- Ensure all walking and working surfaces have been properly maintained, properly lit and free of debris and remove potential tripping hazards.  
- Use handrails when using stairs. |
| 2 Using motorized electrical tools & equipment | Electric shock, getting caught in equipment, cuts from sharp edges, Burns, electrocution, dismemberment, broken bones, hearing loss, blisters and struck by foreign objects |  
- Wear goggles and dust musk if applicable. Keep cords away from work area.  
- Keep tools in good condition.  
- Wear safety glasses. Work away from yourself.  
- Use normal caution required for all hand tools. |
| 3 Working with Power Tools | Cuts, abrasive, electric shock, injury form flying debris, tripping over power cords, electrocution |  
- Ensure tool/equipment is in proper working order prior to being used.  
- Ensure tool/equipment is tuned off when performing maintenance and attaching or detaching equipment.  
- Strictly follow manufactures recommendations and precautions. Perform pre use safety check on equipment.  
- Always wear appropriate PPE as determined by manufactures operating manual and the given work conditions. |
