

Take a Peek at Cal Maritime's New Website!

<https://csum-dev.csum.edu>

The Official Launch Date

It's here! Cal Maritime's new website (<https://csum-dev.csum.edu>) will become Cal Maritime's official website (www.csum.edu) on *Monday, February 21, 2011!*

About The New Site

The idea of redesigning Cal Maritime's website and integrating it with our campus portal took root 18 months ago. In January 2010, a contract was awarded to Project6 to develop a new look and feel, refine website content and navigation, and implement the custom design work into the portal. Both Project6 and CampusEAI (a consortium in Cleveland, OH that hosts our portal) have been supporting this development work.

The new site, which now contains over 700 pages, melds our public-facing site with our portal. Both of these are now entirely hosted "in the cloud" by the CampusEAI Consortium at their Cleveland, OH location. The new site also employs a content management system to improve the process of publishing web pages.

Poke Around!

We invite you to spend some time clicking on the various options and familiarizing yourself with the new site! Until January 18 (again, pending approval), it can be found at <https://csum-dev.csum.edu>. Those familiar with the current site will find that content in the new site has been reorganized.

Login to the Portal

Members of the Cal Maritime community who logon to the portal (using their campus Windows credentials) can quickly access various online services (such as PeopleSoft, Moodle, email, etc.) without having to logon again. In addition, the nearly fifty Web publishers on campus can access the new content management system by logging into the portal. To logon, simply click on "SIGN IN" link located at the top of the home page and login with your Cal

Maritime username and password. When you are finished, sign out using the option found under the My Menu” link (or simply close the browser window).

Can't Find What You Are Looking For?

Information will continue to be added to the new website. If you can't find what you are looking for, please let us know. The [old CSUM.edu](http://old.csum.edu) site will be available for approximately 1 month after transition, and it will be available at <http://old.csum.edu>.

Going Forward

A primary requirement of the new website is that it is easy to change and evolve. Accordingly, the new portal is not 100% complete. The website will always be in some state of development (or upkeep), and we are still working on:

- migrating content and files from the existing csum.edu site
- integrating a PeopleSoft directory lookup
- publishing web-based versions of the Course Catalog and Student Handbook
- developing the internal side of the portal that provides customized information to each faculty, staff, or student user based on group memberships.

For those interested in developing club or group sections in the portal, please contact [Steve Frazier](#) or [Greg Crum](#).

Want to Publish (to Cal Maritime's Website)?

See the training materials online at <https://www.csum.edu/web/faculty-and-staff/web-redesign> or join us at one of the periodic Web Publishing workshops.
