- Gary Loy,
Recruiter, garyl@sealiftcommand.com

The U.S. Navy's Military Sealift Command is the premier provider of ocean transportation to the Department of Defense. The Command operates approximately 125 civilian-crewed ships that replenish U.S. Navy ships, conduct specialized missions, strategically preposition combat cargo at sea around the world and move military cargo and supplies used by deployed U.S. forces and coalition partners.

While we do play a critical role in support of our nation's defense, our employees are not active duty members of the military. MSC civil service mariners (CIVMARs), the largest segment of our global workforce, are federal civil service employees.

All CIVMARs are employed by the Navy to serve MSC onboard naval auxiliaries and hybrid-manned warships worldwide, in peace and war. MSC exists to support the joint warfighter across the full spectrum of military operations. MSC provides on-time logistics, strategic sealift, as well as specialized missions anywhere in the world, in contested or uncontested environments.

We recruit transitioning military, merchant marines, maritime academy graduates, and skilled entry-level candidates to fill our maritime job opportunities. The MSC mission is big. So are the rewards for the CIVMARs who help us complete it.

The Port of Stockton is a major inland deep water port in Stockton, California located on the San Joaquin River and is one of the country's fastest growing ports. We collaborate with more than 50 different countries, with goods flowing in both directions to bring more business to the Stockton area. This helps pay for schools, parks and many of the things that help make Stockton great.

Our commitment to community doesn't end with providing jobs. We help our neighbors live more sustainable lives through community partnerships.

The Sacramento-San Joaquin Delta, in which we operate, is an important and delicate environment. We are deeply committed to maintaining and protecting this area. The Port's Delta Environmental Enhancement Program (D.E.E.P.) aims to enhance air quality, water quality and wildlife habitats in the Delta and surrounding communities.

These are just some of the ways we balance our love of commerce with our commitment to this place we call home. The Port of Stockton was built by Californians and we are California proud!
