. Economic Geography
ECO 305. Management Economics
ECO 385. Study Abroad Elective
ECO 390. Independent Study
ECO 395. Special Topics
MECHANICAL ENGINEERING

FACULTY

Professors: Nader Bagheri (Interim Chair); Thomas R. Nordenholz

Associate Professors: Jim Gutierrez; Antony Hasson-Nuell

Assistant Professor: Michael Holden

The mission of the Mechanical Engineering program is to produce entry-level professionals capable of applying their knowledge of science and engineering in the design, analysis, evaluation, and production of engineering devices and systems. It also provides students with the necessary academic preparation for further education and professional development in their chosen career.

MECHANICAL ENGINEERING (ME) MAJOR

The Mechanical Engineering curriculum provides a sound foundation for the practice of engineering through instruction in basic science and mathematics, computer applications, design, laboratory experiences, communication, humanities, and social sciences. The curriculum requires a core of mechanical engineering courses in the energy and the mechanical stems, as well as a two-course capstone design experience starting in the fall of the senior year. Computer applications and design experiences are integrated into several required and stem-elective courses. Excellent facilities in circuits, instrumentation and measurements, electromechanical machinery, controls, materials/mechanical, manufacturing processes, and fluid/thermal laboratories further strengthen the instructional Mechanical Engineering program. Through selection of electives, students can choose to specialize in either the energy design stem or the mechanical design stem. Students should visit the Mechanical Engineering Department web page for a description of its assessment system. The assessment system includes a Program Educational Objectives (PEO) process and a Program Outcomes (PO) process.

The PEO process includes assessment tools such as Industry Advisory Board Assessment, Alumni Survey Assessment, Employer Survey Assessment, Western Association of Schools and Colleges (WASC) Assessment, and Engineering Accreditation Commission of ABET Assessment.

The PO process includes Student Portfolios, Instructor Class Assessment, Student Evaluations of Instructor/Course, Cruise/Co-op Report Assessment, Senior Project Design Assessment, Graduating Senior Survey Assessment, and Course Portfolios. These assessment tools are used to ensure that the ME program educational mission and constituency needs are met. The results are further used to develop and improve the program.

The Mechanical Engineering Program Educational Objectives are as follows:

- Mechanical engineering graduates of the California Maritime Academy will
  - A. Be well educated professionals who utilize their intellectual learning, applied technology experience, leadership skills and global awareness in successful careers, and continue to improve their skills through lifelong learning and advanced studies;
  - B. Effectively practice as professional engineers, managers, and leaders in the maritime and energy industries and a wide variety other fields, and as licensed engineers in the merchant marine;
  - C. Successfully combine fundamental engineering knowledge, core leadership skills and the practical experience gained at the Academy to turn ideas into reality for the benefit of society;
  - D. Be influential members of multidisciplinary teams, creatively and effectively contributing to the design, development, and objective evaluation of engineering components, systems, and products, and clearly communicating the work in an appropriate manner to their customers and colleagues; and
  - E. Personally assume and actively encourage peers to uphold the professional, ethical, social and environmental responsibilities of their profession.

The Mechanical Engineering Program Outcomes are as follows:

1. An ability to apply knowledge of mathematics, science, and engineering;
2. An ability to design and conduct experiments, as well as to analyze and interpret data;
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economics, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
4. An ability to function on multi-disciplinary teams;
5. An ability to identify, formulate, and solve engineering problems;
6. An understanding of professional and ethical responsibility;
7. An ability to communicate effectively;
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
9. A recognition of the need for, and an ability to engage in life-long learning;
10. A knowledge of contemporary issues;
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice;
12. An ability to apply principles of engineering, basic science, and mathematics (including multivariate calculus and differential equations) to model, analyze, design, and realize physical systems, components or processes;
13. An ability to work professionally in both thermal and mechanical systems areas;
14. An ability to apply the "hands-on" knowledge to solve/understand engineering design problems/systems;
15. An ability to demonstrate leadership roles; and
16. An ability to comprehend and convey technical information.

OPTIONS WITHIN THE MECHANICAL ENGINEERING PROGRAM

The mechanical engineering program at Cal Maritime has two options that students may follow to obtain their degree. Both options result in a Bachelor of Science degree in mechanical engineering, and provide students with strong hands-on experiences and an international experience to complement their engineering education. Both options have the same core ME curriculum, and were defined to maintain the mission of the academy and the four objectives of intellectual learning, applied technology, global awareness and leadership. Also, both options are essentially identical in the first year, allowing students to explore their interests before deciding upon an option. All students, regardless of their option, are part of the Corps of Cadets, which is the focal point for the leadership facet of our mission.

LICENSE OPTION

The mechanical engineering license option is designed for students who wish to use their engineering degree as a licensed marine engineer. The curriculum consists of the core mechanical engineering courses, and additional courses intended to provide additional training for a marine engineer, much of which is required to obtain the merchant marine third assistant engineer’s license. Students are required to obtain experience at sea through three summer cruises, two of them aboard the Academy’s training ship, and one aboard a commercial vessel.
In addition, students in this option must pass a qualifying examination, administered by the U.S. Coast Guard, to obtain a Third Assistant Engineer, Steam, Motor and Gas Turbine Vessels, Unlimited Horsepower license.

This is clearly a very demanding option. Nonetheless, many of the mechanical engineering students at Cal Maritime choose this option. For these students, sailing is the reason they chose to study at Cal Maritime, and this option serves them well.

**NON-LICENSE OPTION**

The ME option is intended for students who are not specifically interested in pursuing a career in the merchant marine as a licensed engineer. Students take the core mechanical engineering courses, which combine traditional engineering courses with practical training. One cruise experience is required. This practical training and the cruise experience distinguish Cal Maritime from many other engineering schools, and is excellent preparation for anyone entering the engineering profession. In addition to one cruise, two summer internships with industry are required in the ME option.

To help assess the overall effectiveness of this option, all students in this major are required to take the Fundamentals of Engineering (FE) exam in October of their senior year. Passing the test is not a graduation requirement, but the students must present the official results of the test to the department. Those who pass the FE exam, upon completion of work experience requirements and further testing, may become licensed professional engineers later in their career.

**MINOR IN POWER GENERATION**

Please refer to the Academic Minor Requirements.

Students who pursue the ME option may also, if they choose, acquire a minor in Power Generation. The minor requires an additional 15 units beyond the requirements for ME option. The additional courses provide exposure and practical experience with traditional (steam, diesel) as well as alternative and renewable power generation systems. Students with this minor would typically seek careers in shoreside facilities.

**Required for Power Generation minor:**

<table>
<thead>
<tr>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 440 Power Engineering</td>
</tr>
<tr>
<td>ENG 440L Power Engineering Lab</td>

The curriculum is as follows:

- **ME Option (Power Generation Minor)**
  - **Academic Minor Requirements**
    - **Units**
      - **ENG 440 Power Engineering**
      - **ENG 440L Power Engineering Lab**
      - **EPO 210 Plant Operations I**
      - **EPO 214 Boilers**
      - **EPO 230 Steam Plant System Operations**
      - **EPO 235 Steam Plant Watch Team Management**
      - **EPO 312 Turbines**
      - **EPO 319 Facilities Engineering Diagnostics Lab**
      - **EPO 321 Diesel Plant Simulator**

- **MECHANICAL ENGINEERING MAJOR ME OPTION**
  - **Curriculum**
    - **Units: 154**
    - **Total Units: 154**
    - **Optional Power Generation Minor Courses are BOLD. Additional units must be added to total for each semester.**
    - **Writing Predicacy Requirement:** All Junior students must demonstrate upper division writing competency as a graduation requirement. This may be fulfilled by passing either the Graduation Writing Exam or EGL 300 Advanced Writing.

---

**STEM COURSES**

- **Energy Design Stem**
  - 1 - ME 342 Refrigeration & Air Conditioning
  - 2 - ME 440 Advanced Fluids & Thermodynamics
  - 3 - ME 442 HVAC Design
  - 4 - ME 444 Energy Systems Design

- **Mechanical Design Stem**
  - 1 - ME 435 Mechanical Systems Design
  - 2 - ME 430 Mechanical Vibrations
  - 3 - ME 432 Mechanics Design

- **Gold Company Cadets take course**
- **Courses in Major (CGPA = 2.0 is required)**
- **STCW Courses (Must receive a “C-” or higher, or “CR”)**
- **FF 208 Basic/Advanced Marine Firefighting** is also offered (Spring Junior Year)
NAVAL SCIENCE

FACULTY AND STAFF

Officer in Charge and Chair: LT D’Marie Ellison, USN
Asst. Officer in Charge/Instructor: LT Jonathan Kassoff, USN
Administrative Assistant: Toni Vasquez

The Department of Naval Science administers the Naval Science courses on campus as well as the Academy’s Merchant Marine Reserve (MMR) unit. Naval Science courses are offered at both lower and upper levels and cover subjects such as ethics, naval operations, the history of the U.S. Navy and Merchant Marine, ship communications, national defense organization, underway replenishment, anti-terrorism/force-protection fundamentals, convoy tactics, and naval tradition.

ABOUT MMR DET-71

The Merchant Marine Reserve, Detachment 71, is an officer accessions training unit that produces merchant marine officers for the U.S. Navy Reserve. Participating license-track students may be eligible for the following:

- Student Incentive Pay (SIP)
- Advanced leadership training
- Participation in community service events
- U.S. Navy Reserve officer commission upon graduation
- Option to apply for Active Duty Commission in U.S. Navy

Become a part of a proud tradition by joining MMR DET-71! Learn more at:

**Science and Mathematics**

**FACULTY**

Professors: Lloyd Kitazono (Chair); Jaya Punglia

Assistant Professors: Taiyo Inoue; Steven Runyon; Cynthia Trevisan

Lecturers: Greg Cho; Sharon Lynch; Brent Pohlmann; Achilles Speliotopoulos; JoAnne Strickland

Emeritus Faculty: Carl L. Mampaey

The Department of Science and Mathematics helps students master foundational skills in science and mathematics that they will apply in their major fields of study, their careers, and their lives. In addition, the department provides courses in science, mathematics, and computer science that meet the CSU educational requirements for depth and breadth. The goal of the department is to give students skill-sets so that they will know how to acquire basic quantitative information, analyze the information, solve problems, formulate conclusions and alternate solutions, and create predictive models.

The Department of Science and Mathematics provides general education courses to all majors and offers a minor in Marine Science.

**General Education**

As part of its mission, the Department of Science and Mathematics delivers a broad spectrum of GE courses focusing on the CSU Educational Breadth Requirements.

The General Education component has two goals:

1. To provide students with a foundation of skills that will be applied in their major fields (measurement, computation, and scientific reasoning);
2. To provide instructional depth and breadth to ensure that graduates will have a well-rounded knowledge in math and science.

**Marine Science Minor (15 Units)**

Please refer to the Minor Requirements.

The Marine Science Minor is designed for students interested in pursuing a career working on research vessels, continuing their studies in marine sciences, or just has an interest in marine sciences. To complete the Minor, a student must complete at least 15 units of approved Marine Science courses, including MSC 390 Independent Study. The MSC 390 Independent Study is a culminating project or term paper usually completed during the student’s senior year but may be completed earlier. Students who complete the Marine Science Minor will receive a certificate of completion and a notation on their official transcript indicating the completion of the Minor.

Minor Advisor - Lloyd Kitazono

**Required for Minor:**

- MSC 390 Independent Study .......................... 3

At least nine units of the following oceanography courses:

- MSC 100 Intro. to Geological & Chemical Oceanography ........................................... 3
- MSC 105 Intro. to Biological & Physical Oceanography ........................................... 3
- MSC 200 Oceanographic Instruments and Analysis .................................................. 3
- MSC 205 Marine Biology ........................................... 3

Additional courses from the following may be used to make a total of at least 15 units for the minor:

- GMA 105 Ocean Politics ........................................... 3 (not for Global Studies majors)
- NAU 330 Meteorology ........................................... 3 (not for Marine Transportation majors)

**Science and Mathematics Courses**

The following courses are offered by the Department of Science and Mathematics:

**Chemistry**

- CHE 100. Chemistry I
- CHE 100L. Chemistry I Lab
- CHE 185. Study Abroad Elective
- CHE 205. Chemistry of Plant Processes
- CHE 385. Study Abroad Elective
- CHE 390. Independent Study
- CHE 395. Special Topics

**Computers**

- COM 100. Introduction to Computers
- COM 185. Study Abroad Elective
- COM 220. Programming Applications for Engineering Technology Majors
- COM 220L. Programming Applications for Engineering Technology Majors Lab
- COM 385. Study Abroad Elective
- COM 590. Independent Study
- COM 395. Special Topics

**Mathematics**

- MTH 100. College Algebra and Trigonometry
- MTH 105. Finite Math
- MTH 107. Elementary Statistics
- MTH 185. Study Abroad Elective
- MTH 205. Calculus For Business
- MTH 210. Calculus I
- MTH 211. Calculus II
- MTH 212. Calculus III
- MTH 215. Differential Equations
- MTH 385. Study Abroad Elective
- MTH 390. Independent Study
- MTH 395. Special Topics

**Physics**

- PHY 100. Physics I
- PHY 100L. Physics I Lab
- PHY 105. Physics II
- PHY 185. Study Abroad Elective
- PHY 200. Engineering Physics I
- PHY 200L. Engineering Physics I Lab
- PHY 205. Engineering Physics II
- PHY 385. Study Abroad Elective
- PHY 390. Independent Study
- PHY 395. Special Topics

**Marine Science**

- MSC 100. Introduction to Geological and Chemical Oceanography
- MSC 105. Introduction to Biological and Physical Oceanography
- MSC 185. Study Abroad Elective
- MSC 200. Oceanographic Instruments and Analysis
- MSC 205. Marine Biology
- MSC 385. Study Abroad Elective
- MSC 390. Independent Study
- MSC 395. Special Topics
TRAINING SHIP GOLDEN BEAR

The Office of Marine Programs oversees much of what makes Cal Maritime a unique learning environment. This department manages all shipboard and waterfront training. Cadets receive specialized training on Cal Maritime’s fleet of workboats, tugboats and T-boats during the academic year. In addition, the department offers classes in water safety, shipboard maintenance, operations, management, and small boat handling throughout the year. The department also manages the summer training cruises taken by cadets aboard The Training Ship GOLDEN BEAR (TSGB). The training ship also serves as a “floating classroom” upon which licensed-track cadets participate in classes aboard the ship.

The Training Ship GOLDEN BEAR (TSGB) serves as the primary training platform upon which cadets apply technological skills introduced in the classroom and leadership skills acquired from their work assignments and responsibilities with the Corps of Cadets. Each summer the ship departs for its two-month Annual Training Cruise with licensed faculty officers. At sea, intellectual learning, applied technology, and leadership development blend daily as cadets apply what they have learned in the classroom, in the laboratories, in the Corps, and on the waterfront. Those working toward a license can feel the responsibility of command, demonstrate their effectiveness as leaders, and hone their technical skills and leadership styles.

During these summer training cruises, the ship typically stops at several foreign ports of call. This provides opportunities for all cadets to improve their global awareness by learning other cultures and interacting with local populations. They can also see the context of leadership and personal integrity in motivating others to follow. While at the academy, students are exposed to leadership opportunities with real-world responsibilities and real-world consequences from the moment they step foot on campus. They receive an academic foundation on leadership theories and the concepts of leadership are integrated into the curriculum and across the campus wherever possible. Our academic curriculum also demands that every cadet exercise team building and leadership development skills through classroom and lab-based courses requiring participation in a variety of topics, including Marine Survival, Engineering Plant Operations, Small Craft and Ship Handling, and Emergency Response Operations.

In addition, students are required to develop and display significant commitment, discipline, and integrity, by standing watch on and maintaining a federally owned training ship; training to fight fires or perform rescue operations; organizing international relief aid for impoverished communities; or by simply abiding by the standards of conduct put forth by the Corps of Cadets. Moreover, student government, housing, campus clubs, organizations, and athletic teams all require student leadership, provided by cadets who have been formally elected, selected, or appointed, and by other students who simply recognize a leadership void, and fill that void to the best of their ability. To Cal Maritime students, the work environment is never hypothetical, never purely theoretical; to a great extent, they live it daily.

The Leadership Development Office is responsible for overseeing the Corps of Cadets, and it is through the Corps that the widest range of training and leadership development opportunities on campus are offered. The Corps is also what sets Cal Maritime apart from most other leadership programs at other colleges and universities in the United States. Every Cal Maritime student is a cadet in the Corps, and is required to participate in Corps activities including participation in formations and inspections and abiding by standards of grooming and standards of conduct.

The Leadership Development Office is responsible for overseeing the Corps of Cadets, and it is through the Corps that the widest range of training and leadership development opportunities on campus are offered. The Corps is also what sets Cal Maritime apart from most other leadership programs at other colleges and universities in the United States. Every Cal Maritime student is a cadet in the Corps, and is required to participate in Corps activities including participation in formations and inspections and abiding by standards of grooming and standards of conduct.

LEADERSHIP DEVELOPMENT

Leadership development is one of the four points of the Cal Maritime “compass” that helps define and guide our institutional mission. The term is used to emphasize that personal development at the academy is intended to transcend a student’s personal life into their professional life. Most definitions of leadership contain a two-pronged focus of being able to define a mission or vision and the ability to influence people to work with them to accomplish or reach it. As such the primary focus of the academy leadership program include critical thinking, communication skills and the research addressing human motivation. The program goes beyond basic management skills in an attempt to show students the value of professional competence and personal integrity in motivating others to follow.

While at the academy, students are exposed to leadership opportunities with real-world responsibilities and real-world consequences from the moment they step foot on campus. They receive an academic foundation on leadership theories and the concepts of leadership are integrated into the curriculum and across the campus wherever possible. Our academic curriculum also demands that every cadet exercise team building and leadership development skills through classroom and lab-based courses requiring participation in a variety of topics, including Marine Survival, Engineering Plant Operations, Small Craft and Ship Handling, and Emergency Response Operations.

In addition, students are required to develop and display significant commitment, discipline, and integrity, by standing watch on and maintaining a federally owned training ship; training to fight fires or perform rescue operations; organizing international relief aid for impoverished communities; or by simply abiding by the standards of conduct put forth by the Corps of Cadets. Moreover, student government, housing, campus clubs, organizations, and athletic teams all require student leadership, provided by cadets who have been formally elected, selected, or appointed, and by other students who simply recognize a leadership void, and fill that void to the best of their ability. To Cal Maritime students, the work environment is never hypothetical, never purely theoretical; to a great extent, they live it daily.

The Leadership Development Office is responsible for overseeing the Corps of Cadets, and it is through the Corps that the widest range of training and leadership development opportunities on campus are offered. The Corps is also what sets Cal Maritime apart from most other leadership programs at other colleges and universities in the United States. Every Cal Maritime student is a cadet in the Corps, and is required to participate in Corps activities including participation in formations and inspections and abiding by standards of grooming and standards of conduct.

CORPS OF CADETS

Because every Cal Maritime student is a member of the Corps of Cadets, this organization functions as the most visible mechanism for the delivery of the widest range of direct leadership experience opportunities on campus. All Corps members develop positive and desirable leadership traits, such as bearing, discipline, initiative, integrity, justice, loyalty, reliability, responsibility, selflessness, and tact. Much is asked of every cadet at this academy, and the development of self-discipline is critical to the success of each man and woman in the corps.

The Corps of Cadets is directed by approximately 40 cadet officers appointed from the senior class by the President. The Corps Commander is the highest ranking cadet and works closely with the Corps Executive Officers, Corps Training and Academics Officer, Corps Administrative Officer and two Company Commanders. Every new cadet is placed in a division upon entry into the Academy. The Division Commanders work closely with all cadets in developing professional, watchstanding, and leadership skills. These officers also work to ensure high morale, camaraderie and fellowship within their divisions.

The Leadership Development Office is responsible for overseeing the Corps of Cadets, and it is through the Corps that the widest range of training and leadership development opportunities on campus are offered. The Corps is also what sets Cal Maritime apart from most other leadership programs at other colleges and universities in the United States. Every Cal Maritime student is a cadet in the Corps, and is required to participate in Corps activities including participation in formations and inspections and abiding by standards of grooming and standards of conduct.

STANDARDS OF CONDUCT

Another important element of leadership development is standards of conduct. All cadets are subject to rules and regulations that characterize the objectives set forth in the development of their leadership and professional skills.

The Academy’s conduct and discipline system is a vehicle for assessing a cadet’s aptitude for becoming a working professional. The goal of the conduct system is to develop and reward positive personal characteristics and to modify incorrect behavior. Cadets receive demerits for inappropriate behavior and, those with excessive demerits, may be required to serve extra duty on Saturdays. Cadets who commit egregious breaches of conduct or who have consistent conduct problems may be subject to extra duty, probation, suspension or dismissal.

Cadets are required to wear uniforms to all academic functions and formations and while standing watch. Inspections are conducted and grooming standards for both men and women are enforced.

WATChSTANDING

Watchstanding is an important element of leadership development and is essential for each cadet’s future success, whether at sea or ashore. Cadets “stand watch” either on the Training Ship GOLDEN BEAR or on campus. While standing watch, cadets are placed in positions of ever increasing levels of responsibility. As their knowledge grows, they oversee and direct the actions of others during periods of watch.

Watches are scheduled in 4-hour blocks from 4:30 p.m. until 7:30 a.m. daily, and 24 hours per day on weekends. Watches not only provide important learning experiences for cadets, but they also assist the Academy in providing a high level of security and safety, both on campus and the ship.
Regulations also exist that forbid cheating, plagiarism, alcohol consumption, use of illegal drugs, theft, hazin and other unbecoming conduct.

DRUG TESTING
The California Maritime Academy, as prescribed by 49 CFR Part 40 and amendments thereto, randomly administers drug tests to all cadets. Testing may also occur for reasonable cause, pre-employment or USCG licensing physical exams, follow-up testing, and for any marine casualty, accident, or serious incident. Additional testing for alcohol may also be undertaken during the training cruise.

POLICY ON USE OF ALCOHOL AND DRUGS
In compliance with the federal Drug-Free Schools and Communities Act Amendments of 1989 (20 U.S.C.1145g), The California Maritime Academy prohibits the unlawful possession, use, sale, or distribution of alcohol and illegal drugs by cadets, faculty, and staff on its property, training vessels, or as part of any academy-sponsored activities.

This prohibition extends to any off-campus activities that are sponsored by the institution or any of its recognized clubs and organizations.

Cadets in training for a U.S. Coast Guard merchant mariner’s license are subject to additional federal regulations regarding alcohol and drug use, and are also required to participate in the Academy’s random drug testing program.

For more information regarding these regulations and the Standards of Conduct, please refer to the Student Handbook and Regulations Governing the Corps of Cadets, or contact the Department of Student Leadership Development Office at 707-654-1211.

CO-CURRICULAR ACTIVITIES
Cal Maritime offers a variety of co-curricular activities which directly or indirectly strengthen and complement the objectives of leadership development. While these activities and organizations are not necessarily unique to the Academy, they do provide leadership roles for students in preparing them for success upon graduation. Cadets can strengthen their leadership skills by participating in one or more of the following activities.

♦ Associated Students of the California Maritime Academy (ASCMIA) A student-elected Board of Directors governs the ASCMA, providing board members and staff officers ample leadership opportunities during the academic year, and during the training cruises. They use student funds to create and operate programs to benefit the student community.

♦ Athletics The Academy sponsors nine intercollegiate athletic teams, including three – men’s and women’s basketball and men’s soccer – that are members of the National Association of Intercollegiate Athletics (NAIA) and the California Pacific Conference (CalPac). Building teams and developing leaders has long been recognized as a critical element for successful athletic competition.

♦ Academy Clubs and Organizations Cal Maritime has several student clubs and organizations. All clubs elect officers and lead their respective organizations.

♦ Housing and Residence Life The large majority of our cadets live in on-campus residential facilities. Residential life is an important component of a cadet’s experience at Cal Maritime, and housing staff members strive to create a community atmosphere in each of our three residence halls. Resident Assistants (RAs) are trained student housing staff members who live in the resident halls, and lead cadets in their respective halls through social and community standards. RAs are selected based on their maturity level, their willingness to commit to the health and welfare of a larger community, and their ability to maintain a comfortable and safe living environment in the resident halls, including the training ship.

♦ Community Outreach Cal Maritime’s Community Engagement Office participates in many local community development projects. Numerous volunteer opportunities exist for cadets to help in community outreach programs, local schools and non-profit organizations.

CAMPUS LIFE AND STUDENT SERVICES
Cal Maritime provides a wide range of purposeful co-curricular classroom experiences and services that encourage student learning and foster a sense of community. Students are challenged to think critically and support community standards within an environment where the principles of freedom of expression, civility, diversity, fairness and caring are valued and affirmed. Student Development programs and services enhance, support, and enrich the academic and training goals of the institution, in addition to providing students with intentional opportunities to learn and practice life skills, personal development, citizenship, leadership and wellness. Services and programs consist of new student orientation, housing and residence life, dining services, student health, counseling services, Financial Aid, Admissions, Commencement, and Associated Students of California Maritime Academy (ASCMIA). Special programs and tutorial services are available to support students in need of academic assistance through the Center for Engagement, Teaching and Learning.

In the broadest terms, the purpose of student services and programs is to do the following:

♦ Assist students with identifying, clarifying and achieving personal education and life goals;

♦ Improve the quality of student life;

♦ Provide opportunities for students to participate in social, cultural, recreational, and community experiences;

♦ Enhance the campus learning environment; and

♦ Improve student access and retention.

STUDENT CENTER
The Student Center serves as a focal point for campus life. The Morrow Cove Café, Student Health and Wellness Center, Counseling Services, Office of the Dean of Students, Office of Financial Aid, Career Center, student mail services, and the ASCMA Offices are located in this facility, along with a bank of computers overlooking the grassy waterfront. A TV lounge and common area are available for studying, watching a video, having lunch, accessing the Internet, or just taking a break.

ASSOCIATED STUDENTS OF THE CALIFORNIA MARITIME ACADEMY (ASCMIA)
Associated Students, Inc. (ASI), a non-profit student-run corporation chartered with the California Secretary of State, utilizes student funds to create and operate programs to benefit the student community. The Associated Student Body fee is paid by all students, making the Associated Students members eligible to vote in the annual elections for AS leadership.

A student Board of Directors, elected each year, governs ASCMA. The Board is comprised of a president, vice president of finance, executive vice president, chief of staff and officers from each class. The Board meets throughout the fall and spring semesters.

The Associated Students’ services and programs are designed to enrich campus life and to help support many campus organizations. The ASCMA officers also serve as the elected representatives of students and function to protect students’ rights.

The ASCMA sponsors a very active social calendar on campus under the direction of the Activities, Camaraderie, and Adventure (ACE) coordinators and Adventure & Recreational Center (ARC) for the outdoor enthusiast. ACE events have included comedy nights, coffee houses, hypnotist shows, casino nights, faculty/staff appreciation day, trips to see plays in San Francisco, social events with local area colleges, and other Bay Area sporting events and concerts. For the outdoor enthusiast, ARC provides day & weekend hiking and camping trips, day ski trips, kayaking trips, free rental of outdoor equipment, monthly Friday night rock climbing nights at local gyms, and much more. Student Activities fees allow ASCMA to provide these events to students for reduced or no charges. The ASCMA also registers, oversees and appropriates student fee money to active campus clubs and organizations.

DEPARTMENT OF HOUSING AND RESIDENCE LIFE
The three campus residence halls can accommodate 580 students. The residence halls are comfortable and convenient for students, with most rooms having a commanding view of the Carquinez Straits. Training Ship GOLDEN BEAR is home to over 120 students during the academic year.
Study lounges, meeting rooms, recreational areas, a barbershop and vending center, and laundry are located in the halls.

Most students share a double occupancy room. All are required to maintain residency on campus unless granted an exception per the terms of the off-campus housing policy (see below).

Professional and paraprofessional staff live in the residence halls and are available to students 24 hours a day. The Housing and Residence Life staff coordinates an exciting program of educational seminars, social events, and recreational activities for residential students each semester.

Each student room is wired for Internet access, cable television, and telephone services, which are included in the housing fee. The campus offers voicemail and email for each student. Please refer to the Student Handbook for additional information on services provided through Housing and Residence Life.

**OFF-CAMPUS HOUSING PETITION AND APPEALS CONSIDERATION**

**Policy Statement**

It is the policy of the California Maritime Academy that students enrolled in its baccalaureate degree programs maintain residence on campus and participate in a meal plan. All undergraduate, unmarried students under the age of 24 are required to live on campus and purchase a meal plan as part of their educational experience at The California Maritime Academy. When current enrollment exceeds the number of available beds, exceptions to this requirement may be made on a space-available basis in accordance with established policies from Housing and Residence Life. Decades of research and best practices in higher education support the added benefits of living on campus. Students who live on campus take and earn more credit hours, have higher GPAs, and are more likely to graduate than their off-campus counterparts.

**Off-Campus Housing**

Phase 1 All requests for Off-campus housing must be submitted to the Housing and Residence Life department by March 1. All decisions on Phase 1 Standard Approvals (petitions meeting the March 1 deadline, that qualify under age, military service, 5th year at CSUM and/or marital status) will be made within 5 business days after submission. If approved, you will need to accept or decline within 10 business days of your approval. Standard will be reviewed by Residence Life Professional Staff.

All other off-campus petitions will be sent to the Off-Campus Housing Review Committee for consideration. If you are not approved you will have two options:

- Option 1 – Within 5 business days of your denial, please submit a written request that you would like to be placed into the off-campus lottery to the Housing and Residence Life department.
- Option 2 – Within 5 business days of your denial, please submit a written appeal to the Dean of Students. In your appeal, you must present new and/or additional information that was not available at the time the committee reviewed your petition. If you decide to appeal you will not be allowed to enter the lottery after the April 1 deadline. The Dean of Students is the final appeals agent.

Phase 2 (Lottery Only) A box has been added on the Off-Campus Housing Request Form for Lottery Only. Lottery Only Petitions must be submitted to the Housing and Residence Life department by April 1.

**Consideration for Off-Campus Housing Requests:**

Generally, off-campus privileges will be considered for the following circumstances:

1. **Age** - Students who are 24 years of age or older on or prior to October 31. Please submit a copy of a valid driver’s license or government ID.

2. **Military Service** – Students who have served at least two years of continuous active military duty. Please provide a copy of your DD-14 papers or discharge papers.

3. **Maritime License** – Students holding a Third Mate or Third Assistant Engineer maritime license. Please provide a copy of your license.

4. **Marital Status** – Students who are married or head of household as defined by the Internal Revenue Service; students who are domestic partners and can qualify according to Academy policy. Please provide a copy of your marriage license.

5. **5th Year as CSUM Resident Student** – Students who have completed at least eight (8) semesters residency on the CSU-Maritime campus. Residency on the CSU-Maritime campus is defined as completed the Housing License Agreement (HLA), moved into the residence hall, picked up and returned room key at appropriate times, completed room checkout, and attended mandatory floor meetings.

6. **Medical** – Must provide current (1 year or less) documentation from appropriate licensed medical professional describing the students disability/medical condition, basis for diagnosis, how the disability/condition impacts students ability to live on campus housing and recommended accommodations. All medical petitions will be reviewed by the Off-Campus Housing Review Committee.

7. **Financial Hardship** - Must have completed all FAFSA by March 2nd, 2011, included a copy of your income tax return as well as other documents supporting your claim and accepted all University Aid offered, including Loans. Must still have 20% unmet need and submitted a budget sheet. All financial hardship petitions will be reviewed by the Off-Campus Housing Review Committee.

8. **Lottery** – Students that have been denied off-campus and submitted in writing, within 5 business days of their denial, will be placed into the lottery for an off-campus approval. There will be 2 rounds of the lottery. Seniors will have 1st priority and all other students will have 2nd priority. The Petitions must be submitted prior to the April 1st deadline. Must have 3 semesters of residency on Cal Maritime campus (defined as moved in to residence hall, picked up and returned key in appropriate time, completed room check out properly, attended mandatory floor meetings), good academic, disciplinary, and financial standing, and have completed a minimum of 50 credit hours at time of application. The Lottery will take place Middle of April. The approval for off-campus may be given to you as late as June 30th.

**Off-Campus Housing Review Committee**

The committee will consist of the Executive Director of Auxiliary, Residence Life Professional Staff Member, and 3 Cadets from a combination of ASCMA, Housing and Corps Officers. All requests made under Medical, Financial Hardship, and Other will be reviewed by the Off-Campus Housing Review Committee. Students must submit their petition with written documentation and may also sign up for 15 minutes with Off-Campus Housing Review Committee.

**Dining Services**

Cal Maritime Dining Services is a hospitality organization dedicated to providing the community and guests with high quality foods and services in a variety of settings. The Dining Hall and the Morrow Cove Café are conveniently located on campus and offer a well-balanced diet cafeteria style. Cal Maritime policy states that all campus resident students enrolled in its academic degree programs must participate in a meal plan available through Cal Maritime Dining Services.

The Department of Dining Services offers three meal plans for resident students and one for off-campus students.

1. The 19-Meal Plan provides the maximum number of meals available - breakfast, lunch, and dinner on Monday through Friday in the Dining Hall on Cafe, and brunch and dinner on Saturday and Sunday in the Dining Hall.

2. The 15-Meal Plan provides a choice of 15 meals including breakfast, lunch, and dinner on Monday through Friday in the Dining Hall on Cafe, and brunch and dinner on Saturday and Sunday in the Dining Hall.

Note: Acceptance of Off-campus status must be confirmed in writing by completing the Off-Campus Housing Acceptance Agreement to The Housing Department within 10 business days of offer or July 1, whichever is sooner. If not, authorization is revoked.
During the annual training cruise the Cal Maritime Health and Wellness Center relocates to the Medical Treatment facility onboard the Training Ship GOLDEN BEAR.

This facility is staffed with a Chief Medical Officer (Physician) and a Medical Officer (Physician Assistant, Nurse Practitioner, Registered Nurse or Medical Assistant) 24 hours a day for medical care. In addition to this 24-hours on-call service, the medical team provides a daily drop-in clinic twice a day while at sea and once a day while in port for students to access health care. The training ship is equipped with basic lab, x-ray, medical supplies and pharmaceuticals to support most of the health care needs of our students. Cal Maritime embraces an approach involving health education, acute and sub-acute care, and referral assistance to achieve our goals. The result will be students who understand how to make informed decisions about their health, and are self-directed towards optimal wellness.

While on campus or at sea, the care of certain illnesses, injuries, and conditions may require hospitalization or services beyond our scope of authorized care. In this instance, a student will be referred to local community medical services, where utilization of his/her medical insurance will be essential.

Mandatory Health Insurance*

Due to the special nature of the educational experience at Cal Maritime, which includes a training cruise often involving international travel, students are required to be covered by health insurance. All matriculated Cal Maritime students are automatically enrolled in and charged for the mandatory “Student Accident and Sickness Insurance Plan” unless a completed Online Medical Insurance Fee Waiver certifying comparable required coverage is received by the semester deadlines – July 1 for fall and November 1 for spring (returning students only)**. Medical Insurance Fee Waiver Forms are available in the Student Health and Wellness Center or http://www.csum.edu/web/campus-life/student-center/student-health-center

New Requirement:

Mandatory Travel Assistance Benefit

Travel assistance provides travelers with emergency protection and services when they are away from home. On-Call International provides medical evacuation and repatriation services.

For example, if a student becomes ill or hurt in a foreign country or just 100 miles away from campus, On-Call will cover emergency medical evacuation back home or to a safe and qualified regional hospital. This is an added benefit for CMA students who travel internationally. For more benefit information please visit: https://www.oncallinternational.com/products/academic/

Students who enroll in the student insurance plan are covered for travel assistance, no action is required. Students who waive out of the insurance will be charged the travel assistance group rate unless proof of additional coverage is provided.

Please feel free to contact us with any questions or concerns regarding this matter at 707-654-1170 or HealthCenter@csum.edu.

*The care of certain illnesses, injuries and conditions occasionally may require hospitalization or referral to other community medical facilities for after hours, long term, specialty or other forms of care requiring staff, facilities, and equipment which are not available in our Health Center, or beyond the scope of authorized services.

**Dates are subject to change.

Services Available

At CMA, the following basic services are available to enrolled students:

- Clinic based primary care of acute and sub-acute conditions, illnesses, and injuries. This includes physical examinations in the presence of bona fide medical indications and USCG licensing;
- Clinic based primary care of preexistent acute and sub-acute conditions and exacerbations thereof;
- The provision of family planning services, consistent with current medical practice, excluding surgical procedures;
- 24-Hour Nurse Advice Line. Students can call for accurate and confidential health information 800-977-0027;
- Health Education programs;
- Immunization programs for the prevention and control of communicable diseases;
- Evaluation and counseling for individual health problems (including screening);
- Preparation and maintenance of professional medical records;
- Medical liaison services with other community health providers, including health insurance carriers;
- Consultative services in health related issues involved in other campus programs, such as the annual training cruise;
- Basic dispensing of pharmaceuticals under medical supervision;
- Emergency first aid available to all persons while on the CMA campus if a campus physician or qualified personnel is on duty;
- SAMSHA Random Drug Testing Program; and
- Referrals for drug and/or alcohol counseling.

Student Counseling Services

Psychological counseling is available to CMA students from the Student Counseling Service. Licensed psychologists provide individual and couples counseling. Counseling sessions at CMA are free and confidential. Appointments can be made directly through the Student Counseling Service, which is located in the Student Health and Wellness Center.

Many students find counseling helpful in resolving problems such as relationship difficulties, adjusting to the pressures of college, and family issues. Students who experience periods of depression, anxiety, concern about alcohol or other drug use, or a change in eating or sleeping patterns should consider counseling.

Some students come for one appointment to work out or to resolve a difficulty. Other students decide to meet regularly for a limited time to develop insight into the nature of problems. This second option will make future difficulties less likely. The Student Counseling Service will work with students so that they may find greater success and enjoyment personally, academically and professionally.

If students finds themselves in a time of personal crisis and the Student Counseling Center is closed, they should contact any Student Services staff member or a community resource.

Physical and emotional well-being has a tremendous impact on a student’s academic performance. Our mission is to promote and maintain the optimal health of our students by modifying or removing health-related barriers to learning. This goal can be met by helping students obtain the skills to remain healthy throughout life, enhancing their lives as members of the academy and of the wider community. The Student Health and Wellness Center provides confidential, high quality and easily accessible health care in the campus environment, offering clinic-based urgent care services to all matriculated students.

Services are available:
Monday-Friday, 9:00 AM to 5:00 PM (closed 1:00-2:00 PM)

The Academy encourages students to utilize the Health and Wellness Center services for their medical needs such as urgent care (drop-in), scheduled appointments, physicals, basic lab and drug tests, specialty clinics, counseling, and referrals to off-campus providers.

Student Services

♦ The 15-Flex Meal Plan includes 15 meals per week to be used in the Dining Hall or the Morrow Cove Café for breakfast, lunch, dinner, or brunch. Flex Dollars can be used to purchase beverages, snacks, or even a full meal in the Dining Hall or the Café for the student or a guest. Details of the 15-Flex Plan are provided to enrolled participants.

♦ The 5-Meal Plan is available only to students not living on campus, and faculty and staff. The 5-Meal Plan provides a choice of 5 meals each week: choices are breakfast, lunch, and dinner on Monday through Friday, and brunch and dinner on Saturday and Sunday.

Meal service is not provided on holidays or weekends secured from watch or during winter and spring breaks.

During the Training Ship GOLDEN BEAR cruise, the Academy encourages students to utilize the Health and Wellness Services provides meals and services for all shipboard functions.

Morrow Cove Café offers meal service Monday through Friday from 10 AM to 4 PM. Special menus are featured weeknights with Pizza & Wings available after hours Friday and Saturday. Located inside the comfortable Student Center, students, faculty, and staff enjoy a meal or snack indoors, maybe catching up on email at one of the free computers or dining al fresco along the waterfront.

During the annual training cruise the Cal Maritime Health and Wellness Center relocates to the Medical Treatment facility onboard the Training Ship GOLDEN BEAR.

This facility is staffed with a Chief Medical Officer (Physician) and a Medical Officer (Physician Assistant, Nurse Practitioner, Registered Nurse or Medical Assistant) 24 hours a day for medical care. If students finds themselves in a time of personal crisis and the Student Counseling Center is closed, they should contact any Student Services staff member or a community resource.
TUTORING, DISABILITY AND OTHER SUPPORT SERVICES

Cal Maritime provides instructional support for the retention and academic success of students through the Center for Engagement, Teaching and Learning (CETL). These services include tutoring, disability resources, computer access, academic counseling, and study space.

Tutoring

The CETL offers accessible academic support through FREE group tutoring. Tutoring is designed to assist the student on his/her path toward learning independence. Tutoring support is available for courses in the following broad subject areas: math, writing/English, science, engineering, global studies and marine transportation.

Disability Services

The Disability Services Office, located within CETL, is committed to supporting the academic success of Cal Maritime’s students with verified disabilities. Support services and information resources are provided to individual students with disabilities and to the entire campus community. The Center provides a quiet testing room for students with documented disabilities as well as accessibility software and hardware designed to assist learning. Expanding upon this role, the Center provides assistance and workshops for the campus community in support of the Chancellor’s Assistive Technology Initiative (ATI).

Students applying for disability services should follow these steps in completion of necessary DSO application materials:

1. Read guidelines for disability documentation/verification. (Guidelines may differ according to disability.)
2. Submit Application for Services and disability verification (documents) to DSO office.
3. DSO verifies appropriate documentation and accommodations.
4. Schedule intake appointment and bring class schedule (when available).
5. Instructors are notified by DSO.
6. Student consults with individual instructors regarding appropriate accommodations.

Instructions and forms are available at http://www.csum.edu/web/faculty-and-staff/office-of-disability-services

Student Success Materials

Materials are available in the CETL to help students develop the skills necessary to be successful. Pamphlets and handouts cover topics such as: managing stress, goal setting, time management, note-taking, etc. In addition, tutors can provide one-on-one discussion and assistance on these topics illustrating successful study habits.

Other Support Services

♦ Learning Advice/Support – If students would like advice regarding learning techniques, private appointments are available with the Director of the Center for Engagement, Teaching and Learning.
♦ Quiet Study Environment – The CETL provides a quiet study environment with moveable tables to accommodate individual or group study and 25 computers available.
♦ Wireless Environment – The CETL provides tables and lounge area where students may bring their laptops.

COMMUNITY ENGAGEMENT AND SERVICE LEARNING

Community Engagement and Service Learning has been a foundation of The California State University since the first campus opened in 1857. Community Engagement and Service Learning are teaching and learning techniques providing situated and anchored student participation. This participation in meaningful and planned community service experiences directly relates to course content extending learning beyond the theoretical.

This participation in meaningful and planned community service experiences directly relates to course content extending learning beyond the theoretical. Through engagement and reflective activities, students not only enhance their understanding of course content but also grow in critical thinking, civic responsibility, self-awareness, and leadership skills.

Mission Statement

The mission of Cal Maritime’s Community Engagement Center is to be a driving and innovative force that advances our campus commitment to serving our surrounding communities and an enabler for our students to engage in critical inquiry and hands-on service.

Community Service Learning

Cal Maritime is well suited for implementing service learning courses. First, our technical curriculum has always embraced a “hands-on” approach to learning and leadership training. We often call our Training Ship GOLDEN BEAR a “living laboratory.” Students also have a long history of providing service to the community, both at home in Vallejo and overseas, performing community service activities as far away as Fiji and Chile.

Examples of Community Engagement Activities Include:

♦ Service-Learning
♦ Performing Community Service
♦ Community Forums/Town Halls
♦ Community-based Internships
♦ Community-based Research

Cal Maritime Community Partners

The Center for Community Engagement Center works closely with local non-profits, schools and government agencies building long-term, sustainable partnerships that promote service and engagement for Cal Maritime students, faculty, staff, and alumni.
CAREER SERVICES

HIGHLIGHTS

The Career Center is responsible for assisting with Graduate Recruiting, Commercial Cruise Coordination, Cooperative Internships, On-Campus Jobs and Alumni support. Staff are available to assist in Resume Building, Interview Skills, Career Development Workshops and Career Counseling.

MISSION

Through partnerships with employers and Career Services, Cal Maritime assures all students are provided the opportunity to realize their career goals.

CAREER FAIR

Each year the Department of Career Services hosts a Career Fair. The Career Fair is held the Tuesday following the Martin Luther King, Jr. holiday. The Career Fair attracts companies from all across the country. This event is open for all students to attend. The exhibitors range from maritime companies to engineering firms, and beyond.

COMPANY PRESENTATIONS & INTERVIEWS

Each year companies come to campus to recruit our graduating seniors. Companies hold presentations followed by interviews. Graduating seniors are able to sign up ahead of time to secure an interview time. Companies also come to campus to recruit for co-op positions and part-time jobs. All students, regardless of class standing, should attend company presentations. These companies come directly to our campus because of Cal Maritime’s outstanding reputation.

CAREER & COMMUNITY PARTNER EXPO

This event is held in the fall semester. Exhibitors include volunteer and non-profit organizations, graduate schools, and government agencies. All students are encouraged to attend and learn about each organization.

CAREER COUNSELING

The Career Center provides confidential and professional career counseling to those students who are unsure of their next step. The Career Center uses several different forms of career assessments and provides individual counseling.

WORKSHOPS

The Career Center prepares students for the job market by providing the following training:

♦ Job-preparedness workshops
♦ One-on-one job search counseling
♦ Resume preparation and business letter writing
♦ Interviewing and job search strategies
♦ Mock interviews (in person, online and by phone)
♦ Dress-for-success seminars

COMMERCIAL CRUISE

License-track cadets participate in Commercial Cruise on commercial vessels. The Career Center provides administrative support in implementing the Commercial Cruise program. Students select their commercial vessel based on their conduct and academic progress. Tanker applicants are required to accept a 90-day assignment; otherwise, 60-day assignments are the minimum on all other vessels.

The Commercial Cruise Coordinator works under direction from the academic department chairs. As this is an academic program, please look under the specific course for other details such as prerequisites.

COOPERATIVE EDUCATION (CO-OPS)

All non-license track cadets must participate in a Co-Op as required for their major. Co-Ops last at least 60 days and provide a great opportunity to develop skills that have been learned in the classroom, culminating in a relationship with a company that may lead to a job offer upon graduation.

All Co-Op placements must be approved by the appropriate academic department. As this is an academic program, please look under the specific course for other details such as prerequisites.

ON-CAMPUS JOBS

The Career Center is the one-stop spot to finding an on campus job. At the beginning of the fall semester an on-campus Job Fair is held on the campus quad. Each department hosts a table-top display where students can learn about each job and apply for openings. After the job fair, students seeking employment are directed to the Career Center’s job board.

JOB BOARD/WEB SITE

The Career Center has a free online job board where companies may post jobs directly. There are positions available from part-time all the way up to CEO’s. The web site is also a powerful networking tool. All students and alumni are encouraged to take advantage of this free tool at www.alumni.csum.edu/.
Eligibility
To participate, a student must meet the following requirements:
- Be at least 18 but not 26 by August 31 of the year he/she enters the program;
- Have no more than two dependents;
- Be at least 18 but not 26 by August 31 of the year he/she enters the program;
- Have no more than two dependents;
- Be a U.S. citizen;
- Be enrolled as a full-time 3rd class cadet at California Maritime Academy;
- Maintain a semester and cumulative 2.5 GPA on a 4.0 scale;
- Be at least a 2.2 GPA on a 4.0 scale.

Benefits
CMAAPP cadets receive pay for their weekend training drills and their active duty training time.

In addition, they qualify and receive Coast Guard tuition assistance, Montgomery GI Bill benefits, and are eligible for Coast Guard Mutual Assistance.

Obligation
CMAAPP cadets incur an eight (8) year military service obligation. The first two (2) years will be served as reservists while in full-time attendance at Cal Maritime. Graduates successfully completing all program requirements will be commissioned as Ensigns and serve on active duty for three (3) years. The remaining three (3) years of service obligation may be performed on active duty, in the Selected Reserves (SELRES), in the Inactive Ready Reserve (IRR), or a combination of the three (3).

U.S. COAST GUARD - MARITIME ACADEMY GRADUATE PROGRAM

Program
The Maritime Academy Graduate Program (MARGRAD) is a program of the United States Coast Guard. Its mission is to enlist as Coast Guard officers individuals who have graduated from or will soon graduate from a maritime college or university.

Eligibility
To qualify for MARGRAD, one must meet the following qualifications:
- For the grade of Ensign, be between the ages of 21 and 40 (applicants must have reached their 21st birthday but not their 41st birthday as of September 30 of the fiscal year in which the panel convenes); for the grade of Lieutenant Junior Grade, applicants must also have served one or more years on board vessels of the United States in the capacity of a licensed officer;
- Have graduated from an accredited maritime college or university with at least a bachelor’s degree with a Coast Guard license option;
- Not be on active duty in any other U.S. Armed Service (one can apply while on active duty, provided he or she submits a discharge statement. Applicants in an Inactive Reserve program must submit a conditional release);
- Pass a Coast Guard physical exam;
- Be a U.S. citizen;
- Not be a conscientious objector;
- Have at least a 2.2 GPA on a 4.0 scale.

Obligation
Individuals who are selected attend a five-week Direct Commission Officer training course and serve on active duty for three years. After one year of the initial three-year contract, individuals will have the opportunity to apply for full-time university graduate or post-graduate training. If accepted, the Coast Guard will pay all tuition expenses and salary while studying.

Information
MARGRAD information sessions take place every academic year at Cal Maritime. Interested students can inquire at that time or can contact their local recruiter or LT John Velasco at jvelasco@csum.edu or 707-654-1722. Information is also available at http://www.gocostguard.com/find-your-dt/officer-opportunities/programs/maritime-academy-graduate

U.S. NAVY - MERCHANT MARINE RESERVE PROGRAM

The Naval Science Department prepares students to participate in the Merchant Marine Reserve (MMR), a joint program established in 1925 between the U.S. Navy and the U.S. Merchant Marine. This is a program unique to the maritime schools that allows students earning Coast Guard license as Merchant Marine Deck or Engine Officers to be commissioned as Ensigns in the Navy Reserve upon graduation. Merchant Marine Reservists normally serve on inactive duty in the Merchant Marine Individual Ready Reserve Group, allowing them to work as civilians in the maritime industry without the monthly drill requirement. They are called to serve on active duty when required to support major military sealift operations that call for the training and experience of licensed merchant marine officers. The program also offers the option to pursue an active duty commission upon graduation as an unrestricted line officer.

Eligibility
To participate in the MMR, students must meet the following qualifications:
- Be no older than 27 by June 30 of commissioning year, waivable to 30 with prior military service;
- Pass a Department of Defense physical examination;
- Pass a semi-annual Physical Readiness Test;
- Be enrolled in a degree program with a U.S. Coast Guard license option; and
- Be in good academic standing, with a GPA of 2.0 or better.

Students will be offered the opportunity to join the MMR their first year at Cal Maritime. Applications will be reviewed by the Officer in Charge of the Department of Naval Science; successful applicants will receive appointments as Midshipmen, U.S. Navy Reserve.

Benefits
Midshipmen between the ages of 17 and 24 are eligible to receive a Student Incentive Payment of $4,000 each semester ($32,000 total distributed over four years) from the Federal Maritime Administration.

Program Requirements
Midshipmen (MMR students) meet for weekly leadership and physical training sessions at Cal Maritime and take additional Naval Science classes. Specifically, midshipmen must complete the following courses:
- NSC 100 Naval Science for the Merchant Marine Officer
- NSC 200 Naval Science for the Merchant Marine Reservist I
- NSC 400 Leadership, Ethics, and Naval Science for the Merchant Marine Reservist II

Obligation
Upon graduation, midshipmen are commissioned as Ensigns in the U.S. Navy Reserve. They are obligated to maintain their Coast Guard license and participate in the Navy Reserve for eight years, during which time they will perform two weeks of active duty per year. In addition, they are required to maintain employment in the maritime industry for six years.

Information
For additional information, contact the Department of Naval Science at 707-654-1266.

ROTC
In addition to the above programs, Cal Maritime provides Army, Navy, and Air Force ROTC programs via arrangements with other universities in the area.
VETERAN SERVICES

The California Maritime Academy is approved by the State of California as a training facility for veterans applying for VA educational benefits. The Student Records Office provides VA Enrollment Certification services to new and currently enrolled veterans and dependents who are eligible for the GI Bill. For more information, go to http://www.csum.edu/web/faculty-and-staff/veterans-resources.

The following educational benefits are available to veterans and dependents at Cal Maritime:

♦ Chapter 30 (Montgomery GI Bill - Active Duty)
♦ Chapter 31 (Vocational Rehabilitation)
♦ Chapter 33 (Post-9-11 GI Bill)
♦ Chapter 1606 (Montgomery GI Bill - Reservists)
♦ Chapter 1607 (Reserve Educational Assistance Program)

VETERAN'S AFFAIRS COMMITTEE

The purpose of the Veteran’s Affairs Committee is to assist Cal Maritime in meeting CSU and national goals to be a veteran friendly campus, to assure that any problems that veterans may have, either with the campus or personally, are addressed, and to increase services to veterans and dependents on campus as well as raise awareness of veteran related issues on campus and in the community.

ADMISSIONS FOR VETERANS

As an alternative to regular admission criteria, an applicant who is an eligible veteran of the U.S. armed forces is considered for special admission. A veteran must meet the following conditions (in addition to supplementary criteria of Cal Maritime for admission or Coast Guard License):

1) Possess a high school diploma or its equivalent (G.E.D. or California High School Proficiency Examination);
2) No prior enrollment in college as a full-time college student (12+ units per semester) for more than one term during the past five years;
3) An average GPA of 2.0 (“C” or better) on all college coursework in the past five years;
4) Satisfaction of the English and mathematics requirements for either first-time freshmen or transfer students with grades of “C” or better;
5) Good standing at the last educational institution attended;

Recommended:
6) Successful completion, with a grade of “C” or better, a college-level algebra/trigonometry course in the past five years or work in a related technical field within the last two years;
7) Successful completion, with a grade of “C” or better, a college-level composition course.

Please note that Cal Maritime has some flexibility regarding academic requirements for entrance and admission deadlines for military veterans. This is part of the CSU system-wide effort to prioritize educating those who have given their service to the United States. If you need such flexibility, please contact Cal Maritime Admissions and identify yourself as a military veteran. We will do our best to work with you to achieve your educational goals as quickly as possible.

VETERAN STUDENT ASSOCIATION

Cal Maritime’s Veteran Student Association (VSA), formed in the fall of 2010, is open to all Cal Maritime students. The purpose of the VSA is to help veterans transition into college life. The VSA will address veteran’s issues on campus, as well as at the CSU-wide level. The association will also perform community service to help less fortunate veterans.

Q & A FOR VETERANS

Where can I find out about the CSU’s “Troops to College” Initiative and how it can benefit me?
Visit the CSU Veterans web site at http://www.calstate.edu/veterans/

How can I apply?
Apply online at www.csumentor.edu. There is a $55.00 application fee required when you submit the online application.

What items are required for your office to make an admission decision?
A completed online application, the $55.00 application fee, and all official high school and college transcripts.

How can I determine if I qualify for admission?
You will be evaluated as a First-Time Freshman or Transfer applicant. To find qualifications for those two categories, find those words on the left under “I want to apply.”

VETERAN’S RESOURCES

For up-to-date information regarding VA Educational Benefits, veterans and dependents of veterans are encouraged to visit the U.S. Department of Veterans Affairs GI Bill website at www.gibill.va.gov. Students who would like to apply for VA Educational Benefits, or who need to request a change in program or place of training, can complete the required VA forms directly online at the GI Bill website using the Veterans On-Line Application (VONAPP) website.

♦ Form 22-1900 Application for VA Education Benefits (veteran)
♦ Form 22-5490 Application for VA Education Benefits (dependent)
♦ Form 22-1995 Request for Change of Program/Place of Training (veteran)
♦ Form 22-5495 Request for Change of Program/Place of Training (dependent)

Once a student becomes eligible (approved) to receive VA Educational Benefits, the student should also submit Cal Maritime Veteran’s Information Form to the Student Records Office in order to start the Enrollment Certification process.

UNDERGRADUATE COURSE DESCRIPTIONS

DEFINITIONS

A prerequisite is an academic requirement that must be completed prior to enrolling in a course.

A co-requisite is an academic requirement that must be taken concurrently with a course.

► Denotes a course that fulfills STCW (Standards of Training, Certification, and Watchkeeping for Seafarers) requirements. USCG license program students must achieve a grade of "C-" or higher in order to pass an STCW course.

(CSL) Denotes that these courses have a community service component, which may be in addition to regular class hours or part of the course itself, as indicated.

ACADEMIC DEPARTMENT/SCHOOL DESIGNATIONS

ATH = Athletics
ET = Engineering Technology
XL = Extended Learning
LIB = Library
MT = Marine Transportation
MO = Maritime Operations
MPM = Maritime Policy and Management
ME = Mechanical Engineering
NS = Naval Science
SM = Science & Mathematics

Please refer to the academic department/school designation listed after the course description to determine the department/school that maintains the course.

All courses are graded using the A–F system unless otherwise specified.

COURSE NUMBERING SYSTEM

0 – 99.....remedial courses (not applicable to degree)
100 – 299.....lower division
300 – 499.....upper division

BUSINESS

BUS 100. ACCOUNTING PRINCIPLES I: FINANCIAL
CLASS HOURS: 3, CREDIT: 3
Prerequisites: None
The objective of this course is to provide the financial accounting principles within which a company functions. Topics include measuring income, establishing financial position, and reporting the results of the accounting cycle. MPM

BUS 101. ACCOUNTING PRINCIPLES II: MANAGERIAL
CLASS HOURS: 3, CREDIT: 3
Prerequisite: BUS 100
The focus of this course is on planning and controlling business operations. The course includes data analysis, budgets, product costing and pricing, and quantitative decision-making. MPM

BUS 120. THE ENVIRONMENT OF MODERN BUSINESS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: None
A survey course to introduce the student to the various components and issues relating to modern business. Topics to be covered include: management, operations, human behavior in business settings, human resources, marketing, financial management and planning both personal and enterprise, and business ethical issues. The focus of the course will be the introduction to the student of the business faculty and the different aspects of business practices today, the interaction between global business, people, and the governments, and the issues facing enterprises large and small. Business career opportunities will also be addressed during each part of the course. MPM

BUS 165. BUSINESS DECISION ANALYSIS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: MTH 100
The success of business executives and managers depends on their decision-making abilities and sound knowledge they incorporate in their decision-making process. The Business Decision Analysis course covers concepts and quantitative tools as aids in managerial decision making. Students will learn to utilize algebraic techniques and computer technology to solve business decision problems. They will be introduced to the concepts of probability and time value of money, their importance to business and how to incorporate them in business problems and solving them. A wide range of business applications will be covered, including many from transportation, logistics, the maritime industry, and international business. MPM
BUS 185. STUDY ABROAD ELECTIVE
MPM

BUS 190. CRUISE PORT ANALYSIS
CLASS HOURS: 1, CREDIT: 1
Prerequisites: None
Co-requisite: Cruise
An introductory course for students not involved in Coast Guard licensing, covering shipboard operational requirements necessary to make modern sea-going vessels function efficiently. Students also conduct studies of commercial elements in ports to be visited during cruise. They plan and arrange for site visits, factory or transport enterprise visits, seminars, and other activities to be conducted while in port, and/or during voyages. MPM

BUS 195. CRUISE SPECIAL TOPICS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: BUS 190
This course is a special topics course to be taught to business students on cruise. Topics will be related to the specific cruise destinations, and reflect the expertise and interest of the instructor as well as the nature of the cruise. There may be a service learning component as determined by the instructor. MPM

BUS 200. INTRODUCTION TO MARKETING
CLASS HOURS: 3, CREDIT: 3
Prerequisite: ECO 100
This course introduces the student to the marketing function in a business environment. The various marketing components of product, price, promotion, and place are examined in the context of the competitive business arena. Case studies and the analysis of marketing plans are discussed. MPM

BUS 300. INTERNATIONAL BUSINESS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: ECO 100
This course introduces the student to the effects of multi-national operations on business strategy and decision making by exploring the economic, political, financial, legal, and social nature of the international environment. The formulation, selection, and implementation of multi-national strategies are examined in the context of the global business environment. MPM

BUS 301. INTERNATIONAL BUSINESS II—COUNTRY RESEARCH ANALYSIS AND GLOBAL MARKETING
CLASS HOURS: 3, CREDIT: 3
Prerequisites: Senior Class Standing or Chair Approval
Students explore, in detail, some major issues of doing business globally, such as environment, supply chain competition, regulation, security, exchange rates and international finance, and legal and cultural issues. Focus will be primarily maritime and transport related. Students learn through case studies and research and analysis of specific country information from major international organizations. MPM

BUS 302. PRINCIPLES OF RESEARCH DESIGN, IMPLEMENTATION & ANALYSIS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: MTH 107, or an equivalent at least sophomore level statistics course from transfer credits or another Cal Maritime department.
Co-requisite: BUS 302L
The purpose of this course is to give students a working appreciation of both quantitative and qualitative research methodologies. The classroom presentations will focus on theory and examples; the lab will give students an opportunity to put theory into practice by designing, implementing and analyzing a business research project. Student teams conduct work on the projects. Within the teams there will be a cross-functional approach so that each student will be involved at one time or another in assignments that involve all major aspects of the research project. In addition to the usual evaluation by the professor, peer evaluation will round out the students’ project experiences. MPM

BUS 302L. PRINCIPLES OF RESEARCH DESIGN, IMPLEMENTATION & ANALYSIS LAB
LAB HOURS: 2, CREDIT: 1
Prerequisite: Same as BUS 302
Co-requisite: BUS 302
MPM

BUS 310. FINANCIAL MANAGEMENT
CLASS HOURS: 3, CREDIT: 3
Prerequisites: BUS 101, MTH 107, MTH 205
Introduction to management and formation of capital; the finance function and its environment; techniques of financial analysis; planning and control; management of working capital; capital budgeting; cost of capital; money and capital market analysis; management of capital structure. MPM

BUS 385. STUDY ABROAD ELECTIVE
MPM

BUS 390. INDEPENDENT STUDY
MPM

BUS 395. SPECIAL TOPICS
MPM

BUS 400. BUSINESS AND SOCIETY
CLASS HOURS: 3, CREDIT: 3
Prerequisite: ECO 101
Analysis of the American business system in terms of socioeconomic and political constraints imposed upon business organizations by external environments. Special reference to ethical issues in business, corporate social responsibility, and profit maximization. MPM

BUS 405. BUSINESS LEADERSHIP AND GROUP DYNAMICS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: EGL 110, CEP 300, EGL 300, Senior Class Standing
Behavioral and psychological aspects of leadership in the business environment are the focus of this course. Behavioral concepts include practical training in how to follow, development of skills in leadership, communication, team membership, and management of personal stress. Psychological concepts include attitude development, corporate culture values, and personality assessment. In addition, students perform a detailed leadership analysis of their co-op (or other work experience, with instructor’s approval), resulting in a professional paper, and an oral presentation in class. MPM

CHEMISTRY

CHE 100. CHEMISTRY I
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
Co-requisite: CHE 100L
This course is an intensive survey of the fundamental principles of chemistry. Primary emphasis focuses on atomic and molecular structure, atomic and hybrid orbital theories, stoichiometry, bonding theories including molecular orbital theory, molecular geometry, thermochemistry, and the states of matter. SM

CHE 100L. CHEMISTRY I LAB
LAB HOURS: 3, CREDIT: 1
Co-requisite: CHE 100
As a co-requisite, this course is designed to expand upon as well as reinforce chemical concepts introduced in CHE 100 and introduce students to processes, hardware, instruments and techniques employed in a chemistry laboratory environment. Topics addressed during experiments include metric measurement, properties of chemicals, emission spectra, bonding, Avogadro’s Number, reaction stoichiometry, the ideal gas law, thermochemistry, and solutions. SM

CHE 185. STUDY ABROAD ELECTIVE
SM

CHE 205. CHEMISTRY OF PLANT PROCESSES
CLASS HOURS: 3, CREDIT: 3
Prerequisites: CHE 100, CHE 100L
This course examines the role that water plays in both production and power plant processes. Emphases within the course focus on the nature of liquid mixtures, including equilibrium concepts as they relate to solution chemistry, sources and types of organic and inorganic water contamination, the quantification of water contamination and the pre-treatment and post-treatment of water utilized in plant processes. SM

CHE 385. STUDY ABROAD ELECTIVE
SM

CHE 390. INDEPENDENT STUDY
SM

CHE 395. SPECIAL TOPICS
SM

COMMUNITY SERVICE LEARNING

CSL 120. COMMUNITY SERVICE LEARNING
CLASS HOURS: 3
COMMUNITY SERVICE HOURS: 30
CREDIT: 3
Prerequisite: None
This course is designed to provide an exceptional and personalized mandatory community service-learning experience where students apply their academic knowledge and skills to community based issues and needs. This experiential based approach will be combined with a series of lectures and discussions covering issues related to students’ community service learning. Guest speakers and readings are used to acquaint students with a variety of topics related to their service activities. In addition, students take part in regular reflection activities where they critically analyze their personal service experience from a number of different perspectives. MPM
CEP 270, FET CO-OP I
CREDIT: 3
Prerequisites: CRU 150, Sophomore Class Standing
This course is the first of two summer co-ops required for the Facilities Engineering Technology major. It requires the student to work in industry under a cooperative education training agreement by working onsite for a 2-month period. Students will encounter current and practical work experience with various facilities. ET

CEP 300, BUSINESS INDUSTRY CO-OP I
CREDIT: 3
Prerequisites: Permission of the Chair
This course allows the student to spend time in a domestic work environment that has been setup by the Business Department. The student is expected to acquire practical learning outcomes in management, resource allocation, and business communications. The focus of this experience is to get employment in a company that will enhance the theoretical knowledge, improve the practical learning and build leadership and management skills. MPM

CEP 330, GSMA CO-OP
CREDIT: 3
Prerequisites: GMA 100, GMA 105
Provides students with experience in industry, government and NGO settings in areas relevant to the GSMA major. Students apply classroom knowledge to real-world issues and bring the work experience back to the classroom to enrich their academic understanding of maritime policy concerns. Specific experience varies with the co-op setting, but includes written and oral communication skills, applied knowledge and opportunities for in-depth appreciation of a specific aspect of maritime security, environmental and other policy issues. Generally taken during the third summer, but may be done at any time with the permission of the GSMA Co-op Coordinator and GSMA Department Chair. MPM

CEP 350, ME CO-OP II
CREDIT: 3
Prerequisites: CEP 250, Junior Class Standing
This course is the second and final of two summer co-ops required for some students in the Mechanical Engineering program. It requires the student to work onsite in an industry, research facility, or research institution under a cooperative education training agreement for a 2-3 month period. Students will encounter practical work and current research experiences. Experiences vary with the participating companies, facilities, and institutions but should include teamwork, communication, and engineering design problem-solving opportunities. The student will work in a paid position under a degree engineering supervisor in cooperation with the Career Development Center. ME

CEP 370, FET CO-OP II
CREDIT: 3
Prerequisites: CEP 270, Junior Class Standing
CEP 370 is the second and final of two summer cooperative education courses required by the Facilities Engineering Technology Program. This course requires the student to work in industry under a cooperative education training agreement by working onsite for a 2-month period. Students will encounter current and practical work experience with various facilities. ET

CRUISE
CRU 100, SEA TRAINING I (DECK)
CREDIT: 8
Prerequisites: DL 100, DL 105, DL 105L, DL 105X, DL 109, DL 110, DL 115, DL 120, NAU 105, NAU 110
A valid passport and successful completion of the USCG Lifesaving's exam are required for all students embarking on all training cruises. Comprises the first sea training experience for the student. During this period of training aboard the Training Ship GOLDEN BEAR, the emphasis is on ship familiarization, safety drills and training, basic deck watchstanding skills as helmsman and lookout, vessel maintenance and sanitation, and practical seamanship. Students will be required to demonstrate competencies in selected STCW '95 topics. MT

Graded: Credit/No Credit
CRU 150. SEA TRAINING I (ENGINE)  CREDIT:  8
Prerequisites:  DL 105, DL 105L, DL 105X, EPO 110, EPO 125
A valid passport and successful completion of the USCG Lifeboatman's exam are required for all students embarked on all training cruises. First at sea experience on the training ship. Introduction to the fundamentals of engineering systems operations and shipboard routine, including operation and maintenance of diesel propulsion, electrical power generation, and evaporators and support equipment. Duties during emergency situations such as fire, abandon ship, and rescue are also learned. By the end of the cruise, the student will have demonstrated the required STCW competencies and understand basic power plant operation and maintenance. ET

CRU 185. STUDY ABROAD ELECTIVE  ET, MT
CRU 190. BASIC SAFETY TRAINING  CREDIT:  1
CLASS HOURS:  12; LAB HOURS:  12
Prerequisites:  Valid CPR and Basic First Aid Certification from a recognized EMS Organization
This course, a primer in shipboard safety awareness for staff and students not involved in Coast Guard licensing, provides basic training in lifesaving and firefighting procedures, modeled after the Coast Guard and IMO approved BST matrix. It includes both knowledge-based topics and laboratory procedures in lifesaving and firefighting equipment usage as well as personal safety techniques. MO
Graded: Credit/No Credit

CRU 195. INTRODUCTION TO MARITIME OPERATIONS (non-license program course)  CREDIT:  1
CLASS HOURS:  1; CREDIT:  1
Prerequisite:  CRU 190, or DL 105 and DL 105L
An introductory course for students not involved in Coast Guard licensing, designed to introduce non-traditional maritime students to various shipboard operational requirements necessary to make modern sea-going vessels function efficiently. MO
Graded: Credit/No Credit

CRU 200. SEA TRAINING II (DECK)  CREDIT:  5
Prerequisites:  CRU 180, DL 111, FCC Element I, DL 325, DL 325L, EGI 100, NAU 102, NAU 102L, NAU 205, NAU 305
Also, during the year preceding commercial cruise, the student must not have been found guilty of violating Academy drug and/or alcohol regulations, or state or federal laws involving drugs or alcohol, and must not be on disciplinary probation during the prior term. A valid passport and successful completion of the USCG Lifeboatman's exam are required for all students embarking on all training cruises.
Co-requisite:  CRU 200L
This course is the student’s second sea training experience. Students are required to participate in a sea training program aboard an approved commercial or federal vessel. The period of onboard training consists of either 60 days for minimum Coast Guard requirements or 90 days for the Tankerman PIC DL certification. During their training period students will document and analyze various aspects of shipboard operation and procedures as prescribed by the department. This guided analysis will constitute their project for which they will be issued a letter grade. MT

CRU 200L. SEA TRAINING II LAB (DECK)  CREDIT:  3
Prerequisites:  Same as for CRU 200
Co-requisite:  CRU 200
This course exposes students to the type of observations and tasks required by STCW 95. As a basis for grading this course, the student completes a comprehensive check list that parallels the STCW 95 standards for which they will be certified upon completion of the course. This check list parallels STCW 95 competencies but does not provide certification or equivalency. MT
Graded: Credit/No Credit

CRU 225. USCG SEA TRAINING II (DECK)  CREDIT:  5
Prerequisites:  Same as for CRU 200. Must be fully accepted as a candidate in the California Maritime Academy Precommissioning Pilot (CMAAPP) Program
This course, the student's second sea training experience, and is mandatory for all fully accepted students in the California Maritime Academy Precommissioning Pilot (CMAAPP) Program. A valid passport and successful completion of the USCG Lifeboatman's exam are required for all students embarking on all training cruises.
Co-requisite:  CRU 225L
This course is the student’s second sea training experience and is mandatory for all fully accepted students in the California Maritime Academy Pre-commissioning Pilot (CMAAPP) Program. Students are required to participate in a sea training program aboard an approved Coast Guard cutter. The period of onboard training consists of 60 days for minimum Coast Guard requirements. The objectives of the Cadet Training Program are to expand the student’s knowledge of Coast Guard operations and missions from the perspective of a junior officer; reinforce academic year programs and prior training experiences with hands-on experience; develop in an operational environment the specialized skills and knowledge necessary to become a successful career officer; reinforce in each student professional competence, dedication, commitment, and a sense of service history; provide students hands-on experience with the required interaction between chief petty officers and the wardroom; and provide each student the required sea going experience. MT

CRU 225L. USCG SEA TRAINING II LAB (DECK)  CREDIT:  3
Prerequisites: Same as for CRU 200L
Co-requisite:  CRU 225
This course exposes students to the type of observations and tasks required for ensigns in the Coast Guard in accordance with the Personnel Qualification Standard (PQS) and IMO STCW 95 certification. As a basis for grading this course, the student completes a comprehensive professional notebook of required CG observations and tasks. Additionally, the workbook will parallel many STCW 95 standards for which they will be certified in CRU 300. This workbook parallels but does not certify nor is equivalent to STCW 95 competencies. MT
Graded: Credit/No Credit

CRU 250. SEA TRAINING II (ENGINE)  CREDIT:  8
Prerequisites:  CRU 150, EPO 110, EPO 125, EPO 210, EPO 213, EPO 215, and EPO 220 with no grade less than a C-
A 60 day sea training experience aboard a commercial or government vessel for students pursuing a USCG Third Assistant Engineer’s License. A comprehensive engineering report and performance evaluations by the ship’s engineering officers are the basis for course grading. The Commercial Cruise Project includes a journal of operational and maintenance experiences, technical descriptions and drawings of shipboard engineering systems, and a summary of measures to implement environmental and SOLAS regulations. ET

CRU 275. USCG SEA TRAINING II (ENGINE)  (COAST GUARD ONLY)  CREDIT:  8
Prerequisites:  CRU 150, EPO 210
Must be fully accepted as a candidate in the CMAAPP Program.
This course, the student’s second sea training experience, is mandatory for all fully accepted students in the California Maritime Academy Precommissioning Pilot Program (CMAAPP). Students are required to participate in a sea training program aboard a Coast Guard cutter. The period of onboard training consists of 60 days for minimum Coast Guard requirements. The objectives of the Cadet Training program are to expand the student’s knowledge of Coast Guard operations and missions from the perspective of a junior officer; reinforce academic-year programs and prior training with hands-on experience; develop in an environment the specialized skills and knowledge necessary to become a successful career officer; reinforce in each student professional competence, dedication, commitment, and a sense of service history; provide students experience with the required interaction between chief petty officers and the wardroom; and give each student a minimum of 60 days sea going experience. A comprehensive report is required upon completion of the cruise. ET

CRU 300. SEA TRAINING III (DECK)  CREDIT:  8
Prerequisites:  CRU 200 or CRU 225, CRU 200L or CRU 225L, DL 310, DL 311, DL 320, NAU 202, NAU 202L, NAU 302L, NAU 320, NAU 330, FCC Elements 1 and 7, FF 200
A valid passport and successful completion of the USCG Lifeboatman's exam are required for all students embarking on all training cruises.
This course is the student’s third sea training experience for the student. During this period of training aboard the Training Ship GOLDEN BEAR, the emphasis is on ship maneuvering skills, celestial navigation, collision avoidance, weather reporting, radio, communications, bridge team management, supervision of vessel maintenance, and bridge watchstanding as the cadet in charge. Students will be required to demonstrate competencies in 1995 STCW selected topics. MT
Graded: Credit/No Credit
CRU 350. SEA TRAINING III (ENGINE)  CREDIT: 8
Prerequisites: CRU 250 or CRU 275, EPO 310, FF 200
During the cruise, the student functions as the supervisor and assumes responsibility for the proper performance of the first cruise students in engineering tasks. Responsibility is in the following areas: (1) as watch engineer, directly responsible to a licensed watch officer for the operation of all systems, ensuring that all data is properly taken and recorded and all duties properly performed; (2) as daywork assistant, maintaining and repairing equipment and systems under the supervision of an instructor; and (3) as engineering assistant, carrying out Third Assistant duties under the supervision of the Chief Engineer. By the end of cruise, the student will have demonstrated the STCW competencies and be ready to stand watch as a Third Assistant Engineer. ET

CRU 385. STUDY ABROAD ELECTIVE  ET, MT
CRU 390. INDEPENDENT STUDY  ET, MT
CRU 395. SPECIAL TOPICS  ET, MT
DECK LABS

DL 100. SMALL CRAFT OPERATIONS  CREDIT: 1
Prerequisites: DL 105, DL 105L. Prerequisite: Pass swimming assessment test or PE 100
Instruction in small boat/motor lifeboat operation. Practical training in small boat handling, with emphasis on maneuvering characteristics, relative motion, and small engine operation. The cadets will continue to develop and practice their leadership skills by acting as the boat operator/crosswain. As such, the acting boat operator/crosswain will be in charge of organizing the vessel crew into a functioning team able to carry out all aspects of small boat operations, from tying up and letting go to emergency procedures. MO

DL 105. MARINE SURVIVAL  CREDIT: 1
Prerequisite: Pass swimming assessment test or PE 100
Co-requisite: DL 105L
This course prepares the student for the U.S. Coast Guard Lifeboatman’s Endorsement. Students must pass this class with a C- or higher to qualify to take the Coast Guard Lifeboatman’s exam. This class conforms to the STCW Requirements for personal survival training as well as components of the social responsibility requirement. Students will be instructed in the preparation, embarkation, and launching of survival craft and will become familiar with the correct use of all survival equipment, as well as the proper actions to take to preserve the lives of those in their charge. MO

DL 105L. MARINE SURVIVAL LAB  CREDIT: 2, CREDIT: 1
Prerequisite: Pass swimming assessment test or PE 100
Co-requisite: DL 105
Students receive hands-on training in basic personal and group survival techniques. Through a combination of multiple pool sessions and actual operation of survival craft, students will be given the skills required for the practical section of the U.S. Coast Guard Lifeboatman’s Endorsement. This course conforms to STCW requirements for personal survival training as well as components of the social responsibility requirement. MO Graded: Credit/No Credit

DL 105X. USCG LIFEBOATMAN’S EXAM  CREDIT: 0
MO Graded: Credit/No Credit

DL 109. INDUSTRIAL EQUIPMENT AND SAFETY  CREDIT: 1
LAB HOURS: 2
Prerequisite: None
This course is designed to prepare Marine Transportation students to safely enter into learning and work assignments aboard the Training Ship GOLDEN BEAR. It covers many basic safe work practices, personal protective equipment, hazard recognition, and regulatory requirements. MO

DL 110. SHIP OPERATIONS I  CREDIT: 1
LAB HOURS: 3
Prerequisites: DL 109, DL 115 (may be taken concurrently)
Hands-on introduction to day-to-day shipboard operational and maintenance routines under supervision from upperclass cadets and ship’s officers. Undertaken will be structural maintenance, cleaning, lubrication, and various other work projects expected of the ordinary seaman. Students are instructed in power and specialty tools, safe work practices, and HAZMAT/pollution procedures. MO Graded: Credit/No Credit

DL 111. SHIP OPERATIONS II  CREDIT: 1
LAB HOURS: 3
Prerequisites: DL 110, DL 115
A continuation of Ship Operations I, with additional emphasis placed on cruise preparation procedures and the work expectations of Able Bodied Seamen. Emphasis is placed on Marlinspike Application, the ability to work with limited supervision, safe working habits, and the proper work ethic for jobs assigned, along with efficiency in the use of labor and material resources. MO Graded: Credit/No Credit

DL 115. MARLINSPIKE  CREDIT: 3
LAB HOURS: 2, CREDIT: 1
Prerequisites: None
Besides acquiring a thorough working knowledge of rope-work, rigging and safety procedures, students will learn knots. MO

DL 120. CARGO OPERATIONS  CREDIT: 1
LAB HOURS: 3
Prerequisite: None
This course is a comprehensive STCW-95-compliant lab designed to explore various aspects of how to use a marine VHF radio, the Maritime Mobile Service and the Maritime Mobile Satellite Service. Students will demonstrate a theoretical knowledge of equipment compliance, electronic communications systems, calling procedures, distress alerting techniques, and marine safety information. Course leads to FCC licensing for Marine Radio Operator Permit (Element 1) and GMDSS Operator’s License (Element 7). Student must also be enrolled in DL 240L (Additional fee required). MT

DL 240. GLOBAL MARITIME DISTRESS SAFETY SYSTEM (GMDSS)  CREDIT: 1
LAB HOURS: 2
Prerequisites: MTH 100, PHY 100, PHY 100L
Co-requisite: DL 240L
A comprehensive STCW-95-compliant course designed to explore various aspects of how to use a marine VHF radio, the Maritime Mobile Service and the Maritime Mobile Satellite Service. Students will demonstrate a theoretical knowledge of equipment compliance, electronic communications systems, calling procedures, distress alerting techniques, and marine safety information. Course leads to FCC licensing for Marine Radio Operator Permit (Element 1) and GMDSS Operator’s License (Element 7). Student must also be enrolled in DL 240L (Additional fee required). MT

DL 240L. GLOBAL MARITIME DISTRESS SAFETY SYSTEM (GMDSS)  CREDIT: 1
LAB HOURS: 2
Prerequisites: Same as for DL 240
Co-requisite: DL 240
A comprehensive STCW-95-compliant lab designed to give students hands-on experience using equipment in the Maritime Mobile Service and the Maritime Mobile Satellite Service. Course to include a 24-hour communications watch on CRU 300. Student must also be enrolled in DL 240. MT

DL 305. TUG AND BARGE  CREDIT: 1
LAB HOURS: 3
Prerequisites: DL 100
This course introduces the specific operations required of towing and pushing vessels. Students are supervised in the use of the Academy’s tug and barge in specific towing operations. MO

DL 310. MARINE SUPERVISORY LAB  CREDIT: 1
LAB HOURS: 3
Prerequisites: DL 109, DL 110, DL 111, DL 115
Basic introduction into the supervisory skills required of first-level managers by means of supervising and directing groups of persons to competently accomplish individual work projects. Job planning, resource allocation, labor relations and personnel safety assurance are the primary objectives of the course. MO

DL 312. MARINE SUPERVISORY LAB  CREDIT: 1
LAB HOURS: 3
Prerequisites: DL 109, DL 110, DL 111, DL 115
Basic introduction into the supervisory skills required of first-level managers by means of supervising and directing groups of persons to competently accomplish individual work projects. Job planning, resource allocation, labor relations and personnel safety assurance are the primary objectives of the course. MO

DL 335. SHIP HANDLING  CREDIT: 1
LAB HOURS: 2
Prerequisites: DL 100, DL 105, DL 105L
A comprehensive course in interpreting engineering drawings. Material covered includes lettering, applied geometry, orthographic projections, free hand and isometric sketching, drawings of shipboard devices and equipment, and blueprint reading. MT

DL 185. STUDY ABROAD ELECTIVE  MO, MT

DL 200. SHIP HANDLING  CREDIT: 1
LAB HOURS: 3
Prerequisites: DL 100, DL 105, DL 105L
Prerequisite: Pass swimming assessment test or PE 100
Practical experience in shiphandling with vessels large enough to gain an appreciation for ship-handling problems encountered with much larger vessels. Participants are exercised in “soft” landings, emergency procedures, mooring techniques and line handling, and collision avoidance. MO
DL 311. MARINE MANAGEMENT LAB
LAB HOURS: 3, CREDIT: 1
Prerequisites: DL 109, DL 110, DL 111, DL 115, DL 310

Continuation of Marine Supervisory Lab, with new emphasis on complete project management versus supervising of individual job components. A complete array of management concepts, including labor relations, material and labor availability, safety and weather considerations, and regulatory compliance variables are stressed in successful project completion. Accountability is emphasized for the successful completion of assigned projects on time while maximizing utility of resources available. Project organization, pre-planning, and implementation are required as vessel prepares for cruise departure. Students are introduced to material acquisition processes and paperwork requirements necessary to achieve project completion.

MO, MT

DL 320. INTRODUCTION TO BRIDGE SIMULATION
CLASS HOURS: 2, LAB HOURS: 2, CREDIT: 2
Prerequisites: CRU 200L or CRU 225L, DL 240, DL 240L (may be taken concurrently)

Introduction to California Maritime's bridge simulator. Instructional emphasis is placed on standardized watchstanding methodology, practices, and task priorities.

MT Graded: Credit/No Credit

DL 325. RADAR/ARPA
CLASS HOURS: 2, CREDIT: 2
Prerequisites: CRU 100, NAU 102, NAU 102L (may be taken concurrently), NAU 305 (may be taken concurrently), MTH 100, Sophomore Class Standing
Co-requisite: DL 325L

A comprehensive STCW course emphasizing an elementary understanding of RADAR/ARPA theory, factors affecting performance and accuracy, and the limitations of contact detection. Satisfactory completion of this course is a requirement for the issuance of a USCG Third Mate’s License.

MT Graded: Credit/No Credit

DL 325L. RADAR/ARPA LAB
LAB HOURS: 4, CREDIT: 2
Co-requisite: DL 325

MT Graded: Credit/No Credit

DL 385. STUDY ABROAD ELECTIVE
MO, MT

DL 390. INDEPENDENT STUDY
MO, MT

DL 395. SPECIAL TOPICS
MO, MT

DL 405. SHIPBOARD MEDICAL
CLASS HOURS: 1, CREDIT: 1
Prerequisites: Senior Class Standing
Co-requisite: DL 405L

The practical application of the principles of Advanced First Aid. Subjects include diagnosis and treatment of traumatic injuries, cardio-pulmonary resuscitation, shipboard sanitation, including certificates necessary for licensing and for Level 3 STCW.

MT

DL 405L. SHIPBOARD MEDICAL LAB
LAB HOURS: 2, CREDIT: 1
Prerequisite: Senior Class Standing
Co-requisite: DL 405

MT

DL 420. WATCHSTANDING SIMULATION
CLASS HOURS: 2, LAB HOURS: 2, CREDIT: 2
Prerequisites: CRU 300, DL 240, DL 240L

Full mission bridge watchstanding simulator designed as a capstone course for senior students. The course objective is to assess basic watchstanding skills at the STCW/95 OICNW level.

MT Graded: Credit/No Credit

ECO 101. MICROECONOMICS
CLASS HOURS: 3, CREDIT: 3
Recommended Prerequisite: ECO 100

Introduction to microeconomics and the behavior of economic agents. The economic way of thinking is now very prominent in interpreting modern life, including global business activity. Microeconomics, fundamental in analysis of business and human behavior, is preferred because it gives quantitative predictions. Students analyze the allocation of scarce resources, costs of production, supply and demand, consumer preference, elasticity, and utility theory. They study determination of prices and output in competition and monopoly; the role of public policy, and comparative economic systems, and some modern views of agent behavior.

MPM

ECO 185. STUDY ABROAD ELECTIVE

MPM

ECO 200. ECONOMIC GEOGRAPHY
CLASS HOURS: 3, CREDIT: 3

Examines concepts of management decision-making using knowledge of the global economic forces. The focus of this class is on economic micro and macro theory to explain events in the local economy and foreign economies. Using logical observations of the economy, the course emphasizes the development of decision-making criteria for strategic business decisions.

MPM

ECO 385. STUDY ABROAD ELECTIVE

MPM

ECO 390. INDEPENDENT STUDY

MPM

ECO 395. SPECIAL TOPICS

MPM

ECO 305. MANAGERIAL ECONOMICS
CLASS HOURS: 3, CREDIT: 3

Examines concepts of management decision-making using knowledge of the global economic forces. The focus of this class is on economic micro and macro theory to explain events in the local economy and foreign economies. Using logical observations of the economy, the course emphasizes the development of decision-making criteria for strategic business decisions.

MPM

ECO 390. INDEPENDENT STUDY

MPM

ECO 395. SPECIAL TOPICS

MPM

ECONOMICS

ECO 100. MACROECONOMICS
CLASS HOURS: 3, CREDIT: 3

Prerequisite: None

Basic economic methodology, analysis, and policy; economic institutions, organizations and industrial structure, the monetary system; measurement, determination and stability of national income; monetary, fiscal and balance of payment problems and policies.

MPM
ENG 430. NAVAL ARCHITECTURE
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
ET 332, ET 340
ET 332, ET 340
ET
ENG 440. POWER ENGINEERING
CLASS HOURS: 3, CREDIT: 3
Prerequisite: ME 240 or ET 344
This course will survey the various processes used to convert various energy resources—fossil fuel (coal, oil, natural gas) and renewable sources (hydroelectric, solar, wind, geothermal, biomass, ocean tidal and wave)—into useful electrical and mechanical energy. The focus will be on the engineering analysis, technology, and societal and environmental benefits and impacts of each process.
ME
ENG 440L. POWER ENGINEERING LAB
LAB HOURS: 1, CREDIT: 1
Prerequisite: ENG 440
 Experimental study of several of the electrical power generation systems studied in Power Engineering. Students will operate several power generation systems in the Power Lab (including a gas turbine, combined cycle plant, wind turbine, and solar photovoltaic and thermal systems) under controlled loads, obtain measurements, and evaluate performance. Hybrid and battery charging systems will also be examined.
ME
ENG 470. ENGINEERING MANAGEMENT
CLASS HOURS: 3, CREDIT: 3
Prerequisite: ELEC 210, Junior Class Standing
Begins with a brief introduction to the engineering profession and then focuses on total quality management, personnel management and communications, project management and legal concerns. Topics such as professional liability and ethics will provide the student with a sense of his or her responsibilities. In addition, numerous case studies enhance student understanding.
ET
ENG 472. FACILITIES MANAGEMENT
CLASS HOURS: 3, CREDIT: 3
Prerequisite: CEP 250 or CEP 270
Topics from various engineering and technology disciplines are covered and integrated into a structure consistent with the understanding and experiences needed in the facilities engineering management profession. This course is the introductory course to the Facilities Engineering profession. In their senior year, students must take and pass a comprehensive examination administered by an independent agency as designated by the engineering technology faculty.
ET
EPO 110. PLANT OPERATIONS I
LAB HOURS: 3, CREDIT: 1
Prerequisite: None
An introductory course in marine engineering that develops a basic understanding of common shipboard systems: their function, arrangement, major components and principles of operation. Hands-on studies of the engineering systems aboard the Training Ship GOLDEN BEAR reinforce engineering system concepts discussed in class. Completion of shipboard practical training is prerequisite.
MO
EPO 125. INTRODUCTION TO MARINE ENGINEERING
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
Co-requisite: EPO 110
An introductory course in marine engineering that develops a basic understanding of common shipboard systems: their function, arrangement, major components and principles of operation. Hands-on studies of the engineering systems aboard the Training Ship GOLDEN BEAR reinforce engineering system concepts discussed in class. Completion of shipboard practical training is prerequisite.
MO
EPO 185. STUDY ABROAD ELECTIVE
ET, MO
EPO 210. PLANT OPERATIONS II
LAB HOURS: 3, CREDIT: 1
Prerequisite: EPO 110
Continuation of the practical work performed on the training ship or in facilities maintenance lab. Equipment maintenance is emphasized with work on diesel engines, air compressors, generators, electrical equipment and pumps. Lab reports will be completed on work performed.
MO
EPO 213. WELDING LAB
LAB HOURS: 3, CREDIT: 1
Prerequisite: None
A laboratory course that provides the experience in welding, brazing, cutting, and burning techniques sufficient to effect emergency repairs and routine maintenance of engineering structures and systems.
ET
EPO 214. BOILERS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EPO 125
Comprehensive study of fossil fuel steam generators, with emphasis on marine propulsion plants. Studies include the principles of boiler design and construction, boiler auxiliaries, principles of combustion, heat recovery equipment, automated boiler controls, and boiler water treatment. In addition, the course prepares students for the steam plant section of the U.S. Coast Guard Third Assistant Engineer’s Exam.
ET
EPO 215. MANUFACTURING PROCESSES I
LAB HOURS: 3, CREDIT: 1
Prerequisite: None
An introduction to machine shop practices utilizing engine lathes and milling machines, precision measuring instruments and hand tools. Assigned projects include the execution of designs developed by students in prior graphics design courses.
ET
EPO 217. SHIPBOARD MEDICAL
LAB HOURS: 2, CREDIT: 1
Prerequisite: Senior Class Standing
An introduction to shipboard medical problems, with emphasis on the principles of First Aid and Medical Care. Topics include body structure and function, resuscitation techniques, and bleeding control. Shock management, burns and scalds, cold and heat effects, rescue and casualty transport, toxicological hazards, spinal injuries, fractures, dislocation and muscular injuries, radio medical advice, pharmacology, sterilization, cardiac arrest and drowning.
ET
EPO 220. DIESEL ENGINEERING I
LAB HOURS: 3, CREDIT: 2
Prerequisite: None
Introduction to the internal combustion engine utilized by industry and merchant vessels. Covered topics include basic theory, history of the diesel engine, gas exchange process, engine types, engine construction, engine parts, fuel injection, and merchant vessel propulsion. All diesel engine types are covered but emphasis is given to the crosshead type slow-speed diesel engine which is the dominant form of main propulsion for the world’s merchant fleet.
ET
EPO 230. STEAM PLANT SYSTEM OPERATIONS
LAB HOURS: 2, CREDIT: 1
Prerequisites: EPO 125
A hands-on learning experience in the Steam Plant Simulator. An introduction to the engineering systems, operating and emergency procedures, and watch requirements of a steam propulsion plant.
ET
EPO 235. STEAM PLANT WATCH TEAM MANAGEMENT
LAB HOURS: 2, CREDIT: 1
Prerequisites: EPO 214, EPO 230
A hands-on learning experience in the Steam Plant Simulator. Develops fault analysis techniques for steam propulsion plants, communication skills in a work environment, and management abilities.
ET
EPO 310. PLANT OPERATIONS III
LAB HOURS: 3, CREDIT: 1
Prerequisite: EPO 210
A continuation of the practical work performed on the training ship or in facilities maintenance lab. Supervision of equipment maintenance is emphasized. The students rotate in working on main propulsion, electrical and auxiliary equipment. Lab reports will be completed on work performed.
MO
EPO 312. TURBINES
CLASS HOURS: 3, CREDIT: 3
Prerequisites: EPO 214
A comprehensive study of steam turbines, condensers, reduction gears, propulsion shafting, and gas turbines, with emphasis on marine propulsion plants. Steam and gas turbine controls and the thermodynamic principles of efficient steam plant operation are also included. Through the course, students will gain the knowledge to operate and maintain turbines and their auxiliary systems. In addition, the course prepares students for the steam plant section of the U.S. Coast Guard Third Assistant Engineer’s Exam.
ET
EPO 315. MANUFACTURING PROCESSES II
LAB HOURS: 3, CREDIT: 1
Prerequisite: EPO 215
A continuation of EPO 215 Manufacturing Processes I, emphasizing work on metal lathes and vertical milling machines.
ET
This course will emphasize Engine Team Management. You will learn to work effectively as a team to diagnose normal operating and emergency conditions. Students will operate a heavy-fuel diesel-propulsion plant under stressful conditions. This course is intended as a preparatory course for QMED Diesel Engineer. ET 185. STUDY ABROAD ELECTIVE ET, MO

ET 332. DIESEL PLANT SIMULATOR Lab Hours: 2, Credit: 1
Prerequisite: EPO 220
Co-requisite: EPO 322L
In the Diesel Plant Simulator, the student will learn to operate a heavy-fuel diesel-propulsion plant under normal operating and emergency conditions. Students will learn to work effectively as a team to diagnose combustion and machinery faults representative of those encountered in operating diesel power plants. This course will emphasize Engine Team Management techniques utilizing the simulator as an instructional tool to train the students in good communications and problem solving even during stressful conditions. ET

EPO 319. FACILITIES ENGINEERING DIAGNOSTICS Lab Hours: 1 Credit: 1
Prerequisite: CRU 150
Examines the theory and application to machinery maintenance of vibration analysis, oil analysis, machinery alignment, thermography, and overall plant performance analysis. Includes the study of various machinery maintenance programs applied to facilities engineering systems, including machinery history, trend analysis, and predictive maintenance. ET

EPO 321. DIESEL PLANT SIMULATOR Lab Hours: 2, Credit: 1
Prerequisite: EPO 220
This course provides an introduction to the operation of slow-speed diesel propulsion systems. The course consists of lecture and practical training in engineering systems and proper operating procedures. The student will learn to operate a heavy-fueled diesel-propulsion plant under normal operating conditions. Students will learn to work effectively as a team to diagnose combustion and machinery faults under emergency conditions representative of those encountered on an operating vessel. This course will emphasize Engine Team Management techniques utilizing the simulator as an instructional tool to train the students in good communications and problem solving even during stressful conditions. ET

EPO 322. DIESEL ENGINEERING II/SIMULATOR Class Hours: 1 Credit: 1
Prerequisite: EPO 220
The study of engineering systems and components associated with diesel power plants. Topics include exhaust treatment equipment and advanced engine technologies applied to the reduction of harmful emissions. The course consists of lecture and practical training in diesel engine systems, normal operations and maintenance, and casualty procedures. ET

EPO 322L. DIESEL ENGINEERING II/SIMULATOR Lab Hours: 2, Credit: 1
Prerequisite: EPO 220
Co-requisite: EPO 322L
In the Diesel Plant Simulator, the student will learn to operate a heavy-fuel diesel-propulsion plant under normal operating and emergency conditions. Students will learn to work effectively as a team to diagnose combustion and machinery faults representative of those encountered in operating diesel power plants. This course will emphasize Engine Team Management techniques utilizing the simulator as an instructional tool to train the students in good communications and problem solving even during stressful conditions. ET

EPO 324. REFRIGERATION & A/C FOR QMED Class Hours: 3, Credit: 3
Prerequisite: None
Introduction to basic refrigeration and air conditioning principles and equipment. Included are the theory and application of direct and indirect refrigeration cycles commonly found on merchant ships and ashore, including main cargo freezers, air conditioning systems, chill water systems, refrigerated vans, and ice machines. Single-phase electrical motor and motor starter theory. Course includes daily lecture and some lab work. ET

EPO 325. QMED FUNDAMENTALS Class Hours: 3, Credit: 3
Prerequisites: EPO 125, EPO 220, NAU 310, NAU 310L
This course is an overview of the fundamental principles of electrical distribution systems, electric power generation, electric drive motors, electric motor control, auxiliary boilers, and auxiliary steam systems. The course is intended as a preparatory course for students taking the USCG unlicensed examination for QMED Diesel Engineer. ET

EPO 385. STUDY ABROAD ELECTIVE ET, MO

EPO 390. INDEPENDENT STUDY ET, MO

EPO 395. SPECIAL TOPICS ET, MO

EPO 413. ADVANCED WELDING AND FABRICATION Lab Hours: 3, Credit: 1
Prerequisites: EPO 213, EPO 215
A practical experience in taking a fabrication project through each step to completion. Scheduling, drawings, materials lists, various fabricating techniques, and teamwork are all part of the assigned project. ET

ENGINEERING TECHNOLOGY

ET 110. INTRODUCTION TO ENGINEERING TECHNOLOGY Class Hours: 1, Credit: 1
Prerequisite: None
A survey course introducing the engineering technology profession and curriculum. Topics in engineering education, academic success strategies, and career opportunities are covered. Also, the basic concepts of engineering analysis are introduced through the use of engineering units and significant figures in calculations. Field trips are utilized to give the students exposure to their chosen profession. ET

ET 185. STUDY ABROAD ELECTIVE ET

ET 230. PROPERTIES OF MATERIALS Class Hours: 2, Credit: 2
Prerequisite: CHE 100, CHE 100L, MTH 210
Examination of the properties of materials from the atomic to the macroscopic levels, looking at crystal structures and the application of materials to engineering systems. Emphasis is on metals, but nonmetals are discussed. Mechanical properties, creep, fatigue, corrosion and failure characteristics are covered. Current usage of advanced materials is also discussed. ET

ET 230L. PROPERTIES OF MATERIALS LAB Class Hours: 2, Credit: 1
Prerequisite: CHE 100, CHE 100L, ET 230, MTH 210
Investigates the physical characteristics of materials through testing, data acquisition, and calculations. Tests conducted include tensile, fatigue, creep, impact energy, and hardenability. Students learn how the properties described in ET 230 are derived. ET

ET 232. STATICS Class Hours: 3, Credit: 3
Prerequisites: MTH 211, PHY 205, PHY 200L
Force systems and the conditions of equilibrium for particles and rigid-bodies are studied in two and three dimensions. The principles of equilibrium, moments, and dry friction are applied to engineering system components and structures. ET

ET 250. ELECTRICAL CIRCUITS Class Hours: 3, Credit: 3
Prerequisite: MTH 211, PHY 205
Co-requisite: ET 250L
Principles and applications of DC and AC circuit analysis, node and mesh equations, Thevenin equivalent circuits, maximum power transfer, first order transients, simple filters and amplifiers, phasors, power, power factor, and reactive power in single-phase systems. ET

ET 250L. ELECTRICAL CIRCUITS LAB Class Hours: 2, Credit: 1
Prerequisite: MTH 211, PHY 205
Co-requisite: ET 250L
Application of circuit elements and principles from ET 250 in laboratory measurements and analysis. ET

ET 330. DYNAMICS Class Hours: 3, Credit: 3
Prerequisite: ET 232
Force systems and motion of particles and rigid-bodies are studied in two and three dimensions. The principles of dependent and relative motion, work and energy, conservation of energy, and impulse and momentum are applied to engineering system components. ET

ET 332. STRENGTH OF MATERIALS Class Hours: 3, Credit: 3
Prerequisites: MTH 211, ET 232
Co-requisite: ET 330L
Study of basic concepts in strength of materials: normal, shear, bending, and bearing stress; stress-strain relation; and design properties of materials. Practical application of structure calculations for sizing bolts, rivets, shafts, beams, columns, and pressure vessels. ET

ET 340. FLUID MECHANICS Class Hours: 3, Credit: 3
Prerequisites: MTH 211, PHY 205
Co-requisite: ET 340L
The application of principles of incompressible fluid flow. Topics include forces in static fluids and fluids in motion, applications of Bernoulli’s equation, pressure losses in pipe systems, open channel flows, pump selection, and air flow in ducts. ET

ET 340L. FLUID MECHANICS LAB Class Hours: 2, Credit: 1
Prerequisite: MTH 211, PHY 205
Co-requisite: ET 340L
Application of circuit elements and principles from ET 250 in laboratory measurements and analysis. ET
ET 342L. REFRIGERATION AND AIR CONDITIONING LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisite: ET 344  
Co-requisite: ET 342  
ET

ET 344. THERMODYNAMICS  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: PHY 200L, PHY 200L  
Basic laws of thermodynamics and their applications to heat-power machinery applied on shipboard heat-power plants, steam and gas turbines, internal combustion engines, and vapor-compression refrigeration systems. ET

ET 350. ELECTRICAL MACHINERY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ET 250, ET 250L  
Co-requisite: ET 350L  
Principles and application of magnetic circuits and transformers, three-phase power, power factor correction, DC motors and generators, three-phase AC motors and alternators, single-phase motors, stepper motors, electronic motor control, and circuit protection devices. ET

ET 350L. ELECTRICAL MACHINERY LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisite: ET 250, ET 250L  
ET

ET 370. ELECTRONICS  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: COM 220, COM 220L, ET 250, ET 250L  
LAB HOURS: 2, CREDIT: 1  
Co-requisite: ET 400L  
Prerequisites: ET 370, ET 370L  
A study of instrumentation devices and their uses in monitoring processes. Instrumentation used for measuring temperature, pressure, level, flow, position and motion as well as other types of analytical measurement are studied. In addition to instrumentation, the principles of signal conditioning are also studied including op-amp applications, filtering, applications to pneumatic systems, and digital signal conditioning. Concludes with a study of how instrumentation relates to modern data acquisition systems; how to optimize measurements and effectively analyze measured signals. Laboratory applications are investigated concurrently with course topics. ET

ET 375. STUDY ABROAD ELECTIVE  
ET

ET 385. INSTRUMENTATION AND MEASUREMENT  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ET 370, ET 370L  
Co-requisite: ET 400L  
ET

ET 390. INDEPENDENT STUDY  
ET

ET 395. SPECIAL TOPICS  
ET

ET 400. INSTRUMENTATION AND MEASUREMENT  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ET 370, ET 370L  
Co-requisite: ET 400L  
This lab is designed to study principles introduced in ET 400 Instrumentation and Measurement. Lab procedures include studies involving signal conditioning, Wheatstone bridge applications, use of operational amplifiers for signal conditioning, Boolean logic, thermal transducers, strain gage measurements, variable capacitance transducers, and optical transducers. Computer-based data acquisition methods are used in all the procedures. ET

ET 400L. INSTRUMENTATION AND MEASUREMENT LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: ET 370, ET 370L  
Co-requisite: ET 400L  
This is the final course in a two course series of applied thermodynamics with regards to refrigeration/air conditioning cycle. This course will focus on the HVAC requirements of facilities with application to ships as well as any facility. Designing of HVAC systems, including heat balance, duct design and fan selection will be used to examine the system requirements and to examine potential modification to the existing system. The course will prepare the student for the Certified Plant Engineer-In Training (CPE-IT), Fundamentals of Engineering (FE), and United States Coast Guard (USCG) exams. ET

ET 412L. HEATING, VENTILATION, AND AIR CONDITIONING LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: ET 342, ET 342L  
Co-requisite: ET 442L  
ET

ET 420. AUTOMATION  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ET 400, ET 400L  
Co-requisite: ET 460L  
ET

ET 442. AUTOMATION LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: ET 400, ET 400L  
Co-requisite: ET 460L  
This lab is designed to study principles introduced and discussed in ET 460. Lab procedures include introduction to the concepts of closed loop control, PLC (programmable logic controllers) programming, pneumatic logic and control applications, a study of frequency response in systems (Bode plots), and process loop tuning methods. ET

ET 490. POWER ENGINEERING TECHNOLOGY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ET 344, ET 350, ET 350L  
Co-requisite: ET 490L  
A capstone course in engineering technology in which students apply the engineering fundamentals of previous thermodynamics and electrical machinery coursework to studies of combustion processes, combustion by-products and emission abatement and electrical distribution and transmissions systems commonly found in modern marine propulsion plants and the power industry. Additionally, through guest lecturer presentations and/or field trips, students will become familiar with renewable energy resources. As a research project, students will conduct an energy audit of a virtual facility and develop an engineering model for application of “green” technologies to improve energy efficiency and reduce the carbon footprint. ET

ET 490L. POWER ENGINEERING TECHNOLOGY LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: ET 344, ET 350, ET 350L  
Co-requisite: ET 490  
In the Power Laboratory, students will perform thermodynamic analyses of operating power generation equipment. ET

ENG 100. ENGLISH COMPOSITION  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
ET

ENG 101. INTRODUCTION TO COMPOSITION  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: Note: Intensive practice in the basics of expository writing. The course stresses the grammar of sentences, punctuation, paragraph organization and development to help students write effective college-level English. Entering students are required to take a placement exam, regardless of what previous college English courses they have had, to determine whether this course is appropriate for them. Graded: A, B, C, NC, XL

ENG 101L. INTRODUCTION TO COMPOSITION LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: ET 400, ET 400L  
Co-requisite: ET 460L  
This lab is designed to study principles introduced and discussed in ET 460. Lab procedures include introduction to the concepts of closed loop control, PLC (programmable logic controllers) programming, pneumatic logic and control applications, a study of frequency response in systems (Bode plots), and process loop tuning methods. ET

ENG 490. POWER ENGINEERING TECHNOLOGY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ET 344, ET 350, ET 350L  
Co-requisite: ET 490L  
A capstone course in engineering technology in which students apply the engineering fundamentals of previous thermodynamics and electrical machinery coursework to studies of combustion processes, combustion by-products and emission abatement and electrical distribution and transmissions systems commonly found in modern marine propulsion plants and the power industry. Additionally, through guest lecturer presentations and/or field trips, students will become familiar with renewable energy resources. As a research project, students will conduct an energy audit of a virtual facility and develop an engineering model for application of “green” technologies to improve energy efficiency and reduce the carbon footprint. ET

EGL 001. INTRODUCTION TO COMPOSITION  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: Note: Intensive practice in the basics of expository writing. The course stresses the grammar of sentences, punctuation, paragraph organization and development to help students write effective college-level English. Entering students are required to take a placement exam, regardless of what previous college English courses they have had, to determine whether this course is appropriate for them. Graded: A, B, C, NC, XL

EGL 100. ENGLISH COMPOSITION  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: Note: Intensive practice in the basics of expository writing. The course stresses the grammar of sentences, punctuation, paragraph organization and development to help students write effective college-level English. Entering students are required to take a placement exam, regardless of what previous college English courses they have had, to determine whether this course is appropriate for them. Graded: A, B, C, NC, XL

EGL 101. INTRODUCTION TO COMPOSITION  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
ET

EGL 101L. INTRODUCTION TO COMPOSITION LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: ET 400, ET 400L  
Co-requisite: ET 460L  
This lab is designed to study principles introduced and discussed in ET 460. Lab procedures include introduction to the concepts of closed loop control, PLC (programmable logic controllers) programming, pneumatic logic and control applications, a study of frequency response in systems (Bode plots), and process loop tuning methods. ET

EGL 490. POWER ENGINEERING TECHNOLOGY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ET 344, ET 350, ET 350L  
Co-requisite: ET 490L  
A capstone course in engineering technology in which students apply the engineering fundamentals of previous thermodynamics and electrical machinery coursework to studies of combustion processes, combustion by-products and emission abatement and electrical distribution and transmissions systems commonly found in modern marine propulsion plants and the power industry. Additionally, through guest lecturer presentations and/or field trips, students will become familiar with renewable energy resources. As a research project, students will conduct an energy audit of a virtual facility and develop an engineering model for application of “green” technologies to improve energy efficiency and reduce the carbon footprint. ET

EGL 490L. POWER ENGINEERING TECHNOLOGY LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: ET 344, ET 350, ET 350L  
Co-requisite: ET 490  
In the Power Laboratory, students will perform thermodynamic analyses of operating power generation equipment. ET

MPP
EGL 105. ENGLISH AS A SECOND LANGUAGE
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
Intermediate English as a Second Language course is required for all international students. The course is an alternative to the English course requirements for U.S. students. This course may substitute for EGL 001 for students whose primary language is not English. Graded: A, B, C, NC, X, L

EGL 110. SPEECH COMMUNICATION
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
This course teaches the basic principles of oral communication and public speaking and offers the opportunity to excel in these areas. It is designed to help students in occupational and social situations by improving self-expression, self-confidence, and self-understanding, while paying attention to the basic elements of organization and delivery.

This class also has a community service learning component that allows students to join the CMA Toastmasters Club in order to refine their speaking skills and to learn the roles and formal duties of club officers. MPM

EGL 185. STUDY ABROAD ELECTIVE
MPM

EGL 200. INTRODUCTION TO LITERATURE
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EGL 100
Involves the critical evaluation of literary techniques, elements, and theories. Students read and discuss an appropriate selection of poetry, fiction, and drama. Required oral and written assignments support students in the formulation and expression of logical thinking through argument and analysis. MPM

EGL 220. CRITICAL THINKING
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EGL 100
Introduces the use of critical thinking skills with emphasis on examining those structures or elements of thought implicit in all argumentation: deductive and inductive reasoning; logical fallacies; implications, assumptions, and consequences; denotive and connotative elements in language; and rhetorical modes and methods. MPM

EGL 300. ADVANCED WRITING
CLASS HOURS: 3, CREDIT: 3
Prerequisites: EGL 100, Junior Class Standing
A writing proficiency course for students who do not pass the Graduate Writing Examination (GWE). Students must master four basic essay types and achieve a good grasp of mechanics, coherence, completeness and unity of thought in their writing. They are also taught to plan, organize, and proofread their writing, as well as arrange information in ways conducive to the promotion of good communication. By the end of the course, they are expected to have a thorough grasp of the grammatical, lexical and syntactical aspects of English and to write in a manner consistent with college graduation requirements, focusing on clarity, insightfulness and development of concepts. MPM

EGL 305. TWENTIETH-CENTURY AMERICAN LITERATURE
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EGL 220
Representative readings in American literature of the 20th century, with emphasis on those writers who have had the most significant influence on American literary thought and value, particularly those representing cultural diversity in America. Course meets a humanities elective requirement. MPM

EGL 310. U.S. LITERATURE OF THE SEA
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EGL 100
EGL 310 is a survey of those plays, poems and fiction produced in the United States which are shaped by, or specifically represent, the varied relationships of Americans to the sea. The objective of this course is to explore, analyze, and interrogate the way “the sea” has been represented by American writers in a variety of cultural texts. While the course is shaped around several themes—the sea as a site of exploration, romance, and adventure; the sea as a symbol of primal terror; and the sea as a space of commerce and recreation—special attention will be paid to how U.S. maritime literature constructs a national identity and advances or critiques the nation-building enterprise. MPM

EGL 315. WORLD LITERATURE OF THE SEA
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EGL 100
EGL 315 is a survey of non-U.S. plays, poems and fiction which are thematically characterized by their maritime focus. The objective of this course is to explore, analyze, and interrogate the way “the sea” has been represented by international writers in a variety of cultural texts, with particular attention paid to the European and Caribbean traditions. While the course is shaped around several themes—the sea as a site of exploration, romance, and adventure; the sea as a symbol of primal terror; and the sea as a space of commerce and recreation—special attention will be given to issues of the sea as an impediment to, or a facilitator of, the colonialist enterprise. MPM

EGL 320. LITERATURE OF THE FANTASTIC
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EGL 220
This course centers on the reading and analysis of quality supernatural fiction and defines literature of the fantastic in terms that the average student may comprehend and thus relate to, within the larger context of a true literary genre. The authors dealt with come from a wide range of ancient and modern writers (both Eastern and Western) whose works represent the patterns and uses of the supernatural as it functions in society. Several important issues raised by contemporary critical theory are also examined, such as reader-response, the relation between comedy and the fantastic as well as that between literature and madness, and the link between aesthetic experience and social context. MPM

EGL 325. CREATIVE WRITING
CLASS HOURS: 1–3, CREDIT: 1–3
Prerequisite: EGL 100
An introduction to creative writing, with an emphasis on aesthetics and self-expression rather than on publication. Min- lectures define the elements of successful fiction and poetry; focused exercises provide practice in these elements; published models are examined for technique and structure. Credit varies depending on the amount of work accomplished by the student and the number of classes attended. Course meets a humanities elective requirement, depending on the units completed. MPM

EGL 330. LITERATURE AND PSYCHOLOGY
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EGL 220
In this course students analyze how various psychological principles and theories may be applied to literary selections. Concepts to be covered include Jungian archetypes, especially the shadow; the Freudian Oedipus complex; and issues of human growth from childhood through adolescence and adulthood, including abuse, dysfunctional families; dreams and fantasies; the psychology of men and women; lust and love, death and dying. A research paper requires the student to apply psychological principles to a play or novel. MPM

GLOBAL STUDIES AND MARITIME AFFAIRS

GMA 100. INTRODUCTION TO INTERNATIONAL RELATIONS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
This course is an introduction to the principal concepts, theories, and issues in international relations. While frequent use will be made of current and historical events in the lectures and readings, the main focus of the course is to provide students with the tools and analytical framework with which to analyze the rapidly changing international arena. The class is divided into four parts.

Part I will address traditional approaches to the study of international relations, focusing on the system, state, and individual levels of analysis.
GMA 185. STUDY ABROAD ELECTIVE

GMA 120. INTRODUCTION TO ENVIRONMENTAL POLICY
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None

This course addresses the economic, security, and environmental aspects of the world’s oceans within the framework of the International Relations discipline. It will focus on the international dimensions of a global resource, whose components are increasingly becoming scarce, and on the means—both cooperative and conflictual—by which these resources have been, and are likely to be, managed. The course is divided into three parts: I, Oceans and Economic Resources; II, Oceans and Conflict; and III, Oceans and the Environment. Parts II and III, which highlight non-violent means for resolving economic, security, and environmental disputes, will include international, regional, and non-governmental mechanisms of conflict management. This approach will include, but will not be limited to, the Law of the Sea Convention, the International Maritime Organization, and regional bi- and multi-lateral agreements. MPM

GMA 210. COMPARATIVE MARITIME POLICIES
CLASS HOURS: 3, CREDIT: 3
Prerequisite: GMA 105, GMA 215

Provides an overview of the central concepts and approaches of comparative maritime policy and places in a broader world setting by presenting, within an integrated fashion, many of the organizing concepts, findings, and theories that structure and define the discipline. In addition to learning the specifics about the conduct of maritime politics in a variety of different countries, students will learn the basic concepts, theories, and general patterns that explain maritime political behavior and political outcomes both within and across the broad system types.

GMA 218. GSMA CRUISE 1A: PORT ANALYSIS
CLASS HOURS: 1, CREDIT: 1
Prerequisite: None

A course that provides an opportunity forsophomore GSMA majors to integrate their preparation for cruise with actual cruise course work completed while underway during the Annual Training Cruise on the Training Ship GOLDEN BEAR. During the course, students will prepare country and port analyses for the proposed cruise ports. These analyses will be presented as part of an ongoing lecture series during the Training Cruise itself. In addition, port visits, field trips, and the like will be set up prior to leaving on the Training Cruise. Students will also complete an element of the curriculum in the Follow the Voyage series or complete a web-based component for posting during the Training Cruise itself, as appropriate. MPM

GMA 220. U.S. MARITIME POLICY
CLASS HOURS: 3, CREDIT: 3
Prerequisite: GMA 105

This is a fairly challenging 300-level course designed primarily for GSMA majors and minors. Everyone enrolled in the class should have a serious interest in Chinese Politics and a willingness to work hard. At that end, everyone is expected to do two things. First, all assigned readings on the topic under discussion should be read carefully before class. Second, some time should be spent prior to class considering any questions or instructions that the instructor may have highlighted at the previous meeting. MPM

GMA 310. THE GEOPOLITICS OF ENERGY
CLASS HOURS: 3, CREDIT: 3
Prerequisite: GMA 105

Oil has been the most important natural resource of the twentieth century. Its price and availability determine the macroeconomic health and stability of economies; access to it determines the foreign policies of many nations; and nations have been willing to go to war to secure its guaranteed access. This course explores the history of oil exploration, the policies that have informed national and international attention to energy procurement (or acquisition), and the geopolitics that have accompanied the development of the world’s oil industry. MPM

GMA 315. POLITICS OF CHINA
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None

The People’s Republic of China has made tremendous progress in successfully transforming itself from a communist, centrally planned economic organization to a capitalist, free market system. Politically, however, the authoritarian practices of the communist party remains firmly intact. In this class this paradox is examined from a historical, cultural, social, economic, and political perspective. In particular it aims to either discover the “formula” for China’s success or uncover the fault-line which will ultimately bring forth its failure.

This is a fairly challenging 300-level course designed primarily for GSMA majors and minors. Everyone enrolled in the class should have a serious interest in Chinese Politics and a willingness to work hard. At that end, everyone is expected to do two things. First, all assigned readings on the topic under discussion should be read carefully before class. Second, some time should be spent prior to class considering any questions or instructions that the instructor may have highlighted at the previous meeting. MPM

GMA 320. OCEAN ENVIRONMENTAL MANAGEMENT
CLASS HOURS: 3, CREDIT: 3
Prerequisite: GMA 105

The marine environment is becoming increasingly stressed by growing global popula- with an emphasis on ecosystems. The world population has witnessed spectacular growth in the twenty-first century, and may double in size by the middle of the twenty-first. This growth, combined with economic development and modernization, places extreme stress on all natural resources, ocean resources included.
In this class, we will look at environmental issues such as maritime pollution; ocean oil, gas, and natural resource exploration; global warming; habitat conservation; and species conservation. We will also explore and analyze the various solutions proposed to deal with them. Designed for students with little or no scientific background, the course provides basic science education integrated with major international environmental concerns, ecological principles, population, food, pesticides, forests, bio-diversity, water, atmosphere, ozone, global warming, energy, waste management, and sustainable development.

GMA 330. MARITIME SECURITY
CLASS HOURS: 3, CREDIT: 3
Prerequisite: GMA 100 or GMA 105
Recommended: GMA 300, GMA 305, HIS 300
Explores the emerging threats to global maritime trade, specifically those to the world’s sea lanes of communication and chokepoints. Threats include, but are not limited to, the following: a) increased demand (leading to larger numbers of collisions); b) state threats that may lead to armed conflict such as those that exist in the South China Sea; c) non-state threats such as maritime piracy and terrorism. The role of the ISPS, MTSA, bilateral agreements, international organizations and international law in resolving these issues is explored. MPM Formerly GMA 430

GMA 345. ASIAN SECURITY
CLASS HOURS: 3, CREDIT: 3
Prerequisites: Recommended GMA 100 or GMA 105
This survey course in contemporary Asian regional and national security is a fairly challenging 300-level course designed primarily for GSMA majors and minors with a strong interest in international politics. Just how dangerous disputes in the region are, what the elements of regional security are, which countries’ actions should be treated as threats to security, and what forms of cooperation best safeguard security are among the divisive issues examined. Though military and strategic concerns are addressed, the course puts great emphasis on the generally neglected areas of human, environmental and resource security, and issues of sustainable development and social justice. Everyone enrolled in the class should have a serious interest in contemporary security issues and a willingness to work hard. MPM

GMA 360. GLOBALIZATION
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
The course is an overview of theories and issues in contemporary international political economy. Throughout the course, we will be concerned with the general question of how the global economic system bears on the power of the state, along with the strategies states develop to deal with an international economy increasingly beyond their individual control. The course is divided into several parts. The first examines the development of the international economic system since the Great Depression, as well as the theories claiming to account for this development. The second part addresses current issues and challenges dealing with the process of globalization, including but not limited to the following: 1) global economic integration and new patterns of economic interaction, including the region state, the virtual state, and the world city; and 2) the globalization and computerization of financial markets. Part III examines regional issues in the context of globalization: specifically, the challenges the Euro, Russia, China, and Third World nations present to the existing global order. Additionally, we will examine environmental degradation in the context of globalization. The course ends with a discussion of the future of capitalism. MPM

GMA 400. SENIOR SEMINAR I:
METHODS AND DESIGN
CLASS HOURS: 3, CREDIT: 3
Prerequisites: CEP 330, Senior Class Standing
A two-semester sequence-course that provides an opportunity for senior GSMA majors to integrate their basic understanding of the fields and curricular emphases that comprise the major by exploring the interrelationships between the substantive sub-fields, basic concepts, and the major modes of analysis in practice today. Directed reading, research, and writing culminating in the preparation of a senior thesis under direction of faculty adviser. The course culminates in a capstone thesis project.
The focus in GMA 400 is on research methods and thesis design. Students are expected to accomplish the following tasks: a) formulate a research question, b) discuss why the question is important, c) explain how the question can be answered, d) research and present a bibliography, and e) select the most appropriate methodology. MPM

GMA 401. SENIOR SEMINAR II:
RESEARCH PROJECT
CLASS HOURS: 3, CREDIT: 3
Prerequisite: GMA 400
The focus in GMA 401 is on the writing of the senior thesis, based on the research design completed in GMA 400. Students will be held to a writing deadline and will be expected to turn in written outlines and drafts of their thesis, as well as make class presentations on their work at appropriate intervals. MPM

GMA 405. INTERNATIONAL MARITIME ORGANIZATIONS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: GMA 100
Shipping is the backbone of international trade. Today, the shipping industry accounts for more than 90% of the goods moved around the world. Because of the importance of trade to economic growth and development, governments have an interest in coordinating and normalizing international maritime policy. The evolution of maritime governance has led to number of international regimes and organizations. The international cooperation that produces these regimes allows for a more efficient international maritime environment and shipping industry.
This course is intended as an advanced course in international maritime organizations. It emphasizes the theoretical analysis of the development and functioning of international institutions generally and maritime institutions specifically. The focus is on the mechanisms through which international regimes influence the behavior of states and the maritime industry. Special attention is paid to the International Maritime Organization (IMO), the United Nations Convention on the Law of the Sea (UNCLOS), and the impact of regimes on the U.S. maritime industry. MPM

GMA 450. SPECIAL TOPICS IN MARITIME POLICY
CLASS HOURS: 3, CREDIT: 3
Prerequisite: Upper-Class Standing
This course will provide a forum for the study of a single issue in maritime policy: one for which there may be neither the demand nor the resources to justify a regular course. Topics may include (but are not limited to) the following: marine invasive species, maritime labor issues, fisheries management, port security, and other timely topics in maritime affairs as they arise. Students may repeat the class for credit as the topic changes. MPM

GOVERNMENT
GOV 185. STUDY ABROAD ELECTIVE
MPM

GOV 200. AMERICAN GOVERNMENT
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
The basic premises underlying American political institutions and behavior since World War II are analyzed through the application of generalized socio-political concepts to specific cases. A major course objective is a better understanding of the nature and function of contemporary state and federal political forces shaping principles and policies behind our lifestyle. (Fullfills the state graduation requirements for U.S. Constitutions, California State and local government, and Cal Maritime’s government elective.) MPM

HISTORY

HIS 100. U.S. HISTORY (TO 1877)  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
Introduces students to the principal developments in American political, economic, religious, and social life from pre-Columbian times through the era of Reconstruction. Key themes to be addressed include: indigenous civilizations, the colonization of the New World, the move towards independence, the Constitution and federalism, the development of slavery, the coming of and fighting of the Civil War, and the Era of Reconstruction. (Fulfills the state graduation requirements for U.S. Constitutions, California state and local government, and Cal Maritime history elective.) MPM

HIS 101. U.S. HISTORY (FROM 1877)  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
Introduces students to the principal developments in American political, economic, religious, and social life from the close of Reconstruction through the present. Key themes to be addressed include, but are not limited to: the settlement and development of the American West, the rise of big business, race relations, the rise of America to global prominence, the Great Depression and New Deal, the rise of the welfare state, and America’s military heritage. (Fulfills the state graduation requirements for U.S. Constitutions, California State and local government, and Cal Maritime history elective.) MPM

HIS 185. STUDY ABROAD ELECTIVE  
MPM

HIS 210. HISTORY OF LATIN AMERICA  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
A survey of the political, social, economic, and cultural development of Latin America from pre-Columbian times to the present. Major emphases will be on indigenous civilizations, globalization, and the region’s ambiguous relationship with the United States. This course will provide an appreciation of the multi-cultural heritage of the region, and emphasize the historical roots of modern Latin America. MPM

HIS 300. MARITIME HISTORY OF THE U.S. (CSL)  
CLASS HOURS: 3  
COMMUNITY SERVICE HOURS: 10  
CREDIT: 3  
Prerequisite: HIS 100 or HIS 101  
A historical understanding of the development of the maritime industry in the U.S. The course addresses the importance of technology in the history of the U.S. maritime industry and the human dimensions of maritime history. The course also includes a mandatory community service learning component which involves students in projects ranging from the archiving of museum material to the restoration of historical artifacts. (Does not fulfill the state code requirements for U.S. Constitution and California State and local government or Cal Maritime’s history elective.) MPM

HIS 305. THE WORLD SINCE 1500, A GLOBAL HISTORY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: EGL 100, HIS 100 or HIS 101  
A survey of the essential characteristics and experiences of the major world regions, with an analysis of those forces or movements that have had a worldwide impact. Included are an analysis of the development of the politics, society, and culture of the world’s major regions and a description of the contributions of the major ethnic groups and cultures to world history. (Does not fulfill the state code requirements for U.S. Constitution and California State and local governments, or Cal Maritime’s history elective.) MPM

HIS 315. WORLD MARITIME HISTORY I: ANTIQUITY TO AGE OF DISCOVERY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: EGL 100 or Equivalent  
Maritime activities from pre-history through the age of exploration. Emphases will include the development of maritime commerce, naval warfare, improvements in naval architecture and ship design, and the role of waterways in the ancient world. The impact of maritime affairs on the establishment of overseas possessions, domination of the world’s sea lanes, and on political, economic, socio-cultural and diplomatic constructs will be examined. MPM

HIS 316. WORLD MARITIME HISTORY II: AGE OF EXPLORATION THROUGH THE NUCLEAR AGE  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: EGL 100 or Equivalent  
Maritime activities from the age of exploration through the twentieth century. Emphases will include the development of maritime commerce, piracy and naval warfare, voyages of discovery, establishment of overseas possessions and domination of the world’s sea lanes. The impact of maritime affairs on political, economic, socio-cultural military and diplomatic constructs will be examined. MPM

HIS 350. RACE, CLASS AND GENDER IN THE MARITIME WORLD  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: HIS 100 or HIS 101; EGL 100 or Equivalent  
The maritime world as viewed through the lenses of race, class, and gender, and a look at the role these social constructs play in American and global maritime history. Topics to be covered include, but are not limited to: maritime labor and marginalized workers, the “radical seas” and the ocean as heterotroph, women at sea and the paradox of femininity. The changing nature of maritime labor, and the increasingly globalized nature of the industry, will be examined from a variety of perspectives. MPM

HIS 360. BAY AREA MARITIME HISTORY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: HIS 100 or HIS 101; EGL 100 or Equivalent  
An investigation into the history and maritime heritage of the San Francisco Bay Area. Topics to be covered include, but are not limited to: indigenous uses of the Bay, Spanish and Mexican California, the Gold Rush as a maritime phenomenon, post-Rush maritime developments, maritime labor and the shipbuilding industry, the role of the Navy in the Bay Area. The rise of San Francisco from colonial outpost to international economic activity and environmental issues, and the impact of globalization on the region will be examined from a variety of perspectives. HUMANITIES

HUM 100. HUMANITIES  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
A survey of several arts (e.g., painting, sculpture, music, theater, film, dance, and architecture) in the Western world, as well as in other cultures, and concentrates on the media, basic perceptions, and terminology necessary to enhance overall comprehension and experience of the stylistic examples provided. Art is seen as a view of the universe and of human reality expressed in a particular medium and shared with others in order to enrich one’s understanding of our existence. MPM

HUM 101. PERSPECTIVES IN CULTURE: THE ANCIENT WORLD THROUGH THE RENAISSANCE  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: None  
A survey of the humanities, encompassing any and all of their forms: history, philosophy, theology, literature, painting, sculpture, music, theater, dance and architecture from the ancient world through the European Renaissance. Emphasis will be placed on understanding how communities and individuals shape and create symbolic structures in the pursuit of truth, beauty, nature, pleasure, and/or justice. Art is seen as a view of the universe and of human reality expressed in a particular medium and shared with others in order to enrich one’s understanding of our existence. MPM

HUM 102. PERSPECTIVES IN CULTURE: POST-RENAISSANCE TO THE PRESENT  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: None  
A survey of the humanities, encompassing any and all of their forms: history, philosophy, theology, literature, painting, sculpture, music, theater, dance and architecture following the European Renaissance to the twenty-first century. Emphasis will be placed on understanding how communities and individuals shape and create symbolic structures in the pursuit of truth, beauty, nature, pleasure, and/or justice. Art is seen as a view of the universe and of human reality expressed in a particular medium and shared with others in order to enrich one’s understanding of our existence. MPM

HUM 103. THE ANCIENT WORLD THROUGH THE RENAISSANCE  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
A survey of the ancient world and of human reality expressed in a particular medium and shared with others in order to enrich one’s understanding of our existence. MPM

HUM 104. THE POST-CLASSICAL WORLD  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
A survey of the post-Classical world and of human reality expressed in a particular medium and shared with others in order to enrich one’s understanding of our existence. MPM

HUM 201. THE ARTS: FROM THE GREEKS TO THE BAROQUE  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
A survey of the arts, encompassing any and all of their forms: history, philosophy, theology, literature, painting, sculpture, music, theater, dance and architecture from the ancient world through the European Renaissance to the Baroque period. Emphasis will be placed on understanding how communities and individuals shape and create symbolic structures in the pursuit of truth, beauty, nature, pleasure, and/or justice. Art is seen as a view of the universe and of human reality expressed in a particular medium and shared with others in order to enrich one’s understanding of our existence. MPM

HUM 202. THE POST-CLASSICAL WORLD: FROM THE BAROQUE TO THE TWENTIETH CENTURY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: None  
A survey of the arts, encompassing any and all of their forms: history, philosophy, theology, literature, painting, sculpture, music, theater, dance and architecture from the Baroque period to the twentieth century. Emphasis will be placed on understanding how communities and individuals shape and create symbolic structures in the pursuit of truth, beauty, nature, pleasure, and/or justice. Art is seen as a view of the universe and of human reality expressed in a particular medium and shared with others in order to enrich one’s understanding of our existence. MPM

HUM 295. SPECIAL TOPICS  
MPM
HUM 110. WORLD CULTURE JOURNEYS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
An introduction to the history, culture, and society of those regions to be visited by the TSGB on its annual cruise. Major emphases will be on the indigenous cultures, traditions, and sociopolitical systems of the region under discussion. The course will emphasize the concept of cultural roots and developments, demonstrating how cultural ideas appear in different forms and influence one another. Students are expected to come away from the course with a heightened awareness of, and a deeper appreciation and respect for, the region that they will soon visit as representatives of this campus and this country. MPM

HUM 130. CREATIVITY
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
Following Ken Wilber’s four-quadrant model, this course will investigate creativity as it manifests in the individual, the team, the product, and the system. Major questions to be investigated include the following: What is creativity? Why should I study it? What processes can I use to become more creative? How can being part of a team or supportive community enhance creativity? Which aesthetic standards hold true for all domains, and which are particular to a certain field of study? How can organizational structures enhance or impede creativity? Students will focus on both theory and practice as they apply the findings from research to their own lives. This interdisciplinary course will use examples from not only the arts (visual, performing, and literary) but also mathematics, science, engineering, business, and sports. MPM

HUM 185. STUDY ABROAD ELECTIVE
ET, ME, MPM

HUM 200. ART OF THE CINEMA
CLASS HOURS: 4, CREDIT: 3
Prerequisite: EGL 220
A study of the importance of film as an effective form of artistic expression, particularly as a reflection of worldwide values and attitudes in the Twentieth and Twenty-First Centuries. Emphasis is placed on major cinematic techniques, cinema history and the importance of film analysis. Full-length films will be viewed weekly and discussed, followed by written analyses. MPM

HUM 305. COMPARATIVE WORLD RELIGIONS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EGL 100
A comparative inquiry into the nature of major religions of the world. A broad overview that will familiarize the student with the major traditions, basic beliefs, religious literature, and cultural implications of the great religions of the world. It is hoped that such an investigation will create or affirm a respect for diverse cultures, peoples, and worldviews. Students should come away from this course with a heightened appreciation for this diversity, having not only examined some of the truths and doctrines of these great wisdom traditions, but also having embraced an extended vision of the world’s cultures. MPM

HUM 310. ENGINEERING ETHICS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: EGL 220, Junior or Senior Class Standing
Addresses the major concepts of ethics as applied to the discipline and practice of engineering. Topics include the scope and aims of engineering ethics, moral reasoning and ethical theories, engineering and society, ethics and the law, the engineer’s responsibility for safety, engineers and the corporation, conflict of interest/crime in the workplace, rights of engineers/roles of professional conduct, ethics, global ethical issues involving the engineering community, engineering ethics in the computer age, environmental ethics, engineers as managers and leaders, engineers as expert witnesses, and steps to principled reasoning/common rationalizations. ET, ME

HUM 325. GLOBALIZATION OF CULTURE
CLASS HOURS: 3, CREDIT: 3
Prerequisite: EGL 100
A study of globalization through the medium of culture. Instead of emphasizing the indigenous roots of native cultures, this course examines emergent cultural formations brought about by postcolonialism, industrialization, and new forms of media interrelations which produce a new culture of hybridity and heterogeneity. Attention is given to the identification, interpretation and interrogation of late twentieth-century and early twenty-first century cultural formations (literature, film, music, performance arts) that are produced and consumed in ways that resist traditional classifications according to national or regional identity. MPM

HUM 400. ETHICS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
Examines ethical dilemmas from theoretical perspectives and considers their application to personal and social issues, with an emphasis on moral reasoning and decision-making. This course examines a variety of controversial moral issues and shows how different views can be reached by appealing to different moral and ethical premises. Students will apply basic ethical theories to specific moral problems within their own fields of study. MPM

SEE ELECTIVES FOR A LISTING OF OTHER COURSES THAT MIGHT FULFILL A HUMANITIES ELECTIVE, ELEC 21 (LOWER DIVISION) AND ELEC 22 (UPPER DIVISION).

LANGUAGES

LAN 110. SPANISH I
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
The course provides students with basic vocabulary and syntactic structures in Spanish. Conversation skills, listening comprehension, and reading/writing ability are emphasized. Points of interest regarding various Hispanic cultures will be presented. MPM

LAN 115. SPANISH II
CLASS HOURS: 3, CREDIT: 3
Prerequisite: LAN 110
Continued study of Spanish through listening, speaking, reading, translation, composition, and grammatical analyses and application. Cultural knowledge continues to be an important component: elements of Hispanic character and customs are studied. MPM

LAN 120. CHINESE I
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
The course provides students with basic character and vocabulary structures in Mandarin Chinese. Conversation skills, listening comprehension, and reading/writing ability are emphasized. Points of interest regarding Chinese cultures are presented. MPM

LAN 125. CHINESE II
CLASS HOURS: 3, CREDIT: 3
Prerequisite: LAN 120
Continued study of Mandarin Chinese through listening, speaking, reading translation, composition, and grammatical analysis and application. Points of interest regarding Chinese cultures will continue to be presented. MPM

LAW

LAW 100. BUSINESS LAW
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
Business law principles are presented at the appropriate undergraduate level for understanding those most useful and widely applied in the contemporary workplace. Students learn how the legal system facilitates business operations and discourages or controls harmful business practices. Students will recognize that the law is an integral part of our social system, both in shaping and being shaped by the broader society. Topics addressed include law as a business foundation; alternative dispute resolution, litigation and the court system; contract law principles; intellectual property; business torts and crimes; business organizations with emphasis on corporations; international business transactions and devices; real and personal property systems; ethics; and preparing contract proposals. MPM

MPM
LAW 200. ENVIRONMENTAL LAW
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
This survey course presents environmental law in a marine context. The course reviews laws governing pollution, radioactive wastes, fisheries conservation, maritime occupational safety laws, and enforcement. Upon completion of the course, students will have current information concerning how environmental laws and regulations affect the mariner. MPM

LAW 300. INTERNATIONAL LAW
CLASS HOURS: 3; CREDIT: 3
Prerequisite: None
International Law is presented in a maritime context. Topics addressed include the sources of international maritime law; the state-centric system; treaties; legal aspects of land, air, and water territories; law of the sea; piracy and maritime terrorism; ISPS Code; international jurisdiction over persons and vessels; international arbitration and courts; the law of war; and the law of war at sea. Practical, useful, contemporary knowledge is provided as well as an appreciation and discussion of the esoteric nature of international maritime law. Readings will involve case studies while lectures will offer substantive international law as it shapes the maritime world. Historic as well as current issues will be discussed employing balanced perspective and dialogue. MPM

LAW 315. ADMIRALTY LAW
CLASS HOURS: 2; CREDIT: 2
Prerequisite: Junior Class Standing or Documented Maritime Experience
Focuses upon the legal principles applicable to maritime commerce upon the seas and navigable water: traditionally called admiralty law. Coverage includes development of general maritime law and American admiralty law, jurisdiction of courts, scope of the maritime jurisdiction, substantive maritime law, maritime liens, towage, salvage, maritime torts, collision law, worker’s compensation claims, wrongful death, limitation of liability, and jurisdiction and procedure in maritime claims. LEADERSHIP
LDR 185. STUDY ABROAD ELECTIVE
MPM

LDR 210. FOUNDATIONS OF LEADERSHIP
CLASS HOURS: 3; CREDIT: 3
Prerequisites: None
This course is designed to assist students with developing the skills needed to be successful for a lifetime of engaged, responsible leadership. The course examines leadership in the context of a changing and culturally diverse workplace; students will gain an understanding of leadership and how this concept has developed over time. Various leadership models, from around the world and from different historical epochs, will be studied and analyzed. Additionally, students reflect on the meaning of ethics and decision-making in the contemporary world. Emphasis will be placed on interpersonal skills, team building, communication, personal development, and leadership. Students will develop personal attributes and social skills and be provided with opportunities to apply their knowledge. This course will serve as a beginning point for an examination of issues and concepts involved in the study of leadership and begin the process of preparing students for a lifetime of engaged, responsible leadership. LIBRARY
LIB 100. INFORMATION FLUENCY IN THE DIGITAL WORLD
CLASS HOURS: 2; CREDIT: 2
Prerequisite: None
This class will provide students with an introduction to research, information management and computing technology skills that are fundamental for success in the college environment and beyond. Students will explore the research process, develop efficient search methodologies in an online environment, and learn to critically evaluate resources. Simultaneously, students will be given an orientation to the use of Microsoft Office programs, with special attention paid to information management, critical-thinking and problem-solving. LIB

MANAGEMENT
MGT 100. PRINCIPLES OF MANAGEMENT
CLASS HOURS: 3; CREDIT: 3
Prerequisite: None
Introduces the basic principles and functions of management and provides the student with a foundation for becoming a better manager. Course material is multidisciplinary and attempts to integrate the findings of the behavioral sciences and other fields with classical, systems, and contingency approaches to management. MPM

MGT 105. MANAGEMENT AND ORGANIZATIONAL BEHAVIOR
CLASS HOURS: 3; CREDIT: 3
Prerequisite: None
This course explores important transitions and trends in the environment of contemporary global business processes and activities. Its main focus is the human resources channel of the supply chain, including the primary functions of recruiting, training, and work force maintenance. Within this primary focus, control mechanisms (such as protection of the confidentiality of employee records), labor relations, leadership, organizing, and planning are addressed. Case examples in the maritime and logistics industry will frequently be referenced to enhance course objectives. MPM

MGT 185. STUDY ABROAD ELECTIVE
LIB

MGT 205. ORGANIZATIONAL BEHAVIOR AND LABOR RELATIONS
CLASS HOURS: 3; CREDIT: 3
Prerequisite: None
Presents the student with a comprehensive overview of the theory and practice of planning and managing human capital in business organizations. The student acquires knowledge and understanding of human resource management, unionism, multiculturalism, diversity, and the integration of business and government in organizing, planning, and controlling human resources. MPM

MGT 300. ADVANCED MANAGEMENT TECHNIQUES
CLASS HOURS: 3; CREDIT: 3
Prerequisite: None
Gives the student a basic understanding of quantitative methods and their application to business decision-making. The course includes statistics, probability, mathematics of finance, and inventory control. Use of computers for decision-making in management is also included. (For MT Only) MPM

MGT 305. INFORMATION SYSTEMS MANAGEMENT
CLASS HOURS: 2, LAB HOURS: 2, CREDIT: 3
Prerequisite: COM 100 or Equivalent Course
A comprehensive study of the use of computers for management decision-making. An examination of traditional information systems and system development techniques focusing on the end user’s perspective. The course uses applications software to develop knowledge of the computer environment. Students use databases to analyze information about the business environment from such sources as the Internet, the financial databases, and other library and college databases. MPM

MGT 310. PORT AND TERMINAL MANAGEMENT AND OPERATIONS
CLASS HOURS: 3; CREDIT: 3
Prerequisites: ECO 100, MGT 100 or MGT 105
This course provides an overview of modern port and terminal operations, including logistics processes such as on-dock rail, strategic and tactical planning, harbor drainage, terminal gate protocols, equipment and cargo management, and integration of marine port and terminal operations with other modes of transportation. The student will gain an introduction to several different types of marine terminals, including containerized liner facilities, dry bulk, and liquid bulk facilities, ro-ro terminals, and others. The class presentation will be rooted in a brief historical review of developments in maritime industry and policy. MPM
Prerequisite: MTH 100
CLASS HOURS: 3, CREDIT: 3
database management: how to provide timely, accurate An introduction to the concepts and principles of organization, and management control, which add value during the successful movement of products from their origins as raw materials to their final destinations as finished products. Specific topics may include customer service, e-commerce, facilities location, routing and pricing, storage, transportation, emerging technologies, and re-engineering the supply chain. Examples will be drawn from supply chains including a maritime link. MPM

MGT 385. STUDY ABROAD ELECTIVE MPM

MGT 390. INDEPENDENT STUDY MPM

MGT 395. SPECIAL TOPICS MPM

MGT 400. STRATEGIC MANAGEMENT CLASS HOURS: 3, CREDIT: 3
Prerequisites: Senior Class Standing
A capstone course that requires computer modeling and the use of most of the courses in the business curriculum to solve problems in business management. Because the course is an integrative case study course, students must use knowledge acquired in management, finance, accounting, and statistical analysis. MPM

MGT 410. QUANTITATIVE MANAGERIAL METHODS CLASS HOURS: 3, CREDIT: 3
Prerequisites: MTH 107
Practical applications of mathematical models for managerial decision-making. Topics include basis for optimization of decisions; linear and integer programming; transportation problems, queuing theory and simulation. Use of MS Excel as a tool for conducting optimization studies. Students use case analysis to learn how to develop and assess validity of models. MPM

MGT 415. OPERATIONS MANAGEMENT CLASS HOURS: 3, CREDIT: 3
Prerequisites: MGT 100, MGT 420, MTH 107
Focuses on the concepts of production management. Topics include a discussion of manufacturing and service processes and strategies, production capacity analysis, quality management and other concepts. MPM

MGT 420. SUPPLY CHAIN MANAGEMENT CLASS HOURS: 3, CREDIT: 3
Prerequisites: Junior Class Standing
Students focus on understanding basic techniques and strategic issues of global supply chain management, including the impact of culture, strategic planning, organization, and management control, which add value during the successful movement of products from their origins as raw materials to their final destinations as finished products. Specific topics may include customer service, e-commerce, facilities location, routing and pricing, storage, transportation, emerging technologies, and re-engineering the supply chain. Examples will be drawn from supply chains including a maritime link. MPM

MGT 440. LOGISTICS CASE ANALYSIS CLASS HOURS: 3, CREDIT: 3
Prerequisites: MGT 340
This is a capstone course in logistics management requiring students to utilize and integrate their knowledge acquired in courses taken previously which deal with supply chains, transportation, and logistics. Several modes of learning advance students’ ability to analyze complex logistics and supply chain scenarios and make decisions. Student teams compete in a logistics operations simulation with the goal of maximizing logistics contribution through their decision making. Case studies with both written reports and presentations teach students to apply modern principles and practices to achieve competitive advantage. Short critical reviews of current journal articles show how modern techniques are applied. A logistics consulting project with an outside client allows students to see and deal with real situations and practitioners. Quantitative and qualitative modeling techniques will be employed and Microsoft Excel, as well as other computer software, will be utilized. MPM

MARINE SCIENCE
MSC 100. INTRODUCTION TO GEOLOGICAL AND CHEMICAL OCEANOGRAPHY CLASS HOURS: 3, CREDIT: 3
Prerequisites: None
The history of oceanography, seafloor features, global plate tectonics, marine sediments, the chemistry of seawater, dissolved gases in seawater, and ocean resources are covered. The course meets a natural science elective requirement. SM

MSC 105. INTRODUCTION TO BIOLOGICAL AND PHYSICAL OCEANOGRAPHY CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
Introduction to atmosphere-earth-ocean interactions, global climate processes, ocean circulation, waves, tidal processes, plankton, nekton, and benthic organisms. The course meets a natural science or life science elective requirement. SM

MSC 185. STUDY ABROAD ELECTIVE SM

MSC 200. OCEANOGRAPHIC INSTRUMENTS AND ANALYSIS CLASS HOURS: 2, CREDIT: 3
Prerequisite recommended: MSC 100
The course provides students “hands-on” experience with oceanographic sampling and analysis. Students learn techniques for measuring temperature, salinity, dissolved oxygen, phosphate, chlorophyll, pH and carbon dioxide, and submarine light levels. Two field trips are planned for the course. SM

MSC 200L. OCEANOGRAPHIC INSTRUMENTS AND ANALYSIS LAB HOURS: 3, CREDIT: 0 SM

MSC 205. MARINE BIOLOGY CLASS HOURS: 3, CREDIT: 3
Prerequisite recommended: MSC 105
The topics covered in this course are marine invertebrates, marine algae, marine fishes, and marine mammals. Other topics covered are the ecology of tidepools, mudflats, sandy beaches, tropical reefs and the deep benthos. The course meets a natural science or life science elective requirement. SM

MSC 385. STUDY ABROAD ELECTIVE SM

MSC 390. INDEPENDENT STUDY CLASS HOURS: Variable, CREDIT: 3
Prerequisites: MSC 100, MSC 105, MSC 200, MSC 205
A requirement for students completing the Marine Science Minor. The student chooses a topic of his/her choice and completes an independent study project under the direction of the Marine Science Minor advisor. The project culminates with a written report and oral report. SM

MSC 395. SPECIAL TOPICS SM
MTH 100. COLLEGE ALGEBRA AND TRIGONOMETRY
CLASS HOURS: 4, CREDIT: 4
Prerequisite: Two years of high school algebra or MTH 001, or passing score on ELM, or otherwise exempt from remediation.
Combines the necessary elements of college algebra and trigonometry to prepare students for subsequent study of calculus, computer programming, navigation and the physical sciences. Topic coverage includes linear, quadratic and higher polynomial equations, rational logarithmic and exponential functions and equations, trigonometric functions and their inverses and equations, with graphical representation of all of the above. Other topics are generalized and periodic functional relationships, multivariable systems with matrix algebra including inversion and determinants, complex numbers, vectors and appropriate computational methods, the rapid computation of values in plane triangles and various functions using the pocket calculator. SM

MTH 105. FINITE MATH
CLASS HOURS: 3, CREDIT: 3
Prerequisite: MTH 100
A foundation course on basic theories and models of mathematics and how these models can be applied to decision making in business. Topics include systems of linear equations, linear programming, the mathematics of finance, probability, and basic concepts of statistics. SM

MTH 107. ELEMENTARY STATISTICS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: MTH 100 or ELEC 70
This course is a study of general concepts of statistics, including sampling, probability distributions, statistical inferences, confidence intervals, hypothesis tests, and correlations. Use of technology, including graphing calculators or computers will be used extensively to describe and analyze data. SM

MTH 185. STUDY ABROAD ELECTIVE
SM

MTH 205. CALCULUS FOR BUSINESS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: MTH 100 with a C- or higher
Focuses on basic calculus and the application of this topic to business decision-making and problem solving. Students will concentrate on formulae that will be performed on Excel later in the curriculum. The course will present math theory and math models. Exercises in critical thinking and model building will be introduced, along with the application of these two tools to the quantitative analysis of business problems. SM

MTH 210. CALCULUS I
CLASS HOURS: 4, CREDIT: 4
Prerequisite: MTH 100 or equivalent with a C- or higher
Introduction of functions and limits, differentiation, applications of differentiation, integration, and applications of the definite integral. SM

MTH 211. CALCULUS II
CLASS HOURS: 4, CREDIT: 4
Prerequisite: MTH 210 with a C- or higher
An introduction to additional methods of integration and improper integrals. Presented are trigonometric and hyperbolic functions and their inverses; infinite sequences and series; and a brief introduction to linear, ordinary first, and second-order differential equations. SM

MTH 212. CALCULUS III
CLASS HOURS: 4, CREDIT: 4
Prerequisite: MTH 211 with a "C" or higher
Introductions to the algebra and calculus of vectors. Presented are functions of several variables and partial differentiation, as well as multiple integration and vector analysis. SM

MTH 215. DIFFERENTIAL EQUATIONS
CLASS HOURS: 4, CREDIT: 4
Prerequisite: MTH 211 with a "C" or higher
Introduces first-order differential equations and second-order differential equations with constant coefficients. Laplace transforms, small systems of linear differential equations, and numerical methods are presented, along with an introduction to second-order differential equations. SM

MTH 385. STUDY ABROAD ELECTIVE
SM

MTH 390. INDEPENDENT STUDY
SM

MTH 395. SPECIAL TOPICS
SM

MECHANICAL ENGINEERING

ME 185. STUDY ABROAD ELECTIVE
ME

ME 220. COMPUTER AIDED ENGINEERING
CLASS HOURS: 2, CREDIT: 2
Prerequisite: None
Familiarizes students with virtual product development and fundamentals of parametric design and solid modeling using advanced engineering software tools. Complex component design, assembly design and the development of working drawings are also covered. Students participate in Team Design/Reverse Engineering Projects. ME

ME 230. ENGINEERING MATERIALS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: MTH 212, PHY 200
Examination of the properties of materials from the atomic level through the molecular levels, looking at crystal structure. Emphasis is on metals, but nonmetals are discussed. Mechanical properties, creep, fatigue, corrosion, and failure characteristics are discussed. Phase Diagrams and thermal processing are also studied. Applying material properties in design is also discussed. ME

ME 232. ENGINEERING STATICS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: CHE 100
Analysis of particles and rigid bodies at rest, using vector methods. Topics include the concepts of forces, moments, and equivalent force systems, calculation and use of centroids, equilibrium of rigid bodies, force analysis of trusses, frames, and machines, internal forces in structural members, and friction. ME

ME 240. ENGINEERING THERMODYNAMICS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: PHY 200
Study of the basic principles of thermodynamics and their applications to engineering processes and cycles. Topics include study of the first and second laws and the application of these laws to thermodynamic systems, with emphasis on power and refrigeration cycles. ME

ME 330. ENGINEERING DYNAMICS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: MTH 212, MTH 212
Analysis of particles and rigid bodies in motion using vector methods, calculus, and analytical geometry. Topics include kinematic analysis of motion and relative motion, kinematic analysis of forces and motion, rotation and translation of rigid bodies, work-energy methods, and impulse-momentum methods. ME

ME 332. MECHANICS OF MATERIALS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: ME 230, ME 232, MTH 212
Application of stress and strain in design and analysis of simple structural members under load. Stresses and deformations in members with a single load in tension, torsion, shear or bending moment are analyzed, followed by the transformation of stresses and effects of combined loads. The analysis of statically indeterminate structures is also included. ME

ME 339. MATERIAL/MECHANICAL LAB
CLASS HOURS: 1, CREDITS: 2
Prerequisites: ME 332, ME 360
Co-requisite: ME 339L
Principles of material science, mechanics of materials, and dynamics – applied, reinforced, and assessed through a series of experiments. The experiments involve calibration of instruments, measurement of mechanical quantities using data acquisition systems, analysis of data in order to obtain desired results, estimates of uncertainties in the results, and comparison of results with predicted outcomes based on theory. Experimental theory, procedures, and results are presented in formal written reports as well as oral presentations. ME

ME 339L. MATERIAL/MECHANICAL LAB
LAB HOURS: 2
Co-requisite: ME 339
ME

ME 340. ENGINEERING FLUID MECHANICS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: MTH 212, PHY 200
Theory and fundamental principles of incompressible fluid flows. Topics include hydrostatic fluids, continuity, linear momentum, Bernoulli equations for control volumes, dimensional analysis, viscous duct flows, boundary layer flows, centrifugal and axial flow pumps, and pump performance curves and similarity rules. ME
ME 342. REFRIGERATION AND AIR CONDITIONING  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: ME 240  
Application of principles of thermodynamics and fluid mechanics to selection and performance evaluation of air conditioning and refrigeration systems. Topics include vapor-compression cycle performance, load calculations, refrigeration system component characteristics, refrigerant characteristics, environmental responsibilities, psychrometrics and basic conditioning processes, and system balancing of refrigeration systems. Absorption refrigeration systems and cooling tower performance are also studied. ME

ME 330L. ELECTROMECHANICAL MACHINERY LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: ENG 250, ENG 250L  
Co-requisite: ME 350  
Supports instruction and theory of ME 350 using hands-on motor operation and analysis. ME

ME 340. INSTRUMENTATION AND MEASUREMENT SYSTEMS  
CLASS HOURS: 2, CREDIT: 2  
Prerequisites: ENG 210, ENG 250, ENG 250L  
Co-requisite: ME 360L  
Measurement techniques for mechanical testing: types of signals, dynamic response of measurement systems, frequency response, uncertainty analysis, types of instruments, basic input circuits, signal conditioning, computer based data acquisition, sampling, A/D conversion, time and frequency analysis, statistical analysis of data. ME

ME 349. FLUID/THERMAL LAB  
CLASS HOURS: 1, CREDIT: 2  
Prerequisites: ME 344, ME 360  
Co-requisite: ME 349L  
Principles and applications of fluid mechanics. thermodynamics and heat transfer through a series of laboratory experiments. Experiments to demonstrate fluid flow measurements, the first and second laws of thermodynamics, conduction and convection heat transfer, heat exchanger analyses and performance, and steam and gas turbine engine cycles. Acquision, and statistical analyses of experimental data, and professional laboratory reports are also included. ME

ME 349L. FLUID/THERMAL LAB LAB  
LAB HOURS: 2  
Co-requisite: ME 349  
This course covers the fundamentals of magnetism, magnetic circuits, and transformers. Included are principles and operation of series, shunt, compound DC generators and motors; single-phase and three-phase AC generators, synchronous and induction AC motors, DC and AC motor controllers, and stepper motors; and system protective devices and safety. ME

ME 350L. ELECTROMECHANICAL MACHINERY LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: ENG 250, ENG 250L  
Co-requisite: ME 350  
This course covers the fundamentals of magnetism, magnetic circuits, and transformers. Included are principles and operation of series, shunt, compound DC generators and motors; single-phase and three-phase AC generators, synchronous and induction AC motors, DC and AC motor controllers, and stepper motors; and system protective devices and safety. ME

ME 350. ELECTROMECHANICAL MACHINERY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ENG 250, ENG 250L  
Co-requisite: ME 350  
This course covers the fundamentals of magnetism, magnetic circuits, and transformers. Included are principles and operation of series, shunt, compound DC generators and motors; single-phase and three-phase AC generators, synchronous and induction AC motors, DC and AC motor controllers, and stepper motors; and system protective devices and safety. ME

ME 360. INSTRUMENTATION AND MEASUREMENT SYSTEMS  
CLASS HOURS: 2, CREDIT: 2  
Prerequisites: ENG 210, ENG 250, ENG 250L  
Co-requisite: ME 360L  
Data acquisition using a PC and LabView. Construction and use of basic input circuits. Use of signal conditioning to improve the quality of measurements. Calibration and use of common instruments, including strain gages, thermocouples, photovoltaic cells, RTDs, and accelerometers. Examination of the dynamic response of instruments. Time domain and frequency domain analysis of data. Presentation of data. Uncertainty estimates of measured data. Output of control signals. A final project is required. ME

ME 385. STUDY ABROAD ELECTIVE  
ME

ME 390. INDEPENDENT STUDY  
ME

ME 392. MECHANICAL DESIGN  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: ME 332  
Two parts are covered in this course. Part one represents the general overview of fundamentals on applied loads, material properties, stress and strains, stress concentrations, static as well as dynamic failure theories, and some tribological considerations. Part two will relate these fundamentals to various machine elements, such as columns, thin and thick-walled cylinders, shafting and associated parts, bearings, gears fasteners and power screws, springs, brakes and clutches, and flexible machine elements. A design project from the text will be assigned to each group. ME

ME 394. FLUID/THERMAL DESIGN  
CLASS HOURS: 3, CREDIT: 3  
Prerequisite: ME 344  
This course covers analysis and design aspects of fluid and thermal systems. Included are instruction in piping systems, with the economics of pipe size selection and the sizing of pumps for systems, as well as double pipe, shell and tube, and cross flow heat exchangers: configuration, selection, analysis, and design. ME

ME 395. SPECIAL TOPICS  
ME

ME 429. MANUFACTURING PROCESSES LAB  
LAB HOURS: 1, LAB HOURS: 2  
CREDIT: 2  
Prerequisites: EPO 215, ME 220  
Co-requisite: ME 494  
Principles of manufacturing processes in the areas of metal removal, forming, joining, casting, and fundamentals of numerical control. Study of manufacturing includes design aspects, material considerations, review of latest methods, and numerical controlled machining utilizing computer graphics and solid modeling. (Pro/Engineer and Pro/Manufacturing.) ME

ME 430. MECHANICAL VIBRATIONS  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: MTH 215, ME 330  
Analysis of mechanical systems undergoing vibration. Topics include free response of vibrating systems, response to harmonic excitation, response to general excitation, analysis of multi-degree of freedom systems using matrix methods, and techniques to suppress vibration. In addition, a series of laboratory experiments are done to demonstrate the theory learned in class. ME

ME 432. MACHINERY DESIGN  
CLASS HOURS: 4, CREDIT: 4  
Prerequisites: ME 330, ME 332  
The kinematics of mechanisms is introduced. Position, velocity, and acceleration analysis of mechanisms are discussed, along with linkage synthesis. ME

ME 436. MECHATRONIC SYSTEM DESIGN  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ENG 250, ME 330  
Introductory to a multidisciplinary field that combines electronics, control systems, mechanical design and simulation. Simulation and design of mechatronic systems with sensors, electronic controllers and mechanical actuators. Selection and mathematical modeling of system elements including common sensors, actuators and various electronic controllers. ME

ME 440. ADVANCED FLUID MECHANICS AND THERMODYNAMICS  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ME 240, ME 340  
Advanced topics in gas dynamics, including compressible flow analysis of converging-diverging nozzles, normal and oblique shock waves, compressible duct flow with friction; and advanced topics in thermodynamics, including irreversibility, availability, and second-law analysis of thermodynamic systems, gas and vapor mixtures, chemical reactions, and thermodynamics of propulsion systems with applications. ME

ME 442. HEATING, VENTILATION, AND AIR CONDITIONING  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: ME 240, ME 340  
Analysis and design of air conditioning systems for industrial and commercial applications. Topics include psychrometrics, heating and cooling loads, HVAC systems and controls, infiltration, ventilation, fan performance, and duct design. ME

ME 444. ENERGY SYSTEMS DESIGN  
CLASS HOURS: 4, CREDIT: 4  
Prerequisite: ME 344  
Application of fundamentals of thermodynamics, fluid mechanics, heat transfer in design, analysis, and selection of power production systems, auxiliary power units, and heat exchange systems. Topics also include economic evaluation and preliminary cost of estimation of energy systems. ME

Other topics include dynamics of machinery, mechanism design, cam design, gear train design, force analysis of mechanisms, and engine dynamics. Students will design, animate, analyze, and optimize complex three-dimensional mechanisms using virtual prototyping tools for mechanism design and analysis. ME
ME 460. AUTOMATIC FEEDBACK CONTROL
CLASS HOURS: 3, CREDIT: 3
Co-requisite: ME 460L
Study of dynamic system modeling for various types of engineering systems. Analysis of dynamic systems using Laplace transform and state space methods. Open and closed loop stability. Design of feedback controllers using root-locus and frequency response techniques. Extensive use of MATLAB for analysis and simulation. ME

ME 460L. AUTOMATIC FEEDBACK CONTROL LAB
LAB HOURS: 2, CREDIT: 1
Prerequisites: MTH 215, ME 360, ME 360L
Co-requisite: ME 460
Supports instruction and theory of ME 460 using MATLAB modeling and simulation. Hands-on lab and case studies are performed. ME

ME 490. ENGINEERING DESIGN PROCESS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: ENG 120, Junior Class Standing
The tasks of engineering design processes are introduced and practiced. These tasks include identifying objectives and constraints, establishing functions, generating concepts, evaluating design alternatives, designing product architecture, selecting materials, and using mathematical modeling. Auxiliary techniques such as engineering statistics, dimensional analysis, design optimization, engineering economics, and project management will also be studied. ME

ME 492. PROJECT DESIGN I
CLASS HOURS: 3, CREDIT: 3
Prerequisites: ME 490, Senior Class Standing
Capstone projects will be assigned to groups of student teams who will implement the process of engineering design. They will identify a reasonable set of objectives, constraints, functions, and design specifications. They will subsequently generate design concepts and evaluate their alternatives to select the design that best meets the user’s requirements. The teams will then work on product architecture, material selection, and mathematical modeling and engineering analysis. Finally, they will be required to present and submit a preliminary design report for their senior projects. ME

ME 494. PROJECT DESIGN II
CLASS HOURS: 2, LAB HOURS: 2, CREDIT: 3
Prerequisites: ME 492
In this course students will perform tasks to complete the preliminary designs initiated in Project Design I (ME 492), a project that will result in final and detailed designs. The tasks include refining the preliminary design, addressing design for assembly, design reliability and safety considerations, detailed drawings and bill of materials, prototyping and testing, product cost evaluation, and final design review. Finally, the students will present and submit a final report for their senior design projects. ME

NAUTICAL SCIENCE

NAU 102. NAVIGATION
CLASS HOURS: 3, CREDIT: 4
Prerequisite: MTH 100
Co-requisite: NAU 102L
This course introduces the basic tools and theory of piloting. Elements include basic coastal piloting, using terrestrial features and various plotting systems and techniques. Chart interpretation, plotting, and correction are emphasized, as are passage planning and navigation cross-checking. Emphasis is placed on neatness and precision and, toward the end of the course, speed in arriving at basic piloting solutions. This course is the foundation upon which all subsequent navigation courses will build. MT

NAU 102L. NAVIGATION LAB
LAB HOURS: 2, CREDIT: 0
Prerequisite: Same as NAU 102
Co-requisite: NAU 102
t

NAU 103. INTRODUCTION TO MARINE TRANSPORTATION
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
This course provides a broad understanding of the maritime industry and relates the students’ work and studies at CMA to the maritime world. It includes American maritime history, governmental policies and regulations, vessel and stevedore company organization, principles of foreign trade, documentation, and the various related organizations, both public and private. MT

NAU 105. SHIPSTRUCTURE
CLASS HOURS: 2, CREDIT: 2
Prerequisite: None
A survey course of ship design and construction, emphasizing nomenclature and structural components, hull strength and vessel performance characteristics. MT

NAU 110. SEAMANSHIP
CLASS HOURS: 3, CREDIT: 3
Prerequisite: NAU 105
The study of basic seamanship, including sea terms and nomenclature, small boats, merchant ship characteristics, deck fittings, rigging, equipment, appliances, life-saving devices, and emergency procedures. Attention to the duties of a lookout/ helmsman prepares students for duties on CRU 100. MT

NAU 120. MARINE ENGINEERING
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
The study of shipboard engineering equipment, systems, and procedures associated with the propulsion and control of steam, diesel, and gas- turbine-powered merchant ships. Several auxiliary systems such as electrical distribution, deck machinery, cargo pumps/ valves, and steering gears are also covered. MT

NAU 185. STUDY ABROAD ELECTIVE
MT

NAU 202. CELESTIAL NAVIGATION
CLASS HOURS: 3, CREDIT: 4
Prerequisites: NAU 102, NAU 102L
Co-requisite: NAU 202
A study of celestial navigation, including sun, moon, stars, and planets. Students are instructed in the use of modern sight reduction methods by table and calculator. Emphasis is placed on USCG/STCW requirements. MT

NAU 202L. CELESTIAL NAVIGATION LAB
LAB HOURS: 2, CREDIT: 0
Prerequisites: Same as NAU 202
Co-requisite: NAU 202

NAU 205. SHIPSTABILITY
CLASS HOURS: 3, CREDIT: 3
Prerequisites: MTH 100, NAU 105, PHY 100 (may be taken concurrently), PHY 100L (may be taken concurrently)
A study of the statics of naval architecture for ship hulls, emphasizing application to stability, trim, volume, and moment calculations by the ship’s officer. MT

Methods of calculation for determination of intact, upright stability and trim, including free surface corrections, are introduced prior to a study of stability analysis techniques and criteria. Computer-based training and practical application of Training Ship GOLDEN BEAR stability software will be utilized, and stress calculations and damage stability concepts will be covered. MT

NAU 302. ADVANCED NAVIGATION
CLASS HOURS: 2, CREDIT: 3
Prerequisites: NAU 102, NAU 102L
Co-requisite: NAU 202L
Fundamental principles of electronic navigation systems and basic computational forms of the sailings will be covered. The course consists of both classroom lecture and practical lab applications. Upon completing the course, students should be able to demonstrate an understanding of the sailings, hyperbolic and radio navigation systems, and Global Positioning System. Integrated Bridge Systems will also be discussed. Miscellaneous navigation topics will be covered. The concept of navigational crossequiching will permeate all subjects. Emphasis is placed on accuracy, neatness, precision and the good judgment required of a modern merchant mariner. MT

NAU 302L. ADVANCED NAVIGATION LAB
LAB HOURS: 2, CREDIT: 0
Prerequisites: Same as NAU 302
Co-requisite: NAU 302

NAU 305. RULES OF THE ROAD
CLASS HOURS: 2, CREDIT: 2
Prerequisites: CRU 100, CMA Sophomore Class Standing
Comprehensive study of the international rules of the road (COLREGS), including their origin, purpose, history, technical provisions, and application. Included is a comparative study of both international and inland rules, along with their interpretation and practical application, as well as a study of case histories and legal interpretations resulting from collisions at sea. MT

NAU 310. ELECTRICITY AND ELECTRONICS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: MTH 100, PHY 100, PHY 100L
Co-requisite: NAU 310L
Theory of alternating current electricity, circuits, generators, motors, and semiconductors. Emphasizes shipboard systems, using STCW guidelines, to include regulatory and classification society requirements. In addition, radio communication theory is covered to the depth necessary for DL 240 (GMDSS). MT
NAU 310L. ELECTRICITY AND ELECTRONICS LAB  
LAB HOURS: 2, CREDIT: 1 
Prerequisites: Same as NAU 310  
Co-requisite: NAU 310  
During the laboratory, hands-on experience is provided to ensure the students are proficient in the use of electronic/electrical test equipment such as multimeters and oscilloscopes, the reading and interpretation of schematics, and the use of technical manuals for trouble-shooting and for routine electrical/electronic maintenance. MT

NAU 320. TANK VESSEL OPERATIONS  
CLASS HOURS: 3, CREDIT: 3 
Prerequisite: NAU 105 and NAU 205, or ENG 430  
A study of ocean transportation of bulk liquid cargo. Areas covered include tanker construction and design, petroleum cargo characteristics, oil cargo planning and operations, ballasting, pollution control, safety, and U.S. Coast Guard regulations. MT

NAU 325. CARGO VESSEL OPERATIONS  
CLASS HOURS: 3, CREDIT: 3 
Prerequisites: DL 120, NAU 205  
A study of the international movement of dry cargo and the role that the ship’s officer plays as a front line manager in the shipping organization’s structure. In relation to break bulk, bulk, and container operations, the course covers cargo handling equipment, stowage of various commodities, cargo plans and planning of stowage, transportation HAZMAT, and trim and stability considerations. MT

NAU 330. METEOROLOGY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: MTH 100, PHY 100, PHY 100L  
The science of meteorology covers principles of weather observations and reports, weather forecasting and the development of weather maps, and the study of air masses, fronts, winds and currents. MT

NAU 335. ELECTRONIC CHART DISPLAY AND INFORMATION SYSTEMS (ECDIS)  
CLASS HOURS: 2, CREDIT: 2  
Prerequisites: DL 325, DL 325L, MTH 100, NAU 102, NAU 102L, NAU 302 (may be taken concurrently), NAU 302L (may be taken concurrently)  
Co-requisite: NAU 335L  
This course is specifically designed to instruct students in the theory and practical use of Electronic Chart Display and Information Systems (ECDIS). Also presented will be: rater and vector charts, use of ECDIS in voyage planning and recording, integration with other bridge systems like RADAR, ARPA, and AIS, latest developments in ECDIS design and implementation, and current IMO regulations governing use of ECDIS. Students must be concurrently enrolled in NAU 335L. MT

NAU 335L. ELECTRONIC CHART DISPLAY AND INFORMATION SYSTEMS (ECDIS) LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisites: Same as for NAU 335  
Co-requisite: NAU 335  
This lab provides the practical application of skills learned in NAU 335 using electronic charting display and navigational equipment. Students must be concurrently enrolled in NAU 335. MT  
Graded: Credit/No Credit

NAU 385. STUDY ABROAD ELECTIVE  
MT

NAU 390. INDEPENDENT STUDY  
MT

NAU 395. SPECIAL TOPICS  
MT

NAU 400. ADVANCED MARITIME TOPICS  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites: CRU 200, CRU 200L, DL 200 (may be taken concurrently), EGL 300  
This course is designed to consolidate and advance the knowledge of seamanship gained by students in their earlier years at Cal Maritime, both on cruise and in the classroom. A study of the many aspects of seamanship is conducted, along with theoretical aspects of ship handling. The steering gear, navigation safety regulations, and responsibility of the pilots are considered. Heavy weather, ice seamanship, and ground tackle are included. The ship’s log and its legal standing are discussed, along with record keeping and the ship’s officers’ responsibility under the federal code, including ethics, alcohol and substance abuse issues, and crimes at sea. Students will be required to write a term paper and make an oral presentation to the class. MT

NAU 410. LICENSE SEMINAR  
CLASS HOURS: 1, CREDIT: 2  
Prerequisites: Senior Class Standing, with graduation scheduled within the next six months. (License exam results expire one year after test date, and no license will be issued prior to a student’s meeting all graduation requirements.)  
Co-requisite: NAU 410L  
This comprehensive course is designed to prepare candidates for the USCG GNCNW exams. Unlike any other course, it requires the candidate to synthesize and apply myriad professional subjects learned in previous subject-specific courses, and perform with both precision and accuracy under time pressure. New topics and material pertinent only to USCG testing will be covered, advanced material will be reviewed in the context of USCG requirements (which differ from practical requirements), and theories and methods of knowledge retention and test-taking strategies will be explored. Rules of the Road, navigation, seamanship, dock safety, environmental protection, cargo, watchstanding and other professional subjects are covered as they pertain specifically to USCG licensing. Course subject matter and stategy necessarily change as the USCG exams continually evolve. MT

NAU 410L. LICENSE SEMINAR LAB  
LAB HOURS: 2, CREDIT: 0  
Prerequisite: Same as NAU 410  
Co-requisite: NAU 410  
MT

NAU 415. TRANSPORTATION SECURITY  
CLASS HOURS: 3, CREDIT: 3  
Prerequisites for MT Students: CRU 200, NAU 325, Senior Class Standing  
Prerequisite for BA Students: TRA 300  
This course emphasizes maritime security on an operational level versus a public policy perspective. It is modular in format and focuses on the International Ship and Port Security Code (ISPS), the Maritime Transportation Security Act of 2002 (MTSA) and domestic maritime security policies and requirements as outlined in the Code of Federal Regulations and USCG NVICs. Students will learn to understand port and ship vulnerability assessments, implement security plans, understand various levels of shipboard and terminal security responsibilities and administration. The course will also explore elements of chemical, biological and radiological defense (CBRD), crisis management, and equipment security technologies. Ship and terminal operations will be explored with respect to cargo and vessel screening programs and methods. MT

NAU 430. LIQUIDIFIED GAS CARGOS  
CLASS HOURS: 2, CREDIT: 2  
Prerequisite for MT Students: NAU 320  
Prerequisites for MET & ME Students: CRU 350, ENG 430  
Co-requisite: NAU 430L  
A study of the ocean transportation of liquified gas cargos, which includes liquified natural gas (LNG) and liquefied petroleum gas (LPG). Areas covered include chemistry and physics, hazards, rules and regulations, ship design and cargo containment, cargo handling systems, safety, cargo handling operations, ship/shore interface, and emergency operations. The class, in conjunction with the Liquid Gas Cargo Simulator, will prepare the student to be a junior officer onboard liquid gas carriers. MT

NAU 430L. LIQUIDIFIED GAS CARGOS LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisite for MT Students: NAU 320  
Prerequisites for MET & ME Students: CRU 350, ENG 430  
Co-requisite: NAU 430  
This class will be conducted concurrently with NAU 430. By use of simulation, students will conduct cargo operations and gain system understanding of liquified gas carriers. MT  
Graded: Credit/No Credit

NAU 410. LICENSE SEMINAR  
CLASS HOURS: 1, CREDIT: 2  
Prerequisites: Senior Class Standing, with graduation scheduled within the next six months. (License exam results expire one year after test date, and no license will be issued prior to a student’s meeting all graduation requirements.)

Graded: Credit/No Credit

NAU 430L. LIQUIDIFIED GAS CARGOS LAB  
LAB HOURS: 2, CREDIT: 1  
Prerequisite for MT Students: NAU 320  
Prerequisites for MET & ME Students: CRU 350, ENG 430  
Co-requisite: NAU 430  
This class will be conducted concurrently with NAU 430. By use of simulation, students will conduct cargo operations and gain system understanding of liquified gas carriers. MT  
Graded: Credit/No Credit

NAVAL SCIENCE  
NSC 100. NAVAL SCIENCE FOR THE MERCHANT MARINE OFFICER  
CLASS HOURS: 3, CREDIT: 3  
An introduction to the organization of the U.S. Navy (including the Naval Control of Shipping Organization), with a discussion of the Merchant Marine Naval Reserve commission in order to provide a sound basis for liaison between the U.S. Navy and the merchant marines. The concept of seapower is analyzed, with emphasis on the merchant marine-Navy interface in common seapower objectives. Underway replenishment and convoy operations are introduced. NS

NSC 185. STUDY ABROAD ELECTIVE  
NS
Class hours: 3, credit: 3
Prerequisite: NSC 100

Building on NSC 100, this course presents the nature of a hostile naval threat and types of surface, subsurface, and air attacks to which both U.S. naval and merchant ships can be subjected. Merchant ship self-defense maneuvers and naval escort defensive actions are analyzed. The student should become proficient in the merchant marine-Navy communication interface and in ship maneuvering when in convoy. Navy officer communities, administration, and organization are discussed. Warship design, propulsion, and damage control methods are also introduced. NS

NSC 255. MIDSHIPMAN NAVAL TRAINING CRUZE CREDIT: 3
Prerequisites: Sophomore Class Standing and must be sworn into the MMR program.
Co-requisite: May be concurrent if taken in conjunction with CRU 200/CRU 250 onboard a Navy vessel.

A rigorous training cruise aboard a U.S. naval surface vessel, submarine, or within an aviation squadron in which the midshipman is involved in a variety of training evolutions consisting of fundamentals, systems, watch stations, and responsibilities normally assigned to junior commissioned officers. Eligible students are chosen to participate based on deck or engineering department chair recommendation (if taken concurrently with CRU 200/CRU 250) and naval science department chair approval. Students must have demonstrated the ability to work independently and possess a minimum GPA of 2.50. NS

NSC 310L. NAVAL OPERATIONS LAB LAB HOURS: 2, CREDIT: 0
Co-requisite: NSC 310

NSC 310. NAVAL OPERATIONS CREDIT: 3
Class hours: 3, credit: 3
Prerequisite: NSC 100

NSC 315. NAVIGATION (FOR ENGINEERS) CREDIT: 4
Co-requisite: NSC 100

A comprehensive study of the theory, principles, and procedures of terrestrial and celestial navigation, movements, and employment, with an emphasis on naval applications and examples. Navigation topics include piloting, dead reckoning, radar navigation, and celestial theory. Practical work involving sight reduction, sextants, publications, and report logs. Rules of the road, lights, signals, and navigational aids, including inertial systems, are also covered. The course is required for engineering students pursuing a Naval Science minor. NS

NSC 315L. NAVIGATION LAB (FOR ENGINEERS) LAB HOURS: 2, CREDIT: 0
Co-requisite: NSC 315

NSC 385. STUDY ABROAD ELECTIVE CREDIT: 1
Prerequisite: MMR Midshipman under Contract

This course provides both classroom and practical instruction in sailing theory and skills. Students will learn to skipper and crew a day sailing keelboat in familiar waters with light to moderate wind and sea conditions. Also included is instruction in how to use Tide and Current Tables and file a Float Plan. ATH

Graded: Credit/No Credit

PA 395. SPECIAL TOPICS CREDIT: 1
MMP

PE 100. BEGINNING/INTERMEDIATE SWIMMING LAB HOURS: 2, CREDIT: ½

Individual instruction for everyone, from beginning swimmers who need help in learning basic fundamentals and techniques to intermediate swimmers who want to improve their swimming technique and/or conditioning. ATH

Graded: Credit/No Credit

PE 111. SPORTS CONDITIONING LAB HOURS: 2, CREDIT: 1

A total body/cardiovascular workout designed to condition and cross train athletes during the off-season. This is an intermediate-level fitness class. ATH

Graded: Credit/No Credit

PE 114. WEIGHT MANAGEMENT THROUGH EXERCISE LAB HOURS: 2, CREDIT: 1

This course begins with a fitness evaluation and body composition test (lean muscle vs. fat tissue percentage). Through exercise and healthy nutrition the student will learn how to change his or her body composition and improve in an overall feeling of wellness. The student will also learn how aerobic conditioning and weight training work to burn excess calories and why diets may not be the solution to excess weight. The class includes an aerobic exercise session. ATH

Graded: Credit/No Credit

PE 120. WEIGHT TRAINING LAB HOURS: 2, CREDIT: 1

Weight and circuit training will concentrate on assisting the student to develop endurance, strength, and flexibility through programs that can be adopted for bodybuilding or specific fitness for individual sports. Recommended as an off-season conditioning program for intercollegiate athletes. ATH

Graded: Credit/No Credit

PE 125. MARTIAL ARTS LAB HOURS: 3, CREDIT: 1

A rigorous martial arts program designed to create discipline, flexibility, and fitness while teaching the fundamentals and techniques of Kajukenbo. Students can earn belt ranks. ATH

Graded: Credit/No Credit

PE 135. DRILL TEAM AND COLOR GUARD LAB HOURS: 2, CREDIT: 1

Members routinely represent Cal Maritime at parades and other ceremonies. ATH

Graded: Credit/No Credit

PE 140. BEGINNING SAILING – BASIC KEELOBATE LAB HOURS: 2, CREDIT: 1

This course provides both classroom and practical instruction in sailing theory and skills. Students will learn to skipper and crew a day sailing keelboat in familiar waters with light to moderate wind and sea conditions. Also included is instruction in how to use Tide and Current Tables and file a Float Plan. ATH

Graded: Credit/No Credit

ATH

Graded: Credit/No Credit
NUMERICAL METHODS FOR ENGINEERS
Class Hours: 2, Credit: 2
Prerequisite: MTH 210
This course is an introduction to the analysis and optimization of engineering systems. It covers the fundamentals of mathematical modeling, including linear algebra, matrix theory, optimization, and numerical analysis. Students will learn to use computer software to solve engineering problems. Numerical methods such as root finding, interpolation, numerical differentiation and integration, and solving systems of linear equations will be covered.

BEHAVIORAL SCIENCE FOR OFFICERS
Class Hours: 2, Credit: 2
Prerequisite: Consent of instructor
This course introduces students to the principles of human behavior and decision-making in complex environments. Through case studies and simulations, students will develop skills in leadership, communication, and conflict resolution in a naval context. The course covers topics such as stress management, team dynamics, and ethical decision-making.

TACTICAL VISION IN NAVAL WARFARE
Class Hours: 2, Credit: 2
Prerequisite: Consent of instructor
This course is focused on developing tactical vision and decision-making skills for naval officers. It covers the principles of strategic planning, mission analysis, and the use of intelligence information. Students will learn to analyze and interpret data to make informed decisions in real-time situations.

WORLD PHYSICAL GEOGRAPHY
Class Hours: 4, Credit: 4
This course covers the physical aspects of the world as well as cultural-economic activities. The course familiarizes students with the current and historical human activity distribution. It also studies the effects of human activity on Earth's surface.

INSTRUMENTS OF NAVIGATION
Class Hours: 4, Credit: 4
Prerequisite: PHY 100
This course offers a comprehensive study of the principles of marine navigation. Students will learn to use various navigation instruments and understand the principles behind their operation. The course will cover topics such as celestial navigation, electronic charts, and radar.

PHYSICS LABORATORY
Class Hours: 4, Credit: 4
Prerequisite: Consent of instructor
This laboratory course is designed to complement the study of physics. It covers a variety of experimental methods and techniques, and students will conduct experiments to reinforce the concepts learned in the corresponding lecture course. Topics may include electricity, magnetism, optics, and light.

CONTRACT LAW FOR NAVY PERSONNEL
Class Hours: 2, Credit: 2
Prerequisite: Consent of instructor
This course covers the legal aspects of contracts for Navy personnel. It focuses on federal, state, and international laws related to contracts, including maritime law contracts and leases. Students will learn to analyze and draft contracts, and understand the legal implications of contract law.

MARINE INSURANCE
Class Hours: 2, Credit: 2
Prerequisite: Consent of instructor
This course introduces students to the principles of marine insurance contracts. It covers insurance policies, risk assessment, and the resolution of disputes. Students will learn about different types of insurance contracts and the legal frameworks that govern them.

MATERIALS SCIENCE
Class Hours: 4, Credit: 4
Prerequisite: Consent of instructor
This course is an introduction to the science of materials. It covers the fundamental principles of materials, including their properties, behavior, and applications. Students will learn about the microstructure and phases of various materials, as well as their mechanical properties.
TRA 390. INDEPENDENT STUDY
MPM

TRA 395. SPECIAL TOPICS
MPM

TRA 400. TRANSPORTATION OF HAZARDOUS MATERIALS
CLASS HOURS: 3, CREDIT: 3
Prerequisite: None
Students investigate the chemistry of hazardous materials, regulations for their transportation by water, rail, truck, or air, packaging, container specifications, blocking and bracing, marking of shipments, and safety measures. Students also address security of shipments, from a regulatory, operational, and global business perspective. MPM

TRA 405. IMPORT AND EXPORT REGULATIONS
CLASS HOURS: 3, CREDIT: 3
Prerequisites: BUS 300
This seminar-type class gives a general overview of outsourcing and the process of importing and exporting goods or services, emphasizing the perspective of an entrepreneur starting an import/export business. Students investigate the nomenclature, procedures, and practices, including pricing, documentation and actions of key players. Topics discussed include theories of trade, globalization, outsourcing and the make-buy decision, intermediaries, and risk management. Students create a portfolio, which may be done independently or, in some cases, with a team. MPM

TRA 410. NATIONAL AND STATE TRANSPORTATION POLICIES
CLASS HOURS: 3, CREDIT: 3
Prerequisite: NAU 103 or TRA 300
Transportation and physical distribution in terms of public interest, administration of controls, subsidization, and procedures before various associations, study groups, and executive and regulatory bodies. MPM
The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972, the system became the California State University and Colleges, and in 1982 the system became The California State University. Today, the campuses of the CSU include comprehensive and polytechnic universities and, since July 1995, The California Maritime Academy, a specialized campus.

The oldest campus—San José State University—was founded in 1857 and became the first institution of public higher education in California. The newest—CSU Channel Islands—opened in fall 2002, with freshmen arriving in fall 2003.

Responsibility for The California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the Chief Executive Officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop systemwide policy, with implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of The California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by The California State University through a distinguished faculty whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as a broad liberal education. All campuses require for graduation a basic program of “General Education Requirements” regardless of the type of bachelor’s degree or major field selected by the student.

The CSU offers high-quality, affordable bachelor’s and master’s level degree programs. Many of these programs are offered so that students can complete all upper division and graduate requirements by part-time, late afternoon, and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private institutions in California. In 2005, the CSU was authorized to independently offer educational doctorate (Ed.D.) programs.

Enrollment in fall 2009 totaled 433,000 students, who were taught by more than 21,000 faculty. The system awards about half of the bachelor’s degrees and a third of the master’s degrees granted in California. More than 2.5 million students have graduated from CSU campuses since 1961.

A recent economic report found that the CSU supports more than 150,000 jobs statewide, annually. The engine driving job creation is more than $17 billion in economic activity that directly results from CSU-related spending that generates $5.43 for every dollar the state invests. For more information, please see www.calstate.edu/impact.

A world of information is just a click away.
Check out the website for the entire California State University: www.csumentor.edu. You will find helpful hints, frequently-asked questions, campus tours, and general information about all 23 campuses. The phone number listed for each campus is for the Office of Admission.

PRIVACY RIGHTS OF STUDENTS IN EDUCATION RECORDS

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect the privacy of students concerning their records maintained by the campus. The statute and regulations govern access to certain student records maintained by the campus and the release of such records. The law provides that the campus must provide students access to most records directly related to them and an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade as determined by the instructor. The law generally requires that written consent of the student be received before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures concerning implementation of the statute and the regulations. Copies of these policies and procedures may be obtained at the Student Records Office. Among the types of information included in the campus statement of policies and procedures are the following: 1) the types of student records and the information contained therein; 2) the official responsible for the maintenance of each type of record; 3) the location of access lists which indicate persons requesting or receiving information from the record; 4) policies for reviewing and expunging records; 5) the access rights of students; 6) the procedures for challenging the content of student records; 7) the cost which will be charged for reproducing copies of records; and 8) the right of the student to file a complaint with the Department of Education. An office and review board have been established by the Department to investigate and adjudicate violations and complaints. The office designated for this purpose is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-5920.

The campus is authorized under the Act to release "directory information" concerning students. "Directory information" includes the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution attended by the student. The information designated above is subject to release by the campus at any time unless it has received a prior written objection from the student specifying information that the student requests not to be released. Written objections should be sent to the Provost/Vice President, Academic Affairs.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons are those who have responsibilities in connection with the campus' academic, administrative, or service functions and who have reason for using student records connected with their campus or other related academic responsibilities. Disclosure may also be made to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

NONDISCRIMINATION POLICY

Race, Color, Ethnicity, National Origin, Age, and Religion

The California State University complies with the requirements of Title VI and Title VII of the Civil Rights Act of 1964, as well as other applicable federal and state laws prohibiting discrimination. No person shall, on the basis of race, color, ethnicity, national origin, age, or religion be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any program or The California State University.

Disability

The California Maritime Academy, CSU, subscribes to the provisions of Sections 504 and 508 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and various state laws pertaining to the hiring and admission of the handicapped insofar as these regulations are compatible with U.S. Coast Guard requirements governing physical qualifications for merchant marine officers. Shipboard training is an essential part of the Academy’s program. All students must be physically able to function on board the academy’s training ship and small boats. There are no special facilities on board for handicapped students, faculty, crew, or visitors. The Director of Human Resources has been designated to coordinate the efforts of The California Maritime Academy to comply with these Acts in implementing regulations. For inquiries concerning compliance, please call 707-654-1135.

Sex/Gender

The California State University does not discriminate on the basis of sex, gender, or sexual orientation in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972 and certain other federal and state laws prohibit discrimination on these bases in education programs and activities operated by The California Maritime Academy. Such programs and activities include admission of students and employment.
The California State University is committed to providing equal opportunities to male and female CSU students in all campus programs, including intercollegiate athletics.

Inquiries concerning the application of these laws to programs and activities of The California Maritime Academy may be referred to the Director of Human Resources, the campus officer assigned the administrative responsibility of reviewing such matters or to the Regional Director of the Office for Civil Rights, United States Department of Education, 50 Beale Street, Suite 7200, San Francisco, CA 94105.

DETERMINATION OF RESIDENCE FOR NONRESIDENT TUITION PURPOSES

University requirements for establishing residence are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay tuition on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residence Requirements. These laws governing residence for tuition purposes at the California State University (CSU) are California Education Code sections 68000-68090, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the CSU’s website at www.calstate.edu/GC/resources.shtml

The Cal Maritime Admissions Office is responsible for determining the residence status of all new and returning students based on responses to the Application for Admission, Residency Questionnaire, and Reclassification Request Form, and, as necessary, other evidence furnished by the student.

A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

For an adult, physical presence in the state, combined with steps taken at least one year prior to the residence determination date, show an intent to make California the permanent home. A minor normally derives residence from the parent(s) they reside with or most recently resided with.

The steps necessary to show California residency intent will vary from case to case but will include, and is not limited to, the absence of residential ties to any other state; registering to vote and voting in elections in California; maintaining California vehicle registration and driver’s license; maintaining active California bank accounts; filing California state income tax returns and listing a California address on federal tax returns; owning residential property or occupying or renting an apartment where one’s permanent belongings are kept; maintaining active memberships in California professional or social organizations; and maintaining a permanent address in California if one is in the military service.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire that includes questions concerning their financial dependence on parents or others who do not meet University requirements for classification as residents for tuition purposes. Financial independence is required, along with physical presence and intent, to be eligible for reclassification.

Non-citizens establish residence in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates at Cal Maritime are as follows:

Fall..........................September 20
Spring.........................January 25

Questions regarding residence determination dates should be directed to the Cal Maritime Admissions Office, 707-654-1330.

Exceptions to the general residence requirements are contained in California Education Code sections 68070-68084 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.5, and include, but are not limited to the following:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues for one year to enable the student to qualify as a resident student.

2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time.

3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult or adults, not a parent, for the two years immediately preceding the residence determination date. Such an adult must have been a California resident for the most recent year.

4. The dependent children and spouse of persons in active military service stationed in California on the residence determination date. Retirement or transfer of the military person outside the state does not affect the exception, once attained.

5. Military personnel in active service in California on the residence determination date for purposes other than education at state-supported institutions of higher education. This exception continues until the military personnel have resided in the state the minimum time necessary to become a resident.

6. Military personnel in active service in California for more than one year immediately prior to being discharged from the military. Eligibility for this exception runs from the date the student is discharged from the military until the student has resided in state the minimum time necessary to become a resident.

7. Dependent children of a parent who has been a California resident for the most recent year. This exception continues until the student has resided in the state the minimum time necessary to become a resident, so long as continuous attendance is maintained at an institution.

8. Graduates of any school located in California and operated by the United States Bureau of Indian Affairs, including, but not limited to, the Sherman Indian High School. The exception continues so long as continuous attendance is maintained by the student at an institution.

9. Certain credentialed, full-time employees of California school districts.

10. Full-time CSU employees and their children and spouses; state employees assigned to work outside the state and their children and spouses.

This exception continues until the student has resided in the state the minimum time necessary to become a California resident.

11. Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties.

12. Certain amateur student athletes in training at the United States Olympic Training Center in Chula Vista, California. This exception continues until the student has resided in the state the minimum time necessary to become a resident.

13. Federal civil service employees and their natural or adopted dependent children if the employee has moved to California as a result of a military mission realignment action that involves the relocation of at least 100 employees. This exception continues until the student has resided in the state the minimum time necessary to become a resident.

14. State government legislative or executive fellowship program enrollees. The student ceases to be eligible for this exception when he or she is no longer enrolled in the qualifying fellowship.

Students classified as non-residents may appeal a final campus decision within 120 days of notification by the campus. A campus residence classification appeal must be in writing and submitted to:

The California State University
Office of General Counsel
401 Golden Shore, 4th Floor
Long Beach, CA 90802-4210

The Office of General Counsel may make a decision on the appeal, or it may send the matter back to the campus for further review. Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is also subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office.
Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residence for tuition purposes in California between the time this information is published and the relevant residence determination date. Students are urged to review the statutes and regulations stated above.

**AVERAGE SUPPORT COST PER FULL-TIME EQUIVALENT STUDENT AND SOURCES OF FUNDS**

The total support cost per full-time equivalent student (FTES) includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of FTES.

<table>
<thead>
<tr>
<th>2010-11</th>
<th>Amount</th>
<th>Average Cost per FTE Student</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Support Cost</td>
<td>$4,182,249,000</td>
<td>$12,117</td>
<td>100%</td>
</tr>
<tr>

<tr>
<td>Other Income &amp; Reimbursements3</td>
<td>320,211,000</td>
<td>904</td>
<td>7%</td>
</tr>
</tbody>
</table>

1 “State Appropriation includes a decrease of $106 million reflecting a shift of costs on a one-time basis to the federal American Recovery and Reinvestment Act State Fiscal Stabilization Fund.”

2 Net basic tuition fee revenue and other income represents campus 2010-11 budgets submitte November 2010.

3 Other income and reimbursements represent campus “other fee” 2010-11 final budget revenues submitted, as well as reimbursements in the CSU Operating Fund.

The average CSU 2010-11 academic year, resident, undergraduate student basic tuition fee and other mandatory fees required to apply to, enroll in, or attend the university is $5,285. However, the costs paid by individual students will vary depending on campus, program, and whether a student was part-time, full-time, resident, or nonresident.

**IMPACTED PROGRAMS**

The CSU designates programs as impacted when more applications from CSU regularly eligible students are received in the initial filing period (October and November for fall terms, June for winter terms, August for spring terms, February for summer terms) than can be accommodated. Some programs are impacted at every campus where they are offered; others are impacted only at a few campuses. Candidates for admission must meet supplementary admission criteria if applying to an impacted program or campus.

The CSU will announce during the fall filing period those campuses or programs that are impacted. Detailed information on campus and programs impaction will be available at the following websites:

- www.csumentor.edu
- www.calstate.edu/impactioninfo.shtml
- http://www.calstate.edu/sas/impaction-campus-info.shtml

Campuses will communicate its supplementary admission criteria for all impacted programs to high schools and community colleges in their service area and will disseminate this information to the public through appropriate media. This information will also be published at the CSU campus individual website and made available online at www.calstate.edu.

**APPLICATION FILING PERIODS**

(Not all campuses/programs are open for admission to every term.)

Transfer Requirements
Students who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) are considered lower division transfer students. Students who have completed 60 or more transferable semester college units (90 or more quarter units) are considered upper division transfer students. Students who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet those admission requirements. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses and accepted as such by the campus to which the applicant seeks admission.

Lower Division Transfer Requirements
Generally, applicants will qualify for admission as a lower division transfer student if they have a grade point average of at least 2.0 (C or higher) in all transferable units attempted; and

1. Will meet the freshman admission requirements (grade point average and subject requirements) in effect for the term to which they are applying (see “Freshman Requirements” section); or

2. Were eligible as a freshman at the time of high school graduation except for the subject requirements, and have been in continuous attendance in an accredited college since high school graduation, and have made up the missing subjects.

Applicants who graduated from high school prior to 1988 should contact the Office of Admissions to inquire about alternative admission programs.

Making Up Missing College Preparatory Subject Requirements
Lower division applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways:

1. Complete appropriate courses with a C or higher in adult school or high school summer sessions.

2. Complete appropriate college courses with a C or higher. One college course of at least three semester or four quarter units will be considered equivalent to one year of high school study.

3. Earn acceptable scores on specified examinations.

Please consult with any CSU Admissions Office for further information about alternative ways to satisfy the subject requirements. Due to enrollment pressures, many CSU campuses do not admit or enroll lower division transfer students.

Upper Division Transfer Requirements
Generally, applicants will qualify for admission as an upper division transfer student if they meet the following requirements:

1. They have a grade point average of at least 2.0 (C or higher) in all transferable units attempted; and

2. They are in good standing at the last college or university attended; and have completed at least 60 transferable semester units of college coursework with a grade point average of 2.0 or higher and a grade of C or higher in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking and quantitative reasoning, e.g., mathematics. The 60 units must include all of the general education requirements in communication in the English language (both oral and written) and critical thinking (at least 9 semester units) and the requirement in mathematics/quantitative reasoning (usually 3 semester units) and the requirement in mathematics/quantitative reasoning (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

PROCEDURE FOR THE ESTABLISHMENT OR ABOLISHMENT OF CAMPUS-BASED MANDATORY FEES
The law governing The California State University provides that fees defined as mandatory, such as a student body association fee and a student body center fee, may be established. A student body association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). A student body center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 89304). The student body fee was established at The California Maritime Academy by student referendum on March 14, 1995.

The campus President may adjust the student body association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (Education Code, Section 89380). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10 percent of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code, sections 90012, 90027, and 90068. Student body association fees support a variety of cultural and recreational programs, childcare centers, and special student support programs.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a student referendum. The campus President may use alternative consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus President. The President may adjust campus-based mandatory fees, but must request the Chancellor establish a new mandatory fee. The President shall provide to the fee advisory committee a report of all campus-based mandatory fees. The campus shall report annually to the Chancellor a complete inventory of all campus-based mandatory fees.

For more information or questions, please contact the Budget Office in the CSU Chancellor’s Office at 562-951-4560.

STUDENT CONDUCT
Title 5, California Code of Regulations, § 41301. Standards for Student Conduct
(a) Campus Community Values
The California Maritime Academy is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

(b) Grounds for Student Discipline
Student behavior that is not consistent with the Student Conduct Code is addressed through a formal process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences. The following are the grounds upon which student discipline can be based;

(1) Dishonesty, including:
   (A) Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.

(B) Furnishing false information to a University official, faculty member, or campus office.

(C) Forgery, alteration, or misuse of a University document, key, or identification instrument.

(D) Misrepresenting one’s self to be an authorized agent of the University or one of its auxiliaries.

(2) Unauthorized entry into, presence in, use of, or misuse of University property.

(3) Willful, material and substantial disruption or obstruction of University-related activity, or any on-campus activity.

(4) Participating in an activity that substantially and materially disrupts the normal operations of the University, or infringes on the rights of members of the University community.

(5) Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus University related activity.

(6) Disorderly, lewd, indecent, or obscene behavior at a University related activity, or directed toward a member of the University community.

(7) Conduct that threatens or endangers the health or safety of any person within or related to the University community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
(8) Hazing, or conspiracy to hae. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term “hazing” does not include customary athletic events or school sanctioned events.

Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.

(9) Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and University regulations) or the misuse of legal pharmaceutical drugs.

(10) Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and University regulations), or public intoxication while on campus or at a University related activity.

(11) Theft of property or services from the University community, or misappropriation of University resources.

(12) Unauthorized destruction, or damage to University property or other property in the University community.

(13) Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a University related activity.

(14) Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for commercial purpose.

(15) Misuse of computer facilities or resources, including:

(A) Unauthorized entry into a file, for any purpose.

(B) Unauthorized transfer of a file.

(C) Use of another’s identification or password.

(D) Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University Community.

(E) Use of computing facilities and resources to send obscene or intimidating and abusive messages.

(F) Use of computing facilities and resources to interfere with normal University operations.

(G) Use of computing facilities and resources in violation of copyright laws.

(H) Violation of a campus computer use policy.

(16) Violation of any published University policy, rule, regulation or presidential order.

(17) Failure to comply with directions of, or interfere with, any University official or any public safety officer while acting in the performance of his/her duties.

(18) Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the University community, to property within the University community or poses a significant threat of disruption or interference with University operations.

(19) Violation of the Student Conduct Procedures, including:

(A) False information or misrepresentation of information related to a student discipline matter.

(B) Disruption or interference with the orderly progress of a student discipline proceeding.

(C) Initiation of a student discipline proceeding in bad faith.

(D) Attempting to discourage another from participating in the student discipline matter.

(E) Attempting to influence the impartiality of any participant in a student discipline matter.

(F) Verbal or physical harassment or intimidation of another in a student discipline matter.

(G) Failure to comply with the sanction(s) imposed under a student disciplinary proceeding.

(20) Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

(c) Procedures for Enforcing This Code

The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the University imposes any sanction for a violation of the Student Conduct Code.

(d) Application of This Code

Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus.

Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

(e) Summary of Criminal and Civil Penalties for Violation of Federal Copyright Laws

As referenced earlier in Section XXI, Student Conduct (15) (G) the penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for copyright infringement may be ordered to pay actual damages or “statutory” damages affixed at not less than $750 and not more than $30,000 per work infringed. For “willful” infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense.
A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension.

During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of The California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

AVAILABILITY OF INSTITUTIONAL AND FINANCIAL ASSISTANCE INFORMATION

The following information concerning student financial assistance may be obtained from the Director of Financial Aid, located in the Student Center, 707-654-1275:

1. A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at Cal Maritime;

2. For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student’s award;

3. A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and criteria for continued student eligibility under each program;

4. The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;

5. The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;

6. The terms of any loan received as part of the student's financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;

7. The general conditions and terms applicable to any employment provided as part of the student’s financial aid package;

8. The responsibility of Cal Maritime for providing and collecting exit counseling information for all student borrowers under the federal student loan programs; and

9. The terms and conditions for deferral of loan payments for qualifying service under the Peace Corps Act, the Domestic Volunteer Service Act of 1973, or comparable volunteer community service.

Information concerning the cost of attending Cal Maritime is available from the Director of Financial Aid, located in the Student Center, 707-654-1275, and includes tuition and fees; the estimated costs of books and supplies; estimates of typical student room, board, and transportation costs; and, if requested, additional costs for specific programs.

Information concerning the refund policies of Cal Maritime for the return of unearned tuition and fees or other refundable portions of institutional charges is available from the Cashier’s Office, located in the Administration Building, 707-654-1030, option 6.

Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation is available from the Director of Financial Aid, located in the Student Center, 707-654-1275.

Information regarding special facilities and services available to students with disabilities may be obtained from the Director of Center for Engagement, Teaching and Learning (CETL), located in the Laboratory Building, 707-654-1283.

Information concerning Cal Maritime policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from Public Safety, located in the Continuing Education and Public Safety Building, 707-654-1176 or http://www.csum.edu/web/faculty-and-staff/crime-reporting-procedures.

Information concerning Cal Maritime annual campus security report may be obtained from Public Safety, located in the Continuing Education and Public Safety Building, 707-654-1176 or http://www.csum.edu/web/faculty-and-staff/clery-report.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from the Dean of Students, located in the Student Center, 707-654-1182 or Dr. Carlton Purviance, Psychologist, located in the Student Health Center, 707-654-1174.

Information regarding student retention and graduation rates at Cal Maritime and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest may be obtained from the Registrar, located in the Faculty Office Building, 707-654-1794.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that Cal Maritime dedicates to its men’s and women’s teams may be obtained from the Director of Athletics, located in the Gymnasium Building, 707-654-1050.

Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices and procedures, or its faculty and staff may be obtained from the Director of Human Resources, located in the Administration Building, 707-654-1135.

SELECTIVE SERVICE SYSTEM REGISTRATION

The federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered.

Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service.

Information on the Selective Service System is available and the registration process may be initiated online at http://www.sss.gov.

THE CALIFORNIA STATE UNIVERSITY INTERNATIONAL PROGRAMS

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 15,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 19 countries, the International Programs also offers a wide selection of study locales and learning environments.

INTERNATIONAL AND NATIONAL EDUCATIONAL EXCHANGE PROGRAMS

Cal Maritime has established programs of exchange and collaboration in areas of mutual interest with the following national and international Maritime Academies/Universities:

♦ Dalian Maritime University, Dalian, China
♦ Far Eastern State Maritime Academy, Vladivostok, Russia
♦ Kobe University of Mercantile Marine, Kobe, Japan
♦ Korea Maritime University, Busan, Korea
♦ Maine Maritime Academy, Castine, Maine, USA
♦ Mexican Maritime Academy, Mexico City, Mexico
♦ Mokpo Maritime University, Mokpo, Korea
♦ Shanghai Maritime University, Shanghai, China
♦ Singapore Maritime Academy, Republic of Singapore
♦ Tokyo University of Merchantile Marine, Tokyo, Japan

Students enrolled at Cal Maritime will have the possibility of participating in exchange programs established at these institutions.

POLICE AND PUBLIC SAFETY

The California Maritime Academy Police and Public Safety Department provides 24 hours a day service for the campus community. Our mission is to provide a safe living and learning environment for our community. We work closely with our community to provide safety, education and enforcement efforts. The department use both sworn and non sworn staff to enforce laws and campus policy. Officers conduct foot, bicycle and vehicle patrols on campus, to include interior patrol of the campus residence halls. They are the first responders to campus emergencies.

Some of the Public Safety programs include: (1) Safety Escort Program, (2) Drug/Alcohol Program, (3) Don’t Stall-Call, (4) Blue Light Emergency Phones, (5) Operation I.D., (6) If I Were a Thief, and (7) Dead Vehicle Assistance. The department has three primary areas of responsibility: Public Safety, Emergency Preparedness, and Parking. For more information please check the web at http://csum.edu/web/faculty-and-staff/public-safety.

ANNUAL SECURITY REPORT AND CRIME STATISTICS

EMERGENCY PREPAREDNESS

It is the policy of the California Maritime Academy that it will maintain a comprehensive Emergency Management Program encompassing: (1) risk mitigation, (2) emergency preparedness, (3) emergency response, (4) recovery from emergencies that overwhelm campus resources, and (5) the circumstances under which the California Maritime Academy Emergency Response Plan would be activated.

The Cal Maritime Emergency Plan provides basic structure and procedures to guide the campus’s response to extraordinary emergency situations associated with natural and man-made disasters. Cal Maritime personnel and equipment will be utilized to accomplish the following priorities: Priority I: Protection of Life Safety, Priority II: Maintenance of Life Support and Assessment of Damages, Priority III: Restoration of General Campus Operations, Priority IV: Financial Reimbursement through Appropriate State and Federal Agencies. As operations progress from Priority I through IV, the administrative control of the campus will transition from the NIMS/SEM/ICS structure back to the normal Cal Maritime organizational structure. The entire Emergency Operations Plan is available at http://csum.edu/web/faculty-and-staff/emergency-preparedness.

PARKING AND MOTOR VEHICLES

The use of motor vehicles (autos and motorcycles) at Cal Maritime is considered a privilege granted subject to compliance with California Law and Academy regulations. Parking is limited, and a campus permit is required. New incoming students must submit a waiver form to be considered for approval to purchase a permit. This form can be found in their admissions booklet. Additional parking regulations are available in the Student Handbook and at http://www.csum.edu/web/faculty-and-staff/parking.

**FACULTY**

Allen, Tom (1996)
Maritime Vocational Instructor III
Boatwain

Andrews, Michael (1997)
Maritime Vocational Instructor IV
B.S., Marine Engineering Technology, California Maritime Academy, 1976
Second Assistant Engineer, Steam, Motor, and Gas Turbine Vessels, Unlimited Horsepower
Master Motor Vessels, 100 Ton

Arms, Susan “Charlie” (1999)
Director of Sailing, Varsity Sailing Coach
B.A., Recreation and Leisure Studies, CSU Long Beach, 1987
Master Mariner, 50 GT Inland OUPV, Near Coastal
US SAILING Keelboat Instructor Trainer
Level 1 Small Boat Instructor Trainer
Level 2 Performance Sailing Instructor
Powerboat Handling Instructor

Bachkar, Khalid (2010)
Assistant Professor
B.A., Business Administration, Hassa II University, Morocco, 1994
M.A., Information Systems, Shippensburg University, PA, 2005
Ph.D., Transportation and Logistics, North Dakota State University, 2010

Bagheri, Nader (1990)
Professor and Interim Chair, Mechanical Engineering
B.S., Mechanical Engineering, CSU Fresno, 1981
M.S., Mechanical Engineering, UC Davis, 1984
Ph.D., Mechanical Engineering, UC Davis, 1989
Professional Engineer, California

Associate Professor
B.A., English Literature, Bates College, Lewiston, ME, 1988
M.A., Literatures in English, Rutgers University, New Brunswick, NJ, 1996
Ph.D., Literatures in English, Rutgers University, New Brunswick, NJ, 2002

Bolin, Benjamin (2006)
Sr. Assistant Librarian
B.A., History, Brigham Young University, 2004
M.L.I.S., Library and Information Science, San José State University, 2007

Bowlin, Michael (2010)
Maritime Vocational Lecturer I
A.S., Liberal Arts, University State of New York, 1983
A.S., Shipbuilding, Solano Community College, 1988

Brown, Robert J. (2005)
Maritime Vocational Instructor II
B.S., Nautical Industrial Technology, California Maritime Academy, 1986
Third Mate, Unlimited, Any Ocean
Master of Towing Vessels
1600-Ton Master, Any Ocean

Brown, Steven (2004)
Associate Professor
B.A., Computer Studies, Northwestern University, 1989
M.E.M., Engineering Management, Northwestern University, 2004
Master Mariner, Unlimited, Any Ocean

Cartee, Jesse (2008)
Maritime Vocational Lecturer II
B.S., Marine Transportation, California Maritime Academy, 2004
Second Mate, Unlimited, Any Ocean
1600-Ton Master, Any Ocean

Assistant Professor
B.A., English, St. Mary’s College of California, 1991
M.A., English, University of California, Davis, 1994
Diploma of Hispanic Studies, Universidad de Barcelona, 1997
Ph.D., Literature & Creative Writing, University of Houston, 2002

Lecturer
B.S., Mechanical Engineering, Yonsei University, Korea, 1983
M.S., Mechanical Engineering, Yonsei University, Korea, 1983
Ph.D., Mechanical and Aeronautical Engineering, University of California, Davis, 1996

Coleman, David W. (1999)
Maritime Vocational Lecturer III
B.S., Nautical Industrial Technology, California Maritime Academy, 1986
Second Mate, Unlimited, Any Ocean
Master of Towing Vessels
1600-Ton Master, Any Ocean

Cook, Lyle (1991)
Maritime Vocational Instructor IV
Chief Engineer, Steam, Motor, and Gas Turbine Vessels, Unlimited Horsepower

Dudley, Ryan (2006)
Assistant Professor
B.S., Political Science, Santa Clara University, 1997
Ph.D., Political Science, University of California, Davis, 2009

Dudman, Matthew (2007)
Lecturer
A.B., International Relations (Minor in French), University of California, Davis, 1990
M.B.A., University of California Davis Graduate School of Management, Davis, CA, 1993
J.D., Tulane Law School, New Orleans, LA, 1996
LL.M., Taxation, Golden Gate University, San Francisco, CA, 2000

Elliott, Britt T. (1996)
Maritime Vocational Instructor IV
B.S., Nautical Industrial Technology, California Maritime Academy, 1981
B.S., Economics, CSU Sacramento, 1989
Third Mate, Unlimited, Any Ocean
Master of Towing Vessels,
Designated T.O.A.R. Assessor
1600-Ton Master, Any Ocean

Ellison, D’Marie, LT, USN (2010)
OIC and Chair
B.A. with Honors, English, University of Colorado, Boulder, 2000

Fischer, Jonathan (2006)
Assistant Professor
B.S., Biomechanics Engineering, University of Pittsburgh, PA, 2002
B.A., History of Science, University of Pittsburgh, PA, 2002
M.S., Mechanical Engineering, UC Berkeley, 2004

Frick, Chris (2005)
Lecturer
M.A., Literature, New Mexico State University, Las Cruces, NM, 1997
Ph.D., 19th-Century British Literature, University of South Carolina, Columbia, SC, 2003

Green, Scott (1997)
Maritime Vocational Instructor II
B.S., Marine Engineering Technology, California Maritime Academy, 1986
Third Assistant Engineer, Steam, Motor, and Gas Turbine Vessels, Unlimited Horsepower

Lecturer
B.A., French, Beijing Second Foreign Language Institute, Beijing, China, 1982
M.A., French, Arizona State University, Tempe, AZ, 1992

Gutierrez, Jim (2001)
Associate Professor
B.S., Mechanical Engineering, CSU Sacramento, 1985
M.S., Engineering, UC Davis, 1991
Ph.D., Engineering, UC Davis, 1998
Professional Engineer, California

Hassan-Snell, Antony (2001)
Associate Professor
B.S., Mechanical Engineering, University College, London, 1983
M.S., Marine Mechanical Engineering, University College, London, 1984
Ph.D., Aerospace Engineering, University of Minnesota, 1991

Hayes, Peter J. (2001)
Professor
B.S., Marine Transportation, Texas A&M University at Galveston, 1988
M.A., Public and Private Management, University of Houston, Clear Lake, 1999
J.D., Concord Law School, 2007
Master Mariner, Unlimited, Any Ocean
Hebron, Lui (2006)  
Assistant Professor  
B.A., Political Science, University of Florida, Gainesville, FL, 1985  
M.A., International Affairs, American University, Washington, DC, 1988  
M.A., Political Science, Binghamton University, Binghamton, NY, 1990  
Ph.D., Political Science, Florida State University, Tallahassee, FL, 1995

Hensley, Mark P. (2004)  
Maritime Vocational Lecturer II  
B.S., Nautical Science, U.S. Merchant Marine Academy, 1970  
Master Mariner, Unlimited, Any Ocean  
Master Mariner, Auxiliary Sail Vessels, Limited Tonnage  
First Class Pilot, Hinchinbrook Entrance to Rock Point, AK

Hitchcock, Stan (2010)  
Maritime Vocational Lecturer I  
A.A., General Studies, Napa Valley College, 1982  
B.S., Organizational Behavior, University of San Francisco, 1989  
Journeyman Machinist

Holden, Michael (2007)  
Assistant Professor  
B.S., Aeronautical and Mechanical Engineering, English Minor, UC Davis, 1992  
M.S., Aeronautics and Astronautics, Stanford University, 1994  
Ph.D., Aeronautics and Astronautics, Stanford University, 1999

Inoue, Taiyo (2009)  
Assistant Professor  
B.S., Mathematics, University of California, Davis, 2000  
Ph.D., Mathematics, University of California, Berkeley, 2007

Jackson, Robert (2000)  
Maritime Vocational Instructor IV  
B.S., Marine Engineering, California Maritime Academy, 1976  
Chief Engineer, Steam, Motor, and Gas Turbine Vessels, Unlimited Horsepower

Kamdar, Nipoli (2010)  
Associate Professor  
B.A., Economics and Statistics, St. Xavier’s College, Bombay University, India, 1985  
M.A., Economics, Syracuse University, 1992  
Ph.D., Economics, Syracuse University, 1993

Kassoff, Jonathan, LT, USN (2011)  
Aot. OIC/Instructor  
B.S., Mechanical Engineering, University of Virginia, 2007

Kazels, Michael S. (2008)  
Lecturer  
B.S., Marine Engineering, U.S. Coast Guard Academy, 1984  
M.S.E., Naval Architecture and Marine Engineering, University of Michigan, 1986  
M.S.E., Mechanical Engineering, University of Michigan, 1986

Kitazono, Lloyd (1978)  
Professor and Chair, Science and Mathematics  
B.S., Marine Biology, University of California, Davis, 1975  
M.A., Marine Sciences, San Francisco State University, 1978

Leyda, Paul R. (1992)  
Professor  
B.S., Nautical Science, California Maritime Academy, 1975  
M.S., Maritime Management, Maine Maritime Academy, 1989  
Master Mariner, Unlimited, Any Ocean

Lecturer  
B.S., Biology, Brooklyn College, 1994  
Ph.D. Molecular Biology, City University of New York-Graduate School and University Center, 1998

Lynch, Timothy G. (2001)  
Associate Professor and Chair, Maritime Policy and Management  
B.A., History, Brooklyn College, 1994  
M.A., American History, Brooklyn College, 1997  
Ph.D., American History, City University of New York-Graduate School and University Center, 2004

Mancilla, Terrance (2009)  
Assistant Professor  
A.S., Electronics, College of Marin, 1970  
B.S., Electrical Engineering, San Francisco State University, 1972  
M.S., Engineering Management, UC Berkeley, 1976

Manheimer, Robert (2007)  
Lecturer  
B.A., Spanish Literature and Political Science, University of California, San Diego, 1985  
M.A., Teaching English to Speakers of Other Languages (TESL), University of Hawaii, 1992

Marocchino, Kathryn (1990)  
Professor  
B.A., Languages and Business Administration, Santorre di Santarosa Technical Institute, Turin, Italy, 1972  
Doctorate, Modern Foreign Languages and Literature, University of Turin, 1979  
Fellow in Thanatology: Death, Dying and Bereavement, 2005

Massey, John V. (2006)  
Assistant Professor and Chair, Engineering Technology, FEIT Program Director  
B.S., Nuclear Engineering, Georgia Institute of Technology, 1975  
M.S., Nuclear Engineering, Purdue University, 1976  
Ph.D., Nuclear Engineering, Georgia Institute of Technology, 1980

McDermott, Louis (1976)  
Lecturer  
B.A., Government, University of Arizona, Tucson, AZ, 1963  
M.A., History, University of Minnesota, Minneapolis, MN, 1968  
Ed.D., Organization and Leadership, University of San Francisco, San Francisco, CA, 1984

McGroarty, Peter G. (1997)  
Maritime Vocational Instructor III and Chair, Maritime Operations  
Master Home Trade, Unlimited Tonnage, United Kingdom, 1980

Messer-Bookman, Tuuli (1996)  
Professor  
B.S., Marine Transportation, U.S. Merchant Marine Academy, 1986  
J.D., University of San Francisco, School of Law, 1995  
Master Mariner, Unlimited, Any Ocean

Metz, Jennifer (2008)  
Lecturer  
B.A., History, California State University, Sacramento, 2004  
M.A., History, University of California, Davis, 2007

Maritime Vocational Lecturer II  
Waterfront Coordinator  
A.S., Marine Technology, Suffolk County Community College, 1982  
B.S., Marine Biology, Long Island University, Southampton Campus, 1986  
100-Ton Master, Near Coastal

Neumann, Robert (2006)  
Lecturer  
B.F.A., History of Art/Asian Studies, Ohio State University, 1972  
M.A.Ed., California State University, Sonoma, 1980  
M.B.A., International Management, Golden Gate University, 1985

Ninicic, Donna (2001)  
Professor and Director, ABS School of Maritime Policy and Management  
M.A., International Relations, New York University, 1985  
M.A., Economics, New York University, NY, 1988  
Ph.D., Political Science, New York University, NY, 1995

Professor  
B.S., Mechanical Engineering, State University of New York at Buffalo, 1990  
M.S., Mechanical Engineering, UC Berkeley, 1995  
Ph.D., Mechanical Engineering, UC Berkeley, 1998
Paine-Clemes, Bunny (1993)  
Professor

B.S., Nautical Science, U.S. Merchant Marine Academy, 1980  
M.A., Transportation Management, American Military University, 2005  
Master Mariner, Unlimited, Any Ocean

Pohlmann, Brent G. (2009)  
Lecturer  
B.A., Mathematics, Western State College of Colorado, 1994  
M.A., Mathematics, San Diego State University, 2002  
Ph.D., Mathematics, University of Colorado, Boulder, 2008

Portolos, Harry (2006)  
Lecturer  
A.S., Shipbuilding, Solano Community College, CA, 1990  
B.S., Management, John F. Kennedy University, Orinda, CA, 2001  
M.B.A., Leadership, John F. Kennedy University, Orinda, CA, 2001

Powell, Scott M. (2009)  
Assistant Professor  
B.S., Business Administration, Ferris State University, 2003  
M.S., International Transportation Management, SUNY Maritime College, 2008  
Master Mariner, Unlimited, Great Lakes and Inland Waters  
Master Mariner, 1600 Tons, Any Ocean  
Second Mate, Unlimited, Any Ocean  
First Class Pilot, between Duluth, Gary, Buffalo, and between Port Weller and Cape Vincent

Punglia, Jaya (1993)  
Professor  
M.S., Physics, Vikram University, Ujjain, India, 1964  
Ph.D., Physics, University of London, 1972

Rodgers, John P. (2010)  
Maritime Vocational Instructor II  
B.S., Marine Engineering, Texas A&M, 1973  
B.S., Naval Architecture, University of Michigan, 1976  
Chief Engineer, Steam, Motor, and Gas Turbine Vessels, Unlimited Horsepower

Maritime Vocational Lecturer II  
B.S., Marine Engineering Technology, California Maritime Academy, 1999  
Second Assistant Engineer, Steam, Motor, and Gas Turbine Vessels, Unlimited Horsepower

Runyon, Steven T. (2010)  
Assistant Professor  
B.A., Molecular and Cell Biology, University of California, Berkeley, 1993  
Ph.D., Chemistry, University of California, Santa Cruz, 2001

Saarheim, Scott (2000)  
Maritime Vocational Instructor II  
B.S., Marine Transportation, California Maritime Academy, 1991  
Third Mate, Unlimited, Any Ocean

Maritime Vocational Instructor III  
B.S., Nautical Science, Maine Maritime Academy, 1978  
Master Mariner, Unlimited, Any Ocean  
First Class Pilot, Hinchinbrook Entrance to Rocky Point, AK

Spiliotopoulos, Achilles (2010)  
Lecturer  
B.S., Engineering Physics, University of California, Berkeley, 1985  
M.A., Physics, University of California, Berkeley, 1987  
Ph.D., Physics, University of California, Berkeley, 1991

Stewart, Robert (1982)  
Professor  
B.S., Marine Transportation, U.S. Merchant Marine Academy, 1975  
M.P.A., CSU Hayward, 1988  
D.P.A., Public Administration, Golden Gate University, 1997  
Master Mariner, Unlimited, Any Ocean

Strange, Michael (2008)  
Assistant Professor  
B.S., Mechanical Engineering, San Diego State University, 1984  
M.S., Mechanical Engineering, Stanford University, 1986

Strickland, JoAnne (2005)  
Lecturer  
B.S., Mechanical Engineering, University of Virginia, 1984  
M.S., Computer Information Systems, University of Phoenix, 2004

Trevisan, Cynthia S. (2008)  
Assistant Professor  
M.S., Physics, Universidad de Buenos Aires, Argentina, 1994  
Ph.D., Physics, University College London, United Kingdom, 2002

Van Hoeck, Michele (2009)  
Sr. Assistant Librarian  
B.S., Electrical Engineering, Cornell University, 1987  
M.L.I.S., Library and Information Science, University of California, Berkeley, 1993  
M.A., English, Sonoma State University, 2004

Velasco, John, LT, USCG (2009)  
U.S. Coast Guard Liaison/Instructor  
B.S., Marine Transportation, California Maritime Academy, 2005

Head Athletic Trainer  
B.A., San Diego State University, 1995  
ATC, PTA  
M.A., Kinesiology, St. Mary’s College of California, 2006

Weinstock, Daniel (1996)  
Professor  
B.S., Nautical Industrial Technology, California Maritime Academy, 1984  
M.S., Education, Dowling College, 1995  
Master Mariner, Unlimited, Any Ocean
