

## APPLICATION FOR CHANGE OF MAJOR INTO AN IMPACTED PROGRAM (FET, MET, MT, ME)

### Deadline

Applications for change of major into an impacted program are accepted by the Admission Office between October 1st and November 30th of each year (*If applying from ME-Lic to ME ME or MET to FET, please submit no later than the first day of instruction of desired term of change of major*). Decisions regarding change of major are made in February, allowing students to register for courses in the target major for the following fall term.

### General Guidelines

- Students must make satisfactory academic progress for at least two semesters in their current major
- Applicants may not enroll in courses in the target major until change of major is granted
- Impacted majors have a limited number of spaces available for each cohort
- Applicants for change of major must meet certain standards within their current major, and must rank favorably against the incoming student applicant standards
- Meeting the minimum class standards does not guarantee a change of major
- Applicant’s ability to complete coursework in the target major and the anticipated time to graduation may be considered in the decision process
- Change of major may result in a forfeiture of catalog rights and assignment to a new requirement term
- Change of major, if granted, is *conditional* and subject to change if: student fails to meet academic requirements in current major or academic entry standards for target major; student has a change of academic and/or disciplinary status; or, student fails to enroll in the approved term

### Basic Criteria

The following criteria will be considered when determining if an applicant for change of major into an impacted program meets minimum standards:

- Prior college, and Cal Maritime academic records (e.g., GPA, coursework, number of course attempts) will be reviewed and used for ranking purposes. High school records and test scores will also be considered for students with fewer than 60 units including courses scheduled through the upcoming Spring Semester.
- Applicants must rank favorably against first time freshman and transfer students from the incoming admitted students
- All admission requirements for all transfer students (internal and external) entering the same target major will be the same (e.g., pre-requisite courses, required course grades, etc.)

### Requesting a Change of Major

Prior to requesting a Change of Major into an impacted program:	Dept/Advisor Initial	Student Initial
• Meet with your current advisor to review major options and talk about career paths		
• Consult with Career Services or other faculty from whom you have taken courses ( <i>recommended, not required</i> )		
• Meet with the department chair or designee in the target major to discuss required/preferred academic skills and potential for academic success		
• Review the curriculum requirements for the target major with department chair or designee		
• Based on the information received, determine whether you wish to file an application for change of major; if yes, initial to the right and complete the student section on the next page.
